Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Report of Independent Auditors

The Board of Directors
MAHLE Muskegon Plant Hourly
Employees Pension Plan

We were engaged to audit the accompanying statements of assets available for benefits (modified cash basis) of the MAHLE Muskegon Plant Hourly Employees Pension Plan as of December 31, 2009 and 2008, and the related statements of changes in assets available for benefits (modified cash basis) for the years then ended, and the supplemental schedules (modified cash basis) of assets (held at end of year) as of December 31, 2009, and reportable transactions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules (modified cash basis). We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, the financial statements and supplemental schedules referred to above have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules (modified cash basis) taken as a whole. The form and content of the information included in the financial statements and supplemental schedules (modified cash basis), other than that derived from the investment information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MAHLE Muskegon Plant Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of the Plan

The following description of the MAHLE Muskegon Plant Hourly Employees Pension Plan (the Plan) provides general information about the Plan's provisions. MAHLE Engine Components USA, Inc. (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan, formerly known as the Dana Corporation-Muskegon Plant Hourly Employees Pension Agreement, is a defined benefit pension plan established to provide pension benefits to the Company employees who are members of the collective bargaining unit represented by the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) and its Local 637 (the Union). The plant was previously owned by Dana Corporation (Dana) until March 9, 2007, when it was purchased by MAHLE GmbH, who caused its subsidiary, MAHLE Industries, Incorporated (MAHLE), to assume ownership of the plant through the Company. The Company succeeded Dana as plan sponsor upon the purchase of the plant. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Muskegon plant was closed in November 2008. The Plan will continue in operation until all benefits due under the Plan have been paid.

Trust Agreement

Through December 19, 2007, the Plan's assets were maintained in the Dana Corporation Master Pension Trust (the Dana Trust), which was held by the Northern Trust Company (Northern). The assets of the plans participating in the Dana Trust were commingled for investment purposes only. Employer contributions, benefit payments, and certain expenses were identified with each respective participating plan, whereas earnings and the remaining expenses were allocated proportionately to the participating plans by Northern on the basis of their relative dollar value investment.

See report of independent auditors.

Employees Pension Plan**

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

On December 19, 2007, \$15,727,056 of the Plan's assets were transferred from the Dana Trust to a trust account held by Massachusetts Mutual Life Insurance Company (Mass Mutual), the custodian of the Plan. As of December 31, 2007, Northern held \$83,473 in assets related to the Plan. As of December 31, 2008, the Plan did not hold any investments in Northern.

Eligibility and Vesting

All Muskegon plant employees who are members of the bargaining unit represented by the Union are eligible to participate in the Plan. Participants are fully vested upon the completion of five years of service.

Benefits

In accordance with the Plan's provisions, employees are entitled to monthly pension benefits beginning at normal retirement age (65), which are equal to specified rates multiplied by total years of credited service. The benefit is typically in the form of a spousal annuity; however, participants may elect to waive the survivor benefit option.

Employees are eligible for early retirement upon attaining age 60 with ten years of credited service, 55 when age plus credited service equals 85 or more, or 30 years of credited service. The early retirement benefit provided is the accrued normal retirement benefit reduced by rates specified in the plan document for retirement prior to age 62, but no reduction applies to employees who retire with 30 or more years of service. Additionally, employees over the age of 65 are eligible for a Special Age Benefit, which recognizes service with the Company in addition to service under the Union's previous plan.

Supplemental benefits are available to employees who retire with 30 or more years of credited service or whose age plus years of credited service equals 85 or more.

Employees with ten or more years of service who become totally and permanently disabled prior to age 65 are eligible for disability retirement benefits. The benefit provided is the accrued normal retirement benefit reduced by a rate specified in the Plan document.

See report of independent auditors.

MAHLE Muskegon Plant Hourly Employees Pension Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements based upon a valuation performed by an independent actuary. Contributions are recognized when received by the custodian. The Plan has met the ERISA minimum funding requirements for 2009 and 2008.

