Independent Auditors' Report

The Participants and Administrator
United Technologies Corporation Represented Employee Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for plan benefits of United Technologies Corporation Represented Employee Retirement Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for plan benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2008, and the related statement of changes in accumulated plan benefits for the year then ended, and the supplemental schedule H, Line 4i – Schedule of Assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by Prudential Retirement Insurance and Annuity Company, and Metropolitan Life Insurance Company (the Insurance Companies), and the information summarized in note 7, which was certified by The Bank of New York Mellon, N.A., the Trustee (the Trustee), except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Insurance Companies and Trustee hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the Insurance Companies and Trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the Insurance Companies and Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Insurance Companies and Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**UNITED TECHNOLOGIES CORPORATION
REPRESENTED EMPLOYEE RETIREMENT PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of the Plan

(a) General

The United Technologies Corporation Represented Employee Retirement Plan (the Plan) is a noncontributory defined benefit retirement plan. The Plan covers certain domestic hourly paid employees of United Technologies Corporation and its subsidiaries (UTC) covered by a collective bargaining agreement. Employees are eligible to participate after completing 1,000 hours of eligible service and the earlier of (i) attaining age 21 and completion of one year of eligible service or (ii) completion of 5 years of eligible service. The Plan is administered by UTC (the Plan Administrator) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The following brief description of the Plan is provided for general information purposes only. More complete information is provided by the Summary Plan Description and Plan Document which are available from the Plan Administrator.

(b) Vesting and Benefit Provisions

Under the terms of the Plan, participants are fully vested after 5 years of service and are eligible for pension benefits upon retirement. Generally, participants are eligible for retirement at age 65. Eligible employees are entitled to monthly pension benefits based upon the participant's years of credited service and fixed benefit rates. The rates vary for each business division.

Eligible participants could receive early retirement benefits, reduced in a manner set forth in the Plan document, based upon age and service at termination.

If, upon termination, the present value of the pension benefit as of the participant's normal retirement age is less than or equal to \$5,000, the vested portion of the benefit will be transferred to an IRA account if the participant does not elect otherwise. The Plan also provides for disability benefits and pre-retirement death benefits, for certain groups of employees.

(2) Summary of Accounting and Reporting Policies

The significant accounting and reporting policies followed by the Plan are summarized below:

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the dates of the financial statements and the changes in net assets available for plan benefits during the reporting periods. The actuarial present value of accumulated plan benefits and contributions to the Plan are based upon the actuarial methods and

UNITED TECHNOLOGIES CORPORATION
REPRESENTED EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2009 and 2008

assumptions selected regarding salary rates, employee termination rates, mortality rates and other factors. Actual results could differ from those estimates.

(c) Contributions

Employer contributions are determined on an actuarial basis and are recorded during the Plan year to which they pertain.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses/Related Party Transactions

Expenses incurred in the administration of the Plan including fees paid to third party administrators and other expenses, primarily actuarial fees and Pension Benefit Guaranty Corporation (PBGC) premiums, are paid from the Plan's assets.

Certain plan investments are managed by the Trustee and Insurance Companies. These transactions qualify as party-in-interest transactions. For the years ended December 31, 2009 and 2008, fees paid by the Plan or allocated to the Plan in the Master Trust for investment advisory services and trustee services to the Trustee amounted to \$6,491,449 and \$10,876,105, respectively. For the years ended December 31, 2009 and 2008, fees paid by the Plan or allocated to the Plan in the Master Trust for investment advisory services, trustee and administrative expenses to the Insurance Companies amounted to \$515,451 and \$603,706, respectively.

