EMPLOYEES PENSION PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

(1) Description of the Plan

The following brief description of the Brown Memorial Hospital Employees Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

(a) General

The Plan is a defined benefit pension plan covering substantially all employees of the Brown Memorial Hospital d/b/a University Hospitals Conneaut Medical Center (Hospital or Plan Sponsor) and provides for retirement and disability retirement benefits. Employees are eligible to participate in the Plan on January 1 or July 1 following attainment of age 21 and completion of 1 year of service.

Effective January 1, 2009, the Plan was frozen and employees of the Hospital hired subsequent to this date participate in the University Hospitals Health System, Inc. Retirement Plan.

(b) Pension Benefits

Participants are eligible to receive monthly benefit payments beginning at normal retirement age of 65 or the fifth anniversary of participation. The amount of a plan participant's benefit is based upon several factors, including years of service, Social Security covered compensation, and age. Participants may elect to receive their benefits as a life annuity payable monthly during retirement or may elect to receive optional forms of payment of actuarially equivalent amounts. The Plan permits early retirement benefits after attaining the age of 55 and having completed at least 10 years of vested service.

(c) Death Benefits

If an active participant dies at age 55 or older, the surviving spouse may be entitled to 50% of the participant's monthly retirement benefit.

(d) Vesting

Vesting is based on years of credited service. A participant is credited for 1 year of service for each plan year in which the participant completes 1,000 hours of service. After 5 years of service, the participant is 100% vested in the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Funding Policy

It is the Hospital's policy to make contributions to the Plan based upon actuarial computations. The Hospital met the minimum funding requirements of Employee Retirement Income Security Act of 1974 (ERISA) for 2009 and 2008, as determined by consulting actuaries, Hewitt Associates LLC.

EMPLOYEES PENSION PLAN**

Notes to Financial Statements

December 31, 2009 and 2008

(c) Valuation of Investments and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Net appreciation (depreciation) in the fair value of investments reported in the statements of changes in net assets available for benefits includes both realized and unrealized gains and losses. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income on the accrual basis.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(e) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered as of the valuation date.

(f) Payments of Benefits

Benefit payments to participants are recorded upon distribution.

(g) Expenses Paid by Plan Sponsor

Certain plan expenses such as ERISA attorney fees, expenses in relation to the actuarial valuation, and audit fees are paid by the Plan Sponsor.

(3) Investments

Under the terms of a trust agreement between Key Bank National Association (Trustee) and the Plan, the Trustee maintains a trust fund on behalf of the Plan. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certification from the Trustee of the Plan that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments in the trust fund administered by the Trustee, investment income receivable, interest and dividends, information included in this note, and all information in the supplemental schedules is presented in reliance solely upon those certification.

(4) Fair Value Measurements

The Plan has an established framework for measuring and disclosing fair value according to generally accepted accounting principles. Generally accepted accounting principles emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and should be determined based on the assumptions that market participants would use in pricing the asset or liability.

Notes to Financial Statements

December 31, 2009 and 2008

A hierarchy was established for ranking the quality and reliability of the information used to determine fair values. The Plan's assets carried at fair value are disclosed according to the following three levels:

Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets such as stock exchanges and the Chicago Board of Trade. Level 1 yields the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available. Level 1 instruments consist of cash equivalents, common stock, U.S. government securities and mutual funds.

Level 2 – Observable inputs other than quoted prices in Level 1. Inputs such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar liabilities that are not active, or other inputs that are observable or can be corroborated by observable inputs. Level 2 instrument inputs may consist of quotes from independent pricing vendors based on recent trading activity and other relevant information including matrix pricing, market corroborated pricing, yield curves and other indices. Level 2 instruments consist of government securities.

Level 3 – Unobservable inputs that are significant to the valuation of assets or liabilities and are supported by little or no market data. This includes discounted cash flow methodologies, pricing models and similar techniques that use significant unobservable inputs. There are no instruments with a Level 3 classification.

(5) Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2008 and 2007 is as follows:

	<u>2008</u>	<u>2007</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 726,000	724,000
Participants with deferred benefits	401,000	—
Other participants	<u>3,153,000</u>	<u>3,225,000</u>
Total vested benefits	4,280,000	3,949,000
Nonvested benefits	<u>139,000</u>	<u>112,000</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 4,419,000</u>	<u>4,061,000</u>

The changes in the accumulated plan benefits for the period ended December 31, 2008 and 2007 were:

	<u>2008</u>	<u>2007</u>
Actuarial present value of accumulated plan benefits at beginning of year	\$ 4,061,000	3,755,000
Increase (decrease) during the year attributable to:		
Interest on prior liability	333,000	297,000
Benefits accumulated	483,000	450,000
Benefits paid	(476,000)	(504,000)
Changes in actuarial assumptions	<u>18,000</u>	<u>63,000</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 4,419,000</u>	<u>4,061,000</u>

The significant actuarial assumptions used in the valuations as of December 31, 2008 and 2007 include:

Assumed rate of return on investments	8.50% per annum (2008 and 2007)
Mortality basis	RP-2000 Mortality Table projected to 2009 Scale AA (2008 and 2007)
Average retirement age	61 (2008 and 2007)

Notes to Financial Statements

December 31, 2009 and 2008

(6) Plan Termination

The Hospital has the right under the Plan to discontinue its contributions for future periods and terminate the Plan at any time. In the event of termination of the Plan, the assets of the Plan are to be set aside first for the payment of vested benefits and second to the remaining participants on a pro rata basis. Distributions will be made in accordance with ERISA and the Pension Benefit Guaranty Corporation (PBGC) requirements. The PBGC guarantees the payment of all nonforfeitable basic benefits, subject to certain limitations prescribed by ERISA.

(7) Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Hospital by a letter dated October 29, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, GUST, and EGTRRA.

(8) Related-Party Transactions

Certain plan investments and shares of mutual funds are managed by Key Bank National Association. As Key Bank National Association is the Trustee of the Plan, these transactions qualify as party-in-interest transactions.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(10) Subsequent Events

The System evaluated all activity of the Plan through October 8, 2010. There were no reportable events.

Valuation Compensation	2008 Pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$195,000 and the 401(a)(17) compensation limit of \$245,000.

Trustee Expenses Included in Target Normal Cost	\$60,000. Based on the prior year's actual plan administrative expenses, rounded to the nearest \$10,000.
