Independent Auditors' Report

To the Plan Administrator of the
Journal Register Company Retirement Plan

We were engaged to audit the financial statements and supplemental schedules of the Journal Register Company Retirement Plan (the "Plan") as of and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management. The financial statements of the Plan as of December 31, 2008 were audited by other auditors whose report dated October 14, 2009, disclaimed an opinion on these financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the 2009 information summarized in Note 3, which was certified by Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, and Principal Life Insurance Company, a custodian of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustee and custodian as of and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee and custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the 2009 financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RETIREMENT PLAN**

Notes to Financial Statements
December 31, 2009 and 2008

1. Description of the Plan:

The following brief description of the Journal Register Company Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General:

The Plan is a defined benefit pension plan currently providing service benefits to union employees of the participating employers (the “Employers”) of Journal Register East, Inc. (the “Sponsor”) and its parent company, Journal Register Company (the “Company”). Participation and benefit accruals in the Plan were frozen as of December 31, 2006 for the non-union employees originally part of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Eligibility:

Full-time union employees may participate in the Plan based on eligibility requirements under negotiated union contracts of the various Company subsidiaries participating in the Plan.

Pension Benefits:

The Plan provides for normal retirement at the later of either the date on which the participant attains age 65 or on a specific anniversary of the date on which he or she became a Plan participant depending upon the provision required by the various participating Company subsidiaries.

Generally, for service up to December 31, 1994, the amount of normal monthly retirement benefit to be provided for each participant shall be the total as follows:

- \$3,575 multiplied by the number of years of service as of the retirement date; plus
- One and three-tenths percent (1.3 percent) of the participant’s average monthly compensation as of the retirement date, multiplied by the number of years of service.
- Years of service used for determining any benefit shall be limited to thirty-five years.

For each calendar year beginning on or after January 1, 1995 in which the participant earns a year of credited service, the participant’s accrued benefit shall be the total of:

- One percent (1 percent) of the participant’s compensation up to covered compensation, as defined; plus
- One and one-half percent (1.5 percent) of the participant’s compensation in excess of covered compensation, as defined.

Certain participating Company subsidiaries provide benefits that vary from the above description.

The Plan also contains provisions for early retirement, late retirement, disability, death and termination benefits.

RETIREMENT PLAN**
Notes to Financial Statements, continued
December 31, 2009 and 2008

1. Description of the Plan, continued:

Limitation of Benefits:

In no event shall the combined annual benefit payable with respect to a participant on a single life basis, under this and any other defined benefit plan to which an employer or a 50 percent affiliated employer contributes, exceed the lesser of: \$195,000 (2009) and \$185,000 (2008) or one hundred percent (100 percent) of the participant's average compensation during the three consecutive calendar years as an active participant in which such compensation is the highest.

Vesting:

A participant is fully vested after five years of service.

2. Summary of Significant Accounting Policies:

Basis of Accounting:

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan's interest in common/collective trusts and investment contracts with insurance companies are based on the fair value of the trust's underlying investments as reported by the trustee.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of shares of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

RETIREMENT PLAN**
Notes to Financial Statements, continued
December 31, 2009 and 2008

2. Summary of Significant Accounting Policies, continued:

Investment Valuation and Income Recognition, continued:

The Plan presents in the Statements of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains (or losses) and the unrealized appreciation (depreciation) on those investments bought, sold and held during the year.

Payment of Benefits:

Benefits are recorded when paid.

Administrative Expenses:

All costs and expenses incurred in the administration of the Plan, including fees and expenses of the trustee, are paid by the Plan and charged and withdrawn against the trust.

Administrative expenses include such costs as accounting, audit, legal, trustee, custodial, actuary, and recordkeeping fees. These expenses are reflected as administrative expenses in the accompanying Statements of Changes in Net Assets Available for Benefits.

Subsequent Events:

The Plan has evaluated events and transactions subsequent to the Plan's year-end through the time that the financial statements were available to be issued on October 11, 2010. Based on this evaluation, the Plan is not aware of any events or transactions that occurred subsequent to the Plan's year-end but prior to October 11, 2010 that would require recognition or disclosure in its financial statements.

3. Information Prepared and Certified by Trustee and Custodian:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of New York/BNY Mellon, N.A. ("Bank of New York Mellon"), the trustee of the Plan and Principal Life Insurance Company ("Principal"), a custodian of the Plan, have certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits and in Note 4 as of December 31, 2009 and 2008, and on the accompanying supplemental Schedule of Assets (Held at End of Year) as of December 31, 2009. Additionally, the completeness and accuracy of the related investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2009 and 2008, and on the accompanying supplemental Schedule of Reportable Transactions for the year ended December 31, 2009, have been certified by the trustee.

Notes to Financial Statements, continued
December 31, 2009 and 2008

4. Investments:

The following investments constitute more than five percent of the Plan's net assets available for benefits as of December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>
EB Daily Valued Large Cap Stock Index Fund	\$ 31,495,159	\$ 28,434,891
EB Daily Opening Aggregate Bond Index Fund	21,763,256	20,017,803
Principal Life Insurance Company Flexible Pension Investment Contracts ("Investment Contracts")	8,385,267	9,392,567
EB NCML Global Equity Fund	7,462,331	6,871,967

5. Fair Value Measurements:

The Financial Accounting Standards Board, Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Plan's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset.