(f) Investments in Insurance Contracts and Pooled Separate Accounts

The Plan's investments in insurance contracts are reported based upon unaudited statements certified by Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (the Insurance Companies) (see note 6). Under these contracts a portion of the investments are held in Immediate Participation Guarantee (IPG) Funds held by the Insurance Companies, and pooled separate accounts held by Metropolitan Life Insurance Company. The IPG Funds are reported at contract value based on the deposited assets plus interest on such assets less costs of administration and payment of benefits. Contract value approximates fair value. Interest is credited to the IPG Funds in accordance with the estimated allocation procedures of the Insurance Companies. Investments in pooled separate accounts are valued at fair value. The Insurance Companies have discretionary authority concerning investment of such deposits. The investments held in the IPG Funds were established prior to March 20, 1992 and therefore are reported at contract value as permitted by ASC 960, *Reporting by Defined Benefit Pension Plans of Investment Contracts*.

(g) Master Trust

The Plan's interest in the UTC Master Trust (Master Trust) is based upon the value of units of participation as certified by the Master Trust Trustee (see note 7). Master Trust investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

UNITED TECHNOLOGIES CORPORATION
REPRESENTED EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2009 and 2008

The fair value of the Plan's interest in investment income/(loss) and realized and unrealized appreciation/(depreciation) in the market value of the invested assets of the Master Trust, net of investment advisory and trustee fees, is allocated to the Plan by the Trustee based on the Plan's proportionate interest in the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned.

(h) *Risks and Uncertainties*

The investment managers retained by the Plan Administrator have discretion to invest Master Trust assets in derivative financial instruments to manage risk as well as to enhance yields. These derivatives are primarily in the form of forward foreign exchange contracts, and various equity and interest rate futures. Such derivative instruments are reported at fair value within the Master Trust, and the changes in fair value are reported currently in the net appreciation/(depreciation) of the Master Trust and not deferred. The future foreign exchange contracts represent an obligation to receive or disburse the change in the market value of the index. A portion of the Master Trust's assets are invested in international securities. As a result, the Master Trust assets are exposed to risk from fluctuations in foreign exchange rates.

By nature, all financial instruments involve risk, generally market risk, arising from changes in stock and bond prices, interest rates or currency exchange rates, credit risk, and the risk that an issuer or counter party will default on an agreed-upon transaction.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(i) *Fair Value Measurement*

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – The types of instruments classified as Level 1 are valued based on quoted market prices in active markets.
- **Level 2** – The types of instruments classified as Level 2 are valued based on inputs other than quoted prices that are observable for the asset, such as quoted prices for similar instruments in active markets or similar instruments in markets that are not active and model-based valuations

UNITED TECHNOLOGIES CORPORATION
REPRESENTED EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2009 and 2008

for which all significant assumptions are observable or can be corroborated by observable market data.

- **Level 3** – Investments classified as Level 3 have inputs based on unobservable price data. They typically trade infrequently and therefore have little or no price transparency. Fair value pricing is developed based on the best information available which can include the reporting entity's own data.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(j) New Accounting Pronouncements

In June 2009, the FASB updated ASC 106, *Generally Accepted Accounting Principles*, to establish the FASB ASC as the single source of authoritative source or GAAP. The ASC reorganizes GAAP pronouncements into accounting topics and displays all topics using a consistent structure. The Plan adopted the updates to ASC 105 effective June, 2009. The ASC impacted the reference to accounting pronouncements with the Plan's notes to the financial statements, but had no impact on its financial position or changes in net assets.

In May 2009, the FASB updated ASC 855, *Subsequent Events*, to establish the period after the statement of net assets date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity shall recognize events or transaction occurring after the statement of net assets date in its financial statements and the disclosures that a plan shall make about events or transactions that occurred after the balance sheet date. The Plan adopted the updates to ASC 855 effective May, 2009. The updates to ASC 855 did not impact the Plan's results of operations or changes in net assets.

In October 2008, the FASB updated ASC 820, *Fair Value Measurements and Disclosures*, to provide additional guidance for determining fair value when the volume and level of activity for an asset or liability has significantly decreased and on identifying circumstances that indicate a transaction is not orderly. The updates to ASC 820 are effective for 2009 and have been reflected in the financial statements.

In March 2008, the FASB updated ASC 815, *Derivative and Hedging*, to enhance disclosure requirements for derivative instruments and hedging activities regarding how any why derivative instruments are used; how derivative instruments are accounted for under ASC 815 and its related interpretations; and how they affect financial position and financial performance. The Plan's adoption of this guidance resulted in expanded disclosure.

Notes to Financial Statements

December 31, 2009 and 2008

In September 2009, FASB issued Accounting Standards Update No. 2009-12, “*Fair Value Measurements and Disclosures (Topic 820)*” (ASU). The ASU provides guidance on using the net asset value provided by the investee to estimate the fair value of certain alternative investments. The ASU also provides guidance on factors that should be considered in determining the appropriate fair value categorization in the fair value hierarchy if a reporting entity cannot redeem its investment with the investee at net asset value per share (or its equivalent) at the measurement date, but the investment may be redeemable with the investee at a future date. The ASU allows for a reclassification of certain investments from Level 3 to Level 2 in the FAS 157 fair value hierarchy reported in Note 7. The adoption of the ASU is reflected in these financial statements. The Plan’s management does not believe this adoption had a material impact on these financial statements.

In January 2010, the FASB issued ASC Update 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements*. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. The Plan’s management does not believe the adoption of this guidance will have a material impact on the financial statements.

(k) Reclassification

Certain prior year balances have been reclassified to conform to the current year’s presentation.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan’s provisions to the service employees have rendered as of the actuarial valuation date. Accumulated plan benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan’s actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

UNITED TECHNOLOGIES CORPORATION
REPRESENTED EMPLOYEE RETIREMENT PLAN

Notes to Financial Statements

December 31, 2009 and 2008

The significant actuarial assumptions used in the valuation to determine benefit obligations as of December 31, 2008, were:

	2008
a. Discount rate	6.10%
b. Mortality	RP-2000
c. Retirement age	Decrementations averaging at age 62; for certain employees earlier of age 63 and 25 years of service and age 65, and for other employees earlier of age 63 and 15 years of service and age 65

The present value of accumulated plan benefits as of December 31, 2008 increased approximately \$11 million as a result of several Plan amendments, including benefit rate increases at multiple business divisions.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

(4) Funding Policy

UTC's funding policy is to make periodic contributions to the Plan in amounts computed by the Plan's actuary using the Present Value of Accrued Benefits Method. This method and the actuarial assumptions have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. Contributions for the years ended December 31, 2009 and December 31, 2008 met the minimum funding requirements of ERISA.

(5) Plan Termination

Although UTC has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan terminates, the net assets generally will not be available on a pro rata basis to provide for participants benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. The maximum amount of PBGC guaranteed benefits for terminations in 2010 is \$4,500 per month. Some benefits may be fully or partially provided for by the existing Plan assets and the PBGC guarantee while other benefits may not be provided for at all.

Upon termination, UTC shall give notice to the PBGC and shall comply with its procedures and lawful orders. As soon as it may do so, UTC thereupon shall cause all amounts in the hands of the Trustee and Insurance Companies to be allocated and distributed in the manner and order set forth in Section 4044 of ERISA to the extent of the sufficiency of the Plan's assets.

UNITED TECHNOLOGIES CORPORATION

Notes to Financial Statements

Additional information concerning the priority order of participants' claims to the assets of the Plan upon termination can be obtained from the Summary Plan Description, which is available from the Plan Administrator.

(6) Immediate Participation Guarantee (IPG) Funds and Pooled Separate Accounts (Unaudited)

A portion of the Plan's assets are held in IPG Funds with the Insurance Companies and separate accounts with Metropolitan Life Insurance Company. Amounts invested in IPG Funds are primarily invested in Prudential's General Account under a contract established on January 1, 1978 and earn the same rate of return that Prudential's general fund achieves. The remaining assets are invested in IPG Funds and pooled separate accounts held by the Insurance Companies under various contracts. These contracts continue in perpetuity and may be terminated by either party. Under the terms of the IPG Funds' contracts, the Insurance Companies maintain separate accounting of investment income and expenses.

The following is a summarization of the unaudited amounts held under the contracts certified by the Insurance Companies in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

		December 31

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008. The following table does not include the plan's interest in the Master Trust because that information is presented in a separate table (See note 7).

