SOLE PROPRIETOR, INC. CASH BALANCE DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of Sole Proprietor, Inc. Cash Balance Defined Benefit Pension Plan (the "Plan") provides general information only. Participants should refer to the Plan document for more complete information.

General – The Plan is a cash balance defined benefit plan, established in January 2002 and amended as of January 1, 2009, covering all employees of Sole Proprietor, Inc. ("the Company" or "the Employer") who are age twenty-one or older and have one year of service, provided they work at least 1,000 hours during such plan year. The Plan is subject to the provisions of ERISA.

Funding Policy – The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants, and to meet minimum funding requirements established by ERISA. The Plan has met the ERISA minimum funding requirements for the years ended December 31, 2009 and 2008.

Pension Benefits – A cash balance account shall be established and maintained for each applicable participant. Credits shall be made to the cash balance account in accordance with the provisions set forth in Plan agreement. At the end of each period in which an individual participant satisfies the requirements, an employer credit shall be added to such participant's cash balance account. Prior to October 31, 2008, the employer credit was generally 2.5% of a participant's eligible compensation. An interest credit shall be made to the cash balance account on the last day of each determination period and shall be calculated by multiplying the balance in the participant's cash balance account on the first day of such determination period by the applicable interest crediting rate for the determination period. The interest credit is based on the 30-year treasury constant maturity rate. Effective October 31, 2008, the Plan was frozen such that there shall be no further employer credit to each account and future employees will no longer become eligible to participate in the Plan.

Each participant's accrued benefit shall be the balance in his or her cash balance account determined as of his or her annuity starting date. The value of a lump sum distribution and the present value of the participant's benefit shall be the balance in the participant's cash balance account. The periodic amount of any other benefit shall be the actuarial equivalent of the cash balance account.

Payment of benefits – Upon termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or an annuity under terms defined by the Plan.

Vesting – Prior to October 31, 2008, a participant became 100% vested in his or her account after three years of service. As of October 31, 2008, all accounts became 100% vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Codification – Effective July 1, 2009, the Financial Accounting Standard Board's Accounting Standards Codification (ASC) became the single official source of authoritative, nongovernmental U.S. generally accepted accounting principles (GAAP) and the historical GAAP hierarchy was eliminated. The Plan's accounting policies were not affected by the conversion to ASC.

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require the plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties – Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are determined by use of a certain formula as defined in the Plan and are based principally upon the accumulated cash balance prior to retirement. Benefits payable under all circumstances for retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by consulting actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The accumulated cash balances are representative of the accumulated benefits obligations and the projected benefits obligations as of the valuation date. The more significant assumptions underlying the computations are as follows:

Interest rate	30-year treasury constant maturity rate with a five month look back (4.5% in 2009 and 4.93% in 2008)
Mortality basis	2009 static mortality table split between pre-retirement and post-retirement
Normal retirement	Age 65 and 5 years of participation

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits (continued) – Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, disability and early retirement. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments – Benefits are recorded when paid.

Subsequent Events – The Company has evaluated subsequent events through October 13, 2010, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The information related to investments held by Lincoln National Life Insurance Company included in the accompanying financial statements, Note 4 and the supplemental schedules was obtained from data that has been certified as complete and accurate to the plan administrator by Lincoln National Life Insurance Company, the custodian of certain plan assets. Incorporation of this financial information in the accompanying financial statements and supplemental schedules is based solely on that certification.

4. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2009 and 2008 are as follows:

	2009	2008
Fixed annuity contracts:		
Dearborn National P38729	\$ 207,266	\$ 198,151
John Hancock FX06009613	288,367	344,395
Ohio National S1543045	177,635	171,345
Ohio National S1512142	*	226,493
Guaranteed interest contract with Lincoln National Life Insurance Company	455,036	156,445

* less than 5% at December 31, 2009

During the years ended December 31, 2009 and 2008, the Plan's investments in pooled separate accounts appreciated (depreciated) in value (including gains and losses on investments bought and sold, as well as held during the year) by \$166,844 and (\$198,162), respectively.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation method include: quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation method are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Guaranteed interest contracts – valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The average credited rate for the guaranteed interest contracts was 3.96% for 2009 and 3.82% for 2008. Certain events, such as market value adjustments and surrender charges, could limit the ability of the plan to initiate or complete a transaction at fair value.

Pooled separate accounts – valued at a unit value calculated based on the fair value of the underlying investments.

Fixed annuity contracts - valued at cost plus accrued interest which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

2009	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts	\$ -	\$ 843,524	\$ -	\$ 843,524
Guaranteed interest contracts	-	-	455,036	455,036
Fixed annuity contracts	-	-	754,352	754,352
Total assets at fair value	<u>\$ -</u>	<u>\$ 843,524</u>	<u>\$ 1,209,388</u>	<u>\$ 2,052,912</u>

2008	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts	\$ -	\$ 517,301	\$ -	\$ 517,301

Total assets at fair value	<u>\$ -</u>	<u>\$ 517,301</u>	<u>\$ 1,140,411</u>	<u>\$ 1,657,712</u>

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

2009	<u>Fixed annuity contracts</u>	<u>Guaranteed interest contracts</u>
Balance, beginning of year	\$ 983,966	\$ 156,445
Purchases, sales, issuances and settlements (net)	<u>(229,614)</u>	<u>298,591</u>
Balance, end of year	<u>\$ 754,352</u>	<u>\$ 455,036</u>

6. TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on June 24, 2005, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. In 2010, the plan administrator applied for, but has not received, a new determination letter for the amended Plan. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right, under the Plan, to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early-retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the levels in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit. For plans terminating in 2009, that amount is \$4,500 per month.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.
