Independent Auditors' Report

We were engaged to audit the accompanying statements of net assets available for benefits of the Precision Aerospace Corporation 401(k) Retirement Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note #3, which was certified by Fifth Third Bank, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental schedule", is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information and is the responsibility of the Plan's management. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note #1 – Description of Plan:

The following description of the Precision Aerospace Corporation 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General –

The Plan is a defined contribution plan covering all full-time employees of Precision Aerospace Corporation, who have one year of service and are age twenty-one years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions –

Each year, participants may contribute up to 100 % of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers eighteen mutual funds as investment options for participants. For 2009, the Company contributed matching contributions totaling 100 % of the first 1 % and then 50 % of the next 5 % of compensation that each participant contributed to the Plan. The Company match was discontinued in April 2009.

Participant Accounts –

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant contributions and earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting –

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 % vested after three years of credited service.

Payment of Benefits –

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of years. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts –

Forfeited nonvested accounts totaled \$ 4,935 at December 31, 2009. Forfeitures totaling \$ 2,500 were used to reduce employer contributions in 2009.

Note #2 – Summary of Significant Accounting Policies:

Basis of Accounting – GAAP –

The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

Estimates –

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition –

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note #4 for discussion of fair value measurements. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of mutual fund investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits –

Benefits are recorded when paid.

Operating Expenses –

All investment and administrative expenses of maintaining the Plan are paid by the Plan.

Subsequent Events –

Management has evaluated subsequent events through October 10, 2010, which is the date the financial statements were available to be issued.

Note #3 – Investments (Unaudited):

At December 31, 2009, the Plan's investments were held by the Plan trustee, Fifth Third Bank. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Plan trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note #4 – Fair Value Measurements :

Financial Accounting Standards Board Codification 820-10, *Fair Value Measurements* (formerly SFAS No. 157), establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs, unobservable inputs, have the lowest priority. The three levels of the fair value hierarchy under FASB Codification 820-10 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Precision Aerospace Corporation 401(k) Retirement Plan
Notes to Financial Statements

Exhibit C
(Page 5 of 6)

Note #4 – Fair Value Measurements (Continued):

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	<u>Fair Value</u>	<u>Level 1</u>
Mutual Funds	\$ 2,347,873	\$ 2,347,873

Level 1 Fair Value Measurements –

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

Note #5 – Plan Termination :

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 % vested in their employer contributions.

Note #6 – Reconciliation of Financial Statements to Schedule H of Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

Note #6 – Reconciliation of Financial Statements to Schedule H of Form 5500 (Continued):

Amounts allocated to withdrawing participants would be recorded on Schedule H of Form 5500 for benefit claims that had been processed and approved for payment prior to December 31 but not yet paid as of that date. No such pending claims and payments existed at December 31, 2009.

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2009 to Schedule H of Form 5500:

	<u>Amount</u>
Employee Contributions Per the Financial Statements	\$ 249,134
Less: Contributions Receivable at December 31, 2009	<u>(5,936)</u>
Employee Contributions Per Schedule H of Form 5500:	<u>\$ 243,198</u>

Note #7 – Tax Status:

The Internal Revenue Service has determined and informed the Companies by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's trustee believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan adopted the provisions of Financial Accounting Standards Board Codification 740-10 related to uncertain tax positions, on January 1, 2008. There was no cumulative effect on the net assets of the Plan as a result of the adoption. All tax positions taken by the Plan have been assessed to have a near 100 % likelihood of being sustained upon their ultimate settlement in the event that they are examined by taxing authorities and; therefore, there are no unrecognized tax benefits. The tax years that remain subject to examination by the Internal Revenue Service are 2005 – 2009.

Note #8 – Risks and Uncertainties :

The Plan invests in various investment securities through Mutual Funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
