Notes to financial statements

Note A – Plan description and summary of significant accounting policies

The following description of Rio Grande Mexican Restaurant (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution pension plan established November 1, 1999, most recently amended effective October 1, 2009. The Plan covers all employees of the Company who have completed 1,000 hours of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective October 1, 2009, JP Morgan Chase Bank ("JP Morgan" or "Trustee"), replaced Principal Life Insurance Company ("Principal") as trustee and plan recordkeeper. JP Morgan offers plan participants a variety of investment options. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Eligible participants may make pre-tax contributions between 1% and 90% of their annual compensation defined by the Plan agreement, subject to an annual Internal Revenue Code ("IRC") limit. Employee contributions are made through regular payroll deductions. A participant's annual contribution may not exceed the maximum amount allowed under the IRC, which was $16,500 and $15,500 for 2009 and 2008, respectively. Participants may also make rollover contributions to the Plan representing distributions from other qualified retirement plans. There is no limitation on the amount of rollover contributions a participant may make to the Plan.

The Company provides a discretionary match. Currently, the Company matches 50% of the employee's contribution up to 5%. Additional amounts may be contributed at the discretion of the Company's Board of Directors. No discretionary contributions were made by the Company in 2009.

All participants 50 years of age or older on December 31 of each year are eligible to make additional catch-up contributions, subject to IRS limitations. A catch-up contribution can be made if the eligible participant made the maximum contribution permitted by the IRC for the year. The limit for catch-up contributions for was $5,500 and $5,000 in 2009 and 2008, respectively.

Investment options

Upon enrollment into the Plan, a participant may direct their employee contributions in any whole percentage increment to any of the investment fund options offered by the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan and participants may change their allocation on a daily basis. JP Morgan Chase maintains participant contributions in pooled separate accounts.

Note A – Plan description and summary of significant accounting policies (continued)

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions and (b) Plan earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Participant loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the excess (if any) of (i) the highest outstanding balance of loans from the Plan during the twelve (12) month period ending on the day before the loan is made, over (ii) the outstanding balance of loans from the Plan on the date the loan is made or 50% of their vested account balance. The loans are collateralized by the balance in the participant's account and bear interest at rates from 4.25% to 10.25%, which commensurate with local prevailing rates as determined by the Plan administrator in accordance with the Plan document. Principal and interest is paid ratably through bi-weekly payroll deductions over a term not to exceed five years. If the loan is for the purchase of a primary residence, the loan may extend beyond five years. The repayment term may not extend beyond a period longer than the repayment period consistent with commercial practices.

Vesting

Participants are immediately vested in their contributions plus allowed Plan earnings thereon. Vesting in the remainder of their account (i.e., employer contributions plus Plan earnings or losses thereon) is based on years of service, as follows:

Years of service	Percent vested
Less than 1 year	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Forfeitures

Participants who terminate employment prior to becoming fully vested in the Employer contribution portion of their account forfeit non-vested amounts. Amounts forfeited during a Plan year are first used to pay Plan administrative expenses and then reduce Employer contributions. Administrative expenses and employer matching contributions were reduced by $548 and $675 in 2009. As of December 31, 2009 and 2008, the Plan had no unallocated balances.

Payment of benefits

Payment of benefits are generally permitted upon death, disability, retire, or termination of service. Additionally, participants may request an in-service distribution from all accounts upon age 59½. If the vested account balance exceeds $5,000, participants will receive a single lump-sum payment. If the vested account balance does not exceed $5,000, participants vested account balance will be transferred to an E*Trade account. Benefits are recorded as distributions to participants when paid.

Note A – Plan description and summary of significant accounting policies (continued)

Basis of presentation and use of estimates

The preparation of financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities at the date of the financial statements and the reported changes in net assets available for plan benefits during the reporting period. Accordingly, actual results could differ from those estimates.

Risks and uncertainties

The Plan provides for various investment securities, which, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

Valuation of investments

The Plan's investments in pooled separate accounts are stated at fair value based on quoted market prices of the net asset value of shares held by the Plan at year-end. Participant loans are stated at cost, which approximates fair value.

In 2008, the Plan's investments in the guaranteed interest accounts were valued at contract value, which approximated fair value. Interest rates on these funds reflected market rates. As of December 31, 2008, the guaranteed interest accounts had interest rates which ranged from 2.13% to 3.38% with maturity dates from December 31, 2008 to December 31, 2012.

Expenses

Administrative expenses are paid by the participants and the employer. Forfeitures may first be used to pay any administrative expenses.

Note B – Internal revenue service status

The Internal Revenue Service has determined and informed the Trustee by a letter dated August 7, 2002, that the Prototype Non-standardized Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes is necessary.

Note C – Information certified by the agent on behalf of the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note C – Information certified by the agent on behalf of the Trustee (continued)

Accordingly, as permitted under such election, the Plan administrator has obtained certifications from the Trustee of the Plan that all of the information provided by the Trustee is complete and accurate. Information in the accompanying financial statements and the information reported in this Note and the supplemental schedule is presented in sole reliance upon that certification.

Note D – Fair value measurement

The Company follows a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted process for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D – Fair value measurement (continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts

Valued at net asset value ("NAV") of shares held by the plan at year end.

Participant loans

Value at amortized cost, which approximates fair value.

Common collective trusts

Valued at NAV based on information reported by the fund's Trustee.

Guaranteed interest account

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's asset at fair value.

	As of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,439,609	$ -	$ 1,439,609

Total assets at fair value	$ -	$ 1,093,518	$ 157,741	$ 1,251,259

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets.

	Participant loans
Balance, beginning of year	$ 109,305
Purchases, sales, issuances, and settlements, net	(36,052)

Note E – Related party transactions

Certain plan instruments were managed by Principal and JP Morgan. Principal was the asset trustee until September 30, 2009, as defined by the Plan. Beginning October 1, 2009, JP Morgan replaced Principal as investment manager and trustee. Therefore, Principal and JP Morgan transactions qualify as party-in-interest transactions.
