THE ABSOLUT RETIREMENT SAVINGS PLAN
Notes to Financial Statements

Note 1. Description of the Plan - The following description of The Absolut Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan which provides benefits for substantially all employees of Absolut Facilities (the Company) with the exception of employees covered by a collective bargaining agreement, as well as several other affiliated groups as noted in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Eligible participants are entitled to defer up to 100% of their annual salary into the Plan as a qualified pre-tax contribution subject to maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service. The Company may match, at the discretion of the Board of Trustees, an amount not to exceed 3% of the participants' compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, and Plan earnings; and charged with an allocation of administrative expenses. Allocations of the Company's contributions are based on participants' compensation for the year. Plan earnings and administrative expenses are allocated based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions. A participant is 100% vested in the Company's contributions after five years of service. Participants who leave the Company with less than five years of service forfeit a percentage of the Company's matching contributions determined by the years of service. Employer contributions forfeited by terminated employees are used to reduce future matching and discretionary employer contributions.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum payment, a life annuity, or a joint and survivor annuity if certain conditions are met. For payment of benefits due to other reasons, a participant may receive the value of the vested interest in their account.

Administrative Expenses - Administrative expenses were paid by both the Company and the Plan in 2009.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Actual results may differ from those estimates.

Valuation of Investments - The Plan's investments are stated at fair value. Dividends are recorded on the ex-dividend date. All investments are participant directed.

Payment of Benefits - Benefits are recorded when paid.

THE ABSOLUT RETIREMENT SAVINGS PLAN
Notes to Financial Statements

Subsequent Events - On May 28, 2009, the FASB issued ASC 855-10 (formerly: SFAS No. 165 "Subsequent Events"). ASC 855-10 provides guidance on management's assessment of subsequent events and requires additional disclosure about the timing of management's assessment of subsequent events. It does not significantly change the accounting requirements for the reporting of subsequent events. ASC 855-10 is effective for interim or annual financial periods ending after June 15, 2009. The Plan adopted ASC 855-10 as of December 31, 2009 and accordingly assessed subsequent events in these annual financial statements from December 31, 2009 through October 13, 2010, the date these statements were available to be issued. The adoption of this standard did not materially impact the Plan's net assets available for benefits, changes in net assets available for benefits or disclosures in the financial statements.

Note 3. Investment Contract with Insurance Company

The Plan had a benefit-responsive investment contract with ING Life Insurance and Annuity Company (ING) from January 2008 through March 2009. ING maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at fair value as determined using the market approach based on market prices of similar contracts. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2008 was \$1,520,619. Both the average yield and crediting interest rates for 2008 were approximately 3.55%.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with ING. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Note 4. Information Prepared and Certified by Custodians

Note 7. Fair Value Measurements

ASC 820 (formerly: Statement of Financial Accounting Standards No. 157, "Fair Value Measurements") establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value:

Money markets and mutual funds - Valued at the net asset value of shares held by the Plan at year end (Level 1) using quoted prices in an active market.

Pooled separate accounts - Valued at the net asset value of shares held by the Plan at year end (Level 2). Pooled separate accounts are not traded in an active market, but instead are valued using the Net Asset Value provided by the administrator of the fund. The unit price is based on underlying investments which are traded in an active market.

Insurance company general accounts - Valued at the net fair value of shares held by the Plan at year end (Level 3).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, all participants will become fully vested in their Plan accounts and the assets of the Plan will be distributed among the participants or their beneficiaries in proportion to their respective interest in the funds.

Note 9. Income Tax Status

The Plan obtained its latest determination letter on June 7, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
