Report of Independent Auditor

To the Participants and Administrator of

Terex Pension Plan

We were engaged to audit the Statements of Net Assets Available for Benefits of the Terex Pension Plan (the "Plan") at December 31, 2009 and 2008 and the related Statement of Changes in Net Assets Available For Benefits for the year ended December 31, 2008, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of Plan

The following brief description of the Terex Pension Plan (formerly the Terex Corporation Retirement Program for Salaried Employees) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 ("ERISA").

General

The Plan is a noncontributory defined benefit plan, which until the Plan mergers discussed below, covered all salaried employees of the Terex Corporation (the "Company") located in Hudson, Ohio meeting minimum eligibility requirements. The Hudson, Ohio location has since been closed.

Effective December 15, 2008, the Plan name was changed from the Terex Corporation Retirement Program for Salaried Employees to the Terex Pension Plan.

Participant benefits - Hudson, Ohio Plan

Employees with five or more years of eligible service are fully vested and entitled to annual pension benefits beginning at normal retirement age (65), equal to 1.75% of final average monthly earnings over a consecutive five-year period times years of credited service, minus the sum of:

- (1) 1.75% of the Primary Social Security Benefit times credited service, to a maximum of 50% of the Primary Social Security benefit, and
- (2) for former employees of General Motors Corporation ("GMC"), prior owner of the division, the vested accrued monthly benefit earned under any GMC plan, less 50% of the Primary Benefit under Part B of the GMC Salaried Plan for terminations prior to January 1, 1986, or \$0 for terminations after December 31, 1985.

The normal retirement benefit, however, is subject to the following minimum:

1.75% of final average monthly earnings multiplied by credited service earned after December 31, 1980, minus 1.75% of the participant's Primary Social Security benefit multiplied by credited service earned after December 31, 1980, to a maximum of 50% of the Primary Social Security benefit.

Effective March 31, 1984, the Terex Hudson Ohio Plan was amended to cease the accumulation of credited service and benefits indefinitely.

Plan Mergers

Plan merger during 2000

Effective June 30, 2000, the Company and certain of its wholly-owned subsidiaries merged four defined benefit pension plans into the Plan (the "2000 Merger"). The four plans were the Terex Corporation Salaried Employees' Retirement Plan, the Koehring Cranes and Excavators (Benton Harbor, Michigan) Hourly Employees' Pension Plan, the Cedarapids, Inc. Retirement Income Plan, and the Royer Foundry and Machine Company Retirement Plan. The 2000 Merger had no effect on the benefits for any of the plan participants. The benefits of the plans and all provisions of the plans prior to the 2000 Merger are unchanged unless otherwise noted.

TEREX PENSION PLAN

Notes to Financial Statements

Following is a brief description of the four plans that merged into the Plan on June 30, 2000:

Terex Corporation Salaried Employees' Retirement Plan

The Terex Corporation Salaried Employees' Retirement Plan (formerly known as the "Merged Plan") was a noncontributory defined benefit plan covering certain current and former salaried employees of the Company and Northwest Engineering ("Northwest"), all salaried employees of Koehring Cranes & Excavators ("Koehring") and former participants of the Koehring Cranes & Excavators Salaried Employees' Pension Plan (the "Koehring Plan") and the Northwest Engineering Company Salaried Employees' Pension Plan (the "Northwest Plan").

The Koehring Plan and Northwest Plan were merged effective January 1, 1989 to form the Merged Plan. Accordingly, on that date all assets and obligations of the two plans were transferred to the Merged Plan.

Effective October 23, 1992, the Terex Corporation Hourly-Rate Employees' Pension Plan (the "Terex Hourly-Rate Plan") was merged into the Merged Plan. Accordingly, on that date all assets and obligations of the Terex Hourly-Rate plan were transferred to the Merged Plan. The Terex Hourly-Rate Plan was a noncontributory defined benefit plan covering all former hourly employees of the Company's division located in Hudson, Ohio meeting minimum eligibility requirements. Effective March 31, 1984, the Terex Hourly-Rate Plan was amended to cease the accumulation of credited service and benefits indefinitely.

Effective May 7, 1993, the Merged Plan was amended to cease the accumulation of credited service and benefits indefinitely. Participants in the Merged Plan as of that date, who were not vested as of that date, will continue to earn vesting service after May 7, 1993; however, future salary changes will have no effect on future benefit amounts. Employees hired after May 7, 1993 are not eligible to participate.

Excluding hourly employees formerly covered under the Terex Hourly-Rate Plan, all participants with five or more years of eligible service are fully vested and entitled to annual pension benefits beginning at normal retirement age (65), equal to a participant's years of participation at retirement (limited to a maximum of 25) multiplied by a percentage of the participant's final average earnings over a consecutive five year period. For former participants under the Koehring Plan and the Northwest Plan, service credit earned under a prior plan is counted in the benefit calculation and benefits received under the Merged Plan are reduced by benefit amounts payable under a prior plan.

Participants of the Terex Hourly-Rate Plan with five or more years of eligible service are fully vested and entitled to annual pension benefits beginning at normal retirement age (65), equal to the monthly benefit rate (as determined by a benefit class code, payment commencement date and month of payment) times years of credited service. All benefits will be reduced by benefits payable by GMC, prior owner of the division, which are based on GMC credited service to January 5, 1981.

