Report of Independent Auditors

The Board of Trustees
College of Mount St. Joseph

We were engaged to audit the accompanying statements of net assets available for benefits of the College of Mount St. Joseph Tax Deferred Annuity Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Teachers Insurance and Annuity Association and College Retirement Equity Fund (collectively, TIAA-CREF), as an insurance company, and as recordkeeper and agent for JPMorgan Chase Bank, N.A. (JPMC), a custodian of certain Plan assets, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that TIAA-CREF holds the plan's investments and executes investment transactions. The plan administrator has obtained certifications from TIAA-CREF as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by TIAA-CREF is complete and accurate.

Additionally, the Plan has not maintained sufficient accounting records and supporting documents relating to annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements and supplemental schedule may have been affected by these conditions.

Because of the significance of the information that we did not audit, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole.

Report of Independent Auditors

The Board of Trustees
College of Mount St. Joseph

We were engaged to audit the accompanying statements of net assets available for benefits of the College of Mount St. Joseph Tax Deferred Annuity Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Teachers Insurance and Annuity Association and College Retirement Equity Fund (collectively, TIAA-CREF), as an insurance company, and as recordkeeper and agent for JPMorgan Chase Bank, N.A. (JPMC), a custodian of certain Plan assets, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that TIAA-CREF holds the plan's investments and executes investment transactions. The plan administrator has obtained certifications from TIAA-CREF as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by TIAA-CREF is complete and accurate.

Additionally, the Plan has not maintained sufficient accounting records and supporting documents relating to annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements and supplemental schedule may have been affected by these conditions.

Because of the significance of the information that we did not audit, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements

December 31, 2009

1. Description of Plan

The following description of the College of Mount St. Joseph Tax Deferred Annuity Plan (the Plan) provides general information about the Plan's provisions. The College of Mount St. Joseph (the College) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan available to substantially all employees of the College (specifically excluding student employees). There are no age or service requirements that need to be satisfied.

The College is responsible for the general administration of the Plan. Teachers Insurance and Annuity Association and College Retirement Equity Fund (collectively, TIAA-CREF) is the recordkeeper of the Plan. JPMorgan Chase Bank N.A. is a custodian of certain Plan assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may elect to contribute a percentage of all earnings (W-2 compensation) to the Tax Deferred Annuity Plan. All contributions are made on a pre-tax basis and are subject to certain limitations of the Internal Revenue Code. The plan is also able to accept participant contributions from those who are eligible to make additional deferrals through Age 50 Catch-up Contributions and the Special 403(b) Catch-up Contributions. The Plan accepts participant contributions only. There are no employer contributions to the Plan. Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Forfeitures

Participant contributions are fully vested immediately and cannot be forfeited upon termination of employment or ineligibility to participate in the Plan.

Participant Loans

Participants may take a loan from the Plan, subject to the terms and restrictions in the Individual Agreements. Generally the minimum loan amount that may be taken is \$1,000 and the maximum loan amount is \$50,000. The maximum amount may be less depending on two factors: 1) the amount of the participant's accumulation under the Plan, and 2) whether the participant has taken other loans from the Plan within the last year. If a loan is taken from a TIAA-CREF annuity, the maximum loan amount is further limited to 1) 45% of the combined TIAA and CREF accumulation attributable to participant under the Plan; or 2) 90% of the participant's CREF and TIAA Real Estate accumulation attributable to participation under the Plan for Retirement Loan (RL) loans; or 3) 90% of the participant's TIAA Annuity accumulation attributable to participation under the Plan for a Group Supplemental Retirement Annuity (GSRA) loan. TIAA is authorized under the Plan to administer and account for plan loans available under the terms of the Plan including application and repayment. There were no participant loans outstanding as of December 31, 2009 and 2008, respectively.

TIAA-CREF offers plan loans which are issued directly from funds owned by TIAA and not directly from the participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity. Plan loans outstanding as of December 31, 2009 and 2008 were \$98,451 and \$76,914, respectively.

Payment of Benefits

Participants may request a distribution of deferrals upon termination of employment, disability, attainment of age 59-1/2, financial hardship, or at anytime with respect to pre-1989 deferrals invested in an annuity contract. Participants may elect a distribution of transfer contributions

1. Description of Plan (continued)

and/or rollover contributions at any time subject to the restrictions in the individual agreements. With the proper consents, participants may choose lump sum, partial payment, installment payment, annuity contract, or conversion to an income option. The individual agreements governing the investment options that participants have selected for their contributions may restrict payout options.

Administrative Expenses

All reasonable Plan administration expenses including those involved in retaining necessary professional assistance may be paid from the assets of the Plan, to the extent permitted by the Plan's provisions. These expenses may be allocated among all participants or, for expenses directly related to a participant, charged against their account balance.

Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the plan is terminated, a participant's entire account balance will be distributed from the Plan. To the extent they are invested in an annuity contract, they will receive a distribution of the contract.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

In accordance with ASC 820, *Fair Value Measurements and Disclosures*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

- Level 1 – Fair value is based on unadjusted quoted prices for identical assets in an active market at the measurement date.
- Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets in active markets, and inputs that are observable for the asset, either directly or indirectly.
- Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4) as codified in ASC 820, *Fair Value Measurements and Disclosures*. The standard provides additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. It also provided

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance for the reporting period ended December 31, 2009. Adoption did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, as codified in ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 5 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross

basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 14, 2010, the date the financial statements were available to be issued.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2009	2008
TIAA Traditional Annuity	\$ 4,131,978	\$ 3,831,475
CREF Stock Fund	3,714,786	2,703,927
CREF Global Equities Fund	956,170	685,127
CREF Growth Fund	947,359	650,605

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

3. Investments (continued)

During 2009, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated/(depreciated) in fair value as follows:

	<u>2009</u>
Net realized and unrealized appreciation/(depreciation) in fair value of investments:	
Guaranteed annuity contract	\$ 124,469
Variable annuities	1,621,556
Registered investment companies	41,288
Pooled separate account	<u>(91,701)</u>
	<u>\$ 1,695,612</u>

All investment information disclosed in the accompanying financial statements and supplemental schedules including investments held at December 31, 2009 and 2008, and net appreciation/(depreciation) in fair value of investments, interest and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by TIAA, the recordkeeper of the Plan, as agent for JPMorgan Chase Bank N.A., a custodian of certain Plan assets.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for similar or identical assets that are observable either directly or indirectly. Level 2 inputs include the following:
 - quoted prices for similar assets in active markets

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

4. Fair Value Measurements (continued)

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2009.

- *Registered investment companies:* The fair values of these securities are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.
- *Pooled separate accounts (PSA) (TIAA Real Estate Account):* Consist of fully benefit-responsive investments valued principally from the market value of the underlying real estate holdings or real estate-related investments. Real estate holdings are value principally using external appraisals, which are estimates of property values based on a professional's opinion. Sometimes securities are held as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day and the PSA itself is not traded on an exchange in an active market.
- *Variable annuities:* The fair values of these funds are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing. Some of the funds themselves are not traded on an exchange in an active market. The investment objective of these funds is to achieve a favorable long-term rate of return from a diversified portfolio of foreign and domestic common stocks, corporate bonds, U.S. Treasury securities, fixed income securities and asset-backed securities.
- *Guaranteed Annuity Contract (TIAA Traditional Annuity):* These investments are fully benefit-responsive investments for which contract value approximates fair value. The contract value equals the accumulated cash contributions and interest credited to the Plan's accounts, less any withdrawals. Since the annuity is not available for sale or transfer on any securities exchange, transactions in similar investment instruments are not observable. As a guaranteed annuity backed by TIAA's claim paying ability, the TIAA Traditional Annuity guarantees principal and a minimum interest rate, plus the opportunity for additional amount in excess of the guaranteed rate. These additional amounts, when declared by the TIAA Board of Trustees, remain in effect for the "declaration year." The declaration year begins March 1. The guaranteed minimum interest rate during the accumulation phase is generally 3%, but between 1% and 3% for some contracts. These guarantees of principal and minimum interest rates assure that each participant's accumulation is protected from loss and will always increase in value.

College of Mount St. Joseph Tax Deferred Annuity Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Together, the guaranteed minimum and additional amounts make up the “crediting rate” in the accumulation phase of the account. TIAA uses a “vintage” method of crediting interest for funds in the TIAA Traditional Annuity. Because the yields available on new long-term investments tend to vary over time, TIAA groups the funds received over discrete time period into vintages. The interest credited to each vintage reflects the investment returns initially obtained on TIAA’s investments during each period. When the accumulation in the TIAA Traditional Fund is converted to an annuity based on life expectancy, the present value of the stream payments is equal to the accumulation. The average yield earned by the Plan and credited to participants in the Plan for all fully benefit-responsive investment contracts was 3% and 6% at December 31, 2009 and 2008, respectively.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

6. Related Party Transactions

The Plan holds units of mutual funds and annuity contracts managed by TIAA CREF Financial Services, the recordkeeper of the Plan. This transaction qualifies as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (“IRS”) in Revenue Procedures 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b). The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the

College of Mount St. Joseph Tax Deferred Annuity Plan

7. Tax Status (continued)

Code and, therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.
