MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements
December 31, 2009 and 2008

(1) Description of Plan

The following description of the MacAulay-Brown, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company. To be eligible for participation in the Plan, employees must have attained the age of 21 and not (1) be covered by a collective bargaining agreement; or (2) be nonresident aliens who do not receive earned income from the employer that constitutes U.S. source income; or (3) be employees of related companies that do not adopt this plan; or (4) be a leased employee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined by the Plan, subject to a maximum of \$16,500 for the 2009 plan year. Participants may also make deferrals to the Plan on an after-tax basis in accordance with the Roth 401(k) provisions of the Economic Growth and Tax Reconciliation Act of 2001. Participants who have attained age 50 before the end of the plan year may contribute a "catch-up" contribution of an additional \$5,500 in accordance with the provisions of the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The employer match for the employees of the Technical Services Division of the Company is 50% of the first 4% of participants' compensation contributed to the Plan. For each employee of the Management Services Division of the Company, the employer match is 100% of the first 5% of participants' compensation contributed to the Plan. Additionally, the employer may elect to make a discretionary match at the beginning or end of the year. For 2009, the Company elected to make an additional discretionary match for the employees of the Technical Services Division. The discretionary match was 50% of the second 4% of participants' compensation contributed to the Plan.

For former employees of Gray Research, Inc. the employer match is 100% of the first 3% and 50% of the next 2% of employee deferrals. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by each individual participant.

Notes to Financial Statements
December 31, 2009 and 2008

(1) Description of Plan, Continued

Contributions, Continued

The Company may also elect to make an annual discretionary profit sharing contribution on behalf of eligible active participants. Any such contribution is allocated to participants based on each eligible active participant's compensation to the total compensation paid to all eligible active participants. Eligible active participants must (1) have at least 501 hours of service during the plan year; or (2) be employed on the last day of the plan year; or (3) have died, become disabled, or retired during the plan year. The Company elected to make a profit sharing contribution only for former employees of Gray Research, Inc., for the year ended December 31, 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses including loan origination and processing fees. Allocations are based on participant compensation or account balances, as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and employer matching contributions plus earnings thereon. Vesting in the Company's discretionary matching contributions portion of their account is based on years of service. A participant is 100% vested after five years of service based on a step vesting schedule.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 less the highest outstanding loan balance over the preceding twelve-month period, or 50% of their vested account balance, whichever is less. Loan terms range from one to five years unless the loan qualifies for the purchase of a principal residence. The term of a loan for the purchase of a principal residence is a period mutually agreeable to the participant and the plan administrator. Loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator. The interest rates on loans outstanding at December 31, 2009 range from 5.00% to 8.69%. Principal and interest are paid ratably through payroll deductions. Upon termination of employment, the outstanding principal and interest balance is immediately payable.

(1) Description of Plan, Continued

Payment of Benefits

Upon retirement, death, disability or termination of service, participants or their beneficiaries may elect to receive benefit payments in the form of installment payments or a single lump-sum payment equal to the value of the participant's vested interest in his or her account.

Forfeitures

As of December 31, 2009 and 2008, there was \$10,377 and \$579, respectively, in the forfeiture account. This balance will be used to offset future employer contributions.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition, Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid directly by the Company. Loan origination and processing costs and other administrative fees of \$10,907 were charged to participant accounts for the year ended December 31, 2009.

Subsequent Events

The Plan has evaluated subsequent events through September 15, 2010, the date the financial statements were available to be issued.

(3) Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31:

	2009	2008
Fidelity Retirement Money Market Portfolio	\$ 10,699,086	\$ 9,412,544
Fidelity Diversified International Fund	\$ 5,919,824	\$ 3,725,202

During 2009 the Plan's investments associated with shares of registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$13,534,670.

MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements December 31, 2009 and 2008

(4) Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company (Fidelity), except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule. The following information was certified by Fidelity:

- The investments at fair value at December 31, 2009 and 2008.
- Net appreciation in the fair value of investments for the year ended December 31, 2009.
- Interest and dividends for the year ended December 31, 2009.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Continued...

MACAULAY-BROWN, INC. 401(k) PLAN

Notes to Financial Statements December 31, 2009 and 2008

(5) Fair Value Measurements, Continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: Valued by the fund sponsor based on quoted market prices of the underlying investments.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair Value Measurements, Continued

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets:

Level 3 Assets	
Year Ended December 31, 2009	
Balance, beginning of year	\$ 622,388
Purchases, sales, issuances, and settlements (net)	528,038
Balance, end of year	<u>\$ 1,150,426</u>

(6) Related Party Transactions

Certain plan investments are shares of registered investment companies, money market accounts and a common collective trust managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.

(8) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter, dated February 27, 2006, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Notes to Financial Statements December 31, 2009 and 2008

(9) Transfers into the Plan

On July 14, 2008, the Company acquired all of the outstanding common shares of Kostech Inc. and permitted the employees of Kostech to participate in the Company's Plan effective September 1, 2008. Total assets of \$237,423 related to the Kostech 401(k) Plan were transferred into the Plan effective July 2, 2009.

On July 15, 2008, the Company acquired all of the outstanding common shares of Gray Research, Inc. and permitted the employees of Gray Research, Inc. to participate in the Company's Plan effective January 1, 2009. Total assets of \$11,314,259 related to the Gray Research 401(k) Plan were transferred into the Plan effective September 1, 2009.

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

(11) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2009	2008
