Oneida Ltd. 401(k) Savings Plan

Notes to Financial Statements December 31, 2009 and 2008

1. Description of the Plan

The following brief description of the Oneida Ltd. 401(k) Savings Plan (the “Plan”) sponsored by Oneida Ltd. (the “Company”) is provided for general information purposes only. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Oneida Ltd., Kenwood Silver Company, Inc. and Buffalo China, Inc. Employees are eligible after one month of service. As part of the Plan, the Company entered into a trust agreement with Fidelity Investments Institutional Operations Company, Inc. (“Fidelity”), record keeper, pursuant to the terms of the agreement between the Plan and Fidelity Management Trust Company, trustee.

Contributions

Through automatic payroll deduction, employees in the Plan (“Participants”) may contribute from 1% to 75% of eligible pay on a pre-tax basis, up to the annual dollar limit as provided by the Internal Revenue Code and may change such election at any time.

Contributions from the Company to the Plan are discretionary. There were no employer contributions made during 2009 or 2008.

Vesting

Participants are immediately fully vested in their contributions to the Plan and actual earnings thereon. Vesting in the Company’s contribution portion of their account is based on years of continuous service. A participant vests based on the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	0%
2	25%
3	50%
4	75%
5	100%

Forfeitures

Forfeited employer contributions are used to reduce future employer contributions or pay plan expenses. Unallocated forfeitures amounted to approximately \$32,000 and \$47,000 at December 31, 2009 and 2008, respectively.

1. Description of the Plan (Continued)

Participant Loans

The Plan allows Participants to borrow a minimum of \$1,000 up to \$50,000 from their accounts. Participant loans are repayable over one to five years, or longer if for the purchase of a principal residence, and bear interest at a reasonable rate based on prevailing interest rates at the time of the loan.

Benefit Payments

On termination of service due to death, disability or retirement, a Participant may elect to receive an amount equal to the value of the Participant's vested interest in his or her account in either a lump sum payment or annuity payments. Participants may also be eligible for hardship or other in-service withdrawals based on the provisions in the Plan.

Participant Accounts

Each Participant's account is credited with the Participant's contribution and allocations of (a) the Company's contribution, if any, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account.

2. Summary of Significant Accounting Policies

The accounting principles and practices which affect the more significant elements of the financial statements are:

Basis of Accounting

The accompanying financial statements are prepared using the accrual method of accounting.

Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates.

Loans to Participants

Loans to participants are recorded at amortized cost.

2. Summary of Significant Accounting Policies (Continued)

Date of Management's Review

In preparing the financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through September 13, 2010, the date that the financial statements were available to be issued.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and non financial assets and liabilities. That guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money Market Fund: Valued at the net asset value ("NAV") of the fund.

Mutual Funds: Valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common/Collective Trust: Valued at estimated fair value based on the underlying assets of the trust. The fair value of the underlying assets is obtained from information provided by the investment advisor. There are no restrictions on redemptions of this fund.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Costs

Expenses of the Plan are paid by the Plan or the Company.

Risks and Uncertainties

The Plan invests in investment securities which are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and such changes could materially affect the Participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

The following investments represent five percent or more of the Plan's net assets available for benefits:

	<u>December 31,</u>	
	<u>2009</u>	<u>2008</u>
Fidelity Magellan	\$ 3,774,127	\$ 3,341,861

Fidelity Retirement Government MM	1,496,540	2,012,235
PIMCO Total Return Fund	1,155,328	N/A

The Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated by \$3,826,641 for the year ended December 31, 2009 and depreciated by \$10,954,551 for the year ended December 31, 2008.

4. Transactions with Related Parties

Certain assets of the Plan are invested in funds managed by Fidelity and, therefore, transactions involving these investments qualify as party-in-interest transactions. Participant loans are also party-in-interest transactions.

Notes to Financial Statements December 31, 2009 and 2008

5. Certified Information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits, the net appreciation (depreciation) in fair value of investments and dividend and interest income reported on the statements of changes in net assets available for benefits, and the schedule of assets (held at end of year).

6. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to discontinue contributions or terminate the Plan at any time subject to provisions of ERISA. In the event of Plan termination, and after payment of all expenses, the assets of the Plan will be distributed to Participants based upon their vested account balance as of the date of liquidation.

7. Tax Status

The Plan adopted a prototype plan sponsored by Fidelity. The prototype plan received an opinion letter from the Internal Revenue Service dated October 9, 2003, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. Although the prototype plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.
