AUDIT AND ADVISORY SERVICES

Report of Independent Auditors

To the Participants and Administrator of
Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan

We were engaged to audit the financial statements and supplemental schedule of Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan as of December 31, 2009 and 2008 and for the year ending December 31, 2009, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by John Hancock Life Insurance Company USA, the custodian of the plan, and J.P. Morgan Chase Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian and trustee hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the custodian and trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodian and trustee are complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that certified by the custodian and trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan

Notes to Financial Statements

December 31, 2009

1. Description of Plan

The following description of the Hospital Housekeeping Systems, Ltd. 401(k) Benefit Plan (the "Plan"), is provided for general purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering eligible employees (other than union employees, nonresident employees and those considered highly compensated as that term is defined by the Internal Revenue Code) of the Hospital Housekeeping Systems, Ltd. employer ("Sponsor"). The plan became effective July 1, 1997. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective March 1, 2009, the Plan changed custodian and record keeper from John Hancock Life Insurance Company USA to JP Morgan Chase Bank and ADP Retirement Services. As of the same date, the Trustee for the Plan changed from a member of the Plan Sponsor's Board of Trustees to JP Morgan Chase Bank.

Eligibility

An employee becomes eligible to make salary deferral contributions in the Plan on the first day of the calendar quarter after he/she has completed one month of service and is eligible for employer contributions on the first day of the calendar quarter after completion of six consecutive months of service. Hourly-paid employees who are not employed at the Sponsor's headquarters are excluded from the matching contribution. To be eligible to receive the discretionary matching contributions, the participant must be employed on the last day of the plan year and must be credited with at least 1,000 hours, unless the employee dies, becomes disabled or reaches normal retirement age.

1. Description of Plan (continued)

Contributions

Each active participant in the Plan may elect to defer an amount up to 75% of the participant's compensation (excluding bonuses, commissions and overtime) subject to annual limitations established by the Internal Revenue Service. Participants who have attained age 50 are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a stable value fund and registered investment company funds as investment options for participants.

In addition, the Sponsor may make a matching contribution up to the maximum amounts permitted by the Internal Revenue Service ("IRS"). The Company's matching contribution is discretionary. For 2009, the amount of the match was equal to 50% of the employee's deferral up to a maximum deferral of 7% of compensation. The Company matching contributions are invested directly in the investment option accounts as directed by the participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings. Plan earnings are allocated to participant accounts based on account balances.

Vesting

Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. Vesting in the discretionary matching and non-elective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service (defined as 1,000 hours of service per year). A participant terminating prior to three years of service is 0% vested. Service for years prior to 1997, the year the Plan was established, is not counted for vesting purposes.

1. Description of Plan (continued)

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Sponsor. A forfeiture occurs in the Plan year in which the participant receives a distribution of their vested account, as defined by the Plan. Forfeited balances of terminated participants' non-vested matching contribution accounts are used to pay plan administrative expenses or to reduce sponsor contributions. During the 2009 plan year, forfeitures totaling $35,418 were used to reduce sponsor contributions. Forfeitures available at December 31, 2009 and 2008 were $2,816 and $27,596, respectively.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to 50% of their vested account balances. Loan transactions are treated as a transfer to (from) the Investment Fund from (to) the Participant Loans Fund. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan's Advisory Committee.

Payment of Benefits

The Plan provides for a lump-sum payment of benefits equal to the vested value of the participant's account upon retirement, death, disability, termination of employment, or for hardship distributions in accordance with Internal Revenue Service allowed provisions.

2. Significant Accounting Policies

Accounting Basis

The financial statements are presented on the accrual basis. Separate accounts are maintained to identify net assets available for benefits derived from the contributions made by the sponsoring employer and the voluntary contributions made by the participants. The sponsoring employer is Hospital Housekeeping Systems, Ltd.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

As described in FASB ASC 962-325-35, *Defined Contribution Pension Plans* (formerly FASB Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully-Benefit Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net assets Available for Benefits is prepared on a contract value basis.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board ("FASB") issued FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) (formerly Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*). ASC 820 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. ASC 820 is effective for fiscal years beginning after November 15, 2007. The Plan adopted ASC 820 as of January 1, 2008.