Fair value measurements as of December 31, 2009				
	Level 1	Level 2	Level 3	Fair value
Separate accounts	\$ —	502,799	—	502,799
Total at fair value	\$ —	502,799	—	502,799

Fair value measurements as of December 31, 2008

Separate accounts	\$ —	502,167	—	502,167
Total at fair value	\$ —	502,167	—	502,167

Separate Accounts are valued at fair value based on underlying fixed income securities that are generally valued using current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

(7) Investment in Master Trust (Unaudited)

UTC has entered into a Master Trust agreement with Bank of New York Mellon, N.A. as Trustee. Under this agreement, certain pension plans of UTC and its subsidiaries combine certain of their investments in the Master Trust.

Participating plans receive units of participation in this pool of investments based on their contributions to the Master Trust. The plans redeem units of participation to meet plan requirements to pay pension benefits and administrative expenses. The Plan's interest in the total Master Trust was approximately 22% and 23% at December 31, 2009 and 2008, respectively.

UTC stock held in the Master Trust had a fair value of \$602,040,823 and \$622,025,213 at December 31, 2009 and 2008, respectively. UTC stock held in the Master Trust represents approximately 4% and 5% of the Master Trust's Net Assets at December 31, 2009 and 2008, respectively.

Notes to Financial Statements

December 31, 2009 and 2008

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Quoted market prices are used to value equity, certain actively traded debt, and mutual fund investments when available. Investments in securities traded on national and foreign securities exchanges are valued using the pricing services' reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices.

Forward currency contracts, futures and options are valued at the exchange rates and market prices prevailing on the last business day of the year. Both exchange rates and market prices are readily available from published sources. Temporary cash investments are stated at fair value.

For securities that have no quoted market price, many factors are considered in arriving at that fair market value, as described below:

Common Collective Trusts invest in other public or private individual assets as determined and managed by the fund. The Plan's interest in the common/collective trust funds are based on the fair values of the underlying investments. Investments in collective trust funds are valued at their respective net asset value per share/unit on the valuation date.

For fixed income securities, the market approach pricing methodology is primarily used where observable prices are obtained by market transactions involving identical or comparable securities of issuers with similar credit ratings. Mortgages have been valued on the basis of their future principal and interest payments discounted at prevailing interest rates for similar investments.

Real estate investments are valued on a quarterly basis; principally rental property subject to long-term leases has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved. These valuation estimates are supplemented by third-party appraisals on an annual basis.

Limited partnerships, principally private equity investments, are valued quarterly by the general partner using various valuation methods such as discounted cash flows, earnings multiples and market multiples. Valuation adjustments occur which reflect changes in operating results, financial condition, or prospects of the applicable portfolio company. Since valuation estimates are typically lagged a quarter, a third quarter roll-forward valuation process is used for fund level partnerships. This process takes into account latest reported valuation, monthly capital calls, management fees, return of capital, income distributions, and realized gains/losses.

In preparing its 2008 ASC 820 disclosures, the Plan has considered the nature of the underlying investments in classifying its investments by type and valuation level. The classification of investments in the Master Trust statement of net assets reflects a classification based on the structure of the investment. As an example, real estate held within a limited partnership structure may be classified differently. The Plan believes the presentation of investments by ASC 820 valuation levels is representative of the required disclosures.

Notes to Financial Statements

December 31, 2009 and 2008

The Plan's interest in certain common collective trusts and limited partnerships are reported at the net asset value (NAV) reported by the fund managers. NAV is used to estimate the fair value of the Plan's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of December 31, 2009, the Plan had no specific plans or intentions to sell investments at amounts different than NAV. The following summarizes these investments:

	<u>Fair value (in millions)</u>	<u>Unfunded commitments</u>	<u>Lockups</u>	<u>Redemption frequency (if currently eligible)</u>	<u>Redemption notice period</u>	<u>Major category</u>
Equity commingled fund of emerging market common stocks	\$ 709	—	None	Monthly	60 days for < 10% of assets, 90 days for 10-25% of assets, 120 days for > 25% of assets	Common Collective Trust

Global balanced risk commingled fund of equity, fixed income and some commodities	682	—	None	Monthly	5 Business Days	Limited Partnerships
Total	<u>\$ 1,874</u>	<u>—</u>				

For the remaining funds in the limited partnerships category that report fair value using the Plan's proportionate interest in the fund, the Plan cannot dissolve its interest before periods that may range up to 10 years from the closing date.

