BUTTER KRUST BAKING COMPANY, INC.
EMPLOYEES PROFIT SHARING AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Butter Krust Baking Company, Inc. Employees Profit Sharing and 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering substantially all employees of Butter Krust Baking Company, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 20% of pretax annual compensation, as defined in the plan agreement. Participant contributions may be directed into several different investment funds. Participant contributions are subject to certain limitations.

Company profit sharing contributions are made out of current or accumulated profits and are determined annually by the Board of Directors. No profit sharing contribution was authorized for the current plan year.

Effective January 1, 2005, the Plan was amended to allow employer matching contributions. The maximum employer match shall equal 100% of the employee's contribution ranging from 1% to 4% of eligible compensation with a minimum match ranging from \$0 to \$2,500. The exact employer match is based on the employee's age plus years of service, as defined in the table below.

<u>Age + Service</u>	<u>Percent</u>	<u>Minimum</u>
30 or less	1%	\$ 0
31 to 55	1	500
56 to 65	2	1,000
66 to 75	3	1,500
76 or more	4	2,000

In addition, for employees with age plus years of service on January 1, 2005 of 85 or more, an additional matching contribution of \$500 will be made, if the employee has elected to defer at least the applicable percentage of compensation as outlined in the table above. However, no additional employees have been or will be added to this group after January 1, 2005 even if their age plus years of service exceed 85.

The Company may make an additional discretionary contribution to be allocated in proportion to each participant's share of the compensation paid to all eligible participants during the year.

The Company did not make any additional discretionary contributions for the year ended December 31, 2009.

Additionally, also effective January 1, 2005, all new hires are automatically enrolled in the Plan with a 1% contribution percentage until the participant elects to change his/her deferral percentage, or elects out of the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

EMPLOYEES PROFIT SHARING AND 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Participants of the Plan have been able to direct the investment of the Company's profit sharing contributions into any of the Plan's various investment options, including the "Profit Sharing Fund," since August 1, 1996. All Company profit sharing contributions prior to August 1, 1996 were invested in the "Profit Sharing Fund" and these amounts, and the earnings thereon, could not be reallocated to other investment options. However, since January 1, 2003, participants have been able to reallocate these prior profit sharing contributions into any of the Plan's various investment options.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Effective January 1, 2005, the Plan was amended so that participants are also immediately vested in the Company's matching and discretionary contribution portion of their accounts plus actual earnings.

Payment of Benefits: On termination of service due to death, disability, or retirement, the benefit payments are paid to such members, as elected, either in lump sum or in annual installments over a period not in excess of 15 years except for benefits of \$5,000 or less which are paid in a lump sum. In-service withdrawals are permitted for reasons of financial hardship or upon the employee reaching age 59-1/2. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participant Loans: Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The Plan does allow a minimum loan of \$500 in the event of a financial hardship. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing market rates at the date of loan origination.

Forfeitures: At December 31, 2009 and 2008, the non-participant directed unallocated forfeited accounts totaled approximately \$0 and \$1,203, respectively. These forfeited amounts are used to offset future employer profit sharing contributions, if any.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments and Income Recognition: The Plan's investments are reported at fair value. Securities transactions are recognized on the trade date (the date the order to buy or sell is executed). Dividend income is accrued as of the ex-dividend date. Interest income is accrued as earned. The cost basis of securities, which is used in the determination of realized gains and losses on sales of securities, is determined through use of the specific-identification method.

Administrative Expenses: Under the terms of the Plan agreement, costs relating to plan administration can be paid by the Plan.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts and disclosures, and actual results could differ from these estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its operations at any time, subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION

Susquehanna Trust & Investment Company, the trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION (Continued)

	<u>2009</u>
Mutual funds	\$ 2,125,254
Common stocks	278,344
U.S. government and agency obligations	<u>26</u>
	<u>\$ 2,403,624</u>

NOTE 5 - FAIR VALUE MEASUREMENT

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

U.S. government and agency obligations: The U.S. government and agency obligations are valued at the closing price reported in the active market in which the security is traded (Level 1 inputs).

Mutual funds and common stocks: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments, excluding participant loans, measured at fair value on a recurring basis are summarized below:
