NOTE 1 DESCRIPTION OF PLAN

The following description of the Davlyn Investments, Inc. 401(k) Profit Sharing Plan & Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

Effective January 1, 2001, the Plan became a single-employer defined contribution savings plan under section 401(k) of the Internal Revenue Code, which covers all employees of the Company who are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Contributions to the Plan are made as follows:

1) Participants may contribute between 0-50% of their gross wages to the Plan or may rollover or transfer amounts from other plans. The maximum deductible participant contributions allowable by the Internal Revenue Service was $16,500 for 2009 and $15,500 for 2008. The maximum contribution is $22,000 and $20,500 for employees age 50 or older for 2009 and 2008, respectively.

2) The Plan allows for the Company to make matching contributions. The Company matched an amount equal to 50% of the participant's contribution, not to exceed 4% of the participant's compensation, on a per pay period basis during the years ending December 31, 2009 and 2008.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and an allocation of (A) the Company's contribution, and (B) the Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

VESTING

Participants are immediately vested in their voluntary contributions and follow a six year vesting schedule for the employer contributions as follows:

1 Year	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee, including but not limited to savings and/or money market funds and mutual funds. All earnings and losses on the directed investments are credited directly to the participants' accounts.

PAYMENT OF BENEFITS

The Plan provides for benefits to be distributed in periodic installments, in a lump sum, or a combination thereof, or may be deferred to a later time. Participants are entitled to receive the full value of their vested benefits when they retire, die, or become permanently disabled. Participants who terminate employment for any other reason are entitled to the value of their vested interest. Benefits are recorded when paid.

Mandatory distributions of $5,000 or less will be paid in cash as directed by the Plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PARTICIPANT LOANS

Plan loans to participants who have an account under this contract are available. The loans are secured by the participant's vested account balance in the Plan and may not exceed 50% of the vested account balance. The smallest amount available for withdrawal is $1,000 and the maximum amount is not to exceed $50,000. The maximum term of the loan is four and one half years. The maximum number of loans a participant may have is one.

FORFEITED ACCOUNTS

The Plan allows for forfeitures of terminated non vested account balances to be used to reduce future administration fees or to be allocated to eligible participants. In the event that forfeitures are allocated to eligible participants' accounts, it is done so on a pro rata basis according to participants compensation for the Plan year. Once forfeitures have been allocated, the amounts are invested as described in the Investment Option section above. Forfeitures used to reduce administration fees equaled $0 for the years ending December 31, 2009 and 2008. Forfeitures allocated to remaining participants totaled $0 for the years ending December 31, 2009 and 2008. The balance in the forfeiture account as of December 31, 2009 and 2008 was $13,941 and $5,433, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments - Investments are valued at current market value or estimated fair value as certified by the institution that holds the Plan's assets and are under the custody of the Plan's trustee.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - The Plan adopted accounting standards consistent with the FASB codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities. The adoptions of fair value measurements has no material financial effects on the Plan's financial statements.

Income Taxes - The Plan is tax exempt under the Internal Revenue Code Section 401(K) and consequently pays no income tax.

The Plan obtained its latest determination letter in March 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 3 ADMINISTRATIVE EXPENSES

Most of the Plan's expenses were paid by the Sponsor. Amounts totaling $1,980 and $1,560 were paid by the Plan for benefits paid to participants and participant loan fees for the years ended December 31, 2009 and 2008, respectively.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer may terminate the Plan at any time with respect to all participants by the adoption of an appropriate resolution by its owners. In the event of a complete termination of the Plan, the rights of all participants in their account balances accrued to the date of the termination are fully vested and not subject to forfeiture.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

NOTE 8 FAIR VALUE MEASUREMENT

The Plan adopted the methods of fair value measurement to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels has been established, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Mutual Funds: Mutual fund shares are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Money Market Accounts: Money market accounts are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Participant Loans: Participant loans are valued at the outstanding balances, which approximate fair value and are classified as Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 FAIR VALUE MEASUREMENT (Continued)

NOTE 1 DESCRIPTION OF PLAN

The following description of the Davlyn Investments, Inc. 401(k) Profit Sharing Plan & Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

Effective January 1, 2001, the Plan became a single-employer defined contribution savings plan under section 401(k) of the Internal Revenue Code, which covers all employees of the Company who are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Contributions to the Plan are made as follows:

1) Participants may contribute between 0-50% of their gross wages to the Plan or may rollover or transfer amounts from other plans. The maximum deductible participant contributions allowable by the Internal Revenue Service was $16,500 for 2009 and $15,500 for 2008. The maximum contribution is $22,000 and $20,500 for employees age 50 or older for 2009 and 2008, respectively.

2) The Plan allows for the Company to make matching contributions. The Company matched an amount equal to 50% of the participant's contribution, not to exceed 4% of the participant's compensation, on a per pay period basis during the years ending December 31, 2009 and 2008.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and an allocation of (A) the Company's contribution, and (B) the Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

VESTING

Participants are immediately vested in their voluntary contributions and follow a six year vesting schedule for the employer contributions as follows:

1 Year	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee, including but not limited to savings and/or money market funds and mutual funds. All earnings and losses on the directed investments are credited directly to the participants' accounts.

PAYMENT OF BENEFITS

The Plan provides for benefits to be distributed in periodic installments, in a lump sum, or a combination thereof, or may be deferred to a later time. Participants are entitled to receive the full value of their vested benefits when they retire, die, or become permanently disabled. Participants who terminate employment for any other reason are entitled to the value of their vested interest. Benefits are recorded when paid.

Mandatory distributions of $5,000 or less will be paid in cash as directed by the Plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PARTICIPANT LOANS

Plan loans to participants who have an account under this contract are available. The loans are secured by the participant's vested account balance in the Plan and may not exceed 50% of the vested account balance. The smallest amount available for withdrawal is $1,000 and the maximum amount is not to exceed $50,000. The maximum term of the loan is four and one half years. The maximum number of loans a participant may have is one.

FORFEITED ACCOUNTS

The Plan allows for forfeitures of terminated non vested account balances to be used to reduce future administration fees or to be allocated to eligible participants. In the event that forfeitures are allocated to eligible participants' accounts, it is done so on a pro rata basis according to participants compensation for the Plan year. Once forfeitures have been allocated, the amounts are invested as described in the Investment Option section above. Forfeitures used to reduce administration fees equaled $0 for the years ending December 31, 2009 and 2008. Forfeitures allocated to remaining participants totaled $0 for the years ending December 31, 2009 and 2008. The balance in the forfeiture account as of December 31, 2009 and 2008 was $13,941 and $5,433, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments - Investments are valued at current market value or estimated fair value as certified by the institution that holds the Plan's assets and are under the custody of the Plan's trustee.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - The Plan adopted accounting standards consistent with the FASB codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities. The adoptions of fair value measurements has no material financial effects on the Plan's financial statements.

Income Taxes - The Plan is tax exempt under the Internal Revenue Code Section 401(K) and consequently pays no income tax.

The Plan obtained its latest determination letter in March 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 3 ADMINISTRATIVE EXPENSES

Most of the Plan's expenses were paid by the Sponsor. Amounts totaling $1,980 and $1,560 were paid by the Plan for benefits paid to participants and participant loan fees for the years ended December 31, 2009 and 2008, respectively.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer may terminate the Plan at any time with respect to all participants by the adoption of an appropriate resolution by its owners. In the event of a complete termination of the Plan, the rights of all participants in their account balances accrued to the date of the termination are fully vested and not subject to forfeiture.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

NOTE 8 FAIR VALUE MEASUREMENT

The Plan adopted the methods of fair value measurement to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels has been established, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Mutual Funds: Mutual fund shares are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Money Market Accounts: Money market accounts are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Participant Loans: Participant loans are valued at the outstanding balances, which approximate fair value and are classified as Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 FAIR VALUE MEASUREMENT (Continued)

The following table presents the investments mutual fund, money market accounts and participant loans on the statement of net assets measured at fair value on a recurring basis by level within the valuation hierarchy as of December 31, 2009.

NOTE 1 DESCRIPTION OF PLAN

The following description of the Davlyn Investments, Inc. 401(k) Profit Sharing Plan & Trust provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

Effective January 1, 2001, the Plan became a single-employer defined contribution savings plan under section 401(k) of the Internal Revenue Code, which covers all employees of the Company who are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Contributions to the Plan are made as follows:

1) Participants may contribute between 0-50% of their gross wages to the Plan or may rollover or transfer amounts from other plans. The maximum deductible participant contributions allowable by the Internal Revenue Service was $16,500 for 2009 and $15,500 for 2008. The maximum contribution is $22,000 and $20,500 for employees age 50 or older for 2009 and 2008, respectively.

2) The Plan allows for the Company to make matching contributions. The Company matched an amount equal to 50% of the participant's contribution, not to exceed 4% of the participant's compensation, on a per pay period basis during the years ending December 31, 2009 and 2008.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and an allocation of (A) the Company's contribution, and (B) the Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

VESTING

Participants are immediately vested in their voluntary contributions and follow a six year vesting schedule for the employer contributions as follows:

1 Year	0%
2 Years	20%
3 Years	40%
4 Years	60%
5 Years	80%
6 Years	100%

INVESTMENT OPTIONS

Upon enrollment into the Plan, participants may direct their account balances in any investment alternatives approved by the trustee, including but not limited to savings and/or money market funds and mutual funds. All earnings and losses on the directed investments are credited directly to the participants' accounts.

PAYMENT OF BENEFITS

The Plan provides for benefits to be distributed in periodic installments, in a lump sum, or a combination thereof, or may be deferred to a later time. Participants are entitled to receive the full value of their vested benefits when they retire, die, or become permanently disabled. Participants who terminate employment for any other reason are entitled to the value of their vested interest. Benefits are recorded when paid.

Mandatory distributions of $5,000 or less will be paid in cash as directed by the Plan administrator, unless the Participant elects a direct rollover or elects to receive the distribution under another form permitted by the Plan.

NOTE 1 DESCRIPTION OF PLAN (Continued)

PARTICIPANT LOANS

Plan loans to participants who have an account under this contract are available. The loans are secured by the participant's vested account balance in the Plan and may not exceed 50% of the vested account balance. The smallest amount available for withdrawal is $1,000 and the maximum amount is not to exceed $50,000. The maximum term of the loan is four and one half years. The maximum number of loans a participant may have is one.

FORFEITED ACCOUNTS

The Plan allows for forfeitures of terminated non vested account balances to be used to reduce future administration fees or to be allocated to eligible participants. In the event that forfeitures are allocated to eligible participants' accounts, it is done so on a pro rata basis according to participants compensation for the Plan year. Once forfeitures have been allocated, the amounts are invested as described in the Investment Option section above. Forfeitures used to reduce administration fees equaled $0 for the years ending December 31, 2009 and 2008. Forfeitures allocated to remaining participants totaled $0 for the years ending December 31, 2009 and 2008. The balance in the forfeiture account as of December 31, 2009 and 2008 was $13,941 and $5,433, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments - Investments are valued at current market value or estimated fair value as certified by the institution that holds the Plan's assets and are under the custody of the Plan's trustee.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - The Plan adopted accounting standards consistent with the FASB codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities. The adoptions of fair value measurements has no material financial effects on the Plan's financial statements.

Income Taxes - The Plan is tax exempt under the Internal Revenue Code Section 401(K) and consequently pays no income tax.

The Plan obtained its latest determination letter in March 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 3 ADMINISTRATIVE EXPENSES

Most of the Plan's expenses were paid by the Sponsor. Amounts totaling $1,980 and $1,560 were paid by the Plan for benefits paid to participants and participant loan fees for the years ended December 31, 2009 and 2008, respectively.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer may terminate the Plan at any time with respect to all participants by the adoption of an appropriate resolution by its owners. In the event of a complete termination of the Plan, the rights of all participants in their account balances accrued to the date of the termination are fully vested and not subject to forfeiture.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

NOTE 8 FAIR VALUE MEASUREMENT

The Plan adopted the methods of fair value measurement to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels has been established, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Mutual Funds: Mutual fund shares are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Money Market Accounts: Money market accounts are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Participant Loans: Participant loans are valued at the outstanding balances, which approximate fair value and are classified as Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 FAIR VALUE MEASUREMENT (Continued)

The following table presents the investments mutual fund, money market accounts and participant loans on the statement of net assets measured at fair value on a recurring basis by level within the valuation hierarchy as of December 31, 2009.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared using the accrual method in conformity with generally accepted accounting principles.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments - Investments are valued at current market value or estimated fair value as certified by the institution that holds the Plan's assets and are under the custody of the Plan's trustee.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurement - The Plan adopted accounting standards consistent with the FASB codification which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements for all financial assets and liabilities. The adoptions of fair value measurements has no material financial effects on the Plan's financial statements.

Income Taxes - The Plan is tax exempt under the Internal Revenue Code Section 401(K) and consequently pays no income tax.

The Plan obtained its latest determination letter in March 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits.

NOTE 8 FAIR VALUE MEASUREMENT

The Plan adopted the methods of fair value measurement to value its financial assets and liabilities. Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels has been established, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

Mutual Funds: Mutual fund shares are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Money Market Accounts: Money market accounts are valued at quoted market prices in an exchange and active market, which represent the net asset values held by the Plan at year end and are classified as Level 1 investments.

Participant Loans: Participant loans are valued at the outstanding balances, which approximate fair value and are classified as Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
