Report of Independent Auditors

To the Participants and Administrator of
Yellow Book USA 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of the Yellow Book USA 401(k) Profit Sharing Plan (the "Plan") at December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Yellow Book USA 401(k) Profit Sharing Plan Notes to Financial Statements December 31, 2009 and 2008

1. Description of the Plan

The following description of the Yellow Book USA 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan provides deferred retirement and savings benefits to Plan participants based upon (a) amounts contributed to the participant's account by the employee and employer; and (b) investment income or loss. Employee contributions made to the Plan are credited to each participant's account through salary deductions. Yellow Book USA's (the "Company") matching contribution and discretionary profit sharing contributions, if any, are paid annually to the Plan.

Eligibility and Participation

Employees are eligible for participation in the Plan on the first of the month following the date in which employment commences. Employees are eligible to receive employer matching contributions only if they are employed with the Company on the last day of the Plan year and have completed 1,000 hours of service during the Plan year.

Contributions

Participants may contribute up to 60% of their annual eligible pre-tax compensation up to the Internal Revenue Service ("IRS") limit of \$16,500 for 2009. Annually, at its election, the Company makes a matching contribution. The matching contribution for 2009 was 25% of the first 6% of participant's eligible compensation contributed to the Plan. Contributions under the Plan are generally based on total compensation paid by the Company up to the maximum compensation limit of \$245,000 for 2009. In addition, the Company may make discretionary profit sharing contributions to the Plan on behalf of eligible participants. The Company did not make any discretionary profit sharing contributions to the Plan in 2009.

For purposes of determining contributions, compensation is defined as total wages and salary of an employee, including any overtime pay, bonuses and commissions, and excluding holiday bonus and security grants.

Administrative Expenses

At the Company's option, certain expenses related to the administration of the Plan may be paid by the Company. Otherwise, the expenses of the Plan are paid directly by the Plan.

Vesting

Participants are immediately vested in their own contributions and earnings (losses) thereon. Participants become vested in benefits arising from the Company's discretionary matching and profit sharing contributions ratably over three years.

Yellow Book USA 401(k)

Profit Sharing Plan

Notes to Financial Statements

December 31, 2009 and 2008

Forfeitures

If a participant terminates service prior to being fully vested in the employer matching contribution, unvested amounts are forfeited and will be used to reduce future employer contributions to the Plan. Employer matching contributions of approximately \$484,508 and \$622,567 were forfeited in 2009 and 2008, respectively. As of December 31, 2009 and 2008, the Company had a forfeiture balance of approximately \$460,862 and \$572,535, respectively. Employer contributions were reduced by \$480,000 from forfeited nonvested accounts.

Participant Loans

The Plan permits participants who are active employees of the Company to borrow up to 50% of their vested account balance subject to a minimum of \$1,000 and a maximum of \$50,000. The loans are collateralized by the vested balance in the participant's account and bear interest as determined by the Plan administrator based on the prevailing interest rates in the market. Loans must be repaid within a maximum of five years through payroll deductions, unless the loan is used to acquire a dwelling unit which is to be used as the participant's principal residence, in which case it may be repaid over a period not to exceed ten years. At December 31, 2009, the interest rate on loans outstanding ranged from 4% to 11.5%.

Payment of Benefits

The value of a participant's account, including both the employee and the vested portion of the employer contributions and the earnings thereon, is payable to the participant upon retirement, disability or to the participant's beneficiary if death occurs during employment. Additionally, the value of participant's contributions and earnings thereon plus all vested employer contributions are payable upon termination.

Hardship Withdrawal

In case of serious financial hardship, as defined by the Plan, participants may be eligible to receive an emergency withdrawal of their pre-tax contributions.

Risks and Uncertainties

The Plan provides for various investment options in any combination of money market and mutual funds. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A portion of the underlying assets of the mutual funds of which the Plan has invested may include derivative financial instruments. The Plan does not own any of such instruments directly. Such instruments are used primarily to hedge exposures associated with currency exchange rates, interest rates and other factors which may affect security value.

