Wheeling Island Gaming, Inc.
Retirement Savings Plan
Notes to Financial Statements

1. Description of the Plan

The following brief description of the Wheeling Island Gaming, Inc. Retirement Savings Plan (the "Plan"), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan sponsored by Wheeling Island Gaming, Inc. (the "Company"). The Company is a wholly-owned subsidiary of Delaware North Companies, Inc. ("Plan Sponsor"), the Plan administrator.

As defined by the Plan document, fulltime non-union employees are eligible to participate after three months of service and upon reaching age twenty-one. All other employees of the Company are eligible to participate in the Plan following the completion of one year of service and upon reaching age twenty-one. Participants are eligible to participate in the Company match after one year of completed service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code (the "Code").

Contributions – Participants may elect to contribute between 1% and 15% of their annual compensation, limited to the amount imposed by law. Participants age 50 or older may also elect to make a catch-up contribution limited to the amount imposed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (i.e., rollovers). Rollover contributions totaled $32,017 and $18,582 for the years ended December 31, 2009 and 2008, respectively.

In accordance with the Plan document, the Company matches 100% of each non-union plan participant's voluntary contribution up to 3%, plus 50% of a participant's voluntary contribution between 3% and 5%. Such contributions comply with the Plan's safe harbor provisions. The annual profit sharing contribution by the Company is equal to the sum of .25% of the total pari-mutuel pool (handle) for each televised racing day during the Plan year plus 1% of the net video lottery terminal income for the year, and interest income on these amounts. Each participant eligible for Company contributions receives an equal portion of the annual contribution. Profit sharing contributions totaled $1,537,006 and $1,518,191 for the years ended December 31, 2009 and 2008, respectively. Eligible non-union employees may also receive an equal portion of the discretionary contribution, if made, in addition to the annual contribution. There were no discretionary contributions made for the years ended December 31, 2009 and 2008.

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, Plan Sponsor contributions, and earnings on the participant-directed investments. Participant accounts are decreased by participant distributions, losses on the participant-directed investments and certain administrative expenses, if applicable.

1. Description of the Plan (continued)

Vesting – Participants are immediately fully vested in their voluntary salary deferral, rollover contributions, and actual earnings thereon. Vesting in Plan Sponsor contributions and actual earnings thereon is based on years of service. Participants vest in Plan Sponsor contributions at the rate of 20% per year of service and become fully vested after five years.

Payment of Benefits – Upon termination of service due to retirement, death, disability, or as required by law, a participant may elect to receive installment distributions or a lump-sum distribution in an amount equal to the vested value of their account. The Plan permits in-service distributions for participants older than age 59 ½.

Participant Loans – In accordance with Plan provisions, participants are permitted to borrow a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms shall not exceed 5 years or a maximum of 15 years for the purchase of a primary residence. Loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are required to be repaid in equal installments over the term of the loan.

Income Taxes – The Plan received its latest determination letter from the Internal Revenue Service ("IRS") dated May 11, 2005, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan was amended subsequent to the IRS determination letter. However, the Plan administrator believes that the Plan is operating in compliance with the requirements of the Code. Therefore, the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Forfeitures – The non-vested balances of participants who have ceased employment with the Company are forfeited upon the occurrence of a one-year break in service. In accordance with the Plan document, forfeitures arising during any plan year may be used to reduce the Company's contributions and pay the Plan's administrative expenses. Forfeitures totaled $75,585 and $85,208 during 2009 and 2008, respectively.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their entire account balance.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements are prepared under the accrual method of accounting.

As described within Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Financial Services – Investment Companies* (the "Topic"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Topic, the Statement of Net Assets Available for Benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Valuation of Investments – The Plan's investments consist of mutual funds and a common/collective trust. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Units held in the common /collective trust consist of holdings in fully benefit-responsive investment contracts and are reported at fair value and are adjusted to contract value in the accompanying Statements of Net Assets Available for Benefits.

Participant loans are valued at cost, which approximates fair value.

The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) of those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Plan Expenses – Substantially all expenses of the Plan including investment advisory, legal expenses and audit fees are funded as a percentage of total assets under the provisions of the Plan. Loan maintenance and setup fees are paid directly from participant accounts.

Benefit Payments – Benefits are recorded when paid.

Party-in-Interest Transactions – Certain Plan investments are shares of mutual funds and units of a common /collective trust managed by Reliance Trust Company ("Reliance"). Reliance is the Plan trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amount reported in the accompanying Statements of Net Assets Available for Benefits and Changes in Net Assets Available for Benefits.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent Events – The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued.

3. Information Certified by the Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance has certified that the following data included in the accompanying financial statements and supplementary information is complete and accurate.

4. Fair Value Measurements

The schedule below provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.

- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.

- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	2009	2008
Level 1:		
Mutual funds	$ 5,476,166	$ 2,691,799
Level 2:		
Common/collective trust	3,505,784	4,099,519
Level 3:

	$ 10,110,447	$ 7,746,711
