We were engaged to audit the financial statements of Am-Pac Tire Dist., Inc. 401 (k) Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedule as of December 31, 2009, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by MG Trust Company, LLC, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule.

We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008 that the information provided to the plan administrator by the custodian is complete and accurate.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

1. DESCRIPTION OF THE PLAN

The following description of the Am-Pac Tire Dist., Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers all full-time employees of Am-Pac Tire Dist., Inc. (the Company and Sponsor) who have one year of service and are twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective August 14, 2009, Leggette , the Plan administrator became a part of DailyAccess Corporation.

Contributions

Each year, participants may contribute up to 92% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options made available by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may contribute up to 50% of the first 6% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations. The Company was purchased by American Tire Dist. Inc. (ATD) in December 2008, and in February 2009 terminated the discretionary employer contributions to the Plan for calendar year 2009.

Participant Accounts

Each participant's account is credited with the participants' contribution and allocations of (a) the Company's contribution and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited services while employed by the Company. In December 2008, the Company was sold, allowing for all participants to be 100% vested regardless of years of credited service.

1. DESCRIPTION OF THE PLAN (continued)

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. The interest rate is the prime rate plus 1%. The prime rate at December 31, 2009 is 3.25% and interest rate charged on the outstanding loans ranges from 4.25% to 9.25%. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$76,850 and \$58,101, respectively. Forfeited accounts are allocated to all participants eligible to share in the allocations in the same proportion that each participant's compensation for the plan year bears to the compensation of all participants for such year. The forfeitures for 2009 relate to employees terminated before December 2008 when because of the sale of the Company all employees became fully vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Payment of Benefits to Participants

Benefits paid to participants are recorded when paid.

Investment Valuation and Income and Loss Recognition

The Plan's assets are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Current accounting standards generally require investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by current accounting standards, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts which approximates contract value.

Plan Administrative Expenses

Certain administrative expenses are paid by the Company and accordingly are not reflected in the accompanying financial statements of the Plan. Certain transaction processing fees are charged to the participants and therefore, are reflected in the accompanying statement of changes in net assets available for benefits as administrative expenses.

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

3. INVESTMENTS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As of December 31, 2009 and 2008, and for the year ended December 31, 2009, MG Trust Company, LLC held the Plan's investment assets and executed investment transactions. Accordingly, as permitted under such election the following information as of and for the year ended December 31, 2009 was certified by MG Trust Company, LLC and was not subjected to any auditing procedures performed by the independent public accountants:

- a) Total investments shown in the accompanying statements of net assets available for benefits of \$8,178,396 and \$10,471,091 as of December 31, 2009 and 2008, respectively.
- b) Net appreciation in fair value of investments of \$1,863,772 and interest of \$21,322 as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2009.
- c) All Investment-related information in the accompanying supplemental schedule H, Line 4i – Schedule of Assets (Held at End of Year), for the year ended December 31, 2009.

The individual investments that represent 5% or more of the Plan's net assets available for benefit as of December 31, 2009 and 2008 are as follows:

	<u>2009</u>	<u>2008</u>

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification* (“ASC”) 820, *Fair Value Measurements and Disclosures* (“ASC 820”), establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1—Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in an active market that the Plan has the ability to access.
- Level 2—Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

- Level 3—Inputs to the valuation methodology are both unobservable and significant to the overall fair value measurement

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Fund

Valued at the net asset value of shares held by the Plan at year end as listed on various trading exchanges.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

4. FAIR VALUE MEASUREMENTS (continued)

Stable Value Fund

Fair value is the amount Plan sponsors would receive currently if they were to withdraw or transfer funds within the Plan. This fair value represents contribution made under contract, plus earnings, less participant plan withdrawals and administrative expense and is classified as Level 2 investment.

Participant loans

Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

5. INVESTMENT CONTRACT WITH INSURANCE COMPANY

As of December 31, 2009 and 2008, the Plan's investment options included stable value fund contracts with MetLife which were determined to be fully-benefit responsive. Based on this determination, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

The contract is included in the financial statements at contract value as reported to the plan by MetLife. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value approximates contract value. The average yield and crediting interest rate was approximately 3.16% and 4.1% as of December 31, 2009 and 2008, respectively, based on a formula agreed upon with MetLife. Under the terms of the contract, the crediting rate is reset on a quarterly basis.

6. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by MG Trust Company, LLC in 2009 and 2008. MG Trust Company, LLC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption exists. Fees for MG Trust Company, LLC are paid by the Company. \$34,018 was paid to DailyAccess Corporation, the record keeper, for processing fees in 2009.

7. PLAN TERMINATION

In December 2008, Am-Pac Tire Dist., Inc. was purchased by American Tire Distributors, Inc.(ATD). On February 9, 2009, the Board of Directors of Am-Pac Tire Dist., Inc. voted to terminate the discretionary employer contributions to the Plan for calendar year 2009, and for the eventual merger of the Plan with and into the ATD 401K Plan. As of October, 2010, the employees that were laid off as a result of the sale of the Company either received a payoff of their balance, or if they have not been located, their money is still held by the Plan. 9. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds, and other investment securities.