The Plan is exposed to credit loss in the event of nonperformance by the investment managers of the funds. However, the Plan does not anticipate nonperformance by the investment managers.

Investment Options

Contributions are invested by the Fidelity Investments Institutional Operations Company (a sub-service company of the "Trustee", Fidelity Management Trust Company) according to the options elected by the participants. All participant and employer contributions are directed by the

**Yellow Book USA 401(k)
Profit Sharing Plan
Notes to Financial Statements

participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting, except for benefits which are recorded when paid.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Investment funds are valued at net asset value, as reported by fund managers. Fair values of the underlying investments are based upon the latest published market quotations, where available. Fair values of underlying investments not having an established market are determined by fund managers by reference to quoted market values and other financial data pertaining to investments of a similar nature, quality, and yield, as determined by fund managers.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued as earned, and dividend income is recorded as of the ex-dividend date. Participant loans are valued at cost which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities included in the Statements of Net Assets Available for Benefits and the reported amount of net additions and deductions in the Statement of Changes in Net Assets Available for Benefits. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid

Contributions Receivable

Employer contributions receivable represent amounts due to the Plan resulting from a formal commitment, legal or contractual obligation for the Plan Sponsor to make a contribution.

Adoption of New Accounting Standards

Effective January 1, 2008, the Plan adopted new FASB guidance for its financial assets and liabilities which establishes a framework for measuring fair value and expands disclosure requirements about fair value measurements. During August 2009, the FASB issued further guidance on how to measure the fair value of a liability. This guidance did not have a material effect on the Plan's financial statements.

Yellow Book USA 401(k) **Profit Sharing Plan** **Notes to Financial Statements** **December 31, 2009 and 2008**

Recent Pronouncements

In January 2010, the FASB issued guidance which requires enhanced disclosures about transfers between levels of the three-level fair value hierarchy, requires separate disclosures of purchases, sales, issuances, and settlements in the rollforward of activity relating to Level 3 fair value measurements, and provides clarification of existing fair value disclosures. This guidance is effective for the Plan's annual reporting period ending December 31, 2010, except for the requirement to provide expanded disclosure in the rollforward of activity of Level 3 fair value measurements, which will be effective for the Plan's annual reporting period ending December 31, 2011. The Plan Administrator is currently evaluating the impact of this guidance on the Plan's financial statements.

3. Fair Value Measurements

The following table sets forth the Plan's financial assets measured at fair value on a recurring basis as of December 31, 2009 and 2008. These assets have been categorized according to the three-level fair value hierarchy established by ASC 820, which prioritizes the inputs used in measuring fair value. See Note 2 for the valuation methodology used to measure the fair value of these investments.

- (b) Level 2 valuation is based on inputs that are observable other than quoted market prices in Level 1, such as quoted prices for the asset in inactive markets or quoted prices for similar assets.
- (c) Level 3 valuation is based on unobservable inputs reflecting the Plans' own assumptions about the assumptions that market participants would use in pricing the asset.

Assets valued using Level 1 inputs in the table above represent assets from the Plan and are valued based on the number of shares in the funds using a closing price per share traded in an active market.

Assets valued using Level 2 inputs in the table above represents Money Market Accounts and are valued using inputs other than quoted prices included in Level 1 that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.

Assets valued using Level 3 inputs include participant loans that are valued at cost plus accrued interest, which approximates fair value. The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

5. Party-In-Interest Transactions

Plan assets are invested in separate accounts managed by the Plan's trustee. These transactions, as well as participant loans, qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants' accounts shall become fully vested and distributed in accordance with the provisions of the Plan.

