INDEPENDENT AUDITORS' REPORT

EFH Thrift Plan Committee
EFH Thrift Plan
Dallas, Texas:

We have audited the accompanying statement of net assets available for benefits of the EFH Thrift Plan, (the "Plan") as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of net assets available for benefits of the Plan as of December 31, 2008, was audited by other auditors, whose report dated October 15, 2009, expressed an unqualified opinion.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009, and the changes in net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) assets (held at end of year) as of December 31, 2009, and (2) reportable transactions for the year ended December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic 2009 financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2009 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic 2009 financial statements taken as a whole.

EFH THRIFT PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

Energy Future Holdings Corp. (EFH) is a wholly owned subsidiary of Texas Energy Future Holdings Limited Partnership, a Delaware limited partnership controlled by Kohlberg Kravis Roberts and Co. L.P., TPG Capital, L.P. and GS Capital Partners.

The following description is provided for general information purposes only. Reference should be made to the EFH Thrift Plan (Plan) document for more complete information.

General – The Plan is a participant-directed defined contribution plan established in 1968 by EFH and its participating subsidiaries (Employer-corporations). The EFH Thrift Plan Committee manages the operation and administration of the Plan. Bank of New York Mellon served as trustee (Trustee) and was custodian of the assets of the Plan during 2008 and through April 2, 2009. Hewitt Associates served as record-keeper (Record-keeper) for the Plan during 2008 and through April 2, 2009. Effective April 3, 2009, Fidelity Investments became the Trustee and custodian of the assets and Record-keeper replacing Bank of New York Mellon and Hewitt Associates, respectively. The Plan was amended in 1993 to establish a pretax deferral feature in accordance with Section 401(k) of the Internal Revenue Code of 1986, as amended (Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is intended to be a participant-directed "individual account plan" under ERISA Section 404(c). As such, the fiduciaries of the Plan are not liable for any losses that are the direct and necessary result of participant investment decisions. Although the Plan has an automatic enrollment feature for new employees, continued participation in the Plan by employees of the Employer-corporations is entirely voluntary.

The Plan was amended in 2005 to eliminate the provisions requiring automatic distributions to former participants' account balances of \$5,000 or less, in order to comply with certain Internal Revenue Service (IRS) requirements. The Plan was amended in 2006 to (1) permit outstanding Plan loans to be transferred as a plan asset from the Plan to a new plan as part of a transfer or rollover of participant accounts required or allowed by any future corporate transactions; (2) adopt two newly permitted events for a participant to receive a hardship distribution: (i) a family member's funeral expenses and (ii) repair of damage to a primary residence; (3) change nonhighly compensated employee maximum deferrals from 100% to 75% of eligible compensation; (4) eliminate the distinction between Basic and Supplemental deferrals and treat both collectively as Employee Savings; and (5) clarify that the Employer-corporation matching contribution is on the first six percent of eligible compensation contributed on either a pretax or post-tax basis or a combination thereof, with the elimination of the distinction between Basic and Supplemental deferrals.

Employer matching contributions are made in cash and may be allocated by participants to any of the Plan investment options. In 2008 and through April 2, 2009, the Plan included 20 participant-directed investment options:

- Interest Income Fund – is managed by Standish Mellon Asset Management and invests in contracts with insurance companies and other financial institutions and in a diversified group of high-quality, fixed income investments that are held by the Plan within contracts that are intended to minimize market volatility;
- Bond Index Fund – purchases Institutional Class shares in the Vanguard Total Bond Market Index Fund, which focuses on intermediate-term bonds;
- Active Bond Fund – purchases Institutional Class shares in the PIMCO Total Return Fund;
- Balanced Fund – purchased units in the Dodge & Cox Balanced Fund, which consisted primarily of investments in equity securities, fixed income securities and money market obligations;
- Large Cap Value Equity Fund – purchased units in the Fidelity Equity-Income Fund, which consisted primarily of income-producing equity securities;
- Large Cap Equity Index Fund – purchased Institutional Class shares in the Vanguard Institutional Index Fund, which consisted primarily of common stocks included in the Standard & Poor's 500 Index;
- Large Cap Growth Equity Fund – purchased Admiral shares in the Vanguard Morgan Growth Fund; these funds invested primarily in common stocks of companies showing potential for significant growth, and also invested in foreign securities;
- Mid Cap Value Equity Fund – purchased I Class shares in the Hotchkis & Wiley Mid Cap Value Fund;
- Mid-Small Cap Equity Index Fund – purchases Institutional Class shares in the Vanguard Extended Market Index Fund;
- Mid Cap Growth Equity Fund – purchased units in the Artisan Mid Cap Fund;
- Small Cap Value Equity Fund – purchased Institutional Class shares in the American Beacon Small Cap Value Fund which invested primarily in equity securities issued by companies with market capitalization within the range of securities in the Frank Russell 2000 Index;
- Small Cap Growth Equity Fund – purchased Admiral shares in the Vanguard Explorer Fund;
- International Value Equity Fund – purchased Institutional Class shares in the American Beacon International Equity Fund which invested primarily in equity securities of foreign issuers;
- International Equity Index Fund – purchased Institutional Class shares in the American Beacon International Equity Index Fund, which invested primarily in equity securities of large foreign companies;
- International Growth Equity Fund – purchases Institutional Class shares in the MFS Institutional International Equity Fund, which invests primarily in equity securities of large foreign companies showing potential for significant growth;
- Premixed Retirement Income – purchased shares in the Vanguard Target Retirement Income Fund, which invested in Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement;
- Premixed Target Retirement 2010 – purchased shares in the Vanguard Target Retirement 2010 Fund, which invested in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire between 2008 and 2012 with the fund's asset allocation becoming more conservative over time;
- Premixed Target Retirement 2020 – purchased shares in the Vanguard Target Retirement 2020 Fund, which invested in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire between 2018 and 2022 with the fund's asset allocation becoming more conservative over time;
- Premixed Target Retirement 2030 – purchased shares in the Vanguard Target Retirement 2030 Fund, which invested in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire between 2028 and 2032 with the fund's asset allocation becoming more conservative over time, and
- Premixed Target Retirement 2040 – purchased shares in the Vanguard Target Retirement 2040 Fund, which invested in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire between 2038 and 2042.

In addition to Fidelity Investments becoming Trustee and Record-keeper on April 3, 2009, other changes to the Plan effective at this time included:

- 18 new investment options were added to five retained options. Retained options include:
 - BNY Mellon Interest Income Fund, previously labeled “Interest Income Fund” (stable value investment option);
 - PIMCO Total Return Fund — Institutional Class, previously labeled “Active Bond Fund” (bond mutual fund);
 - Vanguard Total Bond Market Index Fund — Institutional Shares, previously labeled “Bond Index Fund” (income mutual fund);
 - Vanguard Extended Market Index Fund — Institutional Shares, previously labeled “Mid-Small Cap Equity Index Fund” (domestic equity mutual fund);
 - MFS Institutional International Equity Fund, previously labeled “International Growth Equity Fund” (international/global equity fund);

New investment options added include:

- Allianz NFJ Dividend Value Fund — Institutional Class (domestic equities mutual fund);
- Allianz NFJ Small-Cap Value Fund — Institutional Class (small cap value mutual fund);
- AllianceBernstein Small Cap Growth Fund — Class I (domestic equity mutual fund);
- NTGI-QM Collective Daily S&P 500 Equity Index Fund — Non Lending (US equity collective fund for qualified and governmental retirement plans);
- Pyramis Index Lifecycle Pools (a series of commingled pools using a lower-cost, index-based approach that allow a participant to select an appropriate pool based on expected retirement year) including:
 - Pyramis Index Lifecycle 2000 Commingled Pool;
 - Pyramis Index Lifecycle 2005 Commingled Pool;
 - Pyramis Index Lifecycle 2010 Commingled Pool;
 - Pyramis Index Lifecycle 2015 Commingled Pool;
 - Pyramis Index Lifecycle 2020 Commingled Pool;
 - Pyramis Index Lifecycle 2025 Commingled Pool;
 - Pyramis Index Lifecycle 2030 Commingled Pool;
 - Pyramis Index Lifecycle 2035 Commingled Pool;
 - Pyramis Index Lifecycle 2040 Commingled Pool;
 - Pyramis Index Lifecycle 2045 Commingled Pool, and
 - Pyramis Index Lifecycle 2050 Commingled Pool;
- Rainier Large Cap Growth Equity Portfolio (domestic equity collective fund);
- Spartan International Index Fund — Advantage Class (an international growth fund), and
- Fidelity BrokerageLink (a brokerage account with the Plan that offers the opportunity to choose investments from a range of Fidelity Investment and non-Fidelity Investment mutual funds).

- A Roth 401(k) contribution feature was added that provides for participants to make after-tax contributions to the Plan and to ultimately receive a distribution of the earnings attributable to these contributions that are tax free if certain conditions are met.
- Certain provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008 were incorporated into the Plan:
 - Participants who do not return to active employment at the Company following military leave, due to disability or death in active military service, receive an additional employer contribution to the same extent as if they had returned to employment on the date of disability or death.
 - Reservists who are called to active military duty for at least 30 days may now take a total withdrawal of their accounts (effective January 1, 2009).
- Participants eligible to make catch-up contributions will make such contributions by specifying a percentage of their eligible compensation per payroll period instead of making such contribution in a specific dollar amount.
- The hardship withdrawal provisions were expanded to include withdrawals based on financial circumstances of a beneficiary of a participant. Specifically, hardship distributions are permitted due to the medical expenses, educational expenses or burial expenses of a beneficiary of a participant.

Eligibility, Participation and Employee Savings – All employees of a participating Employer-corporation are eligible to participate in the Plan upon employment except nonresident alien employees who receive no earned United States of America (US) sourced income, leased employees, or any individuals who are treated by or characterized in the internal records of an Employer-corporation as independent contractors, loaned employees, staff augmentation personnel, or scope of work contractors, or individuals who perform services for an Employer-corporation under a special arrangement with a third party, regardless of any determination by the IRS, other governmental agency, or a court or other tribunal, that any such individual is, or was, a common law employee of an Employer-corporation for any period of time.

In 2007, the Plan added an automatic enrollment feature whereby new employees are automatically enrolled in the Plan with a pretax contribution amount of 3% of eligible compensation unless the new employee affirmatively makes an election not to participate or to participate at a different percent contribution rate. If no change is made by the participant, the contribution rate will automatically increase by 1% each year up to a maximum of 10% at the end of seven years. Such contributions initiated through this automatic enrollment feature are automatically invested in the age appropriate Pyramis Index Lifecycle Pool for the participant unless they choose a different investment.

Under the Plan, except as limited by law, a participating employee may invest a specified percentage of eligible compensation each payroll period, either through pretax salary deferral or after-tax payroll deduction. The total of a participant's pretax and after-tax salary deferral/payroll deductions is known as Employee Savings. The maximum amount of Employee Savings for participants earning less than the IRS threshold for determining "highly compensated employees" is 75% of eligible compensation, and for participants earning more than the IRS threshold for determining "highly compensated employees" is 16% of eligible compensation.

Federal law limits the amount a participant may invest on a pretax basis (\$16,500 per year in 2009). However, a participant who is eligible to make pretax salary deferrals and attained age 50 before the close of the Plan year may make an additional pretax catch-up contribution each year. This catch-up limit was \$5,500 in 2009 for participants who reached age 50 during the respective Plan year. The Plan year begins January 1 and ends December 31.

Subject to certain conditions, a participant may transfer or rollover to the Plan cash amounts distributed or distributable from an individual retirement account (IRA) or a qualified retirement plan. Only taxable contributions held in an IRA may be transferred or rolled over from an IRA, while taxable and nontaxable contributions may be transferred or rolled over from a qualified retirement plan.

Employer-Corporation Matching Contributions – Employer-corporation matching contributions to Employee Savings are made in an amount equal to 100% up to the first 6% of eligible compensation for those participants who participate in the Cash Balance Formula of the EFH Retirement Plan or who are not eligible to participate in the EFH Retirement Plan and 75% up to the first 6% of eligible compensation for employees who are covered under the Traditional Retirement Plan Formula of the EFH Retirement Plan. No Employer-corporation matching contributions are made with respect to Employee Savings greater than 6% of eligible compensation.

Investment of Funds – All Employer-corporation matching contributions are made in cash and invested according to the participant's investment election. Each participant may invest his/her Employee Savings, in 1% increments, among the various available investment options.

All assets of the Plan are held by the Trustee for the exclusive benefit of participants and their beneficiaries. Separate account records for each participant are maintained by the Record-keeper. The Record-keeper provides a summary of financial performance by investment fund directly to Plan participants.

A participant may diversify investments of Employee Savings among the available investment funds under the Plan at any time by liquidating the investments attributable to such Employee Savings and reinvesting such amounts in other investment options as may be permitted under the Plan.

Participants may also effectively diversify their employer matching contributions amount at any time by making a total withdrawal of such accounts. See below for information regarding withdrawal from the Plan. Additionally, a participant may diversify investments of Employer-corporation matching contributions at any time by liquidating the investments attributable to such matching contributions and reinvesting such amounts in other investment options as may be available under the Plan.

Unit Values – Participants do not have beneficial ownership in specific securities or other assets in the Interest Income funds, but have an interest therein represented by units valued as of the close of each business day. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit value, and the appropriate account is charged or credited with the number of units properly attributable to the participant.

Withdrawal from the Plan – Withdrawals from the Plan are governed by applicable IRS regulations and provisions of ERISA. Penalties may apply in certain instances.

Participants are fully vested in all amounts in their accounts (i.e., pretax contributions, after-tax contributions, Employer-corporation matching contributions, rollover contributions, Roth contributions and all earnings and dividends thereon).

A participant who terminates employment may retain the funds in the Plan or withdraw them at any time; however, the participant must begin withdrawals no later than April 1st following the later of the calendar year in which the participant attains age 70 ½ or the calendar year in which the participant retires. To avoid immediate taxation, a withdrawal made upon termination may be rolled into an IRA or a qualified retirement plan sponsored by another employer, provided that the other qualified retirement plan accepts rollovers. Terminated participants who leave their account in the Plan are charged a monthly administrative maintenance fee.

Participants may make partial or total withdrawals from their rollover and after-tax Employee Savings accounts at any time and for any reason. Participants may make withdrawals from pretax Employee Savings accounts upon termination of employment or attainment of age 59½. Participants may make total withdrawals of their Employer-corporation matching contributions account at any time. Additionally, participants who meet certain qualifications defined by the IRS may make hardship withdrawals from their pretax Employee Savings account. Participants who receive a hardship withdrawal may not contribute to the Plan for a period of six months.

Participants making withdrawals can choose from the following optional forms of payment: (a) publicly traded fund units (to the extent permitted by the fund) credited to a participant's account; (b) single lump sum cash payment; or (c) a combination of (a) and (b).

Unclaimed Terminated Participants' Accounts – As a result of the merger of the TXU ENSAVE Plan into the Plan effective December 31, 2001, the Plan has a segregated account of amounts payable to terminated participants of the former ENSERCH Corporation (ENSERCH) Tax Reduction Act Stock Ownership Plan ("TRASOP") whom the Plan administrators have been unable to locate. Included in net assets available for benefits as of December 31, 2009 and 2008 was \$2,178,730 and \$2,181,959, respectively, of TRASOP unclaimed terminated participants' benefits representing unclaimed dividends payable to terminated participants of the TRASOP. The TRASOP unclaimed terminated participants' benefits amounts were invested in the Mellon Bank Cash Management Fund until April 3, 2009. On this date in connection with the change in Plan trustee, the unclaimed terminated participants' benefits were transferred to a money market account at Wells Fargo Bank. The Plan remains contingently liable to terminated participants for the unclaimed cash in this segregated account.

