Able Engineering Services 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Able Engineering Services 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Able Engineering Services 401(k) Plan is a 401(k) plan which became effective January 1, 1996. The Plan contains a deferred income arrangement intended to satisfy the requirements of Internal Revenue Code Section 401(k).

Crown Energy, Inc. dba Able Engineering Services (the Company) is the sponsor of the plan and delegates all of its responsibility to oversee the Plan's operations to the plan administrator, Mr. Paul Boschetto. The Plan Administrator has a service agreement with John Hancock Financial, which among other services, holds the Plan's assets, establishes and maintains an individual account for each participant, maintains the financial records relating to the trust, executes all of the investments, and makes all benefit payments as directed by the plan administrator.

The plan covers only eligible employees whose compensation and conditions of employment are established by the terms of a good-faith collective bargaining agreement between the Company and such employee's lawful representative or bargaining agent.

The Plan provides that employees of the Company are eligible to participate on the first day of the pay period coinciding with or following one month of service or upon reaching age twenty-one, whichever comes later. For this purpose, an employee is deemed to have completed one month of service after one calendar month with at least 80 hours of service.

Contributions

Each year, participants may make voluntary contributions in the form of regular payroll deductions ranging from 1% of pretax annual compensation, as defined in the Plan, to the maximum contribution allowed by Internal Revenue Code. The maximum employee contribution for the 2009 and 2008 plan years was \$16,500 and \$15,500 respectively. Employees who attained age 50 by year end, could make an additional catch-up contribution of \$5,500 for 2009 and \$5,000 for 2008. The maximum allowable contribution will be adjusted annually for inflation in accordance with Internal Revenue Service regulations.

The Plan will accept rollover contributions, direct rollovers, and transfers from certain other profit sharing plans. Rollover contributions will be invested with the balance of the trust fund and will share proportionately in fund gains and losses.

Able Engineering Services 401(k) Plan

Notes to Financial Statements

Upon enrollment in the Plan, participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers eighty-four mutual funds, three guaranteed interest contracts (guaranteed accounts), and a money market account as investment options for participants. The participant may change investment options as often as he chooses, with the exception of the guaranteed accounts.

Effective January 1, 2008, each year the Company will match each eligible participant's 401(k) contributions and will allocate the matching contribution as a Company contribution as of the last day of the plan year. To be eligible, the participant must be a non-highly compensated employee, employed by the Company on the last day of the plan year, and working at an eligible location. The matching contribution is 50 percent of the participant's 401(k) contribution for the year, but is limited to no more than 3 percent of the participant's compensation. Company profit sharing contributions are neither required nor intended.

Participant Accounts

Each participant's account is credited with the participant's contribution, any matching contributions, and allocation of the Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in employee contributions, matching contributions and actual earnings. Amounts rolled over or transferred will be 100% vested in the participant.

Participant Loans

The Plan does not allow for participant loans.

Payment of Benefits

Under the terms of the Plan, any participant may apply for a hardship withdrawal, which will be evaluated by the Administrative Committee. Withdrawals cannot exceed the total amount of 401(k) contributions made by participant (less amounts already withdrawn) plus pre-1989 earnings, if any, which have been allocated to those contributions.

Distributions are generally made in cash, but may be offered in investments if selling the investments would harm the fund as a whole. Accounts worth \$5,000 or less will be distributed in a single payment or series of payments, during one calendar year. The normal form of distribution for all other accounts is a lump sum distribution, but if the participant does not consent to such a distribution, then the participant may elect to have payment

Able Engineering Services 401(k) Plan

Notes to Financial Statements

deferred until normal retirement age. If a participant retires at or after 55, she or he may elect to receive periodic distributions over a period not to exceed 10 years or the term the Administrator permits, whichever is shorter.

Forfeited Accounts

The Plan does not have any forfeited accounts.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for its guaranteed interest accounts, which are carried at contract value (Note 4). Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Gains and losses on investments sold are determined by sales proceeds less market value of the investment at the beginning of the year or acquisition cost if purchased during the year. Unrealized appreciation or depreciation is determined by the market value of investments at the end of the year less their market value at the beginning of the year or acquisition cost if purchased during the year.

Administrative expenses and maintenance fees

All fees and expenses related to the management and administration of the Plan are paid by the Plan. Account maintenance fees are to be charged to each participant's account by the Trustee. Fund management fees are charged to participants as a reduction in the net asset value of the related pooled account.

Contributions

Participant contributions are recorded in the period the Company makes payroll deductions from Plan participants.

Able Engineering Services 401(k) Plan

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

3. Investments

Except for its investment contract with an insurance company (Note 4), the plan's investments are held in an insurance company administered trust fund. The following table presents investments. Investments that represent 5% or more of the Plan's net assets are separately identified.

Able Engineering Services 401(k) Plan

Notes to Financial Statements

- Investment in this Fund did not represent 5 percent or more of the Plan's net assets.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by \$1,228,922 as follows:

Mutual Funds	<u>\$1,228,922</u>
--------------	--------------------

4. Guaranteed Interest Contracts

The Plan offers three guaranteed interest contracts with John Hancock who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value as reported to the Plan by John Hancock. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average annual interest rates for contributions made during the year are as follows:

	<u>2009</u>	<u>2008</u>
3 Year Account	2.26%	3.65%
5 Year Account	2.27%	3.41%
10 Year Account	2.41%	3.89%

Interest rates are established on the first day of each calendar month and apply to all contributions made to the account in that month. At the end of each reporting year, a "composite rate" of interest is determined. The composite rate is the effective annual rate earned by all contributions to that Guaranteed Interest Account during that reporting year. After the end of each reporting year, contributions made will continue to earn that reporting year's composite interest rate until the end of the guaranteed term.

6. Termination of the Plan

Although the Company adopted the plan with the intention that the plan be permanent, the Company reserves the right to terminate the Plan at any time. Dissolution of the sponsor automatically terminates the plan unless a successor agrees to accept all responsibility for the plan. In the event the plan is terminated, each participant shall receive a total distribution of his/her participant account balance in accordance with the terms of the Plan Agreement.

7. Tax Status of the Plan

The company received a favorable determination letter from the IRS as to the qualified status of the Plan under Section 401(a) and related provisions of the Internal Revenue Code (IRC) on February 4, 1998. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel are of the opinion that the Plan fulfills the requirements of the IRC and ERISA, and that the trust, which forms a part of the Plan, is exempt from income tax. Accordingly, no provision has been made for Federal and State income taxes.

Deferrals made on behalf of participants are not subject to Federal and State income taxes until such time as a participant's funds are withdrawn from the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