7. Income Tax Status

The IRS has determined and informed the Company by a letter dated May 25, 2005 that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the Internal Revenue Code (the "Code"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Report of Independent Auditors

To the Participants and Administrator of
Yellow Book USA 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of the Yellow Book USA 401(k) Profit Sharing Plan (the "Plan") at December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Profit Sharing Plan
Notes to Financial Statements
December 31, 2009 and 2008**

1. Description of the Plan

The following description of the Yellow Book USA 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan provides deferred retirement and savings benefits to Plan participants based upon (a) amounts contributed to the participant's account by the employee and employer; and (b) investment income or loss. Employee contributions made to the Plan are credited to each participant's account through salary deductions. Yellow Book USA's (the "Company") matching contribution and discretionary profit sharing contributions, if any, are paid annually to the Plan.

Eligibility and Participation

Employees are eligible for participation in the Plan on the first of the month following the date in which employment commences. Employees are eligible to receive employer matching contributions only if they are employed with the Company on the last day of the Plan year and have completed 1,000 hours of service during the Plan year.

Contributions

Participants may contribute up to 60% of their annual eligible pre-tax compensation up to the Internal Revenue Service ("IRS") limit of \$16,500 for 2009. Annually, at its election, the Company makes a matching contribution. The matching contribution for 2009 was 25% of the first 6% of participant's eligible compensation contributed to the Plan. Contributions under the Plan are generally based on total compensation paid by the Company up to the maximum compensation limit of \$245,000 for 2009. In addition, the Company may make discretionary profit sharing contributions to the Plan on behalf of eligible participants. The Company did not make any discretionary profit sharing contributions to the Plan in 2009.

For purposes of determining contributions, compensation is defined as total wages and salary of an employee, including any overtime pay, bonuses and commissions, and excluding holiday bonus and security grants.

Administrative Expenses

At the Company's option, certain expenses related to the administration of the Plan may be paid by the Company. Otherwise, the expenses of the Plan are paid directly by the Plan.

Vesting

Participants are immediately vested in their own contributions and earnings (losses) thereon. Participants become vested in benefits arising from the Company's discretionary matching and profit sharing contributions ratably over three years.

Yellow Book USA 401(k)

Profit Sharing Plan

Notes to Financial Statements

December 31, 2009 and 2008

Forfeitures

If a participant terminates service prior to being fully vested in the employer matching contribution, unvested amounts are forfeited and will be used to reduce future employer contributions to the Plan. Employer matching contributions of approximately \$484,508 and \$622,567 were forfeited in 2009 and 2008, respectively. As of December 31, 2009 and 2008, the Company had a forfeiture balance of approximately \$460,862 and \$572,535, respectively. Employer contributions were reduced by \$480,000 from forfeited nonvested accounts.

Participant Loans

The Plan permits participants who are active employees of the Company to borrow up to 50% of their vested account balance subject to a minimum of \$1,000 and a maximum of \$50,000. The loans are collateralized by the vested balance in the participant's account and bear interest as determined by the Plan administrator based on the prevailing interest rates in the market. Loans must be repaid within a maximum of five years through payroll deductions, unless the loan is used to acquire a dwelling unit which is to be used as the participant's principal residence, in which case it may be repaid over a period not to exceed ten years. At December 31, 2009, the interest rate on loans outstanding ranged from 4% to 11.5%.

Payment of Benefits

The value of a participant's account, including both the employee and the vested portion of the employer contributions and the earnings thereon, is payable to the participant upon retirement, disability or to the participant's beneficiary if death occurs during employment. Additionally, the value of participant's contributions and earnings thereon plus all vested employer contributions are payable upon termination.

Hardship Withdrawal

In case of serious financial hardship, as defined by the Plan, participants may be eligible to receive an emergency withdrawal of their pre-tax contributions.

Risks and Uncertainties

The Plan provides for various investment options in any combination of money market and mutual funds. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A portion of the underlying assets of the mutual funds of which the Plan has invested may include derivative financial instruments. The Plan does not own any of such instruments directly. Such instruments are used primarily to hedge exposures associated with currency exchange rates, interest rates and other factors which may affect security value.

