To the Participants and Administrator
of the Trane Savings Plan
Davidson, North Carolina

We were engaged to audit the accompanying financial statements of the Trane Savings Plan (the "Plan") as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Trane Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of the Plan

The following description of the Trane Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established in 1978 for the purpose of encouraging eligible employees of Trane U.S. Inc. (the "Company") to engage in a systematic savings program. The Company is a wholly-owned subsidiary of Ingersoll Rand Company Limited ("IR-Limited").

Effective July 1, 2009, IR-Limited, a Bermuda company, completed a reorganization to change the jurisdiction of incorporation of the parent company of Ingersoll Rand from Bermuda to Ireland. As a result, Ingersoll-Rand plc ("IR-Ireland") replaced IR-Limited as the ultimate parent company (collectively referred to as "the Parent Company"). As a result of the reorganization, IR-Limited became a wholly-owned subsidiary of IR-Ireland and the Class A common shares of IR-Limited became ordinary shares of IR-Ireland. Shares of Ingersoll-Rand plc continue to trade on the New York Stock Exchange under the symbol "IR", the same symbol under which the Ingersoll-Rand Company Limited Class A common shares previously traded.

Effective May 31, 2009, the Trane Employee Stock Ownership Plan was merged into the Plan.

Effective December 31, 2009, all assets, including participant loans, of U.S. employees participating in the Plan were merged into the Ingersoll-Rand Company Employee Savings Plan. Also effective December 31, 2009, all assets, including participant loans, of Puerto Rico employees participating in the Plan were merged into the Thermo King de Puerto Rico, Inc. Retirement Savings Plan. The employees will be covered by the respective plans effective January 1, 2010.

Fidelity Management Trust Company ("Fidelity") is the trustee and recordkeeper of the Plan. The Plan's assets are part of the Trane Master Trust (the "Master Trust") maintained by Fidelity. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to contribute a percentage of their compensation, as defined by the Plan, and subject to limits under the U.S. Internal Revenue Code of 1986, as amended (the "IRC"). Participants may elect to contribute 6% as a basic contribution and may also elect to contribute up to an additional 44% of their compensation on a before-tax or after-tax basis as their "additional contribution," subject to IRC limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company makes matching contributions, invested in shares of the Parent Company's common stock, in an amount equal to either 100% of each participant's basic contribution to the Plan, or 50% of each participant's basic contribution to the Plan, depending on the employee's election under the Company's Retirement Choice Program. The Company matches 100% of each member's basic contribution for participants covered under a collective bargaining agreement. Prior to acquisition of the Company by IR-Limited, employer contributions were invested in shares of Trane Inc. (formerly known as American Standard Companies Inc.). When WABCO Holdings Inc. ("WABCO") was spun off from Trane as a separate public company, participants received one share of WABCO stock for every share of Trane stock held in the Plan. The Company does not match participants' additional contributions.

Trane Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions, as applicable, (b) allocations of the Plan earnings or losses, net of investment management fees and (c) any Company discretionary contributions. Effective May 2008, employees have unlimited rights to diversify out of account balances invested in shares of employer stock and into one or more of the numerous investment options available under the Plan. Once funds have been diversified, participants may not reinvest in the stock funds. Prior to that date, employees who were at least age 55 had unlimited rights to diversify. Participants always had 100% diversification rights with respect to WABCO stock.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Employees (other than those covered under a collective bargaining agreement) hired on or after September 1, 2003 are 100% vested in company contributions after three years of service. Any nonvested portion of account balances of terminated participants is forfeitable to the Company and is used to reduce future contributions. Vesting for participants under a collectively bargaining agreement varies based on the applicable agreement.

Participant Loans

A loan program is made available for participants to borrow up to 50% of their savings balance excluding any amounts attributable to Company contributions, but not more than \$50,000 at any one time. The two types of loans available are general purpose loans and home purchase loans (of a principal residence). There is no minimum repayment period for a loan. The maximum repayment period is five years for a general purpose loan and 30 years for a home purchase loan. The interest rate will be equal to the prime interest rate in effect on the first day of the month in which the loan application is received.

Forfeitures

At December 31, 2008, the balance of the forfeited non-vested accounts was \$494,471. During 2009, \$4,902,062 of forfeitures were used to offset employer contributions. The balance of the forfeitures account was transferred out with the other assets at December 31, 2009.

Payment of Benefits

Participants, subject to certain restrictions and penalties, may withdraw all or part of the vested interests in their contributions and earnings at any time. Company contributions can generally be withdrawn only at termination of employment or by reaching retirement age. Former employees who remain as participants in the Plan may not contribute to the Plan, but can transfer investments from one investment option to another, elect to withdraw their account balances at any time, in cash, (or in-kind for shares of employer and WABCO stock) either in a lump sum or installments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

A portion of Plan assets are part of the Master Trust, which provides unified investment management. Fidelity invests Plan assets in various trust investment options at the direction of Plan participants and as

Trane Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

required by the Plan. Separate participant accounts are maintained by investment option. These accounts record contributions, withdrawals, transfers, earnings and changes in market value.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation included the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Participant loans represent the net outstanding receivable balance, which approximates fair value, due to the Plan from those participants with outstanding loan balances.

