Farmers/21st Century 401(k) Savings Plan
Notes to Financial Statements
From July 1, 2009 (Inception) to December 31, 2009

1. Description of the Plan

The following description of the Farmers/21st Century 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on July 1, 2009 in connection with the acquisition by Farmers Group, Inc. of certain companies from American International Group, Inc. ("AIG"). The Plan was designed to cover a six month period from July 1, 2009 (inception) to December 31, 2009. As of the end of the business day on December 31, 2009, the Plan was merged with and into the Farmers Group, Inc. 401(k) Savings Plan (the "Farmers 401(k) Plan"), with the Farmers 401(k) Plan as the surviving plan. All provisions of the Plan that were inconsistent with the Farmers 401(k) Plan were considered deleted so that the terms, conditions and provisions of the Farmers 401(k) plan prevailed. In connection with the merger, the Plan's net assets of \$103,745,508 were transferred on December 31, 2009 to the Farmers 401(k) Plan.

The Plan was maintained for the exclusive benefit of eligible employees of the acquired AIG companies and their beneficiaries. Participants were allowed to rollover their account balances from their prior defined contribution plan with AIG to the Plan. Participants elected to rollover \$87,060,882 into the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") as amended from time to time.

Participant Accounts

Contributions to the Plan were deposited with the Plan's trustee, Vanguard Fiduciary Trust Company. The participants' accounts were maintained by the Plan's administrator in the employee's name. The account was comprised of an employee contribution account balance, an employer matching contribution account balance and a rollover account balance, if applicable. Each active participant's account is ordinarily credited with participant and employer contributions and income or loss on Plan assets. Participants could direct all assets to any of the available investment options. Investment options could be changed daily and accounts were adjusted for changes in the market value each day.

Vesting

Participants are immediately 100 percent vested in their account balance.

Payment of Benefits

Participants who terminate may elect to receive a distribution in any of the Plan's options. Options include a lump sum distribution in cash of direct rollover, installments or deferral until age 70.5 when required distributions must begin.

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of one-half of the participant's account balance or \$50,000. Loans range from 1 to 5 years or up to 15 years for home loans. The loans are collateralized by the participant's account balance and bear interest at prime plus 1 percent. The interest rate ranged between 3.25 percent to 11.00 percent from July 1, 2009 (inception) to December 31, 2009.

1. Description of the Plan (Continued)

Administrative Expenses

Expenses relating to the administration of the Plan are generally absorbed by Farmers Group, Inc.

Contributions

Contributions to the Plan include employee and employer matching contributions along with rollover contributions.

Employee and employer matching contributions were made together with each payroll. Employees may contribute from 1 percent to 50 percent of eligible salary on a pre-tax basis. The employer match was contributed on a graded schedule based on credited years of service.

Rollover contributions represented contributions transferred into the Plan by the eligible participants from another qualified retirement plan.

Forfeitures

Participants are fully vested in the Plan, therefore no forfeitures were incurred in 2009.

Other Information

The Plan Administrator had responsibility and authority for the control of the operation and administration of the Plan in accordance with its terms. Effective July 1, 2009, the Plan Administrator appointed Vanguard Group, Inc. as the Plan's recordkeeper. Furthermore, effective July 1, 2009, the Plan Administrator established a trust with Vanguard Fiduciary Trust Company, as the trustee, which held all of the assets of the Plan, other than those assets of the Plan that were invested in Farmers Fund A, a collective investment fund, and Farmers Fund B, a separate investment trust. Those assets of the Plan that were invested in Farmers Fund A and Farmers Fund B were held in a separate trust established between Farmers Group, Inc. and DWS Trust Company, serving as the trustee.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan had been prepared on the accrual basis of accounting and present the net assets available for benefits and the changes in those net assets.

Investment Valuation and Income Recognition

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Plan's investments and requires additional disclosure about fair value. Fair value is the price that would be received to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in the Plan primarily consisted of mutual funds, a separate investment trust, participant loans and a stable value fund held in accounts with the Plan's trustee. The Plan's investments were stated at fair value. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value of shares held by the Plan.

Separate investment trust's equities: Investments in equities were comprised of common stocks and real estate investment trusts listed on a national securities exchange and over-the-counter

From July 1, 2009 (Inception) to December 31, 2009

2. Summary of Significant Accounting Policies (Continued)

securities were valued at the last reported sale price on the valuation date or, if no sales were reported for that day, the last published sale price.

Separate investment trust's fixed income securities: Investments in fixed income securities were comprised of corporate bonds, U.S. government securities, asset- and mortgage-backed securities, and collateralized mortgage obligations. Corporate bonds and U.S. government securities were valued by pricing services based on yields currently available on comparable issues with similar credit ratings and broker quotes from dealers who are market makers in these investments. Asset- and mortgage-backed securities and collateralized mortgage obligations were valued based on observable data including pre-payment speeds, treasury and swap curves, cash settlements, and volatilities.

