1. Description of Plan

The following description of the J Curt, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering all full-time employees of J Curt, Inc. (the "Company") who have completed one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA").

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, subject to certain limitations under Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 100% of the first 3% and 50% of the next 2% of compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations.

Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Participants may change their investment options at any time via the telephone or internet.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Company's matching contributions, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service. A participant is vested 100% after six years of credited service or upon the events of death, disability or attaining normal retirement age with five years of credited service. Normal retirement age is 55.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1.0%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested accumulated value of their account in a lump sum distribution or partial payment.

Forfeited Accounts

At December 31, 2009, there were no forfeited nonvested accounts of terminees. Forfeitures of nonvested balances may be used to reduce employer contributions and/or pay plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events The Company has evaluated events and transactions occurring subsequent to December 31, 2009 as of October 14, 2010 which is the date the financial statements were available to be issued. Subsequent events occurring after October 14, 2010 have not been evaluated by management. No material events have occurred since December 31, 2009 that require recognition or disclosure in the financial statements.

6. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. The net asset value is a publicly quoted price in an active market.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Mutual funds are considered level 1 investments, within the fair value hierarchy. Participant loans are considered level 3 investments, within the fair value hierarchy. There was no change in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

7. Related Party Transactions

Ascensus, Inc. and Frontier Trust (an Ascensus company) are the current record keeper and custodian of the Plan and qualify as parties-in-interest. Fees paid to Ascensus, Inc. and Frontier Trust were $150 for 2009.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements in the IRC.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Form 5500:
