WASCO, INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Wasco, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time employees of Wasco, Inc. (the "Company") who have completed one year of service. The Plan is intended to qualify as a salary reduction plan under Section 401(k) and as a qualified defined contribution plan under Section 401(a) of the Internal Revenue Code. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may elect to contribute to the Plan up to \$16,500 of their eligible wages for 2009, respectively, plus an additional \$5,500 for participants age 50 or older in 2009. Eligible wages include regular wages, overtime, bonuses and other fringe compensation. The maximum contribution amount is adjusted annually for inflation, as announced by the United States Secretary of the Treasury. Participant contributions to the Plan are made by means of payroll deductions during each regular payroll period.

The Company may make matching contributions, discretionary profit sharing contributions and qualified non-elective contributions. Matching contributions are based on salary deferrals, calculated as a uniform percentage declared by the board of directors. Participants are immediately vested in the matching contributions. Discretionary profit sharing contributions are allocated to the participants on the ratio of the participant's compensation plus excess compensation divided by total compensation plus excess compensation of all participants who share in the contributions. Excess compensation is compensation in excess of the Social Security Taxable Wage Base for the year. Eligible employees who have worked less than 1,000 hours or who have terminated employment prior to the end of the Plan year will not participate in the profit sharing contribution. Qualified non-elective contributions are based on a uniform percentage, as declared by the board of directors, of compensation.

Participants become vested in the discretionary profit sharing contributions and qualified non-elective contributions in accordance with the vesting schedule in the Plan documents.

The Company made no matching and discretionary contributions for the year ended December 31, 2009.

Investment Options: The Plan allows participants to direct employee and employer contributions into various pooled separate accounts and guaranteed interest funds under an agreement with John Hancock Life Insurance Company U.S.A. (the "custodian"). These pooled separate accounts are invested in mutual funds which invest in common stock, government obligations and debt securities.

Participant Accounts: A separate account is maintained for each participant and is credited with the participant's contribution, an allocation of the Company's contribution, forfeitures of terminated participants' nonvested accounts, earnings from investments, and charged with an allocation of administration expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

WASCO, INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Vesting in Company discretionary profit sharing and qualified non-elective contributions and earnings thereon is based on years of service with the Company in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 and more	100%

Participant Loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or one-half of the participant's vested account balance, whichever is less. All loans are treated as a directed investment from the participant's account. All payments of principal and interest will be credited to the participant's account. The loans are secured by up to one-half of the participant's account balance and bear interest at a rate of prime plus 1%.

Payment of Benefits: Participants are eligible for payment of vested benefits upon retirement, death, permanent disability, or termination of employment. Payments may be in the form of a lump sum benefit or installments over a period of not more than the participant's assumed life expectancy.

Active employees may make withdrawals of all or a portion of their account balances subject to certain withdrawal and contribution suspension rules as defined by the Plan. Generally, withdrawals are available only from the vested portion of a participant's account. Withdrawals from the accounts are not allowed for participants who are less than 59 1/2 years of age, except under hardship withdrawal and rollover contributions provisions.

Forfeitures: Forfeitures of nonvested benefits are allocated to participants as additional matching contributions. Forfeitures for the year ended December 31, 2009 were \$26,305.

Administrative Expenses: Trustee fees and investment management fees are paid by the Plan. All other administrative expenses are paid directly by the Company.

Basis of Presentation: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The fair values of nonbenefit-responsive investment contracts have been estimated by management to approximate contract values.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimize the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date and are classified within level 2 of the fair value hierarchy.

Participant loans: Participant loans are reported at amortized cost, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

Investment contracts: The fair value of the Plan's investment contract has been determined to approximate contract values (level 3 inputs), as the terms of the contract prohibit transfer or assignment of rights under the contract and provide for all distributions at contract value, frequent re-setting of contractual interest rates based upon market conditions, and no significant liquidity restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2008 Using:		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than participant loans):	\$ -	\$ 4,879,764	\$ 9,102

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Risks and Uncertainties: Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the statement of net assets available for benefits and participant's individual account balances.

Payments of Benefits: Benefits are recorded when paid.

Subsequent Events: Management has performed an analysis of the activities and transactions subsequent to December 31, 2009 to determine the need for any adjustments to and disclosures within the audited financial statements for the year ended December 31, 2009. Management has performed their analysis through October 5, 2010, which is the date these financial statements were available to be issued.
