HOERBIGER CORPORATION OF AMERICA, INC.
PROFIT SHARING AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1. DESCRIPTION OF PLAN

The following description of the Hoerbiger Corporation of America, Inc. Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Hoerbiger Corporation of America, Inc., Hoerbiger Service, Inc., Hoerbiger Compression Technology America Holding, Inc., Hoerbiger Hydraulics, Inc., Hoerbiger Drivetech USA, Inc., Hoerbiger America Rings & Packing, Inc., Compressor Supply & Engineering, Inc., Hoerbiger Altronic, Inc. and Hoerbiger Services America, Inc., (collectively, the "Company") who have three months of service and are age 20½ or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to certain limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions in one or more of the various investment options offered by the Plan. The Company contributes 65% of the first 6% of base compensation that a participant contributes to the Plan. Total Company matching contributions were \$1,965,014. The Company declared a profit sharing contribution of \$1,329,300 as of December 31, 2008 for those eligible participants. There was no profit sharing contribution for the year ended December 31, 2009. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations of the Company's matching contribution are based on eligible participants' contributions. Allocation of the Company's profit sharing contribution is based on the participant's compensation as compared to all participants' compensation eligible to receive the profit sharing contribution. Allocation of Plan's earnings is based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by one-half of the balance in the participant's account and bear interest at rates ranging from 4.25% to 10.77%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE 1. DESCRIPTION OF PLAN (continued)

Payment of Benefits

A participant's vested account balances are payable upon termination, retirement, disability, death, approved hardship, or no later than April 1st following the participant's attaining age 70-1/2. Participants have several options for receiving benefits, including a lump-sum payment, installment payments, or an annuity. Benefits are recorded when paid.

Forfeited Accounts

Forfeitures of nonvested participant account balances are include in the unallocated account of the Plan and can be used to reduced company matching contribution and/or pay administrative expenses of the Plan. At December 31, 2009, unallocated forfeited accounts totaled \$275,141 and is recorded in the Plan's cash reserve account.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Estimates

The financial statements of the Plan are prepared using the accrual method of accounting and following accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of administrative expenses of the Plan are primarily paid from forfeited account balances. The Plan Sponsor may, at its sole discretion, pay any such expenses, in whole or in part.

Investment Valuation and Income Recognition

The Plan's investments are stated at estimated fair values, except for the Diversified Investment Advisors Stable Pooled Fund. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value. The Diversified Investment Advisors Stable Pooled Fund is valued at contract value as estimated by the trustee. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Net appreciation in fair value of investments includes unrealized gains and losses which, as a result of changes in fair value, are recorded in income in the current period. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The valuation methodologies used for the assets measured at fair value are described in Note 2. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tab sets forth by level within the fair value hierarchy of individual investments that represent the Plan's net assets at December 31, 2009 and 2008 are as follows:

Assets at Fair Value as of December 31, 2009				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 28,689,761	\$ -	\$ -	\$ 28,689,761

NOTE 3. FAIR VALUE MEASUREMENTS (continued)

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 14,860,448	\$ -	\$ -	\$ 14,860,448

	<u>\$ 15,182,963</u>	<u>\$ 13,326,337</u>	<u>\$ 1,322,482</u>	<u>\$ 29,831,782</u>

The loans to participants are not actively traded and significant other observable inputs are not available. Thus, the fair value of the loans to participants is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the trustee:

	2009	2008
Investments, at fair value:

Investment income certified by the Plan's custodians for the year ended December 31, 2009 is as follows:

Investment earnings	\$ 610,876
Net appreciation in fair value of investments	5,795,557

NOTE 6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a fully benefit-responsive investment contract with Diversified Investment Advisors ("Diversified"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As described in Note 2, because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported by Diversified, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value; however, the investment contract is subject to certain restrictions which may impact the Plan's ability to fully realize the investment contract's value under certain conditions.

Certain events limit the ability of the investment contract to transact at contract value with the issue of its investment contracts. Specifically, any event outside the normal operation of the investment contract which causes a withdrawal from an investment may result in a negative market value adjustment with respect to such withdrawals. Such events include the following: (a) partial or complete legal termination of the investment contract, (b) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 TAX STATUS

The Company adopted a prototype 401(k) plan as provided by Diversified Investment Advisors. The prototype plan received a favorable determination letter from the Internal Revenue Service dated March 31, 2006, stating that the Plan is designed in accordance with the applicable provisions of the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the financial statements.

NOTE 10. PLAN TRANSFERS

Effective January 1, 2009, the Company acquired Altronic, Inc., Altronic Controls, Inc. and Altronic Coils, LLC, (collectively "Altronic"). Altronic employees were participants in the Stancorp Companies Employee 401(k) Savings Plan. Those participants of the Stancorp Companies Employee 401(k) Savings Plan who were retained by the Company, were eligible to participate in the Hoerbiger Corporation of America, Inc.
