Plan Administrator

Juno Manufacturing, Inc. 401(k) Plan for Union Employees

We were engaged to audit the accompanying financial statements of Juno Manufacturing, Inc. 401(k) Plan for Union Employees as of December 31, 2009 and 2008 and for the year ended December 31, 2009, and the supplemental schedule as of December 31, 2009 as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by ING Institutional Plan Services, LLC, the recordkeeper of the Plan as agent for Reliance Trust Company, the trustee of the Plan, except for comparing that information with the related information included in the financial statements and supplemental schedule.

We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the agent on behalf of the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the agent on behalf of the trustees, have been audited by us in accordance with United States of America generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
December 31, 2009 and 2008**

**1. Summary of Accounting
Policies**

Basis of Accounting

The financial statements of the Juno Manufacturing, Inc. 401(k) Plan for Union Employees (the Plan) have been prepared under the accrual method of accounting.

**New Accounting
Pronouncements**

In June 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) 105, *Generally Accepted Accounting Principles* (formerly Statement of Financial Accounting Standards (SFAS) No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles, a replacement of FASB Statement No. 162*). This established the FASB ASC as the single source of authoritative generally accepted accounting principles. This is effective for reporting periods ending after September 15, 2009, and the Plan adopted this statement as of December 31, 2009. The adoption of this codification had no impact on the Plan's financial statements, but does have an impact on the presentation of notes to the financial statements.

In April 2009, the FASB issued guidance under ASC 820, which was formerly referred to as FASB Staff Position (FSP) FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This guidance addresses the factors that determine whether there has been a significant decrease in the volume and level of activity for an asset or liability when compared to the normal market activity. Under this guidance, if the reporting entity has determined that the volume and level of activity has significantly decreased and the transactions are not orderly, further analysis is required and significant adjustments to the quoted prices or transactions may be needed. This guidance was effective for interim and annual reporting periods ending after June 15, 2009, management's adoption did not have a material impact on the financial conditions or results of operations. Management has included the required disclosures in the following notes to the Plan's financial statements where applicable.

In January 2010, the FASB issued a new accounting guidance that requires additional disclosures regarding fair value measurements, amends disclosures about post-retirement benefit plan assets and provides clarification regarding the level of disaggregation of fair value disclosures by investment class. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for certain Level 3 activity disclosure requirements that will be effective for reporting periods beginning after December 15, 2010. The Plan is currently evaluating the impact of the adoption of this guidance.

On January 1, 2009, the Plan Adopted FASB ASC Topic 855, *Subsequent Events*. ASC 855 establishes general standards of accounting for and disclosure of events that occur after the net assets available for benefits date but before financial statements are issued or are available to be issued. Specifically, it sets forth the period after the net assets available for benefits date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements. The circumstances under which an entity should

recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the net assets available for benefits date. The adoption of ASC 855 had no impact on the Plan's financial statements.

In accordance with ASC 855, the Plan evaluated subsequent events through October 11, 2010, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

**Investments and Income
Recognition**

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market price, which represent the net asset value of shares held by the Plan at year end. Money markets are valued at cost. Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments. Common collective trust funds with underlying investments in investments contracts are valued at fair market value of the underlying investments and then adjusted by the issuer to contract value. Participant loans are valued at the outstanding loan balance, plus accrued interest, which approximates fair value.

The Union Bond & Trust Company MCM Stable Asset Fund, a stable value fund (the "Fund"), is a collective trust fund sponsored by ING Institutional Plan Services, LLC on behalf of Reliance Trust Company. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant net asset value of \$1 per unit. Distributions to the Fund's unit holders are declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value of \$1 per unit; although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable. The average yield of the contract earned and credited to participants was 2.74% in 2009 and 4.33% in 2008.

In accordance with ASC 962, *Plan Accounting-Defined Contribution Pension Plans*, the Fund is included at fair value in the statements of net assets available for plan benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for plan benefits is presented on a contract value basis.

1. Summary of Accounting Policies (Continued)

Investments and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to mutual fund investments are deducted from income earned on a daily basis and are not separately reflected. Management fees and operating expenses charged to the Plan for investments in the common collective trust funds are accrued daily and charged to the Plan at the end of each month. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Estimates

The preparation of financial statements in conformity with United States of America generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Administrative Expenses

The costs incurred in the administration are paid for by Juno Manufacturing, LLC.

2. Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Juno Manufacturing, LLC (Plan Administrator and Sponsor) (the Company) on January 1, 2000. The Plan Administrator maintains all necessary employment records and determines participant eligibility.

On December 1, 2009 the directors of the Company elected to amend and restate the Plan and assign Vanguard Fiduciary Trust Company, as successor trustee. As a result, substantially all investments held by the Plan were sold, and transferred to cash at year end.

Participation and Vesting

Substantially all union employees of the Company become eligible to participate in the Plan beginning on the first day of June or December, following attainment of twenty-one years of age, and completion of seven months of service. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. Vesting begins with 40% after two years of service, and continues to vest in 20% increments for each year of service thereafter, with full vesting after five years of service.

Payments of Benefits

Upon termination of services due to death, disability, or retirement, participants may elect to take a lump-sum distribution, a series of equal installments over a period not exceeding participant's life expectancy or joint life expectancies of the participant and his or her beneficiaries. If the value of an individual participant's account does not exceed \$3,500, distribution from

(Continued)**

Payments of Benefits (Continued)	the Plan shall be made to the participant in a single-lump sum in lieu of all other forms of distribution.
Participants' Accounts	Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) Plan earnings/(losses), and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.
Company Contribution	The Company matches participant contributions at a rate of 50% of each employee's elective deferral, up to 5% of their compensation. During the years ended December 31, 2009 and 2008, the Company's contributions to the Plan totaled \$110,930 and \$125,087, respectively.
Participant Contributions	No contributions are required by participants. However, under the terms of the Plan, a participant may elect to defer between 1% and 25% of earnings, limited to the maximum allowable amount under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distribution from other qualified defined benefit or contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan. The Plan currently offers mutual funds and an investment contract as investment options for participants.
Forfeitures	At December 31, 2009 and 2008, forfeited non-vested accounts totaled \$2,639 and \$930, respectively. These accounts will be reallocated to the individual accounts of qualifying participants.
Participant Loans	The Plan allows participants to take out loans secured by their vested account balances. Participants may borrow a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans will be charged a reasonable rate of interest, will be for a minimum one-year term, and must be repaid within five years, unless used to purchase the participant's principal residence.

3. Investments

The following table presents the fair value of investments at December 31 that represent 5% or more of the Plan's net assets. The Plan does not have any non-participant directed investments.

- 4. Fair Value Measurements** The Plan's investments are reported at fair value in the accompanying statements of assets available for benefits.

Total	\$ 2,445,150	\$ 1,868,783	\$ 342,959	\$ 233,408

SFAS 157, "Fair Value Measurements", establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This guidance is included in ASC 820. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quotes and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of the common / collective trust (Union Bond & Trust Company MCM Stable Asset Fund) is based on information provided by the issuer of the common / collective trust, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer of the specific instruments held by the fund at the end of the year.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements:

Gains and losses (realized and unrealized) included in the changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. Income Tax Status

The Plan obtained its latest determination letter on September 9, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect the participants' account balances and amounts reported in the statement of net assets available for benefits.
