Report of Independent Auditors

The Plan Administrator
Trustmark Services Company Investment and Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Trustmark Services Company Investment and Savings Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended.

Trustmark Services Company Investment and Savings Plan

Notes to Financial Statements

Years Ended December 31, 2009 and 2008

1. Description of the Plan

The following description of the Trustmark Services Company Investment and Savings Plan (the Plan) provides only general information. Participants of the Plan should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan was authorized by the Board of Directors of Trustmark Insurance Company (Trustmark Insurance). Trustmark Insurance is wholly owned by Trustmark Insurance Group, Inc., which, in turn, is a wholly owned subsidiary of Trustmark Group, Inc. Effective July 1, 2003, the sponsorship of the Plan was transferred to Trustmark Services Company (the Company), another wholly owned subsidiary of Trustmark Group, Inc. Effective December 31, 2009, Health Contact Partners, Inc. (HCP) employees began participating in the Plan. HCP is a wholly owned subsidiary of Trustco Holdings, Inc., another wholly owned subsidiary of Trustmark Group, Inc.

The Plan is a defined contribution 401(k) profit-sharing plan and is subject to, and is designed to comply with, the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, applicable to defined contribution profit-sharing plans.

Eligibility and Participants

Participation in the Plan is limited to employees immediately upon hire who are scheduled to work at least 1,000 hours and certain part-time employees who have completed 1,000 cumulative hours of service.

Contributions

Participant contributions are made by means of regular payroll deductions. Participants can contribute up to 50% of their eligible compensation on a pretax basis. Participants who are 50 years of age or older who are contributing at the Plan's maximum or who are scheduled to reach the annual Internal Revenue Service (the IRS) contribution limit are eligible for a catch-up contribution up to 25% of their eligible compensation. Participant contributions are limited to the maximum amount allowed by the Internal Revenue Code (the Code) and to amounts allowed under the Tax Reform Act of 1986, and for highly compensated employees, contributions are limited by the Plan.

1. Description of the Plan (continued)

The Company may elect to match an amount not in excess of 4% of the participant's eligible compensation on a dollar-for-dollar basis. The Benefit Committee has the ability to change the percentage contribution matched on an annual basis. The maximum annual addition to a participant's account is limited to the lesser of $49,000 and $46,000 in 2009 and 2008, respectively, or 100% of eligible annual compensation.

Forfeitures may be used for the following purposes: reinstatement of previously forfeited account balances of former participants, reduction of future Company contributions, to pay plan expenses, to make restorative payments to former participants, or to reduce any additional amounts the Company is responsible for under the Plan. During the years ended December 31, 2009 and 2008, $279,009 and $301,460, respectively, of forfeitures were used to reduce the Company's contributions. At December 31, 2009 and 2008, the amount of forfeitures that were not allocated was $42,665 and $40,227, respectively. The unallocated forfeitures are retained in the Fidelity Managed Income Portfolio Fund.

Effective January 1, 1999, Trustmark Insurance adopted amendments resulting in a partial termination of its Employees' Retirement Plan and Trust (the Retirement Plan). As a result of these amendments, certain employees became eligible for an employer contribution under the Plan equal to 5% of their salary (4% prior to January 1, 2005). The Company may also contribute an additional 1% based on the Company's performance. Other employees were given the option to begin to receive the employer contribution under the Plan and no longer earn benefits under the Retirement Plan or, alternatively, continue accruing benefits under the Retirement Plan. In 2009 and 2008, these retirement contributions amounted to approximately $3,840,992 and $4,004,452, respectively.

Effective January 1, 2005, the Plan was amended to allow participants in the Retirement Plan as of the Retirement Plan's termination date (December 31, 2004) to be participants in the Plan and receive a Special Company Retirement Contribution (Special Contribution). This Special Contribution is 10% to 13% of the participants' eligible compensation based on the participant's age.

Effective December 31, 2009, the Plan was amended to permit HCP to adopt the Plan as a participating employer. HCP maintained the same company benefits as their former plan: HCP might decide to provide participating employees with a discretionary match or eligible employees with a discretionary retirement contribution. This decision is made on a plan year by plan year basis and may or may not occur.

1. Description of the Plan (continued)

Investment Provisions

Contributions to the Plan may be invested in one or more of the following investment funds administered and, in some cases, managed by Fidelity Management Trust Company (the trustee):

1. Description of the Plan (continued)

Participant Accounts and Vesting

Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions and the Plan's earnings. Investment earnings are allocated daily based on participant account balances.

Participants are fully vested in their contributions plus actual earnings thereon. Participants become 100% vested in the remainder of their account balance after six years of plan service (seven years of service for pre-2007 employer retirement contributions).

Participant Loans

Participants may obtain loans from the Plan up to one-half of the participant's vested account balance subject to a minimum of $1,000 and a maximum of $50,000. Loans are to be repaid over a term not to exceed five years (ten years for mortgage loans). Loans bear interest commensurate with rates charged on similar loans by various banks.

Benefit Payments

Most benefit payments are paid in a lump sum. Minimum required distributions can be made in installment payments. Participant account balances less than $1,000 must be paid out in one lump sum after termination. Participants may withdraw their vested contributions in the event of hardship, as defined by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, the net assets of the Plan will be distributed to participants in an order of priority determined in accordance with ERISA and its regulations and with the plan document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 4 for further discussion of fair value measurements.

The Managed Income Portfolio Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Interest income is recorded as earned. Dividend income is recorded on the ex-dividend date. Realized gains or losses on investments are the difference between the proceeds received and the cost of investments sold as determined on a first-in, first-out basis. The change in the difference between fair value and the cost of investments is reported as unrealized appreciation (depreciation) in the fair value of investments.