Koehring Cranes & Excavators (Benton Harbor, Michigan) Hourly Employees' Pension Plan

The Koehring Cranes & Excavators (Benton Harbor, Michigan) Hourly Employees' Pension Plan (formerly known as the "Benton Harbor Plan") was a noncontributory defined benefit plan covering all hourly employees of Koehring located in Benton Harbor, Michigan.

Effective January 17, 1987, Koehring established the Benton Harbor Plan, as well as separate plans at other Koehring locations, in conjunction with the Purchase and Sale agreement between AMCA International Limited ("AMCA"), the Company and Koehring, whereby Koehring purchased the operations of the Benton Harbor plant from AMCA. Under terms of the agreement, Koehring was required to establish the Benton Harbor Plan as a successor plan to a similar plan administered by AMCA.

TEREX PENSION PLAN

Notes to Financial Statements

On March 19, 1992, the Benton Harbor, Michigan location was sold. All active employees in the Benton Harbor Plan were terminated in conjunction with the sale of the location. All active participants became fully vested in the Benton Harbor Plan as of the date of the sale.

Participants with five or more years of eligible service are fully vested and entitled to annual pension benefits beginning at normal retirement age (65), equal to a participant's years of participation at retirement (including years credited under the prior plan) multiplied by the applicable benefit level in effect at the time of retirement.

Cedarapids, Inc. Retirement Income Plan

The Cedarapids, Inc. Retirement Plan (formerly known as the "Cedarapids Retirement Plan") was a noncontributory defined benefit pension plan covering substantially all employees of Cedarapids, Inc. who are not in a collective bargaining unit.

The Cedarapids Retirement Plan provides specified retirement, disability and death benefits to be paid from the net assets available for plan benefits. Benefits are based principally upon years of service and the benefit rate on the date of retirement, as discussed below. The standard form of retirement benefit to single participants is a monthly payment beginning the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse. Optional forms of benefits are also available.

Vesting (a participant's right to receive benefits even though that participant's employment may terminate) occurs after a period of five years.

Upon retirement, the annual pension benefit payable for active participants shall not be less than \$312 times the number of years in the member's period of service as an employee, plus or minus adjustments for prior contributions and other pension benefits payable under other plans.

A participant who has attained the age of 60 shall be entitled to 100% of the normal retirement benefit. Participants who retire between the ages of 55 and 60 and have at least 10 years of service shall be entitled to a percentage of the normal retirement benefit, with the percentage increasing as the retirement age approaches 60.

If an active participant dies after completing five years of service, a death benefit equal to 50% of the joint and survivor annuity benefit is paid to the participant's spouse. Vested active participants who become disabled receive an amount equal to their accrued benefit on their disability retirement date which is six months after disablement. If covered under the Cedarapids long-term disability plan, participants continue to earn credited service and benefits while disabled.

Effective October 15, 2000, the Cedarapids Retirement Plan was amended to cease the accumulation of credited service and benefits indefinitely. Participants in the Cedarapids Retirement Plan as of that date, who were not vested as of that date, continued to earn vesting service after October 15, 2000; however, service and compensation after October 15, 2000, was not factored in when determining benefits under the Cedarapids Retirement Plan. Employees not participating in the Cedarapids Retirement Plan as of October 15, 2000 were prohibited from entering the Plan.

Royer Foundry and Machine Company Retirement Plan

The Royer Foundry and Machine Retirement Plan (the "Royer Plan") was a noncontributory defined benefit plan covering certain employees of Royer Foundry and Machine Company located in Lebanon, Pennsylvania.

TEREX PENSION PLAN

Notes to Financial Statements

Participants with five or more years of credited service are fully vested and entitled to annual pension benefits beginning at normal retirement age (65), equal to 0.75% of final average annual compensation over a consecutive ten-year period times credited service up to the Social Security Table 1 amount in effect January 1 (rounded to \$1) based on the participant's year of birth plus 1.25% of final annual compensation in excess of the Social Security Table amount.

Plan merger during 2008

Effective December 30, 2008, Cedarapids, Inc. Pension Plan for Employees in a Collective Bargaining Unit was merged into the Plan. Effective December 31, 2008, Koehring and Northwest Engineering Hourly Pension Plan and the Simplicity Engineering UAW Retirement Income Plan were merged into the Plan (the "2008 Merger"). The 2008 Merger had no effect on the benefits for any of the plan participants. The benefits of the plans and all provisions of the plans prior to the 2008 Merger are unchanged unless otherwise noted.

Following is a brief description of the plans that merged into the Plan on December 30 and 31, 2008 as noted above:

Cedarapids, Inc. Pension Plan for Employees in a Collective Bargaining Unit

The Cedarapids, Inc. Pension Plan for Employees in a Collective Bargaining Unit (the "Cedarapids Plan") was a noncontributory defined benefit plan covering certain employees of Terex USA, LLC (formerly Cedarapids, Inc.) located in Cedarapids, Iowa.

The Cedarapids Plan provides specified retirement, disability and death benefits to be paid from the net assets available for plan benefits. Benefits are based principally upon a participant's years of service at retirement, multiplied by the applicable benefit level in effect at the time of retirement. The standard form of retirement benefit to single participants is a monthly payment beginning the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse. Other forms of benefits are also available.

Vesting (a participant's right to receive benefits even though that participant's employment may terminate) occurs after a period of five years of service.

