Report of Independent Public Accountants

BASF Corporation as Plan Sponsor
and Plan Administrator and Participants in the
Pension Plan for Hourly Employees of Louisville, Kentucky Facility

We were engaged to audit the accompanying statements of net assets available for benefits of Pension Plan for Hourly Employees of Louisville, Kentucky Facility (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Mellon Bank N.A., the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Average Retirement Age:

61.17

The determination of the average retirement age assumes employees continue in employment until reaching the first age of retirement eligibility with the required number of years of service. After this point, only the retirement decrement is recognized.

Actuarial Assumptions and Methods – Louisville

Economic Assumptions

Return on assets 8.00%*

Funding interest rate basis:

- ▶ Applicable month October 2008
- ▶ Yield curve basis Full yield curve
- ▶ Transition from current liability rates N/A

Funding interest rates:

- ▶ 10-year rate 8.85%
- ▶ 20-year rate 8.16%
- ▶ 30-year rate 7.48%
- ▶ Effective interest rate 8.15%

* Expected return on asset assumption is limited by the third segment rate for asset smoothing purposes as required by PPA. The 2008 expected return is limited to 6.43%

Demographic and Other Assumptions

Mortality:

- ▶ Healthy Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, with generational projection) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, with generational projection).
- ▶ Disabled Prescribed disabled life mortality tables as defined under Rev. Rul. 96-7

60-61	10%
62-64	50%
65-70	100%

Percentage married

85% of male and 55% of female

Spouse age

Wives 3 years younger than husbands

Expenses:

Noninvestment expenses paid from the trust are assumed to be 0.15% of the Fair Value of assets.

Form of payment:

For single employees, a Life annuity

For married employees, 40% are assumed to take a life annuity and 60% take a 50% contingent annuity.

The table below shows full detail on the percentage of participants assumed to elect each of the available optional forms of benefit payment under the plan.

Form of Payment	Single	Married
Single Life Annuity	100%	40%
50% Contingent Annuity (QJSA)	0%	60%
100% Contingent Annuity	0%	0%
66 2/3% Contingent Annuity	0%	0%

10 year Certain and Life Annuity	0%	0%
Level Income Annuity	0%	0%
Single lump sum if less than \$5,000	0%	0%

Since all annuity forms are actuarially equivalent, no explicit assumption is made for annuity forms other than the Single Life Annuity and 50% Contingent Annuity Option (QJSA).

Actuarial Methods

- ▶ Valuation Date
- ▶ Funding target and target normal cost
- ▶ Actuarial value of assets

First day of Plan Year

Present value of accrued benefits

Average of market values (adjusted for contributions, benefits/expense payments, and expected investment returns) as of the valuation date and prior two valuation dates.

Benefits Not Valued

All benefits described in the summary of plan provisions were valued.

Change in Methods and Assumptions Since Last Year

The funding interest rate was changed from the full corporate bond yield curve as of December 2007 to the full corporate bond yield curve as of October 2008, as provided under the Pension Protection Act of 2006 (PPA).

Actuarial Value of Assets was changed from the market value of assets to a smoothed value reflecting actual versus expected asset returns over the past 24 months.

Data Sources

Towers Watson used asset data supplied by the trustee. BASF and the plan administrator furnished participant data as of the valuation date. The company provided the dates and amounts of the 2008 contributions that will be paid in 2009, the postretirement benefit asset, postretirement benefit liability and amounts recognized in accumulated other comprehensive income as of January 1, 2009. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Plan Provisions - Louisville

Effective Date	October 1, 1969 (last amended January 1, 2007)
Covered Employees	Hourly Employees of the Louisville, KY facility represented by Local 663 of the International Chemical Workers Union.
Participation Date	The later of the effective date or employment date
Definitions	
Vesting service	A plan year in which a participant completed at least 1,000 hours of service.
Benefit service	A calendar year in which a participant completed at least 1,800 hours of service. A participant with less than 1,800 hours will be credited with 1/10 of one year of service for each 180 hours worked.
Normal retirement date (NRD)	Age 65
Monthly pension benefit	A monthly pension equal to the dollar amount as set forth in the summary of pension benefit levels, multiplied by the number of years of credited service.
Monthly preretirement spouse benefit	50% of the monthly pension benefit as of the date of death reduced for the 50% joint and survivor option and reduced for early payment assuming payment on the earliest date the participant would have been eligible to commence his benefits had he terminated on the date of death. (i.e. as early as age 55 except for disabled participants, for whom this benefit would be payable immediately). The minimum monthly benefit is \$40 prorated for less than 10 years of credited service.
Eligibility for Benefits	
Normal retirement	Retire at NRD
Early retirement	Retire before NRD and on or after both attaining age 55 and completing 10 years of service
Postponed retirement	Retire after NRD
Deferred vested	Terminate for reasons other than death or retirement after completing five years of service
Preretirement spouse benefit	Spouse of active participants who die after having completed five years of credited service
Disability benefit	Totally and permanently disabled and after completing 10 years of service.