The Plan is exposed to credit loss in the event of nonperformance by the investment managers of the funds. However, the Plan does not anticipate nonperformance by the investment managers.

Investment Options

Contributions are invested by the Fidelity Investments Institutional Operations Company (a sub-service company of the "Trustee", Fidelity Management Trust Company) according to the options elected by the participants. All participant and employer contributions are directed by the

**Yellow Book USA 401(k)
Profit Sharing Plan
Notes to Financial Statements
December 31, 2009 and 2008**

participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting, except for benefits which are recorded when paid.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Investment funds are valued at net asset value, as reported by fund managers. Fair values of the underlying investments are based upon the latest published market quotations, where available. Fair values of underlying investments not having an established market are determined by fund managers by reference to quoted market values and other financial data pertaining to investments of a similar nature, quality, and yield, as determined by fund managers.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued as earned, and dividend income is recorded as of the ex-dividend date. Participant loans are valued at cost which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities included in the Statements of Net Assets Available for Benefits and the reported amount of net additions and deductions in the Statement of Changes in Net Assets Available for Benefits. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid

Contributions Receivable

Employer contributions receivable represent amounts due to the Plan resulting from a formal commitment, legal or contractual obligation for the Plan Sponsor to make a contribution.

Adoption of New Accounting Standards

Effective January 1, 2008, the Plan adopted new FASB guidance for its financial assets and liabilities which establishes a framework for measuring fair value and expands disclosure requirements about fair value measurements. During August 2009, the FASB issued further guidance on how to measure the fair value of a liability. This guidance did not have a material effect on the Plan's financial statements.

Yellow Book USA 401(k)

Profit Sharing Plan

Notes to Financial Statements

December 31, 2009 and 2008

Recent Pronouncements

In January 2010, the FASB issued guidance which requires enhanced disclosures about transfers between levels of the three-level fair value hierarchy, requires separate disclosures of purchases, sales, issuances, and settlements in the rollforward of activity relating to Level 3 fair value measurements, and provides clarification of existing fair value disclosures. This guidance is effective for the Plan's annual reporting period ending December 31, 2010, except for the requirement to provide expanded disclosure in the rollforward of activity of Level 3 fair value measurements, which will be effective for the Plan's annual reporting period ending December 31, 2011. The Plan Administrator is currently evaluating the impact of this guidance on the Plan's financial statements.

3. Fair Value Measurements

The following table sets forth the Plan's financial assets measured at fair value on a recurring basis as of December 31, 2009 and 2008. These assets have been categorized according to the three-level fair value hierarchy established by ASC 820, which prioritizes the inputs used in measuring fair value. See Note 2 for the valuation methodology used to measure the fair value of these investments.

- (b) Level 2 valuation is based on inputs that are observable other than quoted market prices in Level 1, such as quoted prices for the asset in inactive markets or quoted prices for similar assets.
- (c) Level 3 valuation is based on unobservable inputs reflecting the Plans' own assumptions about the assumptions that market participants would use in pricing the asset.

Assets valued using Level 1 inputs in the table above represent assets from the Plan and are valued based on the number of shares in the funds using a closing price per share traded in an active market.

Assets valued using Level 2 inputs in the table above represents Money Market Accounts and are valued using inputs other than quoted prices included in Level 1 that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.

Assets valued using Level 3 inputs include participant loans that are valued at cost plus accrued interest, which approximates fair value. The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

5. Party-In-Interest Transactions

Plan assets are invested in separate accounts managed by the Plan's trustee. These transactions, as well as participant loans, qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants' accounts shall become fully vested and distributed in accordance with the provisions of the Plan.

