Report of Independent Public Accountants

To the Plan Administrator
ChemAid Laboratories, Inc. Profit Sharing Plan

We were engaged to audit the statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule-Schedule of Assets (held at end of year) Schedule H, Line 4i as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

We have compiled the accompanying statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2008, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2008 and, accordingly, do not express an opinion or any other form of assurance on it.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan which is designed to encourage long-term systematic savings and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of ChemAid Laboratories, Inc. (collectively the "Company") who have completed three months of service and attained the age of 21 are eligible to participate in the Plan. The Plan is subject to the provisions of ERISA.

Contributions:

Each year, participants shall be permitted to make elective deferrals in any amount from a minimum of 2% to a maximum of 50% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the allocation of their contributions. The participants may direct their investments in one or more of 21 different funds or mix of funds based upon the percentage allocation they elect. If a participant elects to invest in the ING Fixed Account, they are investing in a Guaranteed Investment Contract investment trust which invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The Company may elect to make matching contributions to the Plan.

The employer shall contribute to each eligible Participant's account an amount equal to 20% of the Participant's elective deferrals up to a maximum of 6% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (concluded):

Vesting:

Participants are immediately vested in their voluntary contributions and investment earnings. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

An employee is always 100% vested upon reaching his or her normal retirement age. The nonvested portion of the account of a participant who is no longer employed by the Company will be forfeited.

Participant loans:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates of 8%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant or the beneficiary of the deceased may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

Forfeited amounts from former participants who were not fully vested are allocated to participants accounts in the same manner as the employer discretionary contribution. There were no unallocated forfeitures at December 31, 2009 and 2008.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Operating expenses:

Administrative expenses may be paid by the Company or from Plan assets.

Subsequent events:

The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>2009</u>	<u>2008</u>

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year end.

Guaranteed investment contracts: Valued based on information reported by the investment advisor using the audited financial statements of the guaranteed investment contract. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Participant loans: Valued at amortized cost, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (continued):

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (concluded):

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	<u>Participant Loans</u>	<u>Guaranteed Investment Contract</u>	<u>Total</u>
Balance, beginning of year	\$110,750	\$629,517	\$740,267

Balance, end of year	<u>\$137,112</u>	<u>\$832,639</u>	<u>\$969,751</u>

Note 5 - Party-in-interest:

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by an affiliate of ING. At December 31, 2009, ING Life Insurance and Annuity Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7 - Income tax status:

The Plan obtained its opinion letter on a prototype plan approved by the Internal Revenue Service, effective March 31, 2008. The Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("Code"). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Code.

Note 8 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Report of Independent Public Accountants

To the Plan Administrator
ChemAid Laboratories, Inc. Profit Sharing Plan

We were engaged to audit the statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule-Schedule of Assets (held at end of year) Schedule H, Line 4i as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

We have compiled the accompanying statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2008, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2008 and, accordingly, do not express an opinion or any other form of assurance on it.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan which is designed to encourage long-term systematic savings and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of ChemAid Laboratories, Inc. (collectively the "Company") who have completed three months of service and attained the age of 21 are eligible to participate in the Plan. The Plan is subject to the provisions of ERISA.

Contributions:

Each year, participants shall be permitted to make elective deferrals in any amount from a minimum of 2% to a maximum of 50% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the allocation of their contributions. The participants may direct their investments in one or more of 21 different funds or mix of funds based upon the percentage allocation they elect. If a participant elects to invest in the ING Fixed Account, they are investing in a Guaranteed Investment Contract investment trust which invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The Company may elect to make matching contributions to the Plan.

The employer shall contribute to each eligible Participant's account an amount equal to 20% of the Participant's elective deferrals up to a maximum of 6% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (concluded):

Vesting:

Participants are immediately vested in their voluntary contributions and investment earnings. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

An employee is always 100% vested upon reaching his or her normal retirement age. The nonvested portion of the account of a participant who is no longer employed by the Company will be forfeited.

Participant loans:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates of 8%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant or the beneficiary of the deceased may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

Forfeited amounts from former participants who were not fully vested are allocated to participants accounts in the same manner as the employer discretionary contribution. There were no unallocated forfeitures at December 31, 2009 and 2008.

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (concluded):

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	<u>Participant Loans</u>	<u>Guaranteed Investment Contract</u>	<u>Total</u>
Balance, beginning of year	\$110,750	\$629,517	\$740,267
Purchases, sales, issuances and settlements (net)	<u>26,362</u>	<u>203,122</u>	<u>229,484</u>
Balance, end of year	<u>\$137,112</u>	<u>\$832,639</u>	<u>\$969,751</u>

Note 5 - Party-in-interest:

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by an affiliate of ING. At December 31, 2009, ING Life Insurance and Annuity Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7 - Income tax status:

The Plan obtained its opinion letter on a prototype plan approved by the Internal Revenue Service, effective March 31, 2008. The Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("Code"). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Code.

Note 8 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Report of Independent Public Accountants

To the Plan Administrator
ChemAid Laboratories, Inc. Profit Sharing Plan

We were engaged to audit the statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule-Schedule of Assets (held at end of year) Schedule H, Line 4i as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

We have compiled the accompanying statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2008, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2008 and, accordingly, do not express an opinion or any other form of assurance on it.