Realized gains or losses on security transactions are recorded on the trade date. Realized gains or losses are the difference between the proceeds received and the security's unit cost. Dividend income is recorded on the ex-dividend date and interest income is recorded when earned.

The statement of changes in net assets includes unrealized appreciation or depreciation in accordance with the policy of stating investments at fair value. Appreciation or depreciation of investments reflects both realized gains and losses and the change in unrealized appreciation and depreciation of investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

As of December 31, 2009, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("Codification") which became the single source of authoritative non-governmental accounting principles, superseding various existing authoritative accounting pronouncements. The Codification establishes one level of authoritative GAAP. All other literature is considered non-authoritative. There were no changes to the Plans' financial statements due to the implementation of the Codification other than changes in reference to various authoritative accounting pronouncements in the financial statements.

As of December 31, 2009, the Plan adopted FASB updated guidance regarding fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent). This update applies to investments that do not have a readily determinable fair value and are held by an entity that is required to report investment assets at fair value. This update creates a practical expedient to measure the fair value of such investments on the basis of the net asset value per share (or its equivalent) and requires disclosures by major category of the investments about the attributes of investments, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date, any unfunded commitments, and the investment strategies of the investees. Although the adoption of this update did not materially impact the Plan's financial statements, the Plan is now required to provide additional disclosures with respect to its investments in common collective trusts.

Trane Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

In January 2010, the FASB issued updated guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statement of financial position. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in Level 3 roll forward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure related, it will not have any impact on the Plan's financial statements.

Subsequent Events

Plan management has evaluated the effect subsequent events would have on the financial statements through October 14, 2010, which is the date the financial statements were available to be issued.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and are significant to the fair value measurement. |

The following is a description of the valuation methodologies used for assets held by the Master Trust measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Notes to Financial Statements

December 31, 2009 and 2008

Ingersoll Rand Stock Fund and WABCO Inc. Stock Fund: Valued at the net asset value ("NAV") of shares held by the Master Trust at year end. The fund primarily invests in stock of Ingersoll-Rand plc and WABCO Inc., respectively, which are traded on the New York Stock Exchange ("NYSE") and are valued at the quoted market price at the daily close of the NYSE. A small portion of the fund is invested in short-term money market instruments.

Mutual funds: The shares of registered investment companies are valued at quoted market prices in an exchange and active market, which represent the NAV of shares held by the Master Trust at year end. Investments in registered investment companies generally may be redeemed daily.

Common collective trusts: These assets are not available in an exchange or active market; however, the fair value is determined based on the NAV of the underlying assets as traded in an exchange or active market. Common collective trusts generally may be redeemed monthly.

Self-directed brokerage accounts: Investments in the self-directed brokerage accounts are valued based on published market quotations for individual investments composing the brokerage accounts.

Money market funds: Valued at the NAV of the funds in which the Master Trust participates at year-end.

The following is a description of the valuation methodologies used for assets held by the Plan measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See Note 4 for further disclosures of the fair value of the assets held within the Trane Master Trust.

4. Investments in the Master Trust

The Plan's investments are held in the Master Trust which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. The assets of the Master Trust are held by Fidelity. Each participating retirement plan has an undivided interest in the Master Trust. Fidelity maintains separate accounting of all contributions, benefit payments, and expenses and allocates income earned and received by the Master Trust on the basis of the adjusted value of each plan at year end. At December 31, 2009 and 2008, the Plan had a 0% and 70.86% participation, respectively, in the Master Trust.

The following table presents the fair value of investments for the Master Trust at December 31, 2009 and 2008:

Participant loans	\$ <u>-</u>	\$ <u>18,143,203</u>
Plan's interest in investment income of the Master Trust	\$ <u>632,774,945</u>	
Interest income	\$ <u>1,056,599</u>	

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall be fully vested and such termination shall not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

7. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 8, 2003, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

8. Administrative Expenses

Trustee fees, administrative costs and certain other expenses related to the Plan are paid by plan participants. Administrative expenses are included in the Plan's interest in investment income of the Trane Master Trust on the statement of changes in net assets available for benefits.

9. Risks and Uncertainties

Through the Master Trust, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.

10. Party-in-interest Transactions

Certain Plan investments were held in the Master Trust are shares of mutual funds and short-term investments managed by Fidelity. Fidelity is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions, but are not deemed prohibited transactions.

Certain Master Trust investments are units of Ingersoll Rand Stock Fund. These transactions qualify as party-in-interest transactions, but are not deemed prohibited transactions.