Securities Lending Activities

The Master Trust participates in a fee-based securities lending program whereby certain securities in the separate investment accounts are loaned to third-party brokers. The Master Trust retains control over loaned securities, which remain assets of the Master Trust and are not removed from the accounting records. The Master Trust has the ability to sell the securities while on loan. Fees received for loaning the securities, net of direct expenses, are recorded as interest income under the Master Trust. To minimize lending risk, the Securities Lending Agreement requires cash-collateral loans maintain collateralization ratios of 100% to 102% while non-cash-collateral loans maintain collateralization ratios of 100% to 105%. Collateral is priced daily and re-balanced as required. Cash collateral is invested during the period securities are on loan. The value of reinvested collateral has been reduced to reflect unrealized losses as a result of declines in market value.

Notes to Financial Statements

December 31, 2009 and 2008

At December 31, 2009 and 2008, Master Trust assets lent under this arrangement had a market value of \$678,587,749 and \$1,395,513,530, respectively, and earned interest net of fees of \$5,709,498 and \$14,076,252 for the twelve months ended December 31, 2009 and 2008, respectively.

Derivative Financial Instruments

At December 31, 2009 and 2008, the Master Trust had open foreign currency contracts to purchase approximately \$1,253,000,000 and \$1,857,000,000, respectively, and sell approximately \$1,253,000,000 and \$1,871,000,000, respectively, of various foreign currencies. The open foreign currency contracts receivable and payable balances are included in the other receivables and other payables captions in the Master Trust statement of net assets.

(8) Tax Status of the Plan

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated November 17, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(9) Subsequent Events

The Plan evaluated subsequent events through October 14, 2010, the date of issuance of its financial statements.

Schedule SB, Line 8 – Portion Used to Offset Prior Year's Funding Requirement

The amount reported on Line 8 of the 2009 Plan Year Schedule SB of \$67,227,666 represents the Carryover balance amount elected by the plan sponsor during 2008, prior to the determination of the final 2008 plan year minimum required contribution. The election was not revoked and therefore, the reported amount represents the non-revoked excess funding balance election. Line 35 of the 2008 Plan Year Schedule SB was limited to the minimum funding requirement for the 2008 Plan Year of \$52,537,060, and therefore, differs from the amount report on Line 8 of the 2009 Plan Year Schedule SB.

Schedule SB, Line 24 – Change in Actuarial Assumptions

The non-prescribed actuarial assumptions were reviewed and modified to reflect the enrolled actuary's best estimate of future plan experience. As a result, the following change was made:

Type	From	To
Marriage percentage (where other than 100%)	80%	81%, to account for the addition of death benefit coverage for domestic partners.

EIN: 06-0570975 PN: 010
Schedule SB, Line 25 – Change in Method

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Aspect of the Valuation	Old	New
Actuarial Value of Assets	Fair Market Value	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings, with such expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of fair value, including contributions receivable.
Funding Interest Rate for Contributions	IRS prescribed segment rates without 3-year transition, as of January 2008	IRS prescribed full corporate bond yield curve, based on bond yields published in November 2008 (based on October 2008 yields)
Assumed plan-related expenses	None	0.2% of the fair value of assets

Schedule SB, Part V – Summary of Plan Provisions

Monthly benefit levels in above table effective:

- 1/1/2008 for Pratt & Whitney
- 6/1/2007 for Hamilton Sundstrand
- 3/1/2009 for Sikorsky**
- 1/1/2007 for Government Engine Business
- 1/1/2007 for International Fuel Cells and ONSI

