Platinum Equity 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Platinum Equity 401(k) Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Platinum Equity 401(k) Plan

Notes to Financial Statements

December 31, 2009

1. Description of the Plan

The following description of the Platinum Equity 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Platinum Equity, LLC (the Company). The Plan covers eligible employees of the Company and certain employees of its wholly owned subsidiaries, as defined in the Plan document, who have been scheduled for or have worked 1,000 hours of service as an employee and are age 20 or older. Prior to October 1, 2002, an employee could participate after completing three consecutive months of service and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may contribute to the Plan up to 75% of their annual pretax and after-tax compensation subject to annual dollar limitations established by the Internal Revenue Code (the Code). Participants may also roll over amounts representing distributions from other qualified defined benefit or contribution plans. Each year, each subsidiary may elect to make a discretionary contribution on behalf of participants. Vanguard Managed Solutions made discretionary contributions during the year ended December 31, 2009, of approximately $123,000. For most subsidiaries, the participating employer shall also make a matching contribution on behalf of each participant in an amount equal to 50% of the first 6% of eligible compensation that each participant contributes to the Plan. Other participating employers of the Company have separate or no arrangements for employer matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the participating employer's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their voluntary contributions plus accrued earnings or losses thereon. Vesting in the participating employer's matching, discretionary and profit sharing contribution portion of their accounts plus actual earnings thereon is based on continuous years of service. Participants generally vest 20% per year of service until they reach 100%.

Payment of Benefits

Upon retirement at the normal retirement age of 65, participants may elect the following methods of payment, with benefits based upon the value of the participant's account:

(1) Single lump-sum payment; or

(2) Equal annual installments over a certain period not to exceed life expectancy of participant or the participant and its beneficiary.

The Plan also provides for full payment of the participant's vested account upon disability, death, or termination of service with the Company or its participating subsidiaries.

Participant Loans

In accordance with the terms of the Plan, a participant may be granted a loan at a minimum amount of $1,000. The maximum amount is the lesser of: (1) $50,000 reduced by the highest outstanding loan balance in the participant's account during the one-year period prior to the date on which such loan was made; or (2) one-half of the participant's total account balance. Each loan must be repaid within 4½ years of issuance by substantially level payments or by a lump-sum payment in full. However, if such loan is used to acquire the participant's principal residence, the loan may be repaid over a ten-year period. In the event that the loan is in default, the participant is deemed to have received a distribution for income tax purposes for the tax year in which the default occurs.

1. Description of the Plan (continued)

Forfeitures

Forfeited accounts represent the terminated employees' unvested portion of the participating employers' contributions plus actual earnings thereon. Forfeited balances of terminated participants' nonvested accounts may be used to reduce employer contributions due, restore forfeitures of reemployed participants, pay Plan expenses, and to correct administrative errors that may have occurred. Unallocated forfeitures totaled $1,489,155 and $1,863,644 at December 31, 2009 and 2008, respectively. During the year ended December 31, 2009, forfeitures of $27,174 were used to pay Plan expenses and $502,147 were used to reduce employer contributions.

Investment Options

Each participant may direct contributions and account transfers between various fund options.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States.

Use of Estimates

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ significantly from those estimates.

Risks and Uncertainties

The Plan's investments are held in the Platinum Equity Master Trust (Master Trust). The Master Trust invests in various mutual fund and common collective trust investments provided under the Plan and as directed by participants. Investment securities are exposed to various risks, such as

interest rate, market, and credit. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

New Accounting Pronouncements

In April 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* (FSP 157-4). FSP 157-4 amended the guidance codified in Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (ASC 820), to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events,* which was codified into ASC 855, *Subsequent Events,* to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended. For the year ended December 31, 2009, Plan management evaluated, for potential recognition and disclosure, events that occurred through October 14, 2010, the date the financial statements were available for issuance.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12). ASU 2009-12 amended ASC 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with

investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management believes the provisions of ASU 2010-06 will not have a material effect on the Plan's financial statements.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and to be classified as notes receivable from participants, which are segregated from plan investments. The guidance in ASU 2010-25 is to be applied retrospectively and is effective for reporting periods beginning after December 15, 2010. Early adoption is permitted. Plan management elected to early adopt the guidance in ASU 2010-25 for all periods presented. Adoption of ASU 2010-25 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Investment Valuation and Income Recognition

ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

2. Summary of Significant Accounting Policies (continued)

The fair value of the Plan's interest in the Master Trust is based on the initial value of the Plan's interest in the Master Trust plus actual contributions less actual distributions and allocated net income or loss (Note 3). Quoted market prices are used to value the mutual fund investments in the Master Trust. The common collective trust investments in the Master Trust are stated at fair value based on the net asset value of the fund as determined from quoted market values of underlying marketable securities and/or discounted cash flow for underlying investment contracts.

