Young's Market Company, LLC and Affiliates
401(k) Savings Plan

Notes to Financial Statements

December 31, 2009

1. Description of the Plan

The following description of the Young's Market Company, LLC and Affiliates 401(k) Savings Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, participants should refer to the Summary Plan Description maintained by the Plan's Benefit Administration Committee.

General

The Plan is a defined contribution plan available to all nonbargaining unit employees of Young's Market Company, LLC and its affiliates (collectively, the "Company" or "Employer") who have at least three months of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was amended and restated, effective January 1, 2009 and includes Safe Harbor provisions.

Contributions

Participants may contribute pretax annual wages, as defined by the Plan, subject to Internal Revenue Code (the "Code") limitations. Participants may also contribute amounts representing distributions from other defined benefit or defined contribution plans. Participants may change their salary deferral percentages quarterly. The Company contributes 100% of a participant's contribution of the first 3% of base compensation and 50% of the next 2% of base compensation. Additional amounts may be contributed at the option of the Employer.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocation of Employer matching contributions and plan earnings. Forfeitures of terminated participants' nonvested accounts are first applied to plan administrative expenses and are then applied to reduce Employer matching contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Investment Options

Upon enrollment in the Plan, participants may allocate their contributions to several investment options, including guaranteed interest accounts and pooled separate accounts managed by The Principal Life Insurance Company ("Principal"). All investments are participant directed.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum of \$50,000, or 50% of their vested account balance. Loan term maximum is five years unless it is used for the purchase of a residence, then the maximum term is fifteen years. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest is paid at least quarterly through payroll deductions.

Payment of Benefits

The Plan provides for various forms of payments including lump-sum distributions and various types of annuities upon termination of service.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Subsequent Events

In connection with the preparation of the Plan's financial statements the Company evaluated subsequent events after the financial statement date of December 31, 2009 through October 13, 2010, the date the financial statements were available to be issued.

2. Significant Accounting Policies

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles — a replacement of FAS No. 162* ("Codification" or "ASC"), which is the single source of authoritative nongovernmental generally accepted accounting principles ("GAAP"). All existing accounting standard documents, such as FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force and other related literature, excluding guidance from the U.S. Securities and Exchange Commission ("SEC"), are superseded by the Codification. All other non-grandfathered, non-SEC accounting literature not included in the Codification are non-authoritative. The Codification does not change GAAP, but instead introduces a new structure that combines all authoritative standards into a comprehensive, topically-organized online database. The Codification is effective for annual periods ending after September 15, 2009. All references to authoritative accounting literature in the Company's financial statements will be referenced in accordance with the Codification. There were no changes to the content of the Company's financial statements or disclosures as a result of implementing the Codification.

In April 2009, the FASB issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*, codified in ASC 820, *Fair Value Measurements and Disclosures*. This standard amends ASC 820 to provide additional guidance on estimating fair value when market activity has significantly decreased. This standard also provides guidance on circumstances that may indicate that a transaction is not orderly and on the disclosure requirements of ASC 820. The Plan adopted this amendment to ASC 820 upon its issuance in April 2009.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

2. Significant Accounting Policies (continued)

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Investment Valuation and Income Recognition

The assets of the Plan are invested under a Flexible Investment Group Annuity Contract with Principal. Investments in the pooled separate accounts consist of high-grade corporate securities, high-grade income-producing properties, common stock and domestic short-term obligations of corporations. Investment performance in the pooled separate accounts is dependent on the investment experience, which is variable and not guaranteed. Investments in pooled separate accounts are stated at fair value as determined by Principal and are based on the net asset value of units held by the Plan at year-end.

Guaranteed interest accounts are considered not fully benefit responsive and are valued at fair value as determined by Principal based on discounted cash flows using current interest rates.

Loans to participants are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

3. Investments

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company holds the Plan's investments and executes all investment transactions. Investment related information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, interest, and net realized and unrealized appreciation in fair value of investments for the year ended December 31, 2009, was obtained or derived from investment information supplied to the plan administrator and certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company.

The fair value of individual investments that represent 5% or more of the Plan's net assets is as follows:

4. Income Tax Status

The Plan has not received a determination letter from the Internal Revenue Service ("IRS") stating that the Plan is qualified under Section 401(a) of the Code. However, the plan administrator believes that the Plan has been designed to comply with the requirement of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations and/or document into compliance with the Code. The Plan has a graded schedule for determination letter applications from the IRS and the remedial amendment period date is January 31, 2010.

5. Risks and Uncertainties

The Plan invests in various investment securities. The Plan's exposure to credit loss in the event of nonperformance of investments managed by Principal is limited to the carrying value of such investments. The Plan's concentration of credit risk and market risk are dictated by the Plan's provisions as well as those of ERISA and the participants' investment preferences. Due to the level of risk associated with certain investment securities, it is least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Party-in-Interest Transactions

The Plan invests in pooled separate accounts and guaranteed Interest accounts that are managed by the affiliate of Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodian of the Plan's assets. These investments and related transactions are considered party-in-interest transactions for which a statutory exemption exists.