** Since the adoption and effective dates were after the valuation date of 1/1/09, the prior plan provisions (including a maximum benefit multiplier of \$52 as described in the 2008 Summary of Plan Provisions) were used in the 2009 funding valuation. In addition, please note that the maximum benefit multiplier will increase to \$65 effective March 1, 2011. This increase will first be reflected for ERISA PPA purposes in the January 1, 2011 actuarial valuation.

b. For employees at Sikorsky only, cash balance supplement, equal to the sum of (i) and (ii):

- (i) Pay Credits: At the end of each month, pay credits are added to the cash balance account. \$28 (* \$40 effective March 1, 2009) per week of covered employment (represents \$0.70 (* \$1.00 effective March 1, 2009) per hour at 40 hours per week). Credits accrue from the later of April 1, 2002 and date of hire. Pay credits stop accruing when the participant retires, terminates or dies.
- (ii) Interest Credits: An interest credit is added to the account at the end of each month. It is equal to the product of the account balance as of the end of the prior month and $1/12 [(1+i)^{(1/12)} - 1]$ of the annual interest rate in effect for the year. The annual interest rate is set each January 1 and is based on the average yield on 10-year Treasury notes during the month of November of the prior year. Interest credits continue until the date payments begin.

Benefit can be paid as with the full account or an equivalent annuity.

c. Definitions

- (i) Annual Earnings: Total compensation including pre-tax contributions to the savings plan and pre-tax contributions to a cafeteria plan, but excluding awards and reimbursements. Base pay rate in the last partial year is annualized. Annual earnings are limited each year to the applicable Section 401(a)(17) pay limit, as indexed (\$245,000 for 2009).
- (ii) Final Average Earnings: The average Annual Earnings for the highest five calendar years in the last ten calendar years before termination. The highest five years must be consecutive for Government Engine Business.
- (iii) Maximum Benefit: A participant's benefit will not exceed the Section 415 limit, as indexed.
- (iv) Continuous Service (service): The total period of a participant's employment, including service after Normal Retirement Date.
- (v) Credited Service: Continuous Service but excluding:
 - a break in service which exceeds 30 days,
 - leaves of absence without compensation in excess of one year, and
 - service counted as Credited Service under any other defined benefit retirement plan of the company.
- (vi) Annuitization Basis (to convert cash balance account to life annuity): The annuitization basis is set each January 1 for the year, and is based on the IRS 417(e) basis for the month of November of the prior year, and the 417(e) government mandated mortality table.

* The change was adopted and effective after 1/1/09 and therefore, not included for 1/1/09 ERISA PPA purposes.

Schedule SB, Part V – Summary of Plan Provisions

3. Normal Retirement

- a. Date: First of the month following the date on which a participant attains age 65.
- b. Benefit: The accrued benefit at retirement payable monthly. For Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity.

4. Early Retirement

- a. Date: First of the month following retirement after the attainment of age 55 and the completion of 10 years of service, but before the Normal Retirement Date.
- b. Benefit: The accrued benefit at retirement payable monthly reduced 2.4% per year for each year benefit commencement precedes age 62. The benefit is unreduced if the participant retires on or after the attainment of age 62. For Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity.

5. Postponed Retirement

- a. Date: First of the month following retirement after the Normal Retirement Date.
- b. Benefit: The accrued benefit at retirement payable monthly. For Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity.

6. Vested Termination

- a. Eligibility: Termination of employment after completing five years of service (* three years for Sikorsky effective March 1, 2009), but before becoming eligible for early, normal or postponed retirement.
- b. Benefit: The accrued benefit at termination payable monthly commencing on the Normal Retirement Date. A participant can commence payment of the benefit on the first day of any month following the attainment of age 55, with the benefit reduced 5% per year for each year benefit commencement precedes the Normal Retirement Date. For Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity. Payment can be deferred until as late as Normal Retirement Date; Interest Credits continue until payments begin.
- c. Rule of 65 Benefit: (For Pratt & Whitney, IFC and Hamilton Sundstrand only) Participants terminating employment between ages 50 and 55 whose age plus service equals at least 65 are eligible to receive benefits commencing at age 55, with the benefit reduced as described in 4.b. above.

