Pay Deferral and Savings Plan of Hines Interests Limited Partnership

Notes to Financial Statements

December 31, 2009

1. Description of Plan

The following brief description of the Pay Deferral and Savings Plan of Hines Interests Limited Partnership (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions, a copy of which is available from Hines Interests Limited Partnership (HILP) and certain other adopting organizations (collectively, the Sponsors).

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Employees become eligible to participate in the Plan for purposes of pretax participant contributions, Roth contributions, and matching contributions as of the first day of the first full pay period following the completion of 30 days of employment.

The Plan's administrative personnel committee (the Committee), a committee of executive officers of HILP, has appointed T. Rowe Price Trust Company (the Trustee) as trustee of the Plan.

Contributions

Eligible participants automatically have 3% of their eligible compensation contributed to the Plan as pretax contributions through periodic payroll deductions, unless the participants elect not to contribute or to contribute an alternate amount.

Participants may make pretax contributions of any whole percentage from 1% to 65% of the participants' eligible compensation, not to exceed the maximum dollar limitation under Section 402(g) of the Internal Revenue Code (the Code). Participants may elect from 1% to 65% of their eligible compensation for a payroll period that they would otherwise be eligible to defer as pretax contributions, as Roth contributions. Total pretax contributions and Roth contributions shall not exceed 65% of a participant's eligible compensation for any payroll period. All Roth contributions will be maintained for such participants in a separate Roth contribution account. Participants can roll over account balances from other qualified plans after meeting the eligibility requirements of the Plan.

1. Description of Plan (continued)

The Sponsors make matching contributions of 100% of the first 6% of each participant's pretax contributions to the Plan during the plan year, not to exceed $5,000 for the year. Matching contributions shall also be made on Roth contributions designated by participants, not to exceed the annual plan dollar limit.

Participants who have attained the age of 50 before the close of the plan year are eligible to make catch-up contributions, subject to the limitations of Code Section 414(v). Such catch-up contributions are not subject to any matching contributions from the Sponsors.

Participants may direct the investment of all contributions into the various funds offered by the Plan.

Vesting

Participants are immediately vested in their own pretax, Roth, rollover, catch-up, and after-tax contributions to the Plan, plus actual earnings thereon. All active employees become 100% vested in their matching contributions immediately upon meeting eligibility requirements to receive employer matching contributions, as previously described, or if termination of service occurs due to disability, retirement, or death.

Participant Loans

The Plan includes a loan provision that permits participants to borrow from their accounts (pretax, after-tax, rollover, and vested employer matching accounts) a minimum of $1,000, up to a maximum of 50% of the account balance, not to exceed $50,000, less the highest outstanding loan balance in the preceding 12 months. Loan terms range from six months to five years, and interest rates are based on the prime rate listed on the first business day of the month plus 1%.

Benefit Payments

Regular withdrawals by active participants from the Plan are not permitted, except to the extent of a participant's after-tax contribution, which may be made at any time, but not more frequently than once a plan year. Active participants who have attained the age of 59½ may elect to make a one-time withdrawal of all or any part of their pretax account, Roth account, and/or vested matching account. Active participants who have attained the age of 70 may elect, at any time and

1. Description of Plan (continued)

with no restrictions on frequency, to make a withdrawal of all or any part of their vested account balance. Participants who terminate employment for any reason are entitled to receive the vested portion of their account balance. A terminating participant may elect to receive benefit payments in the form of a lump-sum payment or in installment distributions over a period of time not to exceed the life expectancy of the participant on the benefit payment commencement date. Distributions that become payable upon termination in the amount of $1,000 or less will be made in the form of a lump-sum payment. Distributions greater than $1,000, and less than or equal to $5,000, will be made to a rollover account in the participant's name, unless the participant elects otherwise. Distribution must begin no later than April 1 of the plan year following the later of (a) the plan year in which the participant attains age 70½ or (b) the plan year in which the participant retires.

Administrative Expenses

Certain administrative expenses are paid by the Sponsors on behalf of the Plan.

Plan Termination

Although they have not expressed any intent to do so, the Sponsors have the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate, participants would become 100% vested in their accounts and would receive benefits under the Plan based on their account balances accumulated as of the date of plan termination.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States. Benefit payments to participants are recorded upon distribution.

2. Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes and schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The fair value of investments in mutual funds is based on quoted market prices on the last day of the Plan year. Investments in common collective trust funds include the T. Rowe Price Equity Index Trust Fund and the Stable Value Common Trust Fund. The Equity Index Trust Fund is recorded at net asset value on the valuation date, as determined by the issuer based on the fair value of the underlying investments. Management has determined that the net asset value represents the Plan's fair value. Participant loans are valued at cost, which approximates fair value.

The Stable Value Common Trust Fund invests in fully benefit-responsive investment contracts, including primarily guaranteed and synthetic investment contracts issued by banks, insurance companies, and other issuers. The Stable Value Common Trust Fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the fully benefit-responsive investment contracts represents cost plus accrued income less redemptions.