7. Income Tax Status

The IRS has determined and informed the Company by a letter dated May 25, 2005 that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the Internal Revenue Code (the "Code"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Report of Independent Auditors

To the Participants and Administrator of
Yellow Book USA 401(k) Profit Sharing Plan

We were engaged to audit the financial statements and supplemental schedule of the Yellow Book USA 401(k) Profit Sharing Plan (the "Plan") at December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Profit Sharing Plan
Notes to Financial Statements
December 31, 2009 and 2008**

1. Description of the Plan

The following description of the Yellow Book USA 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan provides deferred retirement and savings benefits to Plan participants based upon (a) amounts contributed to the participant's account by the employee and employer; and (b) investment income or loss. Employee contributions made to the Plan are credited to each participant's account through salary deductions. Yellow Book USA's (the "Company") matching contribution and discretionary profit sharing contributions, if any, are paid annually to the Plan.

Eligibility and Participation

Employees are eligible for participation in the Plan on the first of the month following the date in which employment commences. Employees are eligible to receive employer matching contributions only if they are employed with the Company on the last day of the Plan year and have completed 1,000 hours of service during the Plan year.

Contributions

Participants may contribute up to 60% of their annual eligible pre-tax compensation up to the Internal Revenue Service ("IRS") limit of \$16,500 for 2009. Annually, at its election, the Company makes a matching contribution. The matching contribution for 2009 was 25% of the first 6% of participant's eligible compensation contributed to the Plan. Contributions under the Plan are generally based on total compensation paid by the Company up to the maximum compensation limit of \$245,000 for 2009. In addition, the Company may make discretionary profit sharing contributions to the Plan on behalf of eligible participants. The Company did not make any discretionary profit sharing contributions to the Plan in 2009.

For purposes of determining contributions, compensation is defined as total wages and salary of an employee, including any overtime pay, bonuses and commissions, and excluding holiday bonus and security grants.

Administrative Expenses

At the Company's option, certain expenses related to the administration of the Plan may be paid by the Company. Otherwise, the expenses of the Plan are paid directly by the Plan.

Vesting

Participants are immediately vested in their own contributions and earnings (losses) thereon. Participants become vested in benefits arising from the Company's discretionary matching and profit sharing contributions ratably over three years.

Yellow Book USA 401(k)

Profit Sharing Plan

Notes to Financial Statements

December 31, 2009 and 2008

Forfeitures

If a participant terminates service prior to being fully vested in the employer matching contribution, unvested amounts are forfeited and will be used to reduce future employer contributions to the Plan. Employer matching contributions of approximately \$484,508 and \$622,567 were forfeited in 2009 and 2008, respectively. As of December 31, 2009 and 2008, the Company had a forfeiture balance of approximately \$460,862 and \$572,535, respectively. Employer contributions were reduced by \$480,000 from forfeited nonvested accounts.

Participant Loans

The Plan permits participants who are active employees of the Company to borrow up to 50% of their vested account balance subject to a minimum of \$1,000 and a maximum of \$50,000. The loans are collateralized by the vested balance in the participant's account and bear interest as determined by the Plan administrator based on the prevailing interest rates in the market. Loans must be repaid within a maximum of five years through payroll deductions, unless the loan is used to acquire a dwelling unit which is to be used as the participant's principal residence, in which case it may be repaid over a period not to exceed ten years. At December 31, 2009, the interest rate on loans outstanding ranged from 4% to 11.5%.

Payment of Benefits

The value of a participant's account, including both the employee and the vested portion of the employer contributions and the earnings thereon, is payable to the participant upon retirement, disability or to the participant's beneficiary if death occurs during employment. Additionally, the value of participant's contributions and earnings thereon plus all vested employer contributions are payable upon termination.

Hardship Withdrawal

In case of serious financial hardship, as defined by the Plan, participants may be eligible to receive an emergency withdrawal of their pre-tax contributions.

Risks and Uncertainties

The Plan provides for various investment options in any combination of money market and mutual funds. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A portion of the underlying assets of the mutual funds of which the Plan has invested may include derivative financial instruments. The Plan does not own any of such instruments directly. Such instruments are used primarily to hedge exposures associated with currency exchange rates, interest rates and other factors which may affect security value.