The Master Trust holds the Fidelity Managed Income Portfolio II investment which is a common collective trust that invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 3); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes realized and unrealized gains and losses on investments sold or held during the year.

Administrative Expenses

Expenses incurred for the establishment and annual maintenance of participant loans are paid for by the individual participants with loans. The Company has the option, at its sole discretion, to pay any other expenses on behalf of the Plan.

Payment of Benefits

Benefits are recorded when paid.

3. Master Trust

The Master Trust was established for the investment of assets of the Plan and other Company-sponsored plans. Each participating plan has an undivided interest in each of the mutual funds and common collective trusts in the Master Trust. Certain mutual funds and common collective trusts are managed by Fidelity Management Trust Company, the trustee of the Plan's assets, or its affiliates, and are considered to be transactions with a party-in-interest to the Plan for which a statutory exemption exists. As of December 31, 2009 and 2008, the Plan's interest in the net assets of the Master Trust at fair value was approximately 94.0% and 93.8%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The following table presents the net assets of the Master Trust at December 31:

	2009	2008
Investments at fair value:		
Mutual funds	**$ 151,838,152**	$ 121,101,353
Common collective trusts	**67,628,437**	70,857,484

Net assets of Master Trust	**$ 220,099,000**	$ 194,223,400

Investment income for the Master Trust for the year ended December 31, 2009, is as follows:

Investment income:	
Net appreciation in fair value of investments:	
Mutual funds	$ 37,044,103
Common collective trusts	3,706,268
Total net appreciation in fair value of investment	40,750,371
Interest and dividend income	4,114,023
Net investment income of Master Trust	$ 44,864,394

4. Information Certified by the Trustee

The Plan has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the Trustee, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Plan's interest in Master Trust at fair value
- Plan's interest in the adjustment from fair value to contract value for fully benefit-responsive investment contracts in the Master Trust
- Plan's interest in Master Trust investment income
- Schedule of assets (held at end of year)

The Plan's independent auditors did not perform auditing procedures with respect to investments and investment income, including the Plan's interest in the Master Trust, except for comparing such information to the related information included in the financial statements and supplemental schedule, as this information was certified by the Trustee as complete and accurate.

5. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated December 27, 2001, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent amendments have been structured to, and are intended to, maintain the Plan's tax qualified status. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their participating employer's matching and discretionary contributions.

7. Differences Between Financial Statements and Form 5500

The following table presents a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2009	2008
Net assets available for benefits per the financial statements	**$ 207,823,672**	$ 183,238,816
Difference between contract value and fair value for fully benefit-responsive investment contracts	**(573,741)**	(2,062,487)
Excess contributions payable	**198,992**	105,078
Net assets available for benefits per the Form 5500	**$ 207,448,923**	$ 181,281,407

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2009, to the Form 5500:

Contributions per the financial statements	$ 4,798,548
Add: Excess contributions payable at December 31, 2009	198,992
Contributions per the Form 5500	$ 4,997,540

The excess contributions payable at December 31, 2009, per the financial statements was recorded in the 2009 Form 5500 as corrective distributions.

The following is a reconciliation of the Plan's interest in Master Trust net investment income per the financial statements to the Form 5500 for the year ended December 31, 2009:

Plan's interest in Master Trust net investment income per the financial statements	$ 42,792,040
Add: Adjustment from fair value to contract value for fully benefit-responsive investment contracts in the Master Trust at December 31, 2009	(573,741)
Less: Adjustment from fair value to contract value for fully benefit-responsive investment contracts in the Master Trust at December 31, 2008	2,062,487
Miscellaneous	(4,590)
Plan's interest in Master Trust net investment income per the Form 5500	$ 44,276,196