Federal Income Taxes – EFH has been advised by the IRS that the Plan meets the requirements of Section 401(a) of the Code as to form; that the Trust is exempt from federal income taxes under Section 501(a) of the Code; and that employer contributions paid to the Trust under the Plan are allowable federal income tax deductions to the Employer-corporations subject to the conditions and limitations of Section 404 of the Code. The Plan received its last favorable determination letter from the IRS on November 29, 2002. Although the Plan has been amended since receipt of this letter, management believes that the Plan is currently being operated in a manner that would not jeopardize its tax status.

Based on the Code and regulations issued pursuant thereto:

- (a) Employer contributions under the Plan and dividends, interest and other income from Trust assets are not taxable to the participant when received by the Trustee and credited to the participant's account.
- (b) After-tax contributions to Employee Savings are not deductible on the participant's federal income tax return and are included in the participant's gross compensation as reported on Form W-2. After-tax contributions to Employee Savings are not taxable when distributed from the Plan.
- (c) Pretax contributions to Employee Savings reduce a participant's gross compensation as reported on Form W-2 and are not taxable to the participant when received by the Trustee and credited to the participant's account.
- (d) Withdrawals of after-tax Employee Savings (excluding any earnings thereon) that were contributed to the Plan prior to January 1, 1987 represent a return of employee savings (basis) and are not taxable to the participant when withdrawn. Withdrawals of after-tax employee savings contributed to the Plan after December 31, 1986 became subject to Code Section 72 distribution requirements and are considered to include prorated portions of basis and earnings and, therefore, include an amount of taxable income.
- (e) A total withdrawal generally results in taxable income to the participant equal to the gross distribution, less after-tax contributions to Employee Savings. However, if the total withdrawal meets the lump sum distribution requirements of the Code, the taxable amount may be eligible for the special forward averaging provisions of the Code.

- (f) The total or partial withdrawal may generally be rolled over to an IRA or other eligible retirement plan and payment of taxes may thereby be deferred. Taxable amounts not rolled over may be subject to automatic income tax withholding of 20%. Hardship withdrawals are not eligible for rollover.

Participants are encouraged to consult their individual tax and financial advisors and to determine in advance the effect on their federal income tax liability of receiving distributions from the Plan.

Amendment, Modification, Suspension and Termination – It is the intention of EFH to continue the Plan indefinitely; however, EFH, by action of its Board of Directors, may amend, modify or suspend the Plan at any time, or from time to time, and may terminate the Plan at any time; and any Employer-corporation may withdraw from participation in the Plan at any time upon prior notice.

In the event of termination of the Plan in whole or in part or termination of participation of any Employer-corporation, each participant in the Plan affected by such termination shall receive a distribution of the entire balance in the participant's account, whether derived from Employee Savings, rollovers or Employer-corporation matching contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the US (GAAP). Benefit payments are recorded when paid. Subsequent events have been evaluated through October 13, 2010, the date these financial statements were available to be issued.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment instruments, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment instruments, it is reasonably possible that changes in the values of investment instruments will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Valuation of Investment Securities – The Plan's investments are stated at fair value. Mutual funds are stated at fair value based upon the closing sales prices of recognized securities exchanges on the last business day of the fiscal year. See Note 4 for additional disclosures on fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date.

The interest income fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis. (See discussion of the interest income fund in Note 6).

Expenses – All costs and expenses of the Plan and its administration are paid by the Employer-corporations and recorded on an accrual basis as incurred, except certain manager investment fees and redemption fees and expenses incurred in the generation and administration of participant loans, which are paid by participants. Additionally, terminated participants pay a monthly account maintenance fee, which is recorded as a reduction of administrative fees reported in the statement of changes in net assets available for benefits, if they leave their account in the Plan.