A participant who has attained the age of 62 shall be entitled to 100% of the normal retirement benefit. Participants who retire between the ages of 50 and 62 with at least 10 years of service shall be entitled to a percentage of the normal retirement benefit, with the percentage increasing as the retirement age approaches 62.

If an active participant dies after completing five years of service, a death benefit equal to 50% of the joint and survivor annuity benefit is paid to the participant's spouse. Vested active participants who have become disabled receive an amount equal to their accrued benefit on their disability retirement date which is six months after disablement.

Effective January 6, 2006, the Cedarapids Plan was amended to limit eligibility to employees hired before May 10, 2005 and freeze years of credited service at June 29, 2007. Participants in the Cedarapids Plan as of that date, who were not vested as of that date, will continue to earn vesting service after June 29, 2007; however, service and compensation after June 29, 2007, will not be factored in when determining benefits under the Cedarapids Plan.

Koehring and Northwest Engineering Hourly Pension Plan

The Koehring and Northwest Engineering Hourly Pension Plan (the "Koehring Plan") was a noncontributory defined benefit plan covering certain current and former hourly employees of Koehring

TEREX PENSION PLAN

Notes to Financial Statements

Cranes Inc. ("Koehring") and Northwest Engineering ("Northwest") at the following locations: Waverly, Iowa (Koehring); Waterloo, Iowa (Koehring); Chattanooga, Tennessee (Koehring); and Green Bay, Wisconsin (Northwest). The Waterloo, Chattanooga and Green Bay locations have since been closed. Koehring and Northwest are currently a subsidiary and an inactive division of the Company.

Participants with five or more years of eligible service are fully vested and entitled to annual pension benefits, beginning at normal retirement age (65). Participants who retire between the ages of 55 and 65 with at least 10 years of service shall be entitled to a percentage of the normal retirement benefit, with the percentage increasing as the retirement age approaches 65. Participants who retire at age 55 or older with at least 30 years of service shall be entitled to normal retirement benefits. Koehring participants' benefits are equal to a participant's years of participation at retirement (including years credited under prior plans) multiplied by the applicable benefit level in effect at the time of retirement. Northwest participants' monthly benefits are equal to 1% of compensation earned during their years of credited service. Maximum allowable compensation for computation of benefits is \$160,000 per year. The Koehring Plan also provides death, disability and survivor benefits.

The Koehring Plan was amended to disregard hours of service on or after February 18, 2006. Participants in the Koehring Plan as of that date, who were not vested as of that date, will continue to earn vesting service after February 18, 2006; however, service and compensation after February 18, 2006, will not be factored in when determining benefits under the Koehring Plan.

Simplicity Engineering UAW Retirement Income Plan

The Simplicity Engineering UAW Retirement Income Plan (the "Simplicity Plan") was a noncontributory defined benefit pension plan for the eligible employees of Simplicity Engineering, a division of Powerscreen USA, LLC, in the bargaining unit represented by the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America Local Union Number 743.

Eligible employees participated in the Simplicity Plan upon completion of one year of service and attainment of age 21. If participants terminate before rendering 5 years of service, they forfeit the right to receive the value of their accumulated plan benefits.

The Simplicity Plan provides participants with retirement income beginning at the normal retirement age (62) with a minimum of 5 years of service. The normal retirement benefit is equal to a specified amount times the participant's years of credited service. The Simplicity Plan permits early retirement for participants who have attained age 57 and completed 10 years of service. The early retirement benefit is based on normal retirement benefit reduced by an early retirement reduction factor. The Simplicity Plan also provides death, disability and surviving spouse benefits.

Effective December 31, 2000, the Simplicity Plan was amended to cease the accumulation of credited service and benefits indefinitely. Participants in the Simplicity Plan as of that date, who were not vested as of that date, will continue to earn vesting service after December 31, 2000; however, service after December 31, 2000, will not be factored in when determining benefits under the Simplicity Plan. Employees not participating in the Simplicity Plan on December 31, 2000 will not be allowed to enter the Simplicity Plan.

Effective December 9, 2005, the Simplicity Plan was amended to limit eligibility to employees hired before March 16, 1999.

TEREX PENSION PLAN

Notes to Financial Statements

Administration

The Plan is administered by an Administrative Committee appointed by the Company.

2. Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis.

Investment valuation

Plan investments are maintained in the Terex Corporation Master Retirement Plan Trust (the "Master Trust"), which has a December 31 year end, and are stated at fair value as determined by Fidelity Management Trust Company ("Fidelity" or the "Trustee"), on the last business day of the year (See Note 3 - "Fair Value Measurement of Investments and Certification by Trustee"). Purchases and sales of securities are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Net appreciation in market value of investments is comprised of all realized and unrealized appreciation during the year.

Expenses of the plan

Expenses of operating the Plan are paid by the Plan.

Regulatory requirements

The Plan provides for retirement and death benefits and is subject to the provisions of ERISA. In addition, the Plan provides for disability benefits.

Termination provisions

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision set forth in ERISA. In the event the Plan is terminated, the Plan has provisions for the allocation of net assets among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation (the "PBGC"), up to specified limits, as prescribed by ERISA. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guaranty, while other benefits may not be provided for at all.

Funding policy

The Company's contributions were made in amounts sufficient to fund the Plan in accordance with ERISA minimum funding requirements. The funding requirements for the December 31, 2009 plan year have been met for the Plan.

