INDEPENDENT AUDITOR'S REPORT

To the Trustees
ROI-NORTH AMERICA, INC.
401(k) Profit Sharing Plan
Buffalo Grove, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of the ROI-NORTH AMERICA, INC. (Formerly International Profit Associates) 401(k) Profit Sharing Plan as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedules listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement and Income Security Act of 1974, the Plan's administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Schedule 1 which was certified by The Equitable Life Assurance Society of the United States, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and schedules. We have been informed by the Plan's administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan's administrator has obtained certifications from the trustee as of and for the year ended December 31, 2009 and 2008 that the information provided to the Plan's administrator by the trustee is complete and accurate.

As described in the Notes, these financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information in the Plan's 2010 financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the accompanying financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Respectfully submitted,

Cukierski & Kowal, L.L.C.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the ROI-NORTH AMERICA, INC. (Formerly International Profit Associates, Inc.) (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General: The Plan is a defined contribution plan covering all full-time employees of the company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, the participants may contribute up to a maximum of pretax annual compensation not to exceed the limits of Code Section 401(k), 404 and 415 of the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may contribute a discretionary matching contribution equal to a percentage of the amount of the salary reduction the employee elected to defer, which percentage will be determined each year by the Company. Additional "special discretionary contribution" amounts may be contributed at the option of the Company's board of directors.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Additionally, the participant is always 100% vested in the Employer's special contributions made to the Plan.

Investment Options: Upon enrollment in the Plan, a participant may direct employee contributions in increments in any of twenty-five investment options. Participants may change their investment options daily.

Participant Notes Receivable: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are considered a directed investment from the participant's account under the Plan. Loan terms range from 1-5 years unless used to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates 1% above prime. Principal and interest is paid ratably through monthly payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN (continued)

Payment of Benefits: On termination of service due to death, disability or retirement, a participant (if married) may receive a joint and 50% survivor annuity; (if not married) a participant may receive a life annuity. However, a participant may elect to waive these forms of payment, subject to certain rules, and elect (a) a single lump-sum payment in cash; (b) the purchase of a different form of annuity; (c) equal installments over a period of not more than the participant's assumed life expectancy (or the participant's and the participant's beneficiary's assumed life expectancies) determined at the time of distribution.

Forfeited Accounts: At December 31, 2009, there was $22,092 in forfeited nonvested accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accounts of the Plan are maintained, and the accompanying financial statements have been prepared, on the modified cash basis: investment income is recognized when received, disbursements are recognized when made and contributions are accrued at year-end.

Use of Estimates in the Preparation of Financial Statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the plan administrator to make estimates and assumption that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of investment valuation.

Investment Valuation and Income Recognition: The Plan's investments are held at The Equitable Company and stated at fair value except for its benefit-responsive investment contract, which is valued at contract value (Note 4). Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Management has determined that the estimated fair value of the Plan's indirect investments in fully responsive contracts as of December 31, 2009 and 2008 approximates contract value. Accordingly the statements of net assets available for benefits reflect no adjustment for the difference between net assets with all investments at fair value and net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

All investment and receivable assets of each Variable Investment Option of the Account are classified as Level 1 inputs.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Common collective trusts: The fair values of interests in stable value funds are based upon the net asset values of such funds reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund managers (Level 2 inputs).

Participant loans: Participant loans are reported at amortized cost, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans (Level 3 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using:
Quoted Prices in Active Markets for Identical Assets (Level 1)	$12,273,356
Significant Other Observable Inputs (Level 2)	$2,983,550
Significant Unobservable Inputs (Level 3)	$1,117,421
Total Investments	$16,374,327

Risks and Uncertainties: The Plan provides for various investment options in mutual funds and a common collective trust. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 – INVESTMENTS – UNAUDITED INFORMATION

The following presents investments at December 31, 2009 and 2008 that represent 5% or more of the Plan's net assets at December 31,

	2009	2008
Franklin Income Fund	$1,150,395	$1,119,439
Money Market Portfolio	$ 839,398	$1,183,977
EQ / AllianceBernstein Value	$ 958,009	$1,012,113
EQ / Quality Bond Fund	-	$ 761,337
Equity 500 Index	$ 982,052	- .
ARIEL Fund	$ 827,966	- .
Franklin Custodial Funds – US Gov't Securities	$ 928,625	$1,122,381
Guaranteed Interest Option	$2,983,550	$3,079,228
Participant Loans	$1,117,421	$ 991,395

NOTE 4 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 1995, the Plan entered into a fully benefit-responsive investment contract with The Equitable Life Insurance Society of the United States. Equitable maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Equitable. The contract is included in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less Plan withdrawals, and administrative expenses) because it is fully benefit responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $2,983,550 and $3,079,228 respectively. The minimum guaranteed interest rate will never be less than 2.5%. The crediting interest rate is based on an agreed-upon formula with the issuer.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During the year ended December 31, 2009, transactions with parties-in-interest consisted of trustee and administration fees paid to Momentum Administrative Services. In addition, a substantial portion of the Plan's assets were invested in funds managed by Momentum Administrative Services. In addition Loans to Participants qualify as party-in-interest investments.

NOTE 8 – BENEFITS PAYABLE

The net assets available for benefits at December 31, 2009 and 2008 do not include any amounts allocated to individuals who have withdrawn from the plan. Such amounts were paid out to withdrawn participants prior to December 31, 2009 and 2008.

NOTE 9 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 8, 2010, which is the date the financial statements were available to be issued.
