Independent Auditor's Report

To the Trustees of the
Playhouse Square Foundation Defined Benefit Pension Plan and Trust
Cleveland, Ohio

We have audited the accompanying statements of net assets available for benefits of the Playhouse Square Foundation Defined Benefit Pension Plan and Trust as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended December 31, 2008. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2009 and 2008, and the changes therein for the years then ended and its financial status as of December 31, 2008, and changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Playhouse Square Foundation Defined Benefit Pension Plan and Trust

Notes To Financial Statements

Note 1. Description of Plan

The following description of the Playhouse Square Foundation Defined Benefit Pension Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of its provisions.

General: The Plan is a noncontributory defined benefit pension plan covering all eligible employees of Playhouse Square Foundation (the Foundation), the Plan sponsor. A hypothetical account is maintained for each participant in which contributions are credited for the benefit of the individual. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended and the Pension Protection Act of 2006.

Eligibility: Employee eligibility is based upon specific job titles as defined in the appendices of the plan document and completion of at least one year of service. Eligible employees are classified as either Category 1 or Category 2 employees based upon their job title. Participants may enter the Plan on January 1 or July 1 following the completion of a year of eligible service. There is no minimum age requirement for participation in the Plan.

Contributions: At any time during the accounting period or at any other time permitted under the applicable sections of the Code, the employer shall contribute to the Plan, in cash, the amount actuarially determined to be necessary to fund all of the retirement and other benefits provided by the Plan and to satisfy the minimum funding standard, utilizing a reasonable and consistent method of funding.

Vesting: A participant shall be vested in their accrued benefit upon completion of three years of vesting service. A year of vesting service is defined as any Plan year in which the employer maintains the Plan and the participant completes at least 1,000 hours of service with the employer. Participants also vest in their hypothetical account balance if they are still employed upon attainment of age 62, become permanently disabled, or if the participant dies during employment.

Forfeitures: The Plan is a cash balance plan; therefore, participant accounts are only hypothetical. In the event that a participant terminates employment prior to meeting the vesting requirements, the forfeited funds will become part of the general assets of the Plan.

Pension benefits: For each year an employee is a participant in the Plan and works at least one hour for the Foundation, the participant is entitled to accrue a benefit. The benefit for Category 1 participants is the greater of ten times the participant's benefit compensation, as defined, or \$200. The benefit for Category 2 participants is the greater of 2% of compensation for each plan year during which the participant earns a year of credited service or \$250. Participants with vested benefits are entitled to a monthly annuity upon reaching retirement age. Unmarried participants are paid a monthly annuity for life while married participants receive joint and survivor annuity payments. A participant may also elect a lump-sum payment or installment payments.

Death and disability benefits: If a participant dies while still an employee, the actuarial equivalent of their vested benefit shall be paid to their designated beneficiary or beneficiaries. If a participant terminates employment due to a permanent disability, the participant shall be entitled to payment of the accrued benefit.

Expenses of the plan: The Foundation shall pay reasonable compensation for services rendered and expenses incurred in connection with the administration of the Plan. All expenses incurred in the investment of the assets of the Plan shall be deducted from the general Plan assets.

Notes To Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of financial statements. Actual results could differ from those amounts. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their years of credited service.

The accumulated plan benefits for active employees are based on their hypothetical account balance, on the date as of which the benefit information is presented (January 1, 2009). There were no significant amendments or demographic differences between the December 31, 2008 and January 1, 2009 valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Libman, Kadavy & Company, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial cost method used to determine the actuarial accrued liability and normal cost is the unit credit actuarial cost method. The significant actuarial assumptions used in the valuations as of January 1, 2009 were (a) life expectancy of participants (the 1994 Group Annuity Reserving Table (Blended) and the 2009 Applicable Table (Blended)), (b) retirement age assumptions (the assumed retirement age is 62), (c) investment return, and (d) FAS 35 discount rate (6.01%). The valuation included an assumed average rate of return of 4.17%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Cash and cash equivalents: Cash and cash equivalents includes interest bearing and non-interest bearing cash at December 31, 2009 and 2008, respectively. The carrying amount of cash and cash equivalents approximates fair value due to the short-term maturity of the instruments. Interest is recorded when received. The Plan maintains an account at a financial institution the balance of which may, at times, exceed federally insured amounts. Balances in excess of the federally insured limit expose the Plan to custodial credit risk.

Playhouse Square Foundation Defined Benefit Pension Plan and Trust

Notes To Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the future financial statements.

Income Taxes: The Financial Accounting Standards Board issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2006.

Subsequent events: The Plan has evaluated events for potential recognition and/or disclosure through October 14, 2010, the date the financial statements were available to be issued.

Note 3. Tax Status

The Internal Revenue Service has determined and informed the sponsor, by a letter dated June 23, 2009, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Note 4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the benefits in the order indicated in the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions.

However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

- ** The discount segment rates and mortality assumptions are prescribed by the IRC and IRS Regulations.

ACTUARIAL ASSUMPTIONS (continued)**Actuarial Methods**Actuarial Cost Method

The actuarial cost method used to determine the actuarial target liability and target normal cost is the Unit Credit Actuarial Cost Method, as required under IRC Section 430.

Asset Valuation Method

Market value of all Trust Investments, plus any accrued but unpaid contributions to the Trust discounted to the Valuation Date.

Other Facts Relevant To The Valuation Of This PlanEmployee Data

An employee census as of the Valuation Date was supplied by the Company and included all employees in the Eligible Class. We did not audit the census.

Asset Data

Asset data as of the Valuation Date and contribution amounts and dates were supplied by the Company. We did not audit the asset data.

Changes in Actuarial Assumption or Methods

The valuation interest rates are the rates required per IRC Section 430, and the cash balance interest credit rate is the 30-year treasury rate for the third full month immediately preceding the first month of the Plan Year. This year the credit rate is 4.17% compared to 4.77% last year.

The mortality assumptions used are those mandated by the Internal Revenue Service for this valuation, per IRC Section 430. Since this plan has fewer than 500 participants, we use the unisex assumptions.

Events and Trends Which Have Not Been Taken Into Account

To the best of our knowledge, there has been no event or trend which has not been taken into account and which may require a material change in plan costs or required contribution rates. In addition, no Plan amendments adopted and effective after the valuation date of January 1, 2009 were considered for this Valuation, nor do any exist of which we are aware except statutory CPI increases in maximum benefits and considered compensation.