Benefit payments

Benefit payments to participants are recorded upon distribution.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

TEREX PENSION PLAN

Notes to Financial Statements

Risks and uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Investments are exposed to various risks, such as interest rate, market and credit. Due to uncertainties inherent in the estimations and assumptions process and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in these estimates, assumptions and risks in the near term would be material to the financial statements and the actuarial present value of accumulated plan benefits.

Recent Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board ("FASB") issued guidance later codified under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), related to determining fair value when the volume and level of activity for the asset or liability has significantly decreased and identifying transactions that are not orderly. ASC 820 reaffirms that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The guidance also reaffirms the need to use judgment in determining if a formerly active market has become inactive and in determining fair values when the market has become inactive. This guidance was adopted by the Plan during 2009 and did not have a significant impact on the Plan's financial statements.

In May 2009, the FASB issued guidance related to subsequent events, which was later codified under ASC 855, "Subsequent Events." This guidance was effective for interim or annual financial periods ending after June 15, 2009. This guidance establishes general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This disclosure should alert all readers of financial statements that an entity has not evaluated subsequent events after the date filed or disclosed in the set of financial statements being presented. Adoption of this guidance did not have a significant impact on the determination or reporting of the Plan's financial results.

In June 2009, the FASB issued guidance to establish the FASB Accounting Standards Codification™ ("Codification"). The Codification is the single source of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Rules and interpretive releases of the Securities and Exchange Commission ("SEC") under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All existing accounting standards are superseded as described in the guidance. All other accounting literature not included in the Codification is nonauthoritative. This guidance is effective for interim and annual periods ending after September 15, 2009. As the Codification did not change existing GAAP, the adoption did not have an impact on the Plan's financial statements.

In September 2009, the FASB issued Accounting Standards Update 2009-12, "Investment in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)," which amends ASC 820. This update provides guidance on estimating the fair value of a company's investments in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as a practical expedient to determine fair value. This guidance also required additional disclosure of the attributes of these investments such as: (i) the nature of any restrictions on the reporting entity's ability to redeem its investment; (ii) unfunded commitments; and (iii) investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. Adoption of this guidance did not have a significant impact on the Plan's financial condition or results of operations.

TEREX PENSION PLAN

Notes to Financial Statements

In January 2010, the FASB issued Accounting Standards Update 2010-06, "Improving Disclosures about Fair Value Measurements," which also amends ASC 820. This amendment requires new disclosures, including the reasons for and amounts of significant transfers in and out of Levels 1 and 2 fair value measurements and separate presentation of purchases, sales, issuances and settlements in the reconciliation of activity for Level 3 fair value measurements. It also clarified guidance related to determining the appropriate classes of assets and liabilities and the information to be provided for valuation techniques used to measure fair value. This guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. The Plan is evaluating the adoption of this guidance, but does not expect that it will have a significant impact on the determination or reporting of its financial results.

3. Fair Value Measurement of Investments and Certification by Trustee (unaudited)

The Plan measures its investments under the provisions of ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Determining which category an asset or liability falls within this hierarchy requires judgment. ASC 820 establishes three levels of inputs that may be used to measure fair value:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3 - Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The Plan's investments are maintained in the Master Trust which is considered a single-employer trust. Investments in the Master Trust measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2009 and 2008 (Level 1 and 2 inputs are defined above):

	12/31/09	Level 1	Level 2

The Plan's valuation methodology used to measure the fair values of common stock were derived from quoted market prices as all of these instruments have active markets. The Common Collective Trust consists of mutual funds and the fair value is priced based on the market value of the underlying investments in the portfolio which may include common stock, U.S. Treasury bonds, corporate bonds, mortgage-backed securities, asset-backed securities and collateralized mortgage obligations.

The investment and related income amounts in the accompanying financial statements of the Plan have been certified by the Trustee as complete and accurate. In addition, the Trustee has certified the financial information of the Master Trust as of December 31, 2009 and 2008 and for the year ended December 31, 2009.

The following table is a summary of the investment earnings and the net appreciation in the fair market value of the Master Trust for the year ended December 31, 2009:

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable, under the Plan's provisions, to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated participants or their beneficiaries; (ii) beneficiaries of participants who have died with remaining benefits; and (iii) present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment. Benefits payable under all circumstances such as retirement, death, disability and termination of

TEREX PENSION PLAN

Notes to Financial Statements

employment are included to the extent they are deemed attributable to participant service rendered prior to the valuation date.

The Projected Unit Credit Cost Method of valuation was used for the Plan. The significant assumptions underlying the actuarial computations are as follows:

Interest rate:	For Funding: October 2008 Yield Curve (integral rates) 8.31%
Mortality rates:	RP 2000 Mortality Table, separate mortality tables for annuitants and non-annuitants, sex distinct For disabled participants, as defined in Revenue Ruling 96-7.
Retirement:	Later of valuation age or normal retirement date
Marriage assumptions:	80% of participants are assumed to be married

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

As was previously discussed, the Cedarapids Plan, the Koehring Plan and the Simplicity Plan were merged into the Plan effective December 31, 2008. Accordingly, the actuarial present value of accumulated plan benefits is as follows:

	2009	2008
Vested benefits:		
Participants currently receiving benefits	\$ 78,993,714	\$ 73,172,487
Other	26,367,633	31,316,832
	<u>105,361,347</u>	<u>104,489,319</u>
Nonvested benefits	<u>672,644</u>	<u>1,054,660</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 106,033,991</u>	<u>\$ 105,543,979</u>