Participant loans: Valued at amortized cost, which approximates fair value.

Stable value fund: Invested in a collective trust which was valued based on the net unit value from using the audited financial statements of the collective trust.

Purchases and sales of securities were reflected on a trade date basis. Interest income was recorded on the accrual basis and dividend income was recorded on the ex-dividend date. The Plan presented, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of its investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Payment of Benefits

Benefit payments were recorded when paid.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provided for various investment options in any combination of stocks, bonds, fixed-income securities, mutual funds, collective trusts, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits. Market values of the Plan's investments may decline for a number of reasons, including changes in prevailing market and interest, increase in defaults and credit rating downgrades.

Notes to Financial Statements
From July 1, 2009 (Inception) to December 31, 2009

3. Investments

Participants had the option to invest in a stable value fund – Farmers Fund A. The Plan provided this option through investing in the Pyramid Stable Value Portfolio ("PSVP") which is a collective investment trust organized by Deutsche Bank Trust Company Americas. PSVP invests in fully benefit-responsive investment contracts that consist primarily of synthetic guaranteed investment contracts ("Synthetic GICs"), but may also hold Traditional Guaranteed Investment Contracts. Synthetic GICs are constructed by combining a stable value wrapper and a fixed income collateral portfolio owned by the PSVP. The rate of return earned on a Synthetic GIC is generally reset quarterly by the issuer, and the contracts contain provisions that prevent future rates from falling below zero. The crediting rate is based on the current yield-to-maturity, the duration of the portfolio, and the amortization of gains and losses (defined as the difference between the market value and contract value of the wrapper). Contract value represents, contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Because the Plan invests in a fully benefit-responsive investment contract through a collective investment trust, contract value is the relevant measurement attributed for that portion of the net assets available for benefits and changes therein.

Stable value funds seek to provide a stable net asset value and crediting rate by managing portfolio cash flows, managing the duration, quality and diversification of the underlying fixed income investments, amortizing market value based portfolio gains and losses over the duration of the portfolio and by utilizing wrap providers who are contractually required to make up the difference between portfolio market value and book value under certain circumstances.

The Plan's investments in mutual funds, which exclude investments in a master trust, (including gains and losses on investments bought and sold, as well as held from July 1, 2009 (inception) to December 31, 2009) appreciated by \$4,671,961.

4. Investments Held in Master Trust

A portion of the Plan's investment was in a trust with DWS Trust Company ("Trust"). The Trust also held investments of the Farmers 401(k) Plan during 2009. When the Plan was in existence during 2009, the Trust operated as a master trust. Investment income and administrative expenses relating to the master trust were allocated to the individual plans based upon each of the plan's interest, as of July 1, 2009 when that Plan began participation in the master trust, within each of the investments funds held by the master trust. Upon merger of the Plan into the Farmers 401(k) Plan on December 31, 2009, there were no investments considered held by the master trust at December 31, 2009.

The following table is a summary of the master trust's investment income:

Net investment income:

Interest, dividends and other	\$ 15,362,808
Net appreciation	51,903,249
	<u>\$ 67,266,057</u>

Farmers/21st Century 401(k) Savings Plan
Notes to Financial Statements
From July 1, 2009 (Inception) to December 31, 2009

4. Investments Held in Master Trust (Continued)

The master trust's investments, including realized gains and losses on investments sold and unrealized gains and losses on investments held, appreciated as follows:

Net appreciation:

Equity securities	\$	48,592,423
Fixed income securities		3,310,826
	\$	<u>51,903,249</u>

5. Tax Status

The Plan was designed to be compliant with Section 401(a) of the Internal Revenue Code and was therefore exempt from federal income taxes under the provision of Section 501(a). While the Plan has not applied for a determination letter from the Internal Revenue Service, the Plan's administrator and the Plan's tax counsel believed that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes had been included in the Plan's financial statements.

6. Related Party Transactions

Some of the Plan investments were shares of mutual funds or common/collective trusts managed by affiliates of DWS Trust Company and Vanguard Fiduciary Trust Company. DWS Trust Company and Vanguard Fiduciary Trust Company were the trustees of the Plan. Therefore, these transactions qualified as party-in-interest transactions permitted by the Department of Labor's regulations. Management fees were assessed at the mutual funds and common/collective trust level.

7. Plan Merger / Termination

As described in Note 1, as of the end of the business day on December 31, 2009, the Plan was merged with and into the Farmers 401(k) Plan, with the Farmers 401(k) Plan as the surviving plan. All provisions of the Plan that were inconsistent with the Farmers 401(k) Plan were considered deleted so that the terms, conditions and provisions of the Farmers 401(k) Plan prevailed. In connection with the merger, the Plan's net assets of \$103,745,508 were transferred on December 31, 2009 to the Farmers 401(k) Plan.

8. Subsequent Events

The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued.
