INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the
Rolling Plains Construction Employee Savings Trust

We were engaged to audit the statement of net assets available for benefits of the Rolling Plains Construction Employee Savings Trust as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended, and the attachment required by Schedule H - Form 5500 for the year ended December 31, 2009. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5 which was certified by American United Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained certification from the custodian as of and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits for the Rolling Plains Construction Employee Savings Trust as of December 31, 2008 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

1. Description of plan

The following is a brief description of the Rolling Plains Construction Employee Savings Trust (the "Plan") and is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility

The Rolling Plains Construction Employee Savings Trust is a defined contribution employee benefit plan for eligible employees of Rolling Plains Construction, Inc., Desert Plains, Inc. and 1 Source Fire Stop, Inc.; collectively referred to as "Rolling Plains" throughout the remainder of the notes. Employees are eligible for participation after six months following employment and after attaining eighteen years of age as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administrative expenses

Administrative expenses of the Plan are paid by the Plan and the Plan sponsor as provided in the Plan document.

Contributions and investment options

Each year, participants can contribute up to the lesser of 100% of their eligible compensation or the limitation found in section 402(g) of the Internal Revenue Code of 1986, as amended. Eligible employees may also make catch-up contributions up to IRS limits. Participants are permitted to make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options as often as they choose. As of December 31, 2009, the Plan offered sixteen investment alternatives.

For the year ended December 31, 2009, Rolling Plains made a five percent matching contribution per pay period based on those employees eligible to receive the contribution. The total amount of matching contributions for the year ended December 31, 2009 was $70,480.

In addition to the matching contribution, Rolling Plains may elect to give an employer profit sharing contribution based on those employees who were eligible to receive these contributions. Contributions are subject to certain limitations. For the years ended December 31, 2009, Rolling Plains elected not to make any profit sharing contributions.

Forfeitures

At December 31, 2009, forfeited nonvested accounts totaled $796. These accounts will be used to reduce future employer contributions or Plan expenses.

Investment management fees and operating expenses

Certain investment management fees and operating expenses charged to the Plan for investments in group annuity separate accounts are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair value of investments.

Participant accounts

Each participant's account is credited with the participant's elective deferral contributions, an annual allocation of employer contributions, and a daily allocation of each participant's account earnings or losses. Allocations are based on participant earnings or account balances, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions are participant directed.

Participant loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50% of such participants' vested interest in the Plan, or $50,000. Loan transactions are treated as transfers to (from) the investment fund from (to) the participant loan fund. Loan terms range from 2-10 years. The loans are secured by the balance in the participant's account, and bear interest at the current market rate for similar loans under like circumstances. Interest rates are stated at rates ranging from 5.68% to 7.00%. Principal and interest is paid ratably through payroll deductions. Participants are charged a $75 fee to set up a new loan and $24 annually for continuing loans. These fees are deducted from their accounts.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Vesting

For the year ended December 31, 2009, vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. A participant is 100% vested after six years of credited service for the employer matching and profit sharing contributions.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Valuation of investments and income recognition

Investments are stated at fair value. The fair value of units in registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset values of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value. The AUL Fixed Account is comprised of investment contracts valued at contract value. Contract value is the relevant measurement attribute for that portion of the net assets of a guaranteed investment contract attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. As required by the Financial Accounting Standards Board (FASB), Staff Position AAG INV-1, Reporting of Fully Benefit –Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Audit Guide and Defined Contribution Health and Welfare and Pension Plans (FAS AAG INV-1), the accompanying portfolio of investments reflects both the fair value as well as the adjustment to contract value for each investment contract deemed fully benefit responsive. Net appreciation includes the Plan's gains and losses on investments sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits payments to participants are recorded when paid.

Accounting estimates and assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Net appreciation (depreciation) of fair value of investments

The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

Recent accounting pronouncements

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that required adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

In April 2009, the FASB issued guidance on determining fair value when volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly, which is included in the Codification as part of FASB Accounting Standards Codification (FASC) 820-10-35. Under this guidance, if an entity determines that there has been a significant decrease in the volume and level of activity for the asset or the liability in relation to the normal market activity for the asset or liability, then transactions or quoted prices may not accurately reflect fair value. In addition, if there is evidence that the transaction for the asset or liability is not orderly, the entity shall place little, if any, weight on that transaction price as an indicator of fair value. The Plan adopted this guidance effective for the year ending December 31, 2009. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

In May 2009, the FASB issued FASC 855, relating to Subsequent Events, which established standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued or available to be issued. The Plan adopted this pronouncement and events have been evaluated through the date the financial statements are issued.

In September 2009, the FASB issued an amendment that provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance did not have a material impact on the Plan's financial position or Statement of Changes in Net Assets Available for Benefits.

In January 2010, the FASB issued an amendment that requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 31, 2010, and has not yet been adopted. We are currently evaluating the impact of the guidance related to Level 3 measurements on our disclosures.

In September 2010, the FASB issued an amendment that requires that participant loans be classified as notes receivable for financial reporting purposes and measured at unpaid principal balance plus accrued but unpaid interest. This amendment is effective for plan years ending after December 15, 2010. We are currently evaluating the impact of the guidance on the financial statements and disclosures.