The following is an analysis of the change in the present value of accumulated plan benefits:

Actuarial present value of accumulated plan benefits as of December 31, 2008	\$ 105,543,979
Accumulation of benefits and actuarial gain	179,608
Change in Assumptions.....	1,731,537
Increase for interest due to decrease in the discount period	8,033,804
Benefits paid	(9,454,937)
Actuarial present value of accumulated plan benefits as of December 31, 2009	<u>\$ 106,033,991</u>

Notes to Financial Statements

5. Income Tax Status

The Plan obtained its latest determination letter on May 27, 2008, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). The Plan was amended since the effective date of this letter. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Party-in-Interest

Substantially all expenses incurred by the Plan were paid to parties-in-interest. These expenses consist of investment manager/trustee, actuarial, audit and legal fees and were \$899,926 for the year ended December 31, 2009.

7. Subsequent Event

The Plan has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued.

TEREX PENSION PLAN**Summary of Actuarial Funding Methods****1. Actuarial Cost Method**

The Pension Protection Act of 2006 added Section 430 to the Internal Revenue Code, which specified the new required minimum funding standards. In general, the minimum required contribution is the sum the target normal cost and the funding shortfall amortization charge (if any) for the plan year.

The following is the basic terminology under the funding method:

The Target Normal Cost is the present value of all benefits that are expected to accrue or be earned under the plan during the year, plus the amount of plan-related expenses expected to be paid from plan assets during the plan year.

The Funding Target is the present value of all benefits accrued under the plan as of the beginning of the year.

The Funding Shortfall is the excess (if any) of the funding target over the assets of the plan (as reduced by the prefunding balance and the funding standard carryover balance).

The Shortfall Amortization Installment is the amount necessary to amortize the funding shortfall base of the plan in level installments over a seven-year period.

The Shortfall Amortization Charge is the sum of all shortfall amortization installments for a plan year and each of the six (6) preceding plan years.

2. Asset Valuation Method

In accordance with WRERA and IRS Notice 2009-22, the asset valuation method was changed to the smoothing method of Market Value of Assets plus discounted receivable contributions, adjusted for the three-year phase-in of the difference between actual return and the expected return based on an interest rate no higher than the third segment rate.

3. Valuation Date

The first day of the plan year.

TEREX PENSION PLAN**Summary of Plan Provisions**

For participants formerly in the Koehring Cranes & Excavators, Inc. Hourly Employees Pension Plan (Benton Harbor):

Effective Date: January 1, 1967 as amended to present.

Eligibility: Any person who is employed at the Benton Harbor, Michigan facilities and who is paid on an hourly basis. Employees who were participants in the prior plans on January 1, 1987 shall continue to be participants. All other employees regularly employed on the last day of the third calendar month shall become participants.

Normal Retirement: Normal Retirement is the date of attainment of age 65. The lifetime monthly Normal Retirement Benefit shall be equal to the benefit level below multiplied by years of Benefit Service to March 19, 1992.

<u>Benefits Commencing</u>	<u>Benefit Level</u>
January 1, 1990	\$13.50
March 1, 1991	14.00

Early Retirement: Upon reaching age 55 with at least 10 years of Vesting Service, a Participant is eligible for an Early Retirement Benefit payable at age 65 equal to his accrued Normal Retirement Benefit. If payment commences prior to the Normal Retirement Date, the Accrued Benefit is reduced 1/180 for each of the first 60 months and 1/360 for each of the next 60 months that retirement precedes the Normal Retirement Date.

Deferred Vested Retirement: A Participant is eligible for a Deferred Vested Retirement Benefit after 5 years of Vesting Service. The amount of the benefit is equal to his accrued Normal Retirement Benefit. Payment may commence at age 55 with the same reduction as the Early Retirement Benefit should the Participant have 10 Years of Vesting Service.

Vesting Service: A member is credited with one year of vesting service for each plan year during which he has at least 1,000 hours of service.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Koehring Cranes & Excavators, Inc. Hourly Employees Pension Plan (Benton Harbor):

Survivor Benefits:

Before Retirement: If a Participant has completed at least 5 Years of Vesting Service and dies before his Normal Retirement Date, his surviving spouse is entitled to a benefit payable at the later of age 55 or the date of death. The benefit is the 50% Joint and Contingent benefit with the spouse as the Contingent Annuitant reduced for Early Retirement at date of commencement.

After Retirement: If a Participant is married as of the date that his pension commences, the payment will be paid in the form of a 50% Joint and Contingent benefit. Under the Joint and Contingent benefit, a reduced amount is paid to the Participant for his lifetime, and his spouse, if surviving at the time of his death, shall receive a lifetime pension equal to 50% of the reduced pension paid to the Participant. The participant, with his spouse's consent, may reject the benefit in this form and elect another option.

Options:

A Participant may elect a Life Option, Ten Year Certain and Life Annuity, or a 50%, 75% or 100% Contingent Annuitant Option.

Service Definition:

Period of Participation: The period of time commencing on an Employee's Employment Commencement Date or Reemployment Commencement Date, which is applicable, and ending on the Employee's Severance from Service Date. A Participant's Period of Participation shall be measured in complete years, months and days.

Vesting Service: The sum of a Participant's total service credited for vesting purpose under a Prior Plan plus the number of whole years within his Period of Service measured to exact days.

