OTC GLOBAL HOLDINGS LP 401(K) PROFIT SHARING PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

OTC Global Holdings LP 401(k) Profit Sharing Plan ("the Plan"), adopted in 2003, is a defined contribution plan covering substantially all hourly and salaried employees of OTC Global Holdings LP (the "Company" or "Plan Sponsor"), subject to certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a profit sharing plan with a cash or deferred option. Such a plan is commonly referred to as a "401(k)" Plan. The purpose of the Plan is to provide employees with retirement benefits. Major provisions of the Plan in effect as of December 31, 2009, are summarized below; however, participants should refer to the Plan document for specific plan provisions.

Eligibility

All employees of the Company who are at least 21 years old are eligible for participation in the Plan the first day of the month coinciding with or following their hire date or after age requirements are met.

Contributions

Each year, participants may elect to defer up to 100% of compensation up to the maximum amount allowed by the Internal Revenue Service (IRS). The maximum limit allowed was $16,500 for 2009. Additionally, participants who are at least 50 years old may make "catch-up" contributions up to $5,500 for 2009. Participants may elect to make Roth 401(k) deferrals, the deferrals are subject to federal income taxes in the year of deferral. However, deferrals are not subject to federal income taxes when distributed to participants. Each year, the Company may make matching and profit sharing contributions. For the year ended December 31, 2009, no matching or profit sharing contributions were made.

At the discretion of the Plan Administrator, participants may be permitted to roll over into the Plan, distributions received from other retirement plans and certain IRAs within 60 days from the receipt of the distribution.

Vesting

Company discretionary matching contributions and profit sharing contributions are 20% vested for each year of service beginning with the second year, until 100% vested after six years of service. Participants are automatically vested in their employee and employer contributions upon death, disability or retirement.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or their beneficiary may elect to receive a lump-sum distribution or payments in equal periodic installments equal to the value of the participant's vested account or defer such benefits until a later date. If the distribution is $5,000 or less, the form of payment is either a lump-sum distribution or rollover to qualified plan if elected so in a timely manner.

At the age of 70½, certain rules require the participants to take minimum distributions in the form of an annuity.

NOTE 1 – DESCRIPTION OF PLAN - CONTINUED

Forfeitures

Participants terminating employment prior to full vesting forfeit their non-vested portion of Company contributions. Forfeitures are used to pay Plan administrative expenses or to reduce Company's contributions. At December 31, 2009 and 2008, there were no forfeited non-vested accounts.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000, or 50% of their vested account balance, whichever is less. Loan terms may not exceed 5 years. However, for the purchase of a primary residence, the Plan Administrator may permit longer repayment terms. The loans are secured by the balance in the participant's account and bear interest rate charged for similar type of loans by other lenders. Additionally, only two loans may be outstanding at any time for each participant.

Withdrawals

An in-service withdrawal can be made while still employed, if the participant qualifies and the withdrawal is approved by the Plan Administrator. Participants are able to make withdrawals from employee contributions and vested employer contributions for financial hardship and qualifying emergencies, as defined by the Plan. A participant may make unrestricted withdrawals of his vested balance on or after age 59½.

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their accounts among alternative investment funds provided under the Plan. Participants may change their investment elections at any time, as well as transfer existing balances between investment options.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) Plan earnings, and charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings, account activity or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. Estimates that have the most impact on financial position and results of performance primarily relate to the collectibility of participant loans and the fair value of investments. Plan management believes these estimates and assumptions provide a reasonable basis for the fair presentation of the financial statements.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The net change in the fair value of investments is reported in the statement of changes in net assets available for benefits in the period of the change. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The John Hancock Stable Value Fund (the "Fund") is a collective investment trust which invests primarily in diversified fixed income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock Life Insurance Company, and in book value stabilizing agreements offered by high quality financial institutions. The fund is fully benefit-responsive and honors eligible redemptions at $1 per unit.

Any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Fees and Expenses

The Plan incurs expenses related to general administration, recordkeeping and investment advisory services. Participants pay for the costs charged for originating loans, or for receiving distributions, from their account balance. These fees and expenses totaled $834 for the year ended December 31, 2009.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

New Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board issued a new accounting standards update. This new update allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in this new update for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting this new update, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 3 for these disclosures. Adoption of this new update did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through the date the financial statements were available for issuance on October 15, 2010. No matters were identified affecting the financial statements that have not already been disclosed elsewhere in these financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan measures and reports certain assets and liabilities at fair value and within a hierarchal disclosure framework which prioritizes and ranks the level of observable inputs used in measuring fair value. At each financial statement date, the Plan performs an analysis of all assets and liabilities subject to fair value measurements.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs, excluding those included in Level 1, are either observable prices for identical assets or liabilities in inactive markets, observable prices for similar assets and liabilities, or other inputs derived principally from, or corroborated by, observable market data at the measurement date.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

NOTE 3 – FAIR VALUE MEASUREMENTS - CONTINUED

Mutual funds are valued at the net asset value ("NAV") of shares held by the plan at year end. Money market funds are valued at cost which approximates fair value. The fair value of the pooled separate accounts has been estimated using the NAV per share. The NAV of these accounts is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market. There are currently no redemption restrictions on these investments. The fair value of the John Hancock Stable Value Fund, a collective investment trust fund, was determined based on information provided by the issuer of the collective trust fund. The underlying fund equals the number of shares multiplied by the closing NAV per share quoted by the collective investment trust fund. Participant loans are valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Quoted Market Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)

(a) The pooled separate account U.S Property invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2009 and 2008:

	U.S. Property	Participant Loans

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, including partial termination, participants will become fully vested in their accounts.

NOTE 6 – INCOME TAX STATUS

The Plan Sponsor adopted a new Prototype Plan under the Prototype Sponsor, Malcolm Thompson and Associates, Inc. The IRS has determined and informed the Prototype Plan by a letter dated March 31, 2008 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan itself had not received a determination letter from IRS. However, the Plan Administrator believes the Plan is currently designed and operating in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

The Plan has participant loans at December 31, 2009 and 2008. These loans and all transactions relating to these loans qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Also, certain Plan investments are shares of mutual funds managed by the Trustees and, therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

The Plan incurs expenses related to general administration and recordkeeping. Expenses such as commissions and broker fees, charged by the Trustees are paid by the Plan.

NOTE 8 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 – FIDELITY BONDING REQUIREMENTS

The Department of Labor (DOL Reg. 2580.412-11) requires Plan Administrators to obtain fidelity bond coverage totaling at least $1,000 or 10% of plan assets at the beginning of the plan year not to exceed $500,000. This coverage provides protection to the Plan against loss by reason of acts of fraud or dishonesty on the part of such administrator, officer, or employee, directly or through connivance with others. The Company was not in compliance with this regulation as of December 31, 2009. During 2010, the Company increased the limit of the fidelity bond to $500,000 to comply with the regulation.

NOTE 10 - DELINQUENT PARTICIPANT CONTRIBUTIONS

The Department of Labor (DOL Reg. 2580.412-11) requires an employer to segregate participant contributions from its general assets as soon as practicable, but in no event later than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages. During the year ended December 31, 2009, the Company did not segregate employee contributions and loan repayments totaling $281,259, in a timely manner. As a result, the Company owed the Plan additional interest of $110 for the year ended December 31, 2009. The additional interest has not been included in the accompanying financial statements as it does not have a material effect on the Plan's net assets available for benefits or changes in net assets available for benefits. The lost earnings were remitted to the Plan in 2010.

For the year ended December 31, 2009, the Company intends to file Form 5330 with the Internal Revenue Service and pay the required excise tax relating to the delinquent contributions.
