To the Plan Administrator
Grant Forest Products 401(k) Plan
Fairfax, South Carolina

We were engaged to audit the financial statements of the ***Grant Forest Products 401(k) Plan*** (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, and the supplemental schedule as of December 31, 2009, as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4 which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to and do not express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DECEMBER 31, 2009 AND 2008**

Note 1. Description of Plan

The following description of the Grant Forest Products 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan which covers employees of Grant Allendale, Inc. and any participating affiliates (GFP Inc.). These affiliates include Grant Clarendon, Inc. and Grant US Sales, Inc. The Plan covers substantially all employees of the aforementioned corporations (the "Companies") who have met certain requirements such as length of service and age. Each employee is eligible to participate on the first plan entry date following the attainment of age 21 and the completion of three months of service. Plan entry dates are the first day of each month. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute up to 50% of their pretax annual compensation as defined in the Plan subject to the limitations as defined in the Internal Revenue Code (IRC). The Companies match 100% of the first 5% of compensation that a participant contributes to the Plan.

Qualified non-elective contributions may be made by the Companies in order to satisfy the nondiscrimination tests described in the IRC. Qualified non-elective contributions are allocated to every Plan participant employed by the Companies on the last day of the year and to any participant who has retired, become disabled, or died during the Plan year. The Companies did not make any qualified non-elective contributions for the years ended December 31, 2009 and 2008.

Rollover and transfer contributions to the Plan are permitted upon meeting certain requirements. Participants are 100% vested in rollover and transfer contributions.

Participant accounts

Each participant's account is credited with the participant's contribution, the Companies' matching contributions, and allocations of the Companies' qualified non-elective contributions, plan earnings, and administrative expenses. Allocations are based on the participants' earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited accounts

Forfeited non-vested accounts may be used to supplement or reduce contributions by the employer or be reallocated to the participants as directed by the plan administrator. Employer contributions were reduced by forfeitures of \$25,097 and \$81,713 for the years ended December 31, 2009 and 2008.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Companies' matching and qualified non-elective contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service based on date of hire.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

Note 1. Description of Plan (Continued)

Investment options

Upon enrollment in the Plan, participants may direct their contributions, the Companies' matching contributions, and the Companies' qualified non-elective contributions, if any, in a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options at any time.

Participant notes receivable

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to thirty years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate effective at the time of loan approval plus two percent.

Loan transactions are treated as transfers to (from) the investment fund from (to) the participant loan fund.

Payment of benefits

On termination of service, if a participant's vested account balance does not exceed \$1,000 (excluding rollover contributions and earnings thereon), the Plan will automatically distribute the participant's vested account balance in a lump sum. If his or her vested account balance exceeds \$1,000 but is less than \$5,000 (excluding rollover contributions and earnings thereon), a participant may elect to receive a single lump sum or roll over the vested balance into an individual retirement account (IRA) or other qualified plan; however, if no election is made by the participant, the Plan will automatically roll over the vested balance into an IRA with an affiliate of the Plan's trustee. If his or her balance exceeds \$5,000 (excluding rollover contributions and earnings thereon), a participant may elect to receive the value of the participant's vested interest in his or her account in the form of a single lump sum, installment payments (annually, quarterly, or monthly) over a specified period of time, or roll over the vested balance into an IRA or other qualified plan.

Participants still employed may withdraw all or part of their vested account, excluding earnings, upon furnishing proof of financial hardship.

Note 2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions

Employee contributions and the Companies' matching contributions are recorded in the period during which the Companies make payroll deductions from the participant's earnings.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008**

Note 2. Summary of Significant Accounting Policies (Continued)

The Companies' qualified non-elective contributions are accrued and paid based on amounts to be funded for each year under the Plan provisions and the applicable requirements of the IRC.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in certain investment contracts through a common/collective trust. Contract value for the common/collective trust is based on the net asset value of the funds as reported by the investment advisor. The statements of net assets available for benefits present the fair value of the investment in this common/collective trust. However, the adjustment of the investment in the common/collective trust from fair value to contract value was insignificant to the statements of net assets available for benefits as of December 31, 2009 and 2008. The statements of changes in net assets available for benefits are prepared on the contract value basis.

Purchases and sales of securities are recorded on a trade-date basis by the trustee. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Plan expenses

Personnel within the Companies perform many administrative duties of the Plan, including maintenance of personnel files and reconciliation of payroll records, at no charge to the Plan. Other administrative costs, including recordkeeping fees, are charged to the individual participants' accounts. Any costs not paid by the Plan may be paid by the Companies. The Companies paid approximately \$26,000 and \$26,900 on behalf of the Plan for the years ended December 31, 2009 and 2008, respectively.

Payment of benefits

Benefits are recorded when paid.

Note 3. Income Tax Status

The Plan originally adopted a standardized 401(k) plan from Automatic Data Processing, Inc. (ADP) which was a qualified plan under applicable sections of the IRC. The prototype plan was approved under the volume submitter program by letter dated November 6, 2001. The Plan has been amended since adopting the prototype. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

During the 2008 plan year, the Plan's terms were violated when certain employees were allowed to enter the Plan before completion of three months of service as required by the Plan. In addition, during the 2008 plan year, certain other participants were allowed to receive in-service distributions that violated the Plan's terms. The errors have subsequently been corrected.

Note 5. Fair Value Measurements

Accounting principles generally accepted in the United States of America provide a framework for measuring fair value (FASB ASC 820-10). The framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009.

- *Common/Collective trusts*: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.
- *Shares of registered investment companies (mutual funds)*: Valued at the net asset value (NAV) of shares held by the plan at year-end.
- *Participant notes receivable*: Stated using amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Party-In-Interest Transactions

Certain of the Plan's investments are in funds which are managed by State Street Bank and Trust Company, the trustee of the Plan.

Note 7. Plan Termination

Although it has not expressed any interest to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events

Plan merger

On May 26, 2010, Georgia-Pacific LLC acquired certain assets of GFP Inc., including Grant Allendale LP, sponsor of the Grant Forest 401(k) Plan. As a result of the acquisition, all actively employed participants of the Plan became 100% vested. In June 2010 after the last GFP Inc. payroll was completed, the Plan was frozen to new participants and all contributions to the Plan ceased and active employees became eligible to participate in the Georgia-Pacific LLC 401(k) Retirement Savings Plan ("GP 401(k) Plan"). The Plan merged into the GP 401(k) Plan effective October 1, 2010 with a final valuation date of September 30, 2010.

New accounting standards

In January 2010, FASB issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements*. ASU No. 2010-06 amends the disclosure requirements of FASB ASC 820 to require new disclosures regarding (a) transfers in and out of Levels 1 and 2 and (b) activity in Level 3 fair value measurements. ASU No. 2010-06 also provides amendments to FASB ASC 820 that clarify existing disclosures regarding (a) the level of disaggregation for each class of assets and liabilities and (b) disclosures about inputs and valuation techniques for fair value measurements that fall in either Level 2 or Level 3. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures regarding the rollforward of activity of Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and interim periods within those fiscal years. Plan management does not believe that the adoption of this guidance will have a material impact on the Plan's financial statements.

Date of plan management's review

Subsequent events have been evaluated through October 14, 2010, which is the date the financial statements were available to be issued.