2. Summary of Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned, and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold, and held during the year.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. FSP 157-4 amended FASB Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, (codified as Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provides additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events,* which was codified into ASC 855, *Subsequent Events,* to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure

the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 4 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements.* ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Subsequent Events

Effective August 2, 2010, the Plan was amended to increase the automatic enrollment pretax contribution rate from 3% to 6%.

Management evaluated subsequent events for the Plan through October 12, 2010, the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2009 and 2008, the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2009 and 2008, and net appreciation in fair value of investments and investment income for the year ended December 31, 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by T. Rowe Price Trust Company, the trustee of the Plan.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2009	**2008**
T. Rowe Price Balanced Fund	**$ 11,699,621**	$ 9,935,105
T. Rowe Price Equity Income Fund	**14,641,638**	12,049,659
T. Rowe Price Growth Stock Fund	**12,693,211**	8,221,031
T. Rowe Price Mid-Cap Growth Fund	**14,391,399**	10,359,787
T. Rowe Price Spectrum Income Fund	**11,179,788**	8,742,155
T. Rowe Price Stable Value Common Trust Fund, at contract value*	**20,520,302**	19,945,429
T. Rowe Price Equity Index Trust Fund	**10,576,090**	8,409,567

*The fair value of this fully benefit-responsive investment was $21,155,598 and $19,760,196 at December 31, 2009 and 2008, respectively.

During 2009, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value as follows:

Mutual funds	$ 33,310,107
Common/collective trust fund	2,256,862
	$ 35,566,969

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data, by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

4. Fair Value Measurements (continued)

The Plan's valuation methodology used to measure the fair values of mutual funds was derived from quoted market prices, as these instruments have active markets. The valuation techniques used to measure the fair values of common/collective trust funds and participants loans are included in Note 2.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	**Level 2**	**Level 3**	**Total**
Common/collective trust funds:				
Stable value fund[(a)]	$ –	$ 21,155,598	$ –	$ 21,155,598
Equity index trust fund[(b)]	–	10,576,090	–	10,576,090
Mutual funds:				
U.S. equities	59,383,736	–	–	59,383,736
Asset allocation funds[(c)]	49,294,539	–	–	49,294,539
U.S. bonds	12,823,143	–	–	12,823,143
International equities	12,426,707	–	–	12,426,707
Money market	1,468,474	–	–	1,468,474
Loans to participants	–	–	2,668,377	2,668,377
Total assets at fair value	$ 135,396,599	$ 31,731,688	$ 2,668,377	$ 169,796,664

[(a)] This category includes a common/collective trust fund that is designed to maximize current income, provide preservation of capital, and allow for participant-initiated withdrawals without penalty or adjustment. The Plan is required to provide notice 90 days in advance to liquidate its entire share in the trust. For further discussion of the value of this trust, see Note 2.

[(b)] This category includes a common/collective trust that is designed to provide investment results that replicate the total return of the Standard & Poor's 500 Composite Stock Price Index. There are currently no redemption restrictions on this investment. The fair value of the investment in this category has been estimated using the net asset value per share.

[(c)] This category includes funds that invest in a blend of U.S. and international equities, bonds, and money market funds, designed to provide the highest total return over time consistent with an emphasis on both capital growth and income. There are no redemption restrictions on this investment.

4. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2008			
	Level 1	**Level 2**	**Level 3**	**Total**
Common/collective trust funds	$ –	$ 28,169,763	$ –	$ 28,169,763
Mutual funds	92,845,929	–	–	92,845,929
Loans to participants	–	–	2,647,976	2,647,976
Total assets at fair value	$ 92,845,929	$ 28,169,763	$ 2,647,976	$ 123,663,668

The table below sets forth a summary of changes in the fair value of the Plan's participant loans for the year ended December 31, 2009:

Balance at January 1, 2009	$ 2,647,976
New loan issuances, net of repayments	20,401
Balance at December 31, 2009	$ 2,668,377

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 13, 2003, stating that the Plan is qualified under Section 401(a) of the Code and therefore the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

6. Party-in-Interest

The Plan invests in shares of registered investment companies and common/collective trusts that are managed by the Trustee. These transactions qualify as party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the Code.

7. Risks and Uncertainties

The Plan provides for various investments in registered investment companies and common/collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

8. Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits and the net increase in net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2009	**2008**
Net assets available for benefits per the financial statements	**$ 169,161,368**	$ 123,848,901
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	**635,296**	(185,233)
Net assets available for benefits per the Form 5500	**$ 169,796,664**	$ 123,663,668

	Year Ended December 31 2009
Net increase in net assets available for benefits per the financial statements	$ 45,312,467
Plus current-year adjustment from contract value to fair value for fully benefit-responsive investment contracts	635,296
Plus prior-year adjustment from contract value to fair value for fully benefit-responsive investment contracts	185,233
Net income per the Form 5500	$ 46,132,996

As more fully described in Note 2, fully benefit-responsive investment contracts are valued at contract value on the statement of net assets available for benefits, whereas the Form 5500 requires these investments to be reported at fair value.