In October 2008, the FASB issued accounting guidance that clarifies the determination of fair value in a market that is not active and provides an example to illustrate key considerations in determining the fair value of a financial instrument when the market for that financial asset is not active. The adoption of this guidance did not have a material impact on the Plan's financial statements and supplemental schedule.

In April 2009, the FASB issued guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. The guidance provides additional application guidance in determining fair values when there is no active market or where the price inputs being used represent distressed sales. It reaffirms the objective of fair value measurement—

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

to reflect how much an asset would be sold for in an orderly transaction (as opposed to a distressed or forced transaction) at the date of the net assets available for benefits under current market conditions. Specifically, it reaffirms the need to use judgment to ascertain if a formerly active market has become inactive and in determining fair values when markets have become inactive. The adoption of the guidance did not have a material impact on the Plan's financial statements and supplemental schedule.

In August 2009, the FASB issued guidance about measuring liabilities at fair value. The adoption of the guidance did not have a material impact on the Plan's financial statements and supplemental schedule.

In September 2009, the FASB issued additional guidance about measuring the fair value of certain alternative investments, such as hedge funds, private equity funds, real estate funds and venture capital funds. The guidance allows companies to determine the fair value of such investments using net asset value ("NAV") as a practical expedient and also requires disclosures of the nature and risks of the investments by major category of alternative investments. The Plan's adoption on December 31, 2009 did not have a material impact on the financial statements and supplemental schedule.

Subsequent Events

In May 2009, the FASB issued accounting guidance to establish general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The Plan evaluated events occurring between the end of the most recent fiscal year and September 16, 2010, the date the financial statements and supplemental schedule were available to be issued.

2. Summary of Significant Accounting Policies (continued)

Codification

In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles ("GAAP"), a replacement of FASB Statement No. 162.* The new standard represents the FASB's approval of its accounting standards codification as the single source of authoritative United States accounting and reporting standards applicable for all non governmental entities, with the exception of the SEC and its staff. The codification, which changes the organization and referencing of financial accounting and reporting standards, was effective, for the Plan, as of December 31, 2009, and certain references in these financial statements to GAAP use the codification's numbering system prescribed by the FASB. Since the codification did not change existing GAAP, it did not have an effect on the Plan's financial statements and supplemental schedule.

Valuation of Investments

The Plan's investments are stated at fair value. Shares of mutual funds through pooled separate accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The guaranteed investment contracts are stated at contract value of the underlying insurance contracts, which approximates market value. The guaranteed investment contracts are not fully-benefit responsive. Participant loans are stated at cost which approximates fair value.

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

2. Significant Accounting Policies (continued)

Valuation of Investments (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- *Level 1*: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- *Level 2*: Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability;
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- *Level 3*: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- *Money market funds*: Valued as cash equivalents, which approximates fair value.
- *Insurance company general account*: Valued at contract value, which approximates fair value. Investment contracts issued by John Hancock Life Insurance Company USA are backed by the General Account.
- *Pooled separate accounts*: PSAs are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The Net Asset Value (NAV) of a PSA is based on the market value of its underlying investments. The PSA NAV is not a publicly-quoted price in an active market.

2. Significant Accounting Policies (continued)

Valuation of Investments (continued)

- *Registered investment companies (e.g., mutual funds)*: Valued at the net asset value ('NAV") of shares held by the plan at year end.
- *Common collective trust (SSGA International Index, SSGA S&P 500 Index Fund, SSGA Stable Value Fund, SSGA S&P Midcap Index Fund*): The Stable Value Fund and Index Funds are common/collective trust funds for which State Street Bank and Trust Company acts as custodian. The net asset value (NAV) is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market. ASC 820 information on the State Street Bank and Trust Company's Stable Value and Index Funds' underlying assets and their assigned fair value hierarchy was obtained from the audited financial statements that are made available to applicable plan sponsors.
- *Participant loans*: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Expenses

The Plan is responsible for payment of the custodian and trustee expenses and fees; however, the Company may pay the Plan expenses directly. Transaction charges for loan and benefit payment transactions are paid by the Plan by reducing the balances of those participants initiating the transactions.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, and net appreciation in fair value of investments and investment income for the year then ended was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by John Hancock Life Insurance Company USA, the custodian of the plan, and J.P. Morgan Chase Bank, the trustee of the Plan.