The Plan is exposed to credit loss in the event of nonperformance by the investment managers of the funds. However, the Plan does not anticipate nonperformance by the investment managers.

Investment Options

Contributions are invested by the Fidelity Investments Institutional Operations Company (a sub-service company of the "Trustee", Fidelity Management Trust Company) according to the options elected by the participants. All participant and employer contributions are directed by the

**Yellow Book USA 401(k)
Profit Sharing Plan
Notes to Financial Statements
December 31, 2009 and 2008**

participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting, except for benefits which are recorded when paid.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Investment funds are valued at net asset value, as reported by fund managers. Fair values of the underlying investments are based upon the latest published market quotations, where available. Fair values of underlying investments not having an established market are determined by fund managers by reference to quoted market values and other financial data pertaining to investments of a similar nature, quality, and yield, as determined by fund managers.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued as earned, and dividend income is recorded as of the ex-dividend date. Participant loans are valued at cost which approximates fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities included in the Statements of Net Assets Available for Benefits and the reported amount of net additions and deductions in the Statement of Changes in Net Assets Available for Benefits. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid

Contributions Receivable

Employer contributions receivable represent amounts due to the Plan resulting from a formal commitment, legal or contractual obligation for the Plan Sponsor to make a contribution.

Adoption of New Accounting Standards

Effective January 1, 2008, the Plan adopted new FASB guidance for its financial assets and liabilities which establishes a framework for measuring fair value and expands disclosure requirements about fair value measurements. During August 2009, the FASB issued further guidance on how to measure the fair value of a liability. This guidance did not have a material effect on the Plan's financial statements.

Yellow Book USA 401(k)

Profit Sharing Plan

Notes to Financial Statements

December 31, 2009 and 2008

Recent Pronouncements

In January 2010, the FASB issued guidance which requires enhanced disclosures about transfers between levels of the three-level fair value hierarchy, requires separate disclosures of purchases, sales, issuances, and settlements in the rollforward of activity relating to Level 3 fair value measurements, and provides clarification of existing fair value disclosures. This guidance is effective for the Plan's annual reporting period ending December 31, 2010, except for the requirement to provide expanded disclosure in the rollforward of activity of Level 3 fair value measurements, which will be effective for the Plan's annual reporting period ending December 31, 2011. The Plan Administrator is currently evaluating the impact of this guidance on the Plan's financial statements.

3. Fair Value Measurements

The following table sets forth the Plan's financial assets measured at fair value on a recurring basis as of December 31, 2009 and 2008. These assets have been categorized according to the three-level fair value hierarchy established by ASC 820, which prioritizes the inputs used in measuring fair value. See Note 2 for the valuation methodology used to measure the fair value of these investments.

- (b) Level 2 valuation is based on inputs that are observable other than quoted market prices in Level 1, such as quoted prices for the asset in inactive markets or quoted prices for similar assets.
- (c) Level 3 valuation is based on unobservable inputs reflecting the Plans' own assumptions about the assumptions that market participants would use in pricing the asset.

Assets valued using Level 1 inputs in the table above represent assets from the Plan and are valued based on the number of shares in the funds using a closing price per share traded in an active market.

Assets valued using Level 2 inputs in the table above represents Money Market Accounts and are valued using inputs other than quoted prices included in Level 1 that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.

Assets valued using Level 3 inputs include participant loans that are valued at cost plus accrued interest, which approximates fair value. The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009.

5. Party-In-Interest Transactions

Plan assets are invested in separate accounts managed by the Plan's trustee. These transactions, as well as participant loans, qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants' accounts shall become fully vested and distributed in accordance with the provisions of the Plan.

7. Income Tax Status

The IRS has determined and informed the Company by a letter dated May 25, 2005 that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the Internal Revenue Code (the "Code"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
