1. Description of the Plan

The following brief description of the RailWorks Corporation Incentive Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

(a) General

The Plan is a defined contribution plan covering all eligible employees of RailWorks Corporation (the "Company"), who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants may enter the Plan immediately upon meeting the eligibility requirements discussed above.

On April 30, 2008, approximately $915,000 of net assets were transferred out of the Plan related to the sale of a subsidiary of the Company, Concrete Products, Inc.

(b) Participant Contributions

Each year, participants may contribute up to 75% of their pretax annual compensation to the Plan up to the maximum allowable under Internal Revenue Code ("IRC") Section 402(g). Each year the Company will make an annual matching contribution equal to 50% of the first 6% of salary deferral contributions, up to a maximum of 3% of salary. In 2008, the Company amended the Plan to include a qualified automatic contribution arrangement ("QACA") safe harbor matching contribution. As part of this arrangement, all participants will receive a match equal to 100% of their first 1% of deferrals and 50% of their next 5% of deferrals (that is, deferrals that are above 1% but do not exceed 6%). The match under this arrangement is not vested until a participant has two (2) years of service. Upon completion of two (2) years of service, it is 100% vested. For the Plan years ended December 31, 2009 and 2008, the Company made a matching contribution in the amount of $1,002,247 and $1,110,034, net of forfeitures of $-0- and $8,094, respectively.

(c) *Participant Accounts*

Each participant's account is credited with the participant's own contributions, an allocation of any Company contributions, and an allocation of the Plan's earnings. Allocation of Company contributions is based on compensation and the amount of participant's contributions. The Plan's earnings are allocated based on the balances of participant accounts as defined in the Plan.

(d) *Investment Options*

Upon enrolling in the Plan, a participant may direct the investment of his or her account into any of the investment options offered by the Plan. Participants may change their investment options daily.

(e) *Participant Loans*

The Plan allows participants to borrow from their individual accounts in the Plan. These loans are limited to the lesser of $50,000 or 50% of the participant's vested account balance with a minimum loan of $1,000. Loans are repaid through payroll deductions over periods ranging up to 60 months. The interest rate is determined by the Plan administrator based on prevailing market conditions and is fixed over the life of the loan.

(f) *Retirement, Death and Disability*

A participant is entitled to 100% of his or her account balance upon retirement, death, or disability, as defined.

(g) *Vesting*

Participants are immediately vested in their rollover contributions, employee pre-tax contributions plus actual earnings thereon. Vesting in the remainder of their accounts plus actual earnings thereon is based on years of continuous service. For non-elective employer contributions, a participant is 100% vested after five years of credited service, starting at 20% after one year of service and an additional 20% for each year of service thereafter. For matching employer contributions, a participant is 100% vested after two years of service.

(h) *Forfeited Accounts*

Forfeitures are used to reduce future employer contributions or pay administrative expenses. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $21,212 and $7,066, respectively.

(i) *Payment of Benefits*

Upon retirement, death, disability or termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. Provided the balance is greater than $5,000, participants may elect payment in the form of a lump-sum distribution, installment distribution or a combination of the lump-sum and installment distributions. If the value is greater than $1,000 but less than $5,000, an automatic IRA rollover of the vested account balance will be made; if the value is less than $1,000, a lump-sum distribution will be made to the participant unless otherwise directed.

(j) *Administrative Expenses*

Administrative expenses of the Plan are paid by either the Plan or the Company as provided in the Plan document.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared under the accrual method of accounting

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except as noted below. Shares of mutual funds are valued at quoted market prices of the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(c) Valuation of Investments (Securities with No Quoted Market Price)

Amounts for securities that have no quoted market price represent estimated fair value. Many factors are considered in arriving at that fair value. Shares of common/collective trusts ("CCT's") are valued at net unit value as determined by the trustee at year-end except when holding fully benefit-responsive investment contracts. The fair values of such investment contracts held by CCT's are determined using the market price of the underlying securities and the value of the investment contract.

The Plan holds shares of CCT's that have investments in fully benefit-responsive investment contracts. For purposes of the statements of net assets available for benefits, these CCT's are stated at fair value. As described in Accounting Standards Codification ("ASC") 962-205-45, "Plan Accounting - Defined Contribution Pension Plan", CCT's with underlying investment contracts held by a defined-contribution plan are required to be reported at fair value. For 2009 and 2008, an adjustment from fair value to contract value has been reflected in the statement of net assets available for benefits.

(d) *Risks and Uncertainties*

The Plan provides for various investment options including any combination of mutual funds, a common collective trust fund, and a money market fund. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

(e) *Payment of Benefits*

Benefits are recorded when paid.

(f) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

4. Information Certified by Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate for 2009 and 2008, respectively:

6. Fair Value Measurements

Effective January 1, 2008, the Plan adopted ASC 820 (Statement of Financial Accounting Standards ("SFAS") No. 157), "Fair Value Measurements", which establishes a fair value hierarchy for disclosure of fair value measurements as follows:

Level 1 – quoted prices in active markets for identical assets or liabilities;

Level 2 – quoted prices for similar assets and liabilities in active markets or inputs that are observable; and

Level 3 – inputs that are unobservable (for example, cash flow modeling inputs based on assumptions).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2009.

Mutual Funds

Valued at the net asset value of shares held by the Plan at year-end.

Stable Value Fund (Securities with No Quoted Market Price)

Valued at net unit value as determined by the trustee at year-end except when holding fully benefit-responsive investment contracts. The fair values of such investment contracts held by CCT's are determined using the market price of the underlying securities and the value of the investment contract.

Participant Loans

Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements as of the reporting date.

The following tables summarize investment assets measured at fair value at December 31, 2009 and 2008:

The Company amended the Plan subsequent to this date. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

9. **Subsequent Events**