Operating Expenses

Administrative expenses of the Plan, including expenses of the trustee, are paid by the Company.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended FASB Statement No. 157 (codified as ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3

2. Summary of Significant Accounting Policies (continued)

measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 11, 2010, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, and the adjustment from fair value to contract value for fully benefit-responsive investment contracts and net appreciation (depreciation) in fair value of investments, interest, dividends, and administrative expenses for the years ended December 31, 2009 and 2008, was obtained or derived from information supplied to the Plan's administrator and certified as complete and accurate by the trustee.

The fair value of investments that represent 5% or more of the Plan's net assets is as follows:

	December 31	
	2009	**2008**
Fidelity Managed Income Portfolio Fund	**$ 16,085,808**	$ 14,823,081
Fidelity Spartan U.S. Equity Index Fund	**13,515,932**	11,495,748
Fidelity Asset Manager Fund	**8,601,743**	6,760,075
Fidelity Total Bond Fund	**8,452,065**	6,467,767
Fidelity Freedom 2020 Fund	**6,217,707**	4,529,073

3. Investments (continued)

During 2009 and 2008, the Plan's investments (including investments purchased and sold, as well as held, during the year) appreciated (depreciated) in fair value as follows:

	2009	2008
Mutual funds	**$ 17,441,304**	$ (37,554,282)
Self-direct brokerage accounts	**258,689**	(959,628)
Net appreciation (depreciation) in fair value of investments	**$ 17,699,993**	$ (38,513,910)

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

4. Fair Value Measurements (continued)

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for major categories of assets measured at fair value by the Plan:

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common collective trusts: Common collective trusts are valued at redemption value as determined by the applicable trust on the last day of the Plan year. These redemption values are derived principally from the quoted prices of the underlying assets, which are a mix of Level 1 and Level 2 stocks and bonds priced principally through independent pricing services. Management reviews the valuation methodologies used by the pricing services on an ongoing basis and ensures that the valuation methodologies are justified.

Self-directed brokerage accounts: Self-directed brokerage accounts invest in interest-bearing cash accounts, common stocks, and Fidelity and non-Fidelity mutual funds. These investments are valued at quoted market prices, which represent the NAV of the shares held by the Plan at year-end.

Participant loans: Valued at the amortized cost, which approximates fair value.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009 and 2008:

2009	**Level 1**	**Level 2**	**Level 3**	**Fair Value**
Mutual funds:				
U.S.	**$ 79,244,652**	**$ –**	**$ –**	**$ 79,244,652**
International	**6,147,190**	**–**	**–**	**6,147,190**
Common collective trusts[(a)]	**–**	**16,085,808**	**–**	**16,085,808**
Self-directed brokerage accounts	**–**	**7,065,917**	**–**	**7,065,917**
Participant loans	**–**	**–**	**2,316,384**	**2,316,384**
	$ 85,391,842	**$ 23,151,725**	**$ 2,316,384**	**$ 110,859,951**

2008	**Level 1**	**Level 2**	**Level 3**	**Fair Value**
Mutual funds:				
U.S.	$ 58,428,145	$ –	$ –	$ 58,428,145
International	4,693,943	–	–	4,693,943
Common collective trusts[(a)]	–	14,823,081	–	14,823,081
Self-directed brokerage accounts	–	6,716,529	–	6,716,529
Participant loans	–	–	2,296,035	2,296,035
	$ 63,122,088	$ 21,539,610	$ 2,296,035	$ 86,957,733

(a) The common collective trust is a commingled pool, not a mutual fund, with the objective of preserving principal while earning interest income. Portfolio investments consist of short-term bonds and other fixed income securities, including U.S. Treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and derivative instruments such as futures, swaps, and options. Third-party wrap contracts are purchased to permit the use of book value accounting to maintain a constant net asset value (NAV) and to provide for the payment of participant-directed withdrawals and exchanges at book value under most circumstances. Interest is credited under wrap contracts. Instead of immediately recognizing gains and losses, recognition occurs over time by adjusting the interest rate credited to the portfolio. Investments may also include contracts offered by insurance companies and other approved financial institutions that provide for the payment of a specified rate of interest to the portfolio and the repayment of principal at maturity. The fair value differs from the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

4. Fair Value Measurements (continued)

When a determination is made to classify an asset or liability within Level 3 of the fair value hierarchy, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement. Certain securities trade in less liquid markets with limited or no pricing information, and the determination of fair value for these securities is inherently more difficult. The following table summarizes changes to the Plan's financial instruments carried at fair value and classified within Level 3 of the fair value hierarchy:

	Loans to Participants
Fair value at January 1, 2009	$ 2,296,035
Purchases, sales, issuances, and settlements (net)	20,349
Fair value at December 31, 2009	$ 2,316,384

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Income Tax Status

The Plan has received a determination letter from the IRS dated March 12, 2009, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2009	**2008**
Net assets available for benefits per the financial statements	**$ 111,163,639**	$ 87,757,320
Contract value in excess of fair value	**(299,118)**	(799,587)
Net assets available for benefits per the Form 5500	**$ 110,864,521**	$ 86,957,733

The following is a reconciliation of the total investment gain per the financial statements to the Form 5500:

	Year Ended December 31, 2009
Total investment gain per the financial statements	$ 19,832,723
Net change in adjustment from contract value to fair value	500,469
Total investment gain per the Form 5500	$ 20,333,192
