NOTE 1. DESCRIPTION OF PLAN

The following description of the Sunroad Enterprises Employees' 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is sponsored by Sunroad Holding Corporation and is a defined contribution plan covering all full-time employees of Sunroad Holding Corporation, Sunroad Asset Management, Inc., Kearny Mesa Ford Corporation, PH Automotive Holding Corporation, Sunroad Marina Partners, LP, Sunroad KMI Auto, Inc., Sunroad HS Auto, Inc., Sunroad CV Auto, Inc., Sunroad Auto Shared Services, Inc., Maderas Partners L.P., Sunroad Auto, LLC and Sunroad BCV Auto, Inc. (collectively referred to as the "Company") who have completed 90 days of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees may elect to defer up to 90% of their pre-tax annual compensation as defined in the Plan and subject to limitations imposed by the Internal Revenue Code ("IRC"). In addition, participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct their contributions into various investment options offered by the Plan.

The Company may make discretionary matching and profit sharing contributions into the Plan. For the year ended December 31, 2009, the Company did not make matching or profit sharing contributions. All contributions are subject to certain limitations as defined by the IRC.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, if any, and allocations of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined.

Administrative charges related to participant loans and distributions are deducted directly from the respective participant's account. Investment expenses charged by the mutual funds and common/ collective trusts in which the Plan invests are paid directly from the underlying assets of the respective investment and are included in net realized and unrealized appreciation in fair value of investments in the statement of changes in net assets available for benefits. All other expenses related to the administration of the Plan are paid by the Company.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. In the event of termination due to death, total and permanent disability, or retirement, participants shall become 100% vested in the Company contribution portion of their account. For all other participants, vesting in the Company contribution portion of their account is based on credited years of service, as defined in the Plan, according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Loans

Participants may borrow against their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. Participants may have only one loan outstanding at a time. Loan transactions are treated as transfers between the investment fund and the loan account balance using the same allocation method as contributions. Loan terms may not exceed 5 years unless the loan is to be used to acquire the principal residence of the participant, a reasonable term for which is determined by the Plan administrator. Loans are secured by the participant's vested account balance and bear interest at the prime rate plus 1%. The interest rates on outstanding loans at December 31, 2009, ranged from 4.25% to 9.75%. Principal and interest are paid regularly through payroll deductions.

Payment of Benefits

Participants are entitled to a distribution of their vested benefits in the event of death, disability, retirement, termination of employment, or termination of the Plan. Early retirement is available upon attaining age 65 and completing 6 years of service. Distributions may not be deferred later than April 1 of the calendar year following the year in which a participant reaches age 70½, regardless of employment status.

Upon termination of employment, the Plan may roll over a participant's vested account balance greater than $1,000 and less than $5,000 into an individual retirement account ("IRA") selected by the Company, if the participant has not elected to receive a cash distribution or have the balance rolled over into an IRA of his/her choosing. Also at its discretion, the Plan may elect to distribute accounts with vested balances of less than $1,000. If a terminated participant's vested account exceeds $5,000, the participant may elect to receive a lump sum or may defer receipt of payments according to Plan provisions.

Pre-retirement distributions are allowed upon either attaining age 59½ or experiencing a financial hardship as defined by the IRC and are subject to applicable income taxes and the approval of the Plan administrator. After making a hardship withdrawal, a participant is suspended from making additional contributions for a period of six months from the effective date of the withdrawal.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Forfeitures

If a participant terminates employment with the Company before becoming fully vested, the unvested portion of employer contributions and related earnings are forfeited. Forfeitures of unvested employer contributions and related earnings are transferred from the terminated participant's account to a forfeiture account. Forfeitures of unvested employer contributions may be used to reduce future employer contributions to the Plan. At December 31, 2009 and 2008, forfeited nonvested amounts totaled $8,251 and $4,129, respectively. For the year ended December 31, 2009, $4,731 of forfeitures was used to reduce employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are presented on the accrual basis of accounting and have been prepared in accordance with accounting principles generally accepted in the United States of America.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "FSP"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the statements of net assets available for benefits present the fair value, as reported to the Plan by the trustee, of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends, which are included in net realized and unrealized appreciation of investments, are recorded on the ex-dividend date. Net realized and unrealized appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through the date of the independent auditors' report, which is the date the financial statements were available to be issued, and has determined there were no significant subsequent events.

NOTE 3. INVESTMENTS

The Plan's investments are held by the Plan's custodian, JP Morgan Chase Bank, and consisted of the following at December 31:

	2009	2008
Investments representing 5% or more of the Plan's net assets:

*The balance in this investment represented less than 5% of the Plan's net assets as of the date indicated, therefore is not shown separately.

The Plan's investment income for the year ended December 31, 2009 consisted of:

Net realized and unrealized appreciation in fair value of investments:	
Mutual funds	$ 2,296,502
Common/collective trust	54,140
Net increase in contract value of common/collective trust	74,217
Interest income from participant loans	30,433
Other income	2,753
Net investment income	$ 2,458,045

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – inputs are unadjusted, quoted market prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – inputs are either directly or indirectly observable for the asset or liability through correlation with related market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 – inputs are both unobservable and significant to the overall fair value measurement for the asset or liabilities at the measurement date. These inputs reflect Plan management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2009 and 2008:

Mutual funds: Valued at the closing price reported in the active market in which the individual investments are traded.

Common/collective trusts: Valued at the present value of the expected cash flows for traditional insurance contracts and at the aggregate market value of the underlying investments for the alternative investment contracts (based primarily on quoted market prices).

Participant loans: Valued at the aggregate unpaid principal balance, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

	December 31, 2009			
	Level 1	Level 2	Level 3	Total

NOTE 5. INFORMATION CERTIFIED BY THE TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held at December 31, 2009 and 2008 and net appreciation in fair value of investments, interest income, dividends, and investment expenses for the year ended December 31, 2009, were obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the custodian and trustee, JP Morgan Chase Bank.

NOTE 6. RELATED PARTY TRANSACTIONS

Substantially all of the Plan's operating expenses are paid by the Company and the Company provides administrative services for the Plan at no cost to the Plan. In addition, the Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

NOTE 8. TAX STATUS

The Plan is a standardized prototype plan. The standardized prototype plan received an opinion letter from the Internal Revenue Service dated May 3, 2002, indicating that the Plan and related trust satisfy the requirements of Section 401(a) and 501(a), respectively, of the IRC. The Plan is required to operate in accordance with the IRC to maintain its tax qualification. The Plan has been amended since receiving the opinion letter. The Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included the Plan's financial statements.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