Monthly Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Normal pension accrued to early retirement date commencing at age 65, or reduced for earlier commencement. If participant has less than 25 years of credited service: Accrued Benefit reduced 3.6% per year prior to age 65. If the participant has 25 or more years of credited service, there is no reduction on or after age 62, and the accrued benefit is reduced 3.6% per year prior to age 62.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Deferred vested termination	Monthly pension benefit determined as of termination date but reduced for early retirement benefits if payments begin prior to age 65
Death with preretirement spouse benefits	Monthly preretirement spouse benefit
Disability	Credited service to date of disability times the pension multiplier in effect as of the disability date. This benefit ceases at age 65 (or after five years if the disability occurs after age 60), at which time the participant receives the normal retirement pension based on credited service at date of disability.
Forms of payment	Normal forms: Life annuity for single participants; actuarially reduced 50% J&S for married participants Optional forms are also available. Refer to the Assumptions and Methods section for a list of all available forms. See Appendix I for actuarial equivalence basis used to adjust benefit amount for optional forms of payment.

Future Plan Changes

Benefit level increases as noted in the Summary of Pension Benefit Levels. Such increases are reflected for pension cost purposes.

Changes in Benefits Valued Since Prior Year

The monthly pension benefit level for Louisville increased from \$37.50 to \$39 for present value of accumulated plan benefits purposes as of January 1, 2009.

Appendix I - Pension Plan for Hourly Employees of Louisville, Kentucky Facility

Annuity Conversion Basis:

For any annuity form of payment:

- (A) Mortality – The 1971 Group Annuity Mortality Table weighted 90% male and 10% female
- (B) Interest – 8.0% per annum.

Lump Sum Conversion Basis:

For any lump sum option, the conversion factor is calculated using the applicable Mortality table established by the Internal Revenue Service under Code Section 417(e)(3) and the segment interest rates established by the IRS under 417(e) in effect for the September of the Plan Year immediately preceding the Plan Year in which payment is to be made.

2009 Schedule SB, Line 25 – Change in Method

Pension Plan for Hourly Employees of Louisville, Kentucky Facility

EIN: 22-1586002

Plan Number: 017

The funding interest rates used to calculate the funding target and target normal cost were changed from the full corporate bond yield curve as of December 2007 to the full corporate bond yield curve as of October 2008.

The administration expense load on funding target normal cost was included as required by the final regulations of the Pension Protection Act of 2006.

Actuarial Value of Assets was changed from the market value of assets to a smoothed value reflecting actual versus expected asset returns over the past 24 months.

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

(1) Description of the Plan

The following description of the Pension Plan for Hourly Employees of Louisville, Kentucky Facility (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description and Plan document, for a more complete description of the provisions of the Plan and detailed definitions of various Plan terms.

BASF Corporation (the Sponsor) administers the Plan through its Pension and Savings Plan Committee (the Plan Administrator) under the authority of the Pension and Benefits Committee of the Sponsor's board of directors. The Plan has an agreement with Mellon Bank, N.A. (the Trustee) whereby substantially all of the assets of the Plan are held in the BASF Corporation Master Trust (the Master Trust). The Master Trust was established by the Sponsor and is administered by the Trustee. The trust fund distributes the benefits to participants in accordance with the provisions of the Plan. The assets of the Plan are managed by the Trustee and several investment managers of the Sponsor.

(a) *General*

The Plan is a defined benefit pension Plan providing retirement benefits to the Sponsor's eligible bargaining unit hourly employees of BASF Americas Corporation (the Company) or any of its subsidiaries or affiliates which have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was created on May 22, 1981 and has been amended since that time.