Period of Service is the same as Period of Participation but includes an employee's Period of Severance as provided in the plan.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Koehring Cranes & Excavators, Inc. Hourly Employees Pension Plan (Benton Harbor):

Benefit Service:

The total service credited to a Participant of Former Participant for benefit accrual purposes under a Prior Plan together with the number of whole years within his Period of Participation.

Accrued Benefit:

The Accrued Benefit is calculated using Benefit Service and the benefit level in effect as of the date of determination.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Terex Salaried Employees Retirement Plan.

Effective Date of Plan: January 1, 1989 (merged plan).

Eligibility: A salaried employee of Northwest Engineering Company or Koehring Cranes & Excavators, Inc. and their successor or successors, who have satisfied the Plan's eligibility requirements. Effective 10/23/1992, the TUS Hourly Plan (Terex Corporation Hourly Rate Employees' Plan) was merged into this plan and all former TUS Hourly Participants were eligible to participate in this Plan. There were no active Participants at TUS Hourly.

Normal Retirement: Normal retirement is the first of the month coincident with or immediately following the attainment of age 65. For salaried Participants, the lifetime monthly Normal Retirement Benefit shall be equal to the greater of (a) and (b) below:

- a) The accrued benefit for each participant as of 12/31/1991.
- b) The accrued benefit formula under the Merged Plan:
 - i) in the case of a Participant born prior to 1938, 1.02% of such Participant's Final Average Annual Compensation plus .71% of such Final Average Annual Compensation in excess of the Participant's Covered Compensation, multiplied by the Participant's years of Credited Service not in excess of 25 years,
 - ii) in the case of a Participant born during the years 1938 and 1954, the formula specified in i) above, but modified by replacing the 1.02% and .71% figures stated therein with 1.08% and .65%, respectively, and
 - iii) in the case of a Participant born after 1954, the formula specified in i) above, but modified by replacing the 1.02% and .71% figures stated therein with 1.13% and .60%, respectively.

The accrued benefit is frozen as of May 7, 1993.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Terex Salaried Employees Retirement Plan.

- c) For a Participant in the former Northwest Engineering Salaried Plan: i) a part of the benefit will be paid from John Hancock if he had an annuity purchased for the benefit earned prior to 1976 and ii) the benefit will be reduced if the Participant elects to take his Contingent Account in a lump sum.
- d) For a Participant in the former TUS Hourly Plan, the gross accrued benefit as of April 1, 1984 (based on Terex service and GM service to January 5, 1981) offset by benefits payable by GM based on GM credited service to January 5, 1981.

Compensation:

Total salary including overtime earnings and bonuses paid to a Participant by the employer in a calendar year. Final Average Annual Compensation is the average over five consecutive calendar years.

Covered Compensation:

The Social Security Table 1 amount in effect January 1 (rounded to \$600) based on the Participant's year of birth.

Early Retirement:

Salaried Participants: Upon reaching age 55 with at least 5 years of Service, a Participant is eligible for an Early Retirement Benefit. The benefit payable at age 65 is equal to his accrued Normal Retirement Benefit.

If payment commences prior to the Normal Retirement Date, the Accrued Benefit is reduced by 5/10 of 1% for each complete month the early retirement pension benefit commences prior to the Normal Retirement Date.

TUS Hourly Participants: The earliest of i) attainment of age 60 and the completion of 10 years of Credited Service, ii) attainment of age 55 if the sum of the Participant's age and Credited Service equals or exceeds 85, or iii) the completion of 30 years of Credited Service.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Terex Salaried Employees Retirement Plan.

Accrued Benefit reduced for early commencement prior to age 62. If the Participant has 30 years of Credited Service or if the sum of the Participant's age and Credited Service at retirement equals or exceeds 85, his benefit will be increased to the unreduced level beginning at age 62.

**Deferred Vested
Retirement Benefit:**

A participant is eligible for a Deferred Vested Retirement Benefit after 5 years of Service. The benefit payable at age 65 is equal to the accrued Normal Retirement Benefit. Payment may commence at age 55 (60 for TUS Hourly) reduced should the Participant have 10 years of Service.

Survivor Benefits:

Salaried Participant:

Before Retirement: If a Participant has completed at least 5 years of Vesting Service and dies before his Normal Retirement Date, his surviving spouse is entitled to a benefit payable at the later of the date the Participant would attain age 55 or the date of death. The benefit is the 50% Joint and Contingent benefit with the Participant's spouse as the Contingent Annuitant. It is reduced for Early Retirement at date of commencement.

At Retirement: If a Participant is married as of the date that his pension commences, the payment will automatically be made in the form of a 50% Joint and Contingent benefit. Under the Joint and Contingent benefit, a reduced amount is paid to the Participant for his lifetime, and his spouse, if surviving at the time of his death, shall receive a lifetime pension equal to 50% of the reduced pension paid to the Participant. The Participant, with his spouse's consent, may reject the benefit in this form and elect another option.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Terex Salaried Employees Retirement Plan.

TUS Hourly Participant:

Before Retirement: Death of a vested Participant who had been married at least one year at his date of death.

60% of the Participant's Early Retirement Benefit on his date of death that would have been payable at attainment at age 62 or age at date of death if older than 62. No pension plan survivor benefits are payable for any month in which the spouse is receiving Survivor Income benefits under the Terex Insurance Program.