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan which is designed to encourage long-term systematic savings and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of ChemAid Laboratories, Inc. (collectively the "Company") who have completed three months of service and attained the age of 21 are eligible to participate in the Plan. The Plan is subject to the provisions of ERISA.

Contributions:

Each year, participants shall be permitted to make elective deferrals in any amount from a minimum of 2% to a maximum of 50% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the allocation of their contributions. The participants may direct their investments in one or more of 21 different funds or mix of funds based upon the percentage allocation they elect. If a participant elects to invest in the ING Fixed Account, they are investing in a Guaranteed Investment Contract investment trust which invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The Company may elect to make matching contributions to the Plan.

The employer shall contribute to each eligible Participant's account an amount equal to 20% of the Participant's elective deferrals up to a maximum of 6% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (concluded):

Vesting:

Participants are immediately vested in their voluntary contributions and investment earnings. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

An employee is always 100% vested upon reaching his or her normal retirement age. The nonvested portion of the account of a participant who is no longer employed by the Company will be forfeited.

Participant loans:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates of 8%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant or the beneficiary of the deceased may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

Forfeited amounts from former participants who were not fully vested are allocated to participants accounts in the same manner as the employer discretionary contribution. There were no unallocated forfeitures at December 31, 2009 and 2008.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Operating expenses:

Administrative expenses may be paid by the Company or from Plan assets.

Subsequent events:

The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>2009</u>	<u>2008</u>
ING Fixed Account	\$ 832,639	\$ 629,517
ING Index Plus LargeCap Portfolio - Class 1	99,407	122,365

The Income Fund of America - Class R-3		82,255

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year end.

Guaranteed investment contracts: Valued based on information reported by the investment advisor using the audited financial statements of the guaranteed investment contract. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Participant loans: Valued at amortized cost, which approximates fair value.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (continued):

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

To the Plan Administrator
ChemAid Laboratories, Inc. Profit Sharing Plan

We were engaged to audit the statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended and the supplemental schedule-Schedule of Assets (held at end of year) Schedule H, Line 4i as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

We have compiled the accompanying statement of net assets available for benefits of ChemAid Laboratories, Inc. Profit Sharing Plan as of December 31, 2008, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2008 and, accordingly, do not express an opinion or any other form of assurance on it.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description of ChemAid Laboratories, Inc. Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan which is designed to encourage long-term systematic savings and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees of ChemAid Laboratories, Inc. (collectively the "Company") who have completed three months of service and attained the age of 21 are eligible to participate in the Plan. The Plan is subject to the provisions of ERISA.

Contributions:

Each year, participants shall be permitted to make elective deferrals in any amount from a minimum of 2% to a maximum of 50% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the allocation of their contributions. The participants may direct their investments in one or more of 21 different funds or mix of funds based upon the percentage allocation they elect. If a participant elects to invest in the ING Fixed Account, they are investing in a Guaranteed Investment Contract investment trust which invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The Company may elect to make matching contributions to the Plan.

The employer shall contribute to each eligible Participant's account an amount equal to 20% of the Participant's elective deferrals up to a maximum of 6% of compensation. The employer also elects to match catch-up contributions under the same formula. The employer shall also have the right to make a discretionary contribution. If a discretionary contribution is made, the employer's contribution for the plan year shall be allocated to the accounts of eligible participants on a pro-rata basis based on the compensation of the participant to the total compensation of all participants.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CHEMAID LABORATORIES, INC. PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (concluded):

Vesting:

Participants are immediately vested in their voluntary contributions and investment earnings. Company matching contributions and other discretionary contributions are vested as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	-
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

An employee is always 100% vested upon reaching his or her normal retirement age. The nonvested portion of the account of a participant who is no longer employed by the Company will be forfeited.

Participant loans:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates of 8%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant or the beneficiary of the deceased may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows withdrawals in the event of certain financial hardships.

Forfeited accounts:

Forfeited amounts from former participants who were not fully vested are allocated to participants accounts in the same manner as the employer discretionary contribution. There were no unallocated forfeitures at December 31, 2009 and 2008.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Operating expenses:

Administrative expenses may be paid by the Company or from Plan assets.

Subsequent events:

The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued.

Note 3 - Investments:

The following presents investments that represent 5% or more of the Plan's net assets:

	<u>2009</u>	<u>2008</u>
ING Fixed Account	\$ 832,639	\$ 629,517
ING Index Plus LargeCap Portfolio - Class 1	99,407	122,365

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Pooled separate accounts: Valued at the net asset value of shares held by the Plan at year end.

Guaranteed investment contracts: Valued based on information reported by the investment advisor using the audited financial statements of the guaranteed investment contract. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Participant loans: Valued at amortized cost, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (continued):

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009			
<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (concluded):

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	<u>Participant Loans</u>	<u>Guaranteed Investment Contract</u>	<u>Total</u>
Balance, beginning of year	\$110,750	\$629,517	\$740,267
Purchases, sales, issuances and settlements (net)	<u>26,362</u>	<u>203,122</u>	<u>229,484</u>
Balance, end of year	<u>\$137,112</u>	<u>\$832,639</u>	<u>\$969,751</u>

Note 5 - Party-in-interest:

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by an affiliate of ING. At December 31, 2009, ING Life Insurance and Annuity Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7 - Income tax status:

The Plan obtained its opinion letter on a prototype plan approved by the Internal Revenue Service, effective March 31, 2008. The Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("Code"). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Code.

Note 8 - Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
