FKI Logistex Inc. Retirement Plan

Notes to Financial Statements December 31, 2009 and 2008

Note 1 - Plan Description

The following description of FKI Logistex Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all full-time employees of FKI Logistex Inc. (the "Company") who have completed one year of service and are age 21 or older, except for those individuals represented by a collective bargaining organization. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 75 percent of the annual eligible compensation subject to maximum tax deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for discretionary employer-matching contributions, for which the Company had elected to contribute 50 percent of employee deferrals up to 6 percent of compensation for 2008 and a portion of 2009. Effective August 1, 2009, the Company elected to suspend employer-matching contributions.

The Plan also provides for discretionary employer profit-sharing contributions. The Company elected to make a profit-sharing contribution for the year ended December 31, 2009. For the year ended December 31, 2008 no profit-sharing contribution was made to the Plan.

Participant Accounts - Each participant's account is credited with the participant contribution, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Loans - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Loans are collateralized by the participant's account balance and bear interest at a market rate.

Vesting - Participants are immediately 100 percent vested in employee salary deferral, rollovers, and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants become 100 percent vested in the Company's contributions after three years of service.

FKI Logistex Inc. Retirement Plan

Notes to Financial Statements December 31, 2009 and 2008

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their salary deferral and rollover contributions be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Benefit Payments - Upon termination of employment, the participant or, in the case of death, the surviving spouse, can elect to receive the participant's account balance in a single lump sum or in various installment annuities.

Forfeitures - If a participant is not fully vested on their termination date, the non-vested amount of the account is forfeited. Forfeitures are used to pay plan expenses and to reduce future Company contributions. At December 31, 2009 and 2008, forfeited account balances totaled \$57,168 and \$35, respectively. Forfeitures for the year ended December 31, 2009 and 2008 amounted to \$172,819 and \$29,014.

Party-in-interest Transactions - Certain plan investments are shares of mutual funds and pooled separate accounts managed by Delaware Charter Guarantee and Trust Company (Principal Trust). Principal Trust is the custodian as defined in the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its common collective trust fund investment, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. The investment contract is not considered benefit-responsive and is stated at fair value. Fair value is the amount paid when funds are withdrawn prior to their maturity. Fair value is based on current market yields of similar instruments with comparable durations and generally will not be less than the contract's maturity value. Investments in pooled separate accounts are stated at fair value, based on the quoted market values of the underlying assets. Participant loans are valued at their outstanding balance, which approximates fair value. All other investments are valued based on quoted market prices. See Note 5 for additional information.

FKI Logistex Inc. Retirement Plan

Notes to Financial Statements December 31, 2009 and 2008

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 7, 2010, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and schedule of assets held at end of year are based solely on information provided by Principal Trust.

Note 3 - Unaudited Investment Information (Continued)

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities to be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

FKI Logistex Inc. Retirement Plan

Notes to Financial Statements December 31, 2009 and 2008

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The investment contract is classified as Level 3 as its value is based on contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. The pooled separate account classified as a Level 3 investment is due to the distribution limitations discussed in Note 6. Participant loans classified as Level 3 are valued based on inputs that include market rates and remaining repayment terms of the individual loans and specific terms and contractual provisions outlined in the contracts including the effective interest rate.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Principal U.S. Property Separate Account

During 2008, Principal Life Insurance Company (Principal) placed a limitation on the withdrawal of funds from the Principal U.S. Property Separate Account.