7. Disability Benefit

- a. Eligibility: Disability after completing 5 years of service (ten years of service for Sikorsky) and receiving Social Security disability benefits.
- b. Benefit: The accrued benefit at disability payable monthly commencing on the first of the month following one year of disability and continuing during the participant's lifetime until the earliest of:
 - the date Social Security disability benefits cease
 - the date retirement benefits commence
 - deathFor Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity. Payment can be deferred until as late as Normal Retirement Date; Interest Credits continue until payments begin.

* The change was adopted and effective after 1/1/09 and therefore, not included for 1/1/09 ERISA PPA purposes.

8. Pre-retirement Death Benefits

- a. Eligibility: If a vested participant (or former participant) dies before receiving a retirement benefit, the following survivor benefits are payable:
- b. Benefit:
 - (i) If the participant dies after becoming eligible for an early, normal or postponed retirement benefit, a 100% contingent annuitant benefit is payable, and payment commences immediately, reduced as described in 4.b. above, or if the contingent annuitant is the spouse, as late as when the participant would have attained age 65. For Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity, based on beneficiary age payable to selected beneficiary.
 - (ii) If the participant dies after completing 10 years of service and is married, but does not meet the requirements of (i) above, a 100% spouse's benefit is payable, and payment commences when the participant would have attained age 55, reduced as described in 7.b. above, or age 65. For Sikorsky participants, the cash balance supplement as the full account value or an equivalent annuity only available to a spouse, based on spouse age.
 - (iii) If the participant dies after completing five years of service and is married, but does not meet the requirements of (i) or (ii) above, a 50% spouse's benefit is payable, and payment commences when the participant would have attained age 55, reduced as described in 7.b. above, or age 65. Rocketdyne

1. Eligibility

- a. Eligible Employees: Employees of Rocketdyne covered by a collective bargaining agreement which provides for participation under this subplan.
- b. Participation Requirements: Eligible Employees become participants on the date of employment.

2. Accrued Benefit

- a. Formula: \$720 (* \$744 effective September 1, 2011) x years of Credited Service

- b. Definitions

- (i) Continuous Service (service): Continuous Service prior to January 1, 1976 is based on the provisions of the plan as then in effect to the nearest one-twelfth of a year. After that date, service is based on hours of service in each calendar years as follows:

<u>Hours of Service</u>	<u>Continuous Service Earned</u>
41 – 79	1/12 year
80 – 999	1/12 year for every 80 hours
1,000 or more	1 year

- (ii) Credited Service: Credited Service prior to January 1, 1976 is based on the provisions of the plan as then in effect to the nearest one-twelfth of a year. After that date, Credited Service is based on hours of service in each calendar year as follows:

<u>Hours of Service</u>	<u>Credited Service Earned</u>
74.6 – 149	1/12 year
150 – 1,799	1/12 year for every 150 hours
1,800 or more	1 year

3. Normal Retirement

- a. Date: Last day of the month following the date on which a participant attains age 65 and 5 years of service, but not later than April 1 of the calendar year following the calendar year in which the employee attains age 70½.
- b. Benefit: The accrued benefit at retirement payable monthly.

* The change is not included for 1/1/2009 ERISA PPA purposes and will first be reflected in the actuarial valuation for the 2011 plan year.

4. Early Retirement

- a. Date: Any day after the participant attains age 55 and completes 10 years of service, but before the Normal Retirement Date.
- b. Benefit: The accrued benefit at retirement payable monthly reduced 6% per year for each year benefit commencement precedes age 62. The benefit is unreduced if the participant retires on or after the attainment of age 60 and the completion of 20 years of Credited Service, or after the attainment of age 55 and the completion of 30 years of Credited Service.
- c. Supplemental Benefit: Available to any participant who retires before age 62 and has satisfied one of the following criteria:
 - Age 60 with 20 years of Credited Service
 - Age 55 with 30 years of Credited Service
 - Age 55 with age plus years of Credited Service at least 85.