At Retirement: If a Participant is married as of the date that his pension commences, the payment will automatically be made in the form of a Joint and 60% Survivor Annuity Option. The Participant, with his spouse's consent, may reject the benefit in this form and elect another option.

Options:

Salaried Participants: A Participant may elect a life option, 50%, 75% or a 100% Contingent Annuitant Option. In certain conditions a lump sum payment of part or all of the benefit may be payable.

If the lump sum is less than \$3,500, the Company may direct payment to be made.

TUS Hourly Participants: A married Participant may elect a life option or a Joint & 75% Survivor Annuity.

Credited Service:

The sum of a Participant's or Former Participant's Credited Service as of December 31, 1988, and the number of years post December 31, 1988, using the elapsed time method to exact days. No Credited Service after May 7, 1993.

Vesting Service:

The sum of a Participant's or Former Participant's Credited Service as of December 31, 1988, and the number of years post December 31, 1988, using the elapsed time method to exact days.

Accrued Benefit:

The Accrued Benefit at any given date is based on a Participant's Final Average Annual Compensation, Covered Compensation and Credited Service as of the date of determination or May 7, 1993 if later.

TEREX PENSION PLAN**Summary of Plan Provisions (continued)**

For participants formerly in the Royer Foundry and Machine Company Retirement Plan.

Eligibility for Participation: The January 1 following attainment of age 20½ and completion of six months of service (1,000 hours per year).

Compensation: Total earnings during a calendar year.

Average Compensation: The annual average of Compensation in the 10 consecutive calendar years immediately preceding the date of determination.

Credited Service: Prior to January 1, 1976, one month of service is credited for each month in which at least one hour of service is credited. After January 1, 1976, a full year of service is credited for each year in which at least 1,000 hours are worked. Service was frozen as of December, 31, 2001.

Covered Compensation: The average of the Social Security taxable wage bases for the 35-year period ending with the calendar year in which a participant attains his Social Security retirement age (age 65 if born before 1938, age 66 if born after 1937 and before 1955, and age 67 if born after 1954), rounded to the nearest \$1, assuming that there are no increases in the Social Security taxable wage base after the calendar year of termination of active participation.

Normal Retirement Benefit: Eligibility: Age 65.

Benefit: .75% of Average Compensation up to Covered Compensation plus 1.25% of Average Compensation in excess of Covered Compensation, multiplied by Credited Service.

Early Retirement Benefit: Eligibility: Age 55 and 20 years of Credited Service.

Benefit: Same as the Normal Retirement Benefit, determined as of the date of early retirement, reduced by 1/15th for each of the first five years and 1/30th for each of the next five years by which the benefit commencement date precedes normal retirement.

TEREX PENSION PLAN**Summary of Plan Provisions (continued)**

For participants formerly in the Terex Corporation Retirement Program for Salaried Employees.

Effective Date:	January 1, 1981, as amended through January 1, 1987.
Eligibility Requirements:	Salaried employees become participants on the first of the month following completion of six months of service and the attainment of age 21.
Credited Service:	Years and fractions computed to the nearest full month, excluding any period after Normal Retirement Date. If an employee is hired after January 1, 1981, Credited Service shall not include any period prior to his 22 nd birthday. Credited Service prior to January 1, 1981 equals Credited Service on December 31, 1980 under the GM-Salaried or Hourly Plan. Up to 12 months of Credited Service will be granted to an employee on layoff or other approved leave if he was an Eligible Employee on the day before the layoff. Effective April 1, 1984, no additional Credited Service will be earned by any participant.
Final Average Monthly Earnings:	The average monthly basis (i.e., excluding overtime, cost of living allowances, commissions, bonuses, etc.) compensation for the highest 60 consecutive months during the last 120 months preceding retirement or termination. As a result of the April 1, 1984 benefit freeze, no increases in Final Average Monthly Earnings will be recognized after April 1, 1984.
Normal Retirement Age:	The later of age 64 or the completion of 10 years of Credited Service, but not later than age 65 with 5 years of participation.
Early Retirement Age:	The earlier of a) attainment of age 60 and the completion of 10 years of Credited Service, or b) attainment of age 55 if the sum of the participant's age and Credited Service equals or exceeds 85. [Effective January 1, 1981 (adopted January 6, 1984), vested terminated employees who attain age 55 may elect to retire early.]
Postponed Retirement Age:	Subsequent to Normal Retirement Age, but not later than age 70.

TEREX PENSION PLAN

Summary of Plan Provisions (continued)

For participants formerly in the Terex Corporation Retirement Program for Salaried Employees.

Vesting Eligibility: 100% vesting upon completion of 5 years of Credited Service or Vesting Service. (For this purpose only, Credited Service will continue beyond April 1, 1984).

Disability Eligibility: Becomes eligible if entitled to benefits under an extended disability plan.

Normal Retirement Benefit: 1.75% times years of Credited Service of the Final Average Monthly Earnings, minus the sum of: a) 1.75% times years of Credited Service (to a maximum of 50%) of the Primary Social Security Benefit and, b) for former Terex-GM employees, the vested accrued monthly benefits earned under any of the GM plans, excluding 50% of the Part B Primary Benefit of the GM Salaried Plan for terminations prior to January 1, 1986. (100% of Part B Primary Benefit is excluded for terminations after December 31, 1985.)