(b) *Sponsor Contributions*

The Plan is noncontributory on the part of the employees. The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. This is accomplished by funding the Plan's annual or normal cost for the current year and funding, over a fixed number of years, the estimated unfunded prior service cost. The yield (interest, dividends, and net realized and unrealized gains and losses) on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. No contributions for 2009 or 2008 were deemed necessary based on the January 1, 2009 and 2008 valuation report prepared by Towers Watson and the Sponsor met or exceeded the minimum funding requirements of ERISA.

(c) *Distributions*

Normal retirement is at age 65. The monthly benefit is calculated on a rate of \$35.00 (effective February 1, 2002) times years of service. Early retirement is available at age 55 with 10 years of credited service. If the participant has less than 25 years of credited service, the reduction amount is 3/10 of 1% per month for every month

(c) *Distributions (continued)*

retired prior to attaining age 65. Otherwise, the reduction amount is 3/10 of 1% per month for every month retired prior to attaining age 62.

The normal form of retirement benefit payment is a life annuity. However, if an employee is married on the date their benefit payments commence, their retirement benefit is paid in the form of a 50% joint and survivor annuity – unless the member elects not to receive it in this form, and has obtained the spouse's written consent. There are also several optional forms of retirement benefit payments, all of which are actuarial equivalents to the life annuity. These optional forms of payment include: Social Security adjusted, 10-year period certain, Restoration Joint and Survivor Annuity (50% only), and 100%, 66-2/3%, and 50% contingent annuities. According to the Plan Document, under the 100%, 66-2/3%, and 50% contingent annuity option, the "participant designates another person (usually a spouse) to receive a continued monthly pension, after his death and for the life of the other person (the contingent annuitant), in the selected percentage." The participant's benefit is reduced to reflect payout over two lifetimes. The greater the continuation percentage, the greater the reduction will be. Further details on these optional payment methods can be found in the Plan Documents.

Any member whose service is terminated other than by death or retirement and who has completed 5 years of service is eligible to receive a vested retirement allowance commencing at age 65. Benefit payments to participants are recorded upon distribution. Total and permanent disability benefits are provided for any qualified participant with 10 years of credited service. The monthly payment is equal to \$35.00 for each year of credited service to date at disability for the employee ceasing active service on or after February 1, 2002. The disability pension ceases at age 65, at which time the employee receives the normal retirement pension based on credited service to date of disability. Automatic death benefits are payable to the surviving spouse of an employee who dies in active service and who has completed 5 years of active service. The monthly benefit is equal to 50% of the normal benefit accrued to date of death. Benefit commences immediately if the participant is age 55 or older, or when the participant would have reached 55.

(d) *Vesting*

Benefits become vested after five years of service to the Sponsor.

(2) Summary of Significant Accounting Policies

a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

b) Valuation of Investments

The Plan's investment in the Master Trust has been presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between the market participants at the measurement date. See "Note 6 Fair Value Measurements" for discussion of fair value measurement.

c) Security Transactions

Purchases and sales of securities are recorded on a trade date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d) Investment Income

Dividend income is recorded on the ex-dividend date; interest is recorded as earned on the accrual basis.

e) Use of Estimates

In conformity with GAAP, the Plan's financial statements include the use of estimates and assumptions, which have been developed by Plan management based on available facts and information. Actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies (continued)

f) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

g) Administrative Costs

All administrative expenses of the Master Trust, such as trustee, custodian and accounting services are paid by the Master Trust and then allocated to the participating plans.

h) Risk and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

i) Reclassifications

Certain amounts in the 2008 financial statements have been reclassified to conform with the 2009 presentation.

j) Subsequent Events

The Plan has evaluated events through October 14, 2010, the date the financial statements were available to be issued.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on the number of credited service years ending on the date the benefit information is presented (the valuation date) and the corresponding monthly benefit amount does include future Plan increases.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The significant actuarial assumptions used in determining of the present value of accumulated plan benefits as of January 1, 2009 and 2008 were as follows:

Discount rate	6.00% at January 1, 2009 and 6.25% at January 1, 2008
Mortality rates	RP-2000 Mortality Table
Actuarial cost method	Projected Unit Credit Cost Method
Average retirement age	61

The foregoing actuarial assumptions are based in the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by Towers Watson for 2009 and 2008 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (though discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