3. Investments

The following list presents the values of individual investment alternatives that represent 5% or more of the Plan's net assets available for benefits at December 31, 2009:

Group annuity general account		
AUL fixed Account	$	46,750
Group annuity separate account		
Amcent Large Company Value		40,819
Templeton Growth		36,995
Russell Lifepoints Bal Strategy		178,441
Russell Lifepoints Growth Strategy		131,734
Participant loan fund		61,633

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) during the year ended December 31, 2009, as follows:

Group annuity separate account	$	1,732
Group annuity general account		110,560
Participant loans		3,899
Total	$	116,191

4. Fair value measurements

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains Plan investments and participant loans that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1 uses quoted market prices in active markets for identical assets or liabilities.

Level 2 uses observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3 uses unobservable inputs that are not corroborated by market data.

When available, quoted market prices are used to determine the fair value of investments held in the Plan, and such items are classified within Level 1 of the fair value hierarchy. An example is mutual funds with available market prices. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2009, compared to December 31, 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Fair value determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	Total
Group annuity separate accounts				
Domestic equity	$ -	$ 134,912	$ -	$ 134,912
International equity	-	19,558	-	19,558

Participant loans	-	-	61,633	61,633
Total assets at fair value	$ -	$ 588,430	$ 61,633	$ 650,063

The table below sets forth a summary of the changes in the fair value of the Plan's level 3 (participant loans) assets for the year ended December 31, 2009.

Balance, beginning of the year	$ 54,682
Purchases, sales, issuances and settlements (net)	6,951
Balance, end of year	$ 61,633

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as of December 31, 2009.

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Group annuity separate accounts:				
Domestic equity (a)	$ 134,912	-	Daily	None
International equity (b)	19,558	-	Daily	None
Fixed income (c)	32,573	-	Daily	None

Group annuity general account:				
Fixed account (e)	46,750	-	Daily	None

(a) The investments in this category primarily invest in equity securities of U.S. companies.
(b) The investments in this category primarily invest in equity securities of foreign companies.
(c) The investments in this category primarily invest in fixed income securities such as securities issued by the U.S. Government or corporations.
(d) The investments in this category seek to obtain long term appreciation and current year return by investing in a mixture of equities and fixed income securities.
(e) The investments seek to maintain a stable net asset value of $1.00 per one unit invested. The funds seek to limit exposure by investing in highly rated debt or government securities.

5. Information certified by trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by American United Life Insurance Company, the custodian of the Plan, as complete and accurate, except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

Investments:		
Group annuity separate accounts	$	541,680
Group annuity general account		46,750
Participant loans		61,633
Investment income		116,191

6. Related party transactions

All Plan investments are part of the Group Separate Account Annuity Contract and the Group Annuity Contract managed by American United Life Insurance Co. American United Life Insurance Company is one of the Plan's third party administrators and, therefore, these transactions qualify as party-in-interest transactions.

7. Group separate account annuity contract

The Plan has entered into an investment contract with American United Life Insurance Company; the Group Separate Account Annuity Contract. Under this contract, American United Life Insurance Company maintains the contributions in mutual fund investment vehicles. The mutual fund investment vehicles are made available by American United Life Insurance Company consisting of various mutual funds which have their own investment objectives and policies. The contract is included in the financial statements at contract value, (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses). The contract value approximates fair value.

8. Group annuity contract

The Plan has entered into a benefit-responsive group annuity contact issued by American United Life Insurance Company (AUL). The contract offers a fixed interest investment option through AUL's general account. Funds allocated to the fixed option are placed in the AUL general account where they are invested in accordance with AUL's general account investment policy. The objective of that investment policy is to maximize long-term, risk-adjusted returns. AUL's general account assets are predominately fixed-income investments. Interest rates are established and declared for new contributions that will be received in a calendar quarter. All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. At the beginning of each year, a new interest rate is established and declared for funds that have been held for a calendar year. All benefit-responsive Plan benefit payments are made at book value which equals principal invested plus interest earned. A participant may transfer any amount from the Fixed Option. However a participant may transfer funds to the Fixed Option only after 90 days have elapsed since the date of the last transfer from the Fixed Option. Contract value approximates fair value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), 2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. Excess contributions

Contributions received from participants for 2008 are net of payments of $3,602 made in 2009 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2008.

10. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Income tax status

The Plan was amended and restated effective January 1, 2009, by adopting a volume submitter proto-type plan. The proto-type plan has obtained an opinion letter dated March 31, 2008 from the IRS that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code.

12. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

13. Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 652,385	$ 414,958
Excess contributions	-	3,602
Net assets available for benefits per Schedule H of Form 5500	$ 652,385	$ 418,560

The following is a reconciliation of net increase in assets available for benefits per the financial statements to Schedule H of Form 5500:

	2009
Increase (decrease) in net assets available for benefits per the financial statements	$ 237,427
Excess contributions, prior year	(3,602)
Excess contributions, current year	-
Increase (decrease) in net assets available for benefits per Schedule H of Form 5500	$ 233,825

14. Plan errors

Subsequent to December 31, 2009, the Company determined that the matching contributions made by the Company were not in compliance with the terms of the plan's document. In addition, participant deferrals were not calculated on certain elements of plan compensation. The plan's management intends to consult a qualified ERISA attorney regarding the correction options available to the Plan. The impact on the Plan's financial statements has not been determined.

15. Subsequent events

Subsequent events were evaluated through October 13, 2010, which is the date the financial statements were issued.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