5. Fair Value Measurements, continued:

The following tables set forth the level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009	Level 1	Level 2	Level 3	Total

6. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits, as determined by the Plan's actuary, is based on information provided by the Plan administrator and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial computations are based on the following assumptions for 2009 and 2008:

Mortality: Generational Mortality Table for Annuitants and Non-Annuitants in 2009 and 2008

Liability discount rate: 6.75 percent in 2009 and 6.25 percent in 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the present value of accumulated plan benefits.

6. Actuarial Present Value of Accumulated Plan Benefits, continued:

As determined by the Plan actuary, the actuarial present value of accumulated plan benefits as of the beginning of each Plan year was as follows:

	January 1, 2009	January 1, 2008
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving benefits	\$ 55,100,977	\$ 57,012,492
Other participants	47,940,441	53,699,289
Total vested benefits	103,041,418	110,711,781
Non-vested benefits	-	-
Total actuarial present value of accumulated plan benefits	<u>\$103,041,418</u>	<u>\$110,711,781</u>
Change in the actuarial present value of accumulated plan benefits:		
Actuarial present value of accumulated plan benefits at January 1, 2008		\$110,711,781
Increase (decrease) during the year attributable to:		
Interest accumulation		6,693,935
Benefit payments		(7,328,695)
Actuarial assumptions		(5,874,514)
Benefits accumulated		<u>(1,161,089)</u>
Actuarial present value of accumulated plan benefits at January 1, 2009		<u>\$103,041,418</u>

7. Funding Policy:

The Company's funding policy is to make quarterly contributions to the Plan as determined by the Plan's actuary subject to the minimum funding requirements of ERISA. At December 31, 2009, the minimum funding requirements set forth by ERISA were met by the Plan.

8. Plan Termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Upon complete termination of the Plan, the administrator shall allocate the assets of the Plan among participants and beneficiaries in the following order of priority:

- (1) Equally among individuals in the following two categories:
 - Benefits to participants and their beneficiaries to whom payment commenced at least three (3) years prior to the termination date, based on Plan provisions in effect during the five (5) year period ending on such date; the lowest benefit in any pay status during the most recent three (3) year period shall be considered the benefit in pay status for such period.

**JOURNAL REGISTER COMPANY
RETIREMENT PLAN**

Notes to Financial Statements, continued
December 31, 2009 and 2008

8. Plan Termination, continued:

- Benefits with respect to a participant wherein payment would have commenced at least three (3) years prior to the termination date as if the participant had actually retired at that date, based on the lowest benefit determined under the Plan provisions in effect during the five (5) year period ending on such date.
- (2) All other benefits guaranteed by federal law.
- (3) All other vested accrued benefits.
- (4) All other remaining non-vested accrued benefits under the Plan.
- (5) Return of any excess funds to the employers, only after satisfaction of all liabilities, fixed and contingent.

In the event of termination of the Plan, the assets will be allocated to provide benefits for all participants as provided for in ERISA and to the extent unfunded vested benefits exist. Such benefits will be paid to participants by the Pension Benefit Guaranty Corporation, as guaranteed under ERISA, up to the insurance limitations thereof.

9. Related Party Transactions:

Certain Plan investments are investments managed by Bank of New York Mellon and Principal. Each of these entities is a trustee or custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2009 and 2008, Bank of New York Mellon received \$280,855 and \$367,923 of administrative fees, respectively, and Principal received \$5,434 of administrative fees both in 2009 and 2008.

10. Income Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated February 6, 2004, that the Plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

11. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amount reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 25—Change in Funding Method

The funding valuation reflects the following changes:

- A change in the asset valuation method from a two-month, three-data point average value method to a two-year, three-data point smoothed value method as of January 1, 2009.
- A change in the interest rate assumption from segment rates to the full yield curve with a two month lookback (October 2008 yield curve).
- An addition to the Target Normal Cost of assumed expenses payable from the trust, as required by WRERA.

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.

Surviving Spouse Five Years of Service.

Benefits

Normal Retirement Monthly benefit equal to the sum of:

1. 0.50% of monthly compensation times Years of Service prior to October 1, 1956
2. 0.50% (0.55% for a Peerless Guild employee) of compensation for each Year of Service after October 1, 1956.

The Accrued Benefit is based on a maximum of 30 Years of Service. If the employee has more than 30 Years of Service, the Accrued Benefit is based on the 30 Years of Service during which he had the highest compensation.

Adjusted Normal Retirement Benefit

For early, deferred vested, disability, and surviving spouse benefits, the Normal Retirement benefit is first adjusted using a project and prorate methodology. A participants final average compensation at termination is multiplied by 0.50% (0.55% for a Peerless Guild employee) and projected service at age 65 (capped at 30 years). This hypothetical projected benefit is then prorated by current service at termination (no cap) over projected service at age 65 (no cap).

Early Retirement Adjusted Normal Retirement Benefit reduced by 5/9% for each month retirement precedes age 65.

Deferred Vested Benefit Adjusted Normal Retirement Benefit payable at age 65.