(3) Actuarial Present Value of Accumulated Plan Benefits (continued)

The status of the estimated actuarially determined present value of the accumulated benefits under the Plan as of January 1, 2009 and 2008 is:

	<u>2009</u>	<u>2008</u>
Vested benefits:		
Participant/beneficiaries currently receiving payments	\$ 4,407	\$ 4,630
Other participants	<u>2,521</u>	<u>2,550</u>
	6,928	7,180
Nonvested benefits		
Total actuarial present value of accumulated plan benefits	<u>733</u>	<u>300</u>
	<u>\$ 7,661</u>	<u>\$ 7,480</u>

The changes in the actuarial present value of accumulated plan benefits were:

Actuarial present value of accumulated plan benefits as of January 1, 2008	\$ 7,480
(Decrease) increase attributable to:	
Benefits accumulated	(37)
Interest decrease in the discount period	574
Benefits paid	(619)
Assumption changes and plan amendments	<u>263</u>
Actuarial present value of accumulated plan benefits as of January 1, 2009	<u>\$ 7,661</u>

(4) Federal Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 11, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan is being operated in compliance with the application requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

(5) Interest in the Master Trust

The Plan has an agreement with the Trustee whereby substantially all of the assets of the Plan are held in the Master Trust. The assets are maintained in a commingled account by the Trustee and are not separately identified as to ownership. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The Plan had a percentage interest in the Master Trust of approximately 1% as of December 31, 2009 and approximately 1% as of December 31, 2008.

As of December 31, 2009, the following benefit Plans participated in the Master Trust:

Pension Plan for Hourly Employees of Gordon, Georgia Facility

Pension Plan for Hourly Employees of Attapulugus, Georgia Facility

Pension Plan for Hourly Employees of McIntyre, Georgia Facility

(6) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs. |
| Level 2 | Observable prices that are based on inputs not quoted on active markets, but corroborated by market data. |
| Level 3 | Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs. |

In determining fair value, the Master Trust utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, as well as, considers counterparty credit risk in its assessment of fair value. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value:

Corporate stocks: Securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued at the last reported bid price.

Money Market: Valued at amortized cost, which approximates fair value.

**PENSION PLAN FOR HOURLY EMPLOYEES
OF LOUISVILLE, KENTUCKY FACILITY**

Notes to Financial Statements
December 31, 2009 and 2008
(In thousands)

(6) Fair Value Measurements (continued)

U.S. Government Securities: U.S. Government securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers and reference data. Certain securities are valued principally using dealer quotations.

Mutual Funds: Valued by the Trustee at net asset value per unit/share at year-end.

Corporate Debt: Corporate bond securities traded on national securities exchanges are valued at the last reported sales price on the last business day of the year. Securities traded in the over-the-counter market and listed securities for which no sales were reported on that date are valued at the last reported bid price.

Common Collective Trusts and 103-12 Investments: The Plan's interest in the common collective trusts and 103-12 investments are valued based on information reported by the investment advisor using the audited financial statements of the common/collective trusts at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Real Estate and Partnerships/Joint Ventures: The Plan's interest in real estate and partnerships/joint venture funds is valued based on information reported by the investment advisor using the audited financial statements of the funds at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Mortgage-Backed Securities: Valued using a model that incorporates market observable data such as dealer quotes, available trade information, spreads, bids and offers.

Futures Contracts: Valued at the last sale price (or, if there is no sale on the valuation day, bid price) in the market where such contracts are principally traded.

Repurchase Agreements: Short-term agreement to sell and buy back securities in the future which is valued based on the value of the underlying asset.

Swap Agreement: An agreement by two parties to trade cash flows with one another fair valued by the principal or notional amount, interest rates or currency exchanges.

(8) Party-in-Interest Transactions

Certain Plan investments are shares or units of funds managed by Mellon Bank N.A., the Plan's Trustee, as of December 31, 2009 and 2008. Transactions in these funds qualify as permitted party-in-interest transactions.

(9) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination subject to a statutory ceiling on the amount of an individual's monthly benefit.

(9) Plan Termination (continued)

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

(10) Subsequent Event

Effective June 30, 2010, the Plan has ceased all accruals of future benefits for employees. No employee shall become a participant in the plan after June 30, 2010.

(11) Reconciliation of Financial Statements to Form 5500
