Superior Construction Co., Inc.
Employees' 401(k) Savings Plan
Gary, Indiana

We were engaged to audit the financial statements and supplemental schedule of the Superior Construction Co., Inc. Employees' 401(k) Savings Plan (the Plan) as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying contents page. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by MG Trust Company, LLC and Reliance Trust Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that MG Trust Company, LLC held the Plan's investment assets and executed investment transactions from February 27, 2009 to December 31, 2009, and that Reliance Trust Company held the Plan's investment assets and executed investment transactions as of December 31, 2008 and for the period January 1, 2009 to February 26, 2009. The plan administrator has obtained certifications from the custodians as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Superior Construction Co., Inc. Employees' 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: Non-union employees who are at least 21 years of age and have completed one year of service are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute pre-tax annual compensation, as defined in the Plan, up to amounts permitted by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants over the age of 50 are also permitted catch-up contributions subject to statutory limits. Participants direct the investment of their contributions into various investment options offered by the Plan. Superior Construction Co., Inc. ("the Company") contributes a safe harbor matching amount, which provides for a matching contribution equal to 100% of the participant's pre-tax contribution, up to 3% of compensation plus 50% of the participant's pre-tax contribution which exceed 3% but not to exceed 5% of compensation.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of (a) the Company's safe harbor matching contribution and (b) the Plan's earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts to any of the investment options available under the Plan.

Vesting: Participants are immediately vested in their voluntary contributions and in the safe harbor matching contributions made by the Company. Discretionary matching contributions made by the Company are subject to a vesting schedule based on years of continuous service. A participant is 100% vested after three years of credited service. Nonvested portions of company discretionary matching contributions are forfeited as of an employee's termination date and are used to reduce employer contributions. There were no forfeited amounts available to reduce future contributions as of December 31, 2009 and 2008.

Payment of Benefits: Upon retirement, death, disability, or termination of service, a participant may receive their vested benefit in the form of a lump-sum amount, installment payments, or an annuity.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The principles and policies that significantly affect the determination of net assets and changes therein are summarized below.

Accounting Method: The financial statements of the Plan have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan provides for various investment options including a combination of certain shares of mutual funds and a collective trust fund. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, the level of uncertainty related to changes in the value of investment securities and sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stable value fund: The fair value of interest in stable value fund is based upon the net asset value of such fund reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statement of the fund as of the Plan's financial statement date (level 2 inputs). The objective of the fund is to provide a low-risk, moderate-yield investment for participants. The fund is managed to earn a high level of return, consistent with, and providing for, preservation of capital, high credit quality, liquidity to pay plan benefits and reasonable tracking of interest rates. The fund consists of a conventional, synthetic, and separate account investment contracts issued by life insurance companies, banks, and other financial institutions. The principal value of this asset remains stable regardless of stock and bond market fluctuations. The return is a blend of all the rates of the various investments purchased by the fund. The net asset value of the fund is determined each business day by the trustee of the fund. Contributions to the fund may be made daily at the current net asset value. Withdrawals from the fund for benefit payments or participant transfers shall be made within 30 days after written notification has been received and approved.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Management has determined that the estimated fair value of the Plan's indirect investment in fully benefit-responsive contracts through its investment in the stable value fund as of December 31, 2009 and 2008 approximates contract value. Accordingly, the statements of net assets available for benefits reflect no adjustment for the difference between assets with all investments at fair value and net assets available for benefits.

NOTE 3 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated October 29, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
