ELLIS CORPORATION
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Ellis Corporation (the Company) 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of the Company as well as employees of the Ludell Manufacturing Company, a company affiliated with the Company through common ownership. On October 1, 2007, the Plan was merged with the Ludell Manufacturing Co. Retirement Plan. Employees are eligible to participate in the Plan upon completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions – Each year participants may contribute up to 15% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company, at its discretion, has matched 50% of the first 6% of compensation that a participant contributes to the Plan and, at its discretion, may also make additional profit sharing contributions to the Plan, based upon earnings of the Company. In 2009, the Company approved an amendment to the Plan whereby the Plan allows for differing matching contributions for Ellis Corporation participants and Ludell Manufacturing Company participants. Thus, in 2009, matching contributions for Ellis Corporation participants were suspended. Matching contributions for Ludell Manufacturing Company participants continued throughout 2009. The Company did not approve any discretionary profit sharing contributions in 2009 or 2008. Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and an insurance company general account as investment options for participants. Participants may change their investment options on a daily basis.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants immediately vest in their voluntary salary deferral contributions as well as company matching contributions, including actual earnings thereon. Vesting in the Company's profit sharing contribution is based on continuous years of service as follows:

Years of Service	Vested Interest
Less than 1	0%
1	10%
2	20%
3	40%
4	60%
5	80%
6	100%

1. Description of Plan (Cont.)

Participant Loans – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or payments on an installment basis. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures – At December 31, 2009 and 2008, forfeited nonvested accounts totaled $1,098 and $486, respectively. These accounts are used to reduce Company contributions. During 2009 and 2008, forfeitures were not used to offset Company contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements are prepared under the accrual basis of accounting.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are valued as follows:

- *Guaranteed investment contract* – presented at fair value which approximates contract value. Contract value represents current redemption values based upon the accumulated contributions plus accrued net earnings less participant withdrawals and administrative expenses. In 2009 and 2008, Great-West Life Assurance Company Key Guaranteed Portfolio Fund investments were credited with interest of 3.16% and 3.55%, respectively.

- *Pooled separate accounts* – presented at fair value, based on the quoted market prices of the underlying securities.

- *Participant loans* – stated at face value, which approximates fair value.

Interest income is recorded on the accrual basis.

The Plan provides for investments that, in general, are exposed to various risks such as interest rates, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amount reported in the statements of net assets available for benefits.

2. Summary of Significant Accounting Policies (Cont.)

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Company.

3. Tax Status

The Company adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement which received a favorable opinion letter from the Internal Revenue Service on October 28, 1992, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the opinion letter was received. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2009	2008
American Funds Europacific Growth Fund	$ 590,077	$ 575,393
American Funds Growth Fund of America	*	360,208
Columbia Mid Cap Value Fund	*	328,930
Maxim S&P 500 Fund	783,990	671,575
Perkins Mid Cap Value Fund	530,661	*
Oppenheimer Global Fund	842,284	283,632
Royce Total Return Fund	431,157	*
Great-West Life Assurance Company Key Guaranteed Portfolio Fund	1,398,959	1,459,167

*Investment does not exceed 5%.

During 2009 and 2008 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2009	2008
Pooled separate accounts	$ 870,685	$ (1,719,258)

5. Information Certified by the Plan's Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Retirement Services, the custodian of the Plan, has certified to the completeness and accuracy of all investments, at fair value, reflected on the accompanying statements of net assets available for benefits as of December 31, 2009 and 2008, and the schedule of assets (held at end of year) as of December 31, 2009, and the investment income (loss) and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2009 and 2008.

6. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The fair value of participation units held by the Plan in pooled separate accounts is based on their net asset values, as reported by Great-West Retirement Services and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair value of the pooled separate accounts that invest only in securities traded on nationally recognized securities exchanges and active dealer markets is classified within Level 2 of the fair value hierarchy.

The fair value of the Plan's guaranteed interest fund has been estimated utilizing current rates of return available for similar contracts, with comparable credit risks and liquidity, as of the respective financial statement date (Level 2 inputs).

6. Fair Value Measurements (Cont.)

Participant loans are valued at cost, based upon the outstanding principal balance, which approximates fair value (Level 3 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2009:				
Pooled separate accounts	$ 3,975,246	$ -	$ 3,975,246	$ -
Guaranteed interest account	1,398,959	-	1,398,959	-
Participant loans	187,619	-	-	187,619
Total	$ 5,561,824	$ -	$ 5,374,205	$ 187,619
December 31, 2008:				
Pooled separate accounts	$ 3,041,792	$ -	$ 3,041,792	$ -
Guaranteed interest account	1,459,167	-	1,459,167	-
Participant loans	209,612	-	-	209,612
Total	$ 4,710,571	$ -	$ 4,500,959	$ 209,612

6. Fair Value Measurements (Cont.)

Changes in fair value of participant loans measured on a recurring basis using significant unobservable inputs (Level 3) for the years ended December 31, 2009 and 2008 are as follows:

	Participant Loans
January 1, 2008	$ 245,624
Purchases, sales, issuances and settlements (net)	(36,012)
December 31, 2008	209,612
Purchases, sales, issuances and settlements (net)	(21,993)
December 31, 2009	$ 187,619

7. Related Party Transactions

Plan investments are managed by Great-West Retirement Services. Great-West Retirement Services is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan during 2009 for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