Plan Termination

The Company intends to continue the Plan as long as necessary to pay accumulated plan benefits. However, the Company reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. If termination of the Plan occurs, nonvested benefits, to the extent funded, and vested benefits become non-forfeitable. Plan assets, after providing for expenses of administration, would be allocated to pay benefits to retirees or their surviving spouses, participants, and vested former participants pursuant to applicable law. Any residual assets would be distributed to the Company.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC), as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

Administration

The Plan is administered by the Benefits Committee of MAHLE.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of custodian fees, PBGC insurance premiums, actuary fees, investment manager fees, and auditor fees. Certain administrative expenses are paid by the Company. Administrative expenses for services provided by the custodian and other expenses are generally borne by the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The accounts of the Plan are maintained on a modified cash basis of accounting; consequently certain revenue and the related assets are recognized when received rather than when earned and expenses are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

See report of independent auditors.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as ASC 820, *Fair Value Measurement and Disclosures*) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's assets available for benefits or its changes in assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards CodificationTM and the Hierarchy of Generally Accepted Accounting Principles* (codified in ASC 105), which created a single source of authoritative nongovernmental U.S. GAAP. ASC 105 was effective for the Plan's year ended December 31, 2009. Upon adoption, all existing accounting and reporting standards were superseded. All other accounting literature not included in ASC 105 are considered non-authoritative. The required disclosures have been incorporated into and did not have a material impact on the Plan's financial statements.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment

company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's assets available for benefits or its changes in assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee services rendered to the valuation date.

See report of independent auditors.

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The Company utilizes the services of an independent actuary to determine the actuarial present value of accumulated plan benefits and to determine funding levels. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the estimated date of payment. The Company's contributions are based upon the report of the actuary as to the amount that is estimated to provide for whatever benefits are not covered by the Plan's current assets and the estimated future earnings thereon. The accumulated plan benefit information is determined by the Plan's actuary as of the beginning of the Plan year.

The accumulated plan benefit information is as follows:

	December 31 2008
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefits	\$ 15,168,868
Other participants	1,242,267
Total vested benefits	16,411,135
Nonvested benefits	—
Total actuarial present value of accumulated plan benefits	<u>\$ 16,411,135</u>

See report of independent auditors.

MAHLE Muskegon Plant Hourly
Employees Pension Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	Year Ended December 31 2008
Actuarial present value of accumulated plan benefits at beginning of year	\$ 17,222,291
Increase (decrease) during the year attributed to:	
Benefits accumulated	289,740
Actuarial losses	419,307
Increase in interest due to decrease in the discount period	1,052,750
Benefits paid	<u>(2,572,953)</u>
Net decrease	<u>(811,156)</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 16,411,135</u></u>

Significant assumptions underlying the actuarial valuation are as follows:

Cost (actuarial) method – Traditional Unit Credit Cost Method

Discount rate and rate of return – 6.5%

Rate of mortality – Based upon the RP 2000 Combined Healthy Blue Collar Mortality Table, with mortality rates projected to 2010 using Scale AA for males and females.

Rates of turnover and disability – Based upon actual experience

Retirement age – As of January 1, 2009, there are no active employees. Terminated vested participants are assumed to commence benefits at age 65 in line with plan provisions.

Assumptions provide for the election of a lump sum benefit for payments under \$40,000 and use of 100% retirement or withdrawal decrement at the beginning of the 2009 Plan year.

See report of independent auditors.

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- *Level 2* – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - quoted prices for similar assets and liabilities in active markets
 - quoted prices for identical or similar assets or liabilities in markets that are not active
 - observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means

See report of independent auditors.

MAHLE Muskegon Plant Hourly
Employees Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- *Level 3* – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value as of December 31, 2008 and 2009:

Pooled separate accounts – Pooled separate accounts are valued on a net unit value basis as determined by the account issuer on the last business day of the Plan year. The fair values of these investments are determined by reference to the respective fund's underlying assets, with the account issuer specifying the source(s) to use for underlying investment asset prices. The investments underlying the Plan's pooled separate accounts may be one or more mutual funds, a common collective trust, or a portfolio of securities. There are currently no redemption restrictions on these investments.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value:

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
U.S. equities	\$ –	\$ 2,684,566	\$ –	\$ 2,684,566
Non-U.S. equities	–	1,542,999	–	1,542,999
Bonds	–	9,011,361	–	9,011,361
Cash and cash equivalents	–	434,289	–	434,289
Total assets at fair value	\$ –	\$ 13,673,215	\$ –	\$ 13,673,215

Total assets at fair value	\$ —	\$ 11,297,965	\$ —	\$ 11,297,965

5. Investments

All investment information for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2009 and 2008, and net realized and unrealized (depreciation) appreciation, pooled separate accounts, interest and dividends, pooled separate accounts, and plan interest in Dana Corporation Master Pension Trust investment (loss), was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian of the Plan.