Payment of Benefits – Benefit payments to participants are recorded upon distribution.

Changes in Accounting Standards — In January 2010, the Financial Accounting Standards Board (FASB) issued guidance on disclosure about fair value measurements. The guidance requires new disclosures of transfers in and out of Levels 1 and 2 of the fair value hierarchy and separate disclosure about purchases, sales, issuances and settlements in Level 3 of the fair value hierarchy. The guidance also provides clarification on disclosures related to the level of disaggregation among assets and liabilities and to the inputs and valuation techniques used to measure fair value. This new guidance is effective for periods beginning January 1, 2010, except for the new disclosures about purchases, sales, issuances and settlements in Level 3, which are effective for periods beginning January 1, 2011. As this new guidance provides only disclosure requirements, the adoption will not have any effect on reported net assets available for benefits or changes thereof.

In June 2009, the FASB issued “The *FASB Accounting Standards Codification*™ and the Hierarchy of Generally Accepted Accounting Principles,” which establishes the *FASB Accounting Standards Codification*™ (Codification) as the source of authoritative GAAP recognized by the FASB to be applied to nongovernmental entities. The Codification was effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption of the Codification did not affect reported net assets available for benefits or changes thereof.

In May 2009, the FASB issued new guidance related to subsequent events that requires disclosure of the date through which we have evaluated subsequent events related to the financial statements being issued and the basis for that date. Our adoption of this guidance for these 2009 financial statements did not affect reported net assets available for benefits or changes thereof, and the required disclosure is provided above in “Basis of Accounting.”

In April 2009, the FASB issued new guidance regarding determining fair value when the volume and level of activity for the asset or liability have significantly decreased or market transactions are not orderly. We adopted this guidance in 2009. This guidance did not change our fair value measurement techniques.

3. INVESTMENTS

Investments representing 5% or more of the Plan’s net assets at either December 31, 2009 or 2008 are as follows:

	December 31, 2009	Percent Of Net Assets	December 31, 2008	Percent Of Net Assets

During 2009, the Plan’s investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$171,980,805.

4. FAIR VALUE MEASUREMENTS

Accounting standards related to the determination of fair value define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present amount. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset. The Plan primarily uses the market approach of using prices and other market information for identical and/or comparable assets for those investments that are measured on a recurring basis and uses valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan categorizes its investments recorded at fair value based upon the following fair value hierarchy:

- Level 1 valuations use quoted prices in active markets for identical assets that are accessible at the measurement date. An active market is a market in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis. The Plan's Level 1 investments include equity and fixed income mutual funds and short-term investment funds and bonds in fixed maturity synthetic guaranteed investment contracts that are valued using published market prices, such as those from the New York Stock Exchange.
- Level 2 valuations use inputs other than actively quoted market prices included in Level 1, that are observable for the asset, either directly or indirectly. Level 2 inputs include: (a) quoted prices for similar assets or liabilities in active markets, (b) quoted prices for identical or similar assets or liabilities in markets that are not active, (c) inputs other than quoted prices that are observable for the asset such as interest rates and yield curves observable at commonly quoted intervals and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. The Plan's Level 2 assets include traditional guaranteed investment contracts valued using rates published in the Wall Street Journal, variable synthetic guaranteed investment contracts valued using published swap rates and pooled funds and constant duration synthetic guaranteed investment contracts valued using quoted values from investment managers.
- Level 3 valuations use unobservable inputs for the asset. Unobservable inputs are used to the extent observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset at the measurement date. The Plan's Level 3 assets include wrap contracts valued using hypothetical wrap fees generated by matrix pricings.

With respect to amounts presented in the following fair value hierarchy table, the fair value measurement of an asset (e.g. an investment) is required to fall in its entirety in one level, based on the lowest level input that is significant to the fair value measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset being measured.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2009.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 377,695,484	\$ —	\$ —	\$ 377,695,484

Net unrealized gains included in net assets held at end of period (a)	<u>\$ 56,271</u>	<u>\$ 260,703</u>

(a) Includes unrealized gains and losses related only to the periods in which the instrument was classified as a Level 3 asset or liability.

