Alemite Retirement Savings Plan

Notes To Financial Statements

Note 1. Plan Description

The following brief description of the Alemite Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Alemite, LLC (the "Sponsor"), formerly Alemite Corporation, excluding leased employees or any person who is not employed as a common law employee. All eligible employees may become a participant on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute 1% to 100% of pretax annual compensation, as defined in the Plan, subject to the annual limit defined by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Sponsor contributes 50% of the first 6% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Sponsor's Board of Directors. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and employer matching contributions and an allocation of any employer discretionary contributions and Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in 1% increments in any of several investment options determined by the Plan Administrator. Participants may change their investment options daily.

Payment of benefits: On termination of service due to death, disability or retirement, a participant or his or her designated beneficiary may elect to receive a single lump sum payment equal to the value of the participant's vested interest in his or her account or equal installments. For termination of employment for any reason other than death, disability or normal retirement, a participant may receive the value of the vested interest in his or her account in the above forms.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Forfeitures: Forfeited balances of terminated participants' non-vested accounts are first used to reinstate participant accounts, as applicable, and then to reduce employer matching contributions. Forfeited non-vested accounts totaled \$30,822 and \$7,904 at December 31, 2009 and 2008, respectively. No forfeitures were used to reduce employer matching contributions during 2009.

Participant loans: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator. These rates ranged from 5.25% to 10.25% on loans outstanding at December 31, 2009. Loans outstanding at December 31, 2009 are due through 2019. Principal and interest are paid ratably through payroll deductions.

Notes To Financial Statements

Note 1. Plan Description (Continued)

Amendments: The Plan Sponsor amended the Plan effective February 1, 2009, in order to change the employer matching formula to discretionary. The Plan Sponsor also amended the Plan effective December 31, 2009 to document the merger of the Alemite Retirement Savings Plan into the Lincoln Industrial Corporation Retirement Savings Incentive Plan.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

The Plan has funds invested in the Diversified Stable Pooled Fund which is invested in fully benefit responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributable to full benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan's management has evaluated subsequent events through October 15, 2010, the date the financial statements were available to be issued.

Accounting pronouncement adopted: In May, 2009, the Financial Accounting Standards Board ("FASB") issued guidance addressing the accounting for and disclosure requirements for events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are issued. The Plan adopted the guidance as of December 31, 2009.

The FASB issued FASB Staff Position 157-4 to provide additional guidance on investment disclosures effective for years ended after June 15, 2009. It requires disclosure of inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques and related inputs, if any, and includes guidance on determining major security type ("category") for debt and equity securities required to be disclosed on the basis of "nature and risks" of the investments. The Plan adopted the guidance as of December 31, 2009.

Alemite Retirement Savings Plan

Notes To Financial Statements

Note 2. Significant Accounting Policies (Continued)

In September 2009, the FASB released accounting guidance on estimating the fair value of a Plan's investment in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as a practical expedient to determine fair value. This guidance also required additional disclosure of the attributes of these investments such as: (i) the nature of any restrictions on the reporting entity's ability to redeem its investment; (ii) unfunded commitments, and (iii) investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations and all applicable disclosures are included in these financial statements.

The FASB issued new guidance on the accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax position and concluded that the Plan maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision for income taxes has been included in the financial statements.

Note 3. Investments Certified and Provided by State Street Bank and Trust Company ("Trustee")

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedules, that was prepared by or derived from information certified or provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following investments:

	December 31,	
	2009	2008
Registered investment companies	\$ 3,962,446	\$ 3,545,336
Common trust fund (1)	641,364	367,446
Participant loans	313,154	321,222
	<u>\$ 4,916,964</u>	<u>\$ 4,234,004</u>

(1) The value certified by the trustee is contract value which is different from fair value reported in Note 4 in accordance with generally accepted accounting principles.

State Street Bank and Trust Company also certified to the completeness and accuracy of \$681,095 of net appreciation in fair value and \$117,485 of interest and dividends related to the aforementioned investments for the year ended December 31, 2009.

Alemite Retirement Savings Plan

Notes To Financial Statements

Note 3. Investments Certified and Provided by State Street Bank and Trust Company ("Trustee") (Continued)

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by investment type as follows:

	December 31, 2009
Registered investment companies	\$ 663,847
Common trust fund	17,248
	<u>\$ 681,095</u>

Note 4. Fair Value Measurements

The FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Common trust fund: Valued at net asset value based on the underlying investments and using the audited financial statements of the common trust fund as a whole.

Participant loans: Valued at amortized cost, which approximates fair value.

Alemite Retirement Savings Plan

Notes To Financial Statements

Note 4. Fair Value Measurements (Continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008. The following table presents separately those assets that represent 5% or more of the Plan's net assets:

Note 5. Net Asset Value

The following table for December 31, 2009 sets forth a summary of the Plan's level 2 investment with a reported net asset value:

Investment	Fair Value Estimated Using Net Asset Value Per Share December 31, 2009				
	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Diversified Stable Pooled Fund (1)	\$ 642,384	\$ -	Immediate	None	None

* The fair value of the investment has been estimated using the net asset value of the investment.

(1) The Stable Pooled Fund's objective is to provide positive income with reduced return volatility through investment in a diversified portfolio of high quality fixed income securities. The Fund invests in stable value fixed income instruments, including guaranteed investment contracts (GIC's), bank investment contracts, as well as GIC alternatives, such as synthetic GIC's.

Note 6. Transfer out of the Plan

On December 29, 2009, the Sponsor's Board of Directors resolved to merge the Alemite Retirement Savings Plan into Lincoln Industrial Corporation Retirement Savings Incentive Plan effective December 31, 2009. The assets were transferred January 12, 2010 in the amount of \$4,949,265.

Note 7. Related Party and Prohibited Transactions

Certain Plan investments include shares of registered investment companies managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the Plan trustee yes and, therefore, these transactions qualify as party-in-interest. Additionally, administrative fees paid by the Plan to State Street Bank and Trust Company amounted to \$2,325 for the year ended December 31, 2009. All other administrative expenses of the Plan are paid by the Sponsor.

During the Plan year ended December 31, 2008, the Plan Sponsor failed to remit employee contributions and loan repayments in the amount of \$263,130, on a timely basis into the Plan which resulted in nonexempt party-in-interest transactions according to the United States Department of Labor. The Plan Sponsor will self correct the late deposits by depositing the lost earnings to the Plan and filing Form 5330 and paying the appropriate excise tax for 2008 during 2010 to the Lincoln Industrial Corporation Retirement Savings Incentive Plan.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Income Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Diversified Investment Advisors. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