The fair value of individual investments that represent 5% or more of the Plan's assets available for benefits is as follows:

	December 31	
	2009	2008
Mass Mutual Premier Short-Duration Bond	\$ 686,159	\$ 657,299
Mass Mutual Bond Market Index	2,046,197	2,071,981

6. Tax Status of Plan

The Plan has received a determination letter from the Internal Revenue Service dated October 20, 1999, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

7. Related-Party Transactions

All of the Plan's assets are invested in funds managed by the custodian of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of assets available for benefits.

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Subsequent Events

The plan administrator evaluated subsequent events for the Plan through October 14, 2010, the date the financial statements were available to be issued.

See report of independent auditors.

Schedule SB, Line 25 Change in Method

- Based upon an election by the plan sponsor, the asset valuation method changed from the market value of assets to the method described in IRS Notice 2009-22, which reflects changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved under IRS Notice 2009-22.
- The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of the PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore, the change in funding method due to a change in valuation software receives automatic approval under IRC Announcement 2010-3.

Form of Payment

Participants are assumed to elect a lifetime annuity.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of participants are assumed to be married and male spouses are assumed to be 3 years older than female spouses.

Employees

It was assumed that there will be no new or rehired employees.

Cost Method

Traditional Unit Credit Cost Method.

Asset Method

The actuarial value of assets is the average of the fair value of assets on the valuation date and the adjusted fair market value of assets as of the two prior valuation dates. The adjusted fair market value of assets as of any date is the fair market value of assets as of that date, increased for subsequent contributions and expected earnings and decreased for benefits and administrative expenses paid from the plan. The expected earnings is based on the assumed rate of return limited by the average third segment interest rates from the prior valuations (special limits apply for pre-PPA plan years and years where the full yield curve was used). The resulting actuarial value of assets is further limited so that it is not less than 90% nor greater than 110% of the fair value of assets on the valuation date, including the present value of receivable contributions. The algebraically equivalent development of this method is shown in Section 2.4.

Participant Data

Participant data was supplied by the plan sponsor as of the valuation date January 1, 2009.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2009 is used to determine the maximum deductible contribution for the tax year ending December 31, 2009.

Benefits not Included in Valuation

We believe that we have reflected all significant plan provisions in this valuation.

PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2D, the Alternative Premium Funding Target was determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions and Methods Since Last Actuarial Valuation

Assumptions were updated to reflect prescribed changes in interest rate and mortality tables.

- The discount rate was changed from the September 3-segment rates to the full yield curve as of the October before the valuation date. This change is being made as elected by the plan sponsor and is deemed to be automatically approved by the IRS pursuant to guidance described in the Employee Plan News, March 2009, Special Edition.
- Based upon an election by the plan sponsor, the asset valuation method changed from the market value of assets to the method described in IRS Notice 2009-22, which reflects changes made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved under IRS Notice 2009-22.

Pre-Retirement Death Benefits

Eligibility: Former and active vested employees and retirees who have elected the normal form of the survivor benefit.

Benefit:

1. Active Vested and Terminated Vested Employees Eligible for Early or Normal Retirement:

Monthly survivor benefit shall be equal to 55% of the accrued benefit the employee would have received had he retired the day before his death. Benefit payment begins on the first day of the month following the date of death.

2. Active Vested and Terminated Vested Employees Not Eligible for Normal or Early Retirement:

Monthly survivor benefit shall be equal to 55% of the monthly benefit to which the employee would have been entitled had he terminated on the earlier of his termination date or date of death, survived to early retirement date and had begun receiving benefits that day, and died the next day. Benefit payment begins on early retirement date.

3. Retired Employees:

Monthly survivor benefit shall be equal to 55% of benefit for which the retiree was eligible. Benefit payment begins on the first day of the month following the date of death.

For an employee who retired at 55 / 85 pts., the survivor benefit is based on the unreduced benefit payable at age 62, not the reduced benefit payable prior to age 62.

Reduction: An employee who elects the survivor's benefit receives 95% of accrued benefit during his lifetime in order to provide for the surviving spouse. This percentage (95%) shall be adjusted 0.5% for each year that the spouse's age differs from the employee's age by more than 5 years.

If the QJSA is in effect and the spouse predeceases the retiree the basic pension benefit shall be restored to the amount payable without the QJSA election.

Duplication Clause: Survivor benefit not payable concurrently with group insurance transition or bridge benefits.

Normal Form of Retirement Income

Normal form of payment is a monthly annuity for the life of the participant. If married, then 95% of the retirement income payable to the employee during his lifetime (adjusted if the spouse's age differs more than 5 years from the employee's) with 55% of such reduced amount payable to his surviving spouse after his death, will be deemed to have been elected, unless the retiree elects otherwise in writing and the spouse consents.