The Normal Retirement Benefit is subject to the following minimum: 1.75% times years of Credited Service after January 1, 1981 of the Final Average Monthly Earnings, minus 1.75% times years of Credited Service after January 1, 1981 (to a maximum of 50% of the Primary Social Security Benefit.

Effective April 1, 1984, no future benefit accruals will be credited to any participant's account.

Early Retirement Benefit: Accrued Benefit reduced 0.5% for each month his annuity commencement date precedes his Normal Retirement Date.

Disability Benefit: A deferred benefit to begin at Normal Retirement Date equal to the benefit at normal retirement based on Final Average Monthly Earnings as of date of disability and Credited Service includes years during disability up to the Normal Retirement Date.

TEREX PENSION PLAN

For participants formerly in the Koehring & Northwest Engineering Hourly Pension Plan:

Summary of Plan Provisions (continued)

Early Retirement:

Upon reaching age 55 with at least 10 years of Vesting Service, a Participant is eligible for an Early Retirement Benefit payable at age 65 equal to his accrued Normal Retirement Benefit. If payment commences prior to the Normal Retirement Date, the Accrued Benefit is reduced 1/180 for each of the first 60 months and 1/360 for each of the next 60 months that retirement precedes the Normal Retirement Date.

Effective January 8, 2000, any employee with a minimum of 30 years of seniority may retire at age 55 or older without any reduction of pension benefits.

Deferred Vested Retirement Benefit:

A Participant is eligible for a Deferred Vested Retirement Benefit after 5 years of Vesting Service. The amount of the benefit is equal to the Accrued Benefit. Payment may commence at age 55 with the same reduction as the Early Retirement Benefit should the Participant have 10 Years of Vesting Service.

Disability:

A Participant is eligible for a Disability Retirement Benefit if his employment is terminated by disability after 10 Years of Service, if hired after the Effective Date, or any Years of Service if hired before the Effective Date. The amount of the benefit shall be determined in the same manner as the Normal Retirement Benefit considering Years of Participation up to his date of disability.

Survivor Benefits:

Before Retirement: If a Participant has completed at least 5 Years of Service and dies before his Normal Retirement Date, his surviving spouse is entitled to a benefit payable at the later of age 55 or the date of death. The benefit is the 50% Joint and Contingent benefit with the spouse as the Contingent Annuitant. It is reduced for Early Retirement at date of commencement.

TEREX PENSION PLAN

For participants formerly in the Koehring & Northwest Engineering Hourly Pension Plan:

Summary of Plan Provisions (continued)

Survivor Benefits (continued)

After Retirement: If a Participant is married as of the date that his pension commences, the payment will be paid in the form of a 50% Joint and Contingent benefit. Under the Joint and Contingent benefit, a reduced amount is paid to the Participant for his lifetime, and his spouse, if surviving at the time of his death, shall receive a lifetime pension equal to half of the reduced pension paid to the Participant. The Participant, with his spouse's consent, may reject the benefit in this form and elect another option.

Options:

A Participant may elect a Life Option, Ten Year Certain and Life Option, or a 50%, 75% or 100% Contingent Annuitant Option.

Options may vary for Participants who entered the Plan due to a merger.

If the lump sum retirement benefit is less than \$3,500, the company will direct payment to be made.

Years of Participation:

For purposes of determining service commencing on or after January 1, 1984 (July 1, 1990 for Waterloo), Years of Participation shall be credited as follows: One Year of Participation for each Plan Year which ends after an Employee becomes a Participant and in which he is credited with at least 1,700 Hours of Service. If an employee is credited with less than 1,700 Hours of Service for a Plan Year, he shall be credited with fractional years of Participation computed in accordance with the table on the following page:

1/1/2009 Valuation

Schedule SB, line 25 – Change in Method

In accordance with Section 403(h)(2)(D)(ii) of the Internal Revenue Code, Terex Corporation elected to use interest rates under the corporate yield curve in lieu of the segment rates. Such curve shall be determined using spot rates rather than a 24-month average. Furthermore, as permitted by the regulation for the 2009 Plan Year, Terex Corporation elects to use as an applicable month's rates, the October 2008 rates.

In accordance with WRERA and IRS Notice 2009-22, the asset valuation method was changed to the smoothing method of Market Value of Assets plus discounted receivable contributions, adjusted for the three-year phase-in of the difference between actual return and the expected return based on a rate no higher than the third segment rate. In 2008, the asset valuation method was Market Value of Assets plus receivable contributions

Balance or Prefunding Balance

Plan Name	<u>Terex Pension Plan</u>	EIN:	<u>34-1531521</u>
Plan Sponsor's Name	<u>Terex Corporation</u>	PN:	<u>001</u>

If the balance from the prior year has been adjusted so that it does not match the corresponding amount in line 13 of the prior-year Schedule SB, explain:

On December 31, 2008, the Koehring Cranes & Excavators, Inc. Hourly Employees Pension Plan(EIN/PN 34-1531521/007), the Cedarapids, Inc. Pension Plan for Employees in a Collective Bargaining Unit(EIN/PN 42-0332910/003), the Simplicity Engineering UAW Retirement Income Plan(EIN/PN 31-1515625/025) were merged into the Terex Retirement Program for Salaried Employees(EIN/PN 34-1531521/001) and the plan was renamed the Terex Pension Plan. The Carryover Balance on line 7 is the sum of the carryover balance from line 13 of the prior-year Schedule SB of the four merged Plans.