5. NONPARTICIPANT-DIRECTED INVESTMENTS

Net assets available for benefits and changes in net assets available for benefits relating to nonparticipant-directed investments are as follows:

	<u>December 31, 2009 (a)</u>	<u>December 31, 2008 (a)</u>
Investments – at fair value	\$ 2,178,712	\$ 2,180,232

Net assets available for benefits	<u>\$ 2,178,730</u>	<u>\$ 2,181,959</u>

(a) Amounts at December 31, 2009 and 2008 consist of unclaimed terminated participants' accounts described in Note 1.

	<u>Period from January 1, 2009 through December 31, 2009</u>
Changes in net assets available for benefits:	
Dividends and interest	\$ 4,401
Net realized and unrealized gains from investments	350
Distributions	<u>(7,980)</u>
Decrease in net assets available for benefits	<u>\$ (3,229)</u>

6. INTEREST INCOME FUND

The Interest Income Fund fair value totaled \$227,649,675 and \$209,905,794 at December 31, 2009 and 2008, respectively, and generally consists of investment contracts as described below:

Guaranteed Investment Contracts – Traditional Guaranteed Investment Contracts (GICs) are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The crediting rate on this product is typically fixed for the life of the investment.

Synthetic Guaranteed Investment Contracts – General fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the fund (or plan) and a benefit-responsive (as discussed in Note 2) book value wrap contract purchased for the portfolio. The wrap contract provides book value accounting for the asset and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate of the contract is set at the start of the contract and typically resets every quarter. Generally, fixed maturity synthetics are held to maturity. The initial crediting rate is established based on the market interest rates at the time the initial asset is purchased, and it will have an interest crediting rate not less than 0%.

Variable synthetic GICs consist of an asset or collection of assets that are managed by the bank or insurance company and are held in a bankruptcy-remote vehicle for the benefit of the fund (or plan). The contract is benefit-responsive and provides next day liquidity at book value. The crediting rate on this product resets every quarter based on the then current market index rates and an investment spread. The investment spread is established at time of issuance and is guaranteed by the issuer for the life of the investment.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration, and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract and the market yield, the market value and the average duration of the underlying assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is based on the market interest rates at the time the underlying portfolio is initially established, and it will have an interest crediting rate of not less than 0%.

It is probable that withdrawals and transfers resulting from the events listed below will limit the ability of the fund to transact at book or contract value. Instead, market value will likely be used in determining the payouts to the participants.

- Employer-initiated events – events within the control of the Plan or the plan sponsor which would have a material and adverse impact on the fund;
- Employer communications designed to induce participants to transfer from the fund;
- Competing fund transfer or violation of equity wash or equivalent rules in place;
- Changes of qualification status of employer or plan.

In general, issuers may terminate the contract and settle at other than contract value if the qualification status of employer or plan changes, if there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The average yield of the Interest Income Fund (which is predominantly GICs) based on annualized earnings was approximately 3.68% at December 31, 2009 and the average yield based on interest rate credited to participants was approximately 3.76% at December 31, 2009.

7. PARTICIPANT LOANS RECEIVABLE

The Plan includes a loan feature allowing participants to borrow up to 50% of their pretax employee savings, after-tax employee savings, employer matching contributions and rollover contributions and repay the loan with after-tax payroll deductions. A participant may not have more than two outstanding loans at one time. The minimum amount of a Plan loan is \$1,000 and the maximum is \$50,000 less the highest outstanding loan balance in the preceding 12-months. Participants may repay the loan into their account(s) over a period of one to five years for a general purpose loan, and the shorter of 15 years or their remaining mortgage term for a primary home loan. The rate of interest charged is the prime lending rate published in the Wall Street Journal on the first business day of the month plus 2.0%. During 2009 and 2008, the interest rates charged on new loans were 5.25% and between 6.0% and 9.25%, respectively.