The fair value of individual investments that represent 5% or more of the Plan's net assets at either December 31, 2009 or 2008, are as follows:

	2009	2008
SSGA Stable Value Fund	**$ 210,731**	$ —
American Century Strategic Allocation Fund-Moderate Fund	**543,522**	—
Janus Balanced Fund	**207,528**	—
JH Lifestyle-Balanced Fund	—	476,029
JH Lifestyle-Growth Fund	—	173,127
JH Lifestyle-Aggressive Fund	—	184,633
JH Money Market Fund	—	113,797

4. Investment in Stable Value Fund

The Stable Value Fund invests in a representation of guaranteed investment contracts, bank investment contracts and/or a wrapped portfolio of fixed income instruments ("synthetic investment contracts" or "Synthetic GICs"). Collectively, these contracts are referred to as investment contracts. As described in FASB ASC 962-325-35, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of an investment company attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying deemed contribution plans. The contract value represents principal contributions made by participants, plus interest accrued at a crediting rate established under the contract, less participant withdrawals and administrative expenses. The Plan's management has determined that the contract value of the Plan's fully benefit-responsive investment contracts as of December 31, 2009 approximates fair value.

The Crediting Rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The Crediting Rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. Depending on the change in duration from each reset period, the magnitude of the impact to the Crediting Rate of the contract to market difference is heightened or lessened. The Crediting Rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the Crediting Rate less than zero.

The Crediting Rate may be impacted amongst other things, by volatility and illiquidity in the fixed-income securities market. If the market value of the underlying investments is lower than their contract value, the Crediting Rate may be lower than the return on the underlying investments. Contributions from participants may increase market value attributed to the underlying investments and increase the Crediting Rate and the Fund's return. Redemptions may have an opposite effect, where if the Fund experiences significant redemptions when the market value is below the contract value, the Fund's return may be reduced to zero.

4. Investments in Stable Value Fund (continued)

The average yield based on actual income was approximately 3.04% for the Stable Value Fund on December 31, 2009. The average yield based on interest rates credited to participants was approximately 3.25% for the Stable Value Fund on December 31, 2009.

Investment contracts are valued at contract value principally because participants are able to transact at contract value when initiating benefit-responsive withdrawals, taking loans or making investment option transfers permitted by the participating plan. A benefit-responsive withdrawal includes a payment to a participant arising from retirement, termination of employment, disability or death. In the normal course, participant events are predictable (for participants as a group) such that the economic integrity of investment contracts is largely unaffected by participant withdrawals. Employer initiated events, if material, may affect the underlying economics of investment contracts. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or other events. The occurrence of one or more employer initiated events could limit the Fund's ability to transact at contract value with plan participants.

Investment contracts generally impose conditions on both the Fund and the issuer (also referred to as the "wrap provider"). Assuming conditions are met and neither the Fund nor the issuer is in default, the Fund can buy and sell covered investments and process withdrawals through the sale of covered investments in accordance with the Fund's liquidity hierarchy.

If an event of default, within the meaning of an investment contract, occurs and is not cured, the non defaulting party may terminate the contract. The following (among other events) may cause the Fund to be in default: a breach of material obligation under the contract; a material misrepresentation; a material amendment to the trust agreement, in the administration of the trust or in the investment of fund assets without consent from the issuer; and an uncured violation of the Fund's investment guidelines.

5. Transactions with Party-in-Interest

Fees paid during 2009 for investment management fees, professional fees and third-party administrative services are based on customary and reasonable rates for such services, and were paid in part by the Plan Sponsor.

Prior to March 1, 2009, plan assets include investment in funds managed by John Hancock Life Insurance Company USA, custodian. After March 1, 2009, plan assets include investment in funds managed by J.P. Morgan Chase, trustee. They are the Plan's custodian and trustee, respectively, and as such, transactions with the trustee and custodian qualify as party-in-interest transactions under ERISA. Participant loans also qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

7. Income Taxes

Effective March 1, 2009, the Plan adopted the Automatic Data Processing Nonstandardized 401(k) Plan, which has received an opinion letter from the Internal Revenue Service (IRS) dated May 3, 2002, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is tax-exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirement of the Code and, therefore, believes that the Plan is qualified and the related trust is exempt.

8. Subsequent Events

Effective June 25, 2010, the Plan changed trustee from J.P. Morgan Chase to State Street Trust Company. This change had no operational effect on the Plan.

9. Reconciliation of Financial Statements to Form 5500