A Supplemental Benefit of \$650 per month is payable until the earliest of age 62, eligibility for Social Security benefits, or death.

5. Postponed Retirement

- a. Date: Any day following retirement after the Normal Retirement Date.
- b. Benefit: The accrued benefit at retirement payable monthly.

6. Vested Termination

- a. Eligibility: Termination of employment after completing five years of service or attaining age 65, but before becoming eligible for early, normal or postponed retirement.
- b. Benefit: The accrued benefit at termination payable monthly commencing on the Normal Retirement Date. A participant can commence payment of the benefit any time after the attainment of age 55 and the completion of 10 years of service, with the benefit actuarially reduced for each month benefit commencement precedes the Normal Retirement Date.

7. Disability Benefit

- a. Eligibility: Total and permanent disability after completing 10 years of service.
- b. Benefit: The accrued benefit at disability payable monthly commencing six months after disablement.
- c. Supplemental Benefit: A monthly benefit of \$31 x years of Credited Service (maximum 25). This Supplemental Benefit is payable until the earlier of age 65 or eligibility for unreduced Social Security benefits.

8. Pre-retirement Death Benefits

- a. Eligibility: If a married vested participant dies prior to receiving an early, normal or postponed retirement benefit, the following benefit is payable:
- b. Benefit: A 55% spouse's benefit is payable, and payment commences on the first day of the month following death or, if later, the earliest date on which the participant would have been eligible to retire based on service at death.

Schedule SB, Part V – Summary of Plan Provisions

9. Lump Sum Post-retirement Death Benefit

- a. Eligibility: Death while receiving a disability or retirement benefit. Participants who are not in receipt of a disability or retirement benefit upon death are not eligible for this benefit.
- b. Benefit: A \$1,000 lump sum benefit payable to the participant's beneficiary or estate.

10. Form of Payment

- a. Normal Form:
 - (i) Life annuity for unmarried participants
 - (ii) A subsidized 55% joint and survivor annuity with pop-up for married participants (married at least one year). The initial reduction factor of 5% is then reduced 0.5% for each year the participant's age exceeds the spouse's age or increased 0.5% for each year the spouse's age exceeds the participant's age (maximum increase is 5%).

- b. Optional Forms:
 - (i) Level income
 - (ii) 55% joint and survivor level income
 - (iii) 75% contingent annuity

The normal form of payment is converted to the 55% joint and survivor level income optional form by first converting to a single level income annuity using the 417(e) government mandated basis and then converting to a 55% joint and survivor annuity using the methodology outlined in section 10(a)(ii) above.

The normal form of payment is converted to the 75% contingent annuity optional form using 6% interest rate and GAR-94 Mortality (unisex).

- c. Automatic Lump Sum Payment: for participants whose benefit has a lump sum value of \$5,000 or less under 417(e) government mandated basis.

Schedule SB, Line 11a – Excess Contributions

The amount reported on Line 11a of the Schedule SB for the 2009 Plan Year of \$26,322,284 differs from the amount reported on Line 38 of the Schedule SB for the 2008 Plan Year. Line 38 of the Schedule SB for the 2008 Plan Year indicated an interest-adjusted excess contribution for the 2008 Plan Year of \$0 since the plan sponsor did not intend to establish any Prefunding Balance related to excess contributions made for the 2008 Plan Year.

Line 11a of the Schedule SB for the 2009 Plan Year shows the actual amount of excess contributions for the 2008 Plan Year, based on discounted employer contributions for the 2008 Plan Year of \$78,859,344 (Line 37 of the Schedule SB for the 2008 Plan Year) and a total funding requirement for the 2008 Plan Year of \$52,537,060 (Line 34 of the Schedule SB for the 2008 Plan Year).

No prefunding balance is established for the 2009 Plan Year based on these excess contributions, as shown on Line 11d of the Schedule SB for the 2009 Plan Year.
