Cypress Care, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Cypress Care, Inc. ("Plan sponsor") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan's effective date was January 1, 2006. It is a defined contribution plan covering all employees of the Company who have attained age 18, and it is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees are eligible to participate in the Plan on the first day of the month after they have met the eligibility requirements.

Contributions: The Plan allows participants to contribute up to 80% of their eligible compensation, as defined by the Plan, on a tax-deferred basis subject to Internal Revenue Service regulation limitations. Effective September 2008, the Plan was amended to allow employee after-tax contributions into the Plan. The Company matches 25% of the first 6% of a participant's compensation that is contributed into the Plan. The Plan also permits nonelective contributions at the discretion of the Company. No nonelective contributions were made in 2009. Contributions are subject to certain limitations established by the Internal Revenue Service.

Participant accounts: Each participant's account is credited with the participant's contributions, employer matching contributions, an allocation of any discretionary contribution, Plan earnings and losses and administrative expenses if applicable. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings and losses thereon or upon death, disability or attainment of age 65. Vesting in the employer's contributions and earnings thereon is based on years of service. A participant is 100% vested after three years of credited service as follows:

Years of Service	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	100%

Forfeited accounts: When termination of participation in the Plan occurs, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce future employer matching contributions. However, if the participant is re-employed and fulfills certain requirements, as defined by the Plan, the participant's account will be reinstated. At December 31, 2009 and 2008, forfeited non-vested accounts totaled \$10,249 and \$3,969, respectively.

Investment options: Upon enrollment in the Plan, a participant may direct employee and employer contributions into selected investment options as made available and determined by the Plan Administrator. Participants have daily access to their investment balances. Changes may be self-directed by the participants through internet or telephone transfers.

Cypress Care, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: Upon leaving the Company for retirement, termination, disability or death, a participant or designated beneficiary may elect to receive a lump sum distribution or installment equal to the value of the participant's vested interest in his or her account balance at the date of distribution. Participants may withdraw all or part of their vested account balance upon reaching age 59 ½. Rollover contributions may be withdrawn at any time. In the event of a financial hardship, a participant may withdraw any elective deferrals and any vested employer contributions.

Participant loans: Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50% of the present value of the non-forfeitable accrued benefit under the Plan, or \$50,000 reduced by the excess (if any) of the highest outstanding balance of loans from the Plan to the participant during the one year period ending on the day before the date on which such loan is made. The minimum loan is \$500. A loan is secured by the balance in the participant's account and bears interest at a rate equal to the prime rate as of the 14th of the month the loan is effective plus two percentage points. Principal and interest are paid through semi-monthly payroll deductions and must be fully repaid within five years, unless the loan is for the purchase of a primary residence then the loan may be repaid within a period of no more than thirty years.

Note 2. Significant Accounting Policies

Accounting records: The accounting records of the Plan are maintained by JPMorgan Chase Bank, the trustee of the Plan.

Basis of accounting: The accounts of the Plan are maintained on the accrual basis of accounting.

Valuation of investments and income recognition: The Plan's mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation in the fair value of its investments includes gains or losses on investments bought and sold as well as held during the year.

Contributions: Contributions from Plan participants and the matching contribution from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. All participant and employer contributions are participant-directed.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative fees: As provided by the Plan agreement, the Plan sponsor pays certain expenses on behalf of the Plan. Certain investment management expenses, transactional costs and service charges are paid by the Plan.

Cypress Care, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2009) through October 12, 2010, the date the financial statements were available to be issued.

Recent accounting pronouncements: In April 2009, the FASB released additional guidance requiring that a reporting entity (a) disclose in interim and annual periods the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques and related inputs, if any, during the period; and (b) define major category for equity securities and debt securities to be major security types as described in the guidance. The guidance is effective for interim and annual reporting periods ending after June 15, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations and all applicable disclosures are included in these financial statements.

In May 2009, the Financial Accounting Standards Board ("FASB") issued guidance addressing the accounting for and disclosure requirements for events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are issued. The Plan adopted the guidance as of December 31, 2009.

In September 2009, the FASB released accounting guidance on estimating the fair value of a Plan's investment in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as a practical expedient to determine fair value. This guidance also required additional disclosure of the attributes of these investments such as: (i) the nature of any restrictions on the reporting entity's ability to redeem its investment; (ii) unfunded commitments; and (iii) investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations and all applicable disclosures are included in these financial statements.

In January 2010, the FASB released accounting guidance that requires new fair value measurement classification disclosures and clarifies existing disclosures. The guidance requires: (i) separate disclosures of significant transfers between Level 1 and 2 and reasons for transfers, (ii) disclosure, on a gross basis, purchases, sales, issuances and net settlements within Level 3 measurements, (iii) disclosures by class of assets and liabilities, and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. The guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disaggregation of the Level 3 activity, which is effective for interim and annual periods beginning after December 15, 2010. The adoption of this guidance is reflected, where applicable, in these financial statements and the guidance yet to be adopted is not expected to materially impact the Plan's current fair value disclosures.

The FASB issued new guidance on the accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax position and concluded that the Plan maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision for income taxes has been included in the financial statements.

Note 2. Significant Accounting Policies (Continued)

In September 2010, FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans*, which provides guidance on how loans to participants by defined contribution retirement plans should be classified and measured. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendment should be applied retrospectively to all prior periods presented, effective for plan years ending after December 15, 2010. Early adoption is permitted. Plan management has not yet adopted this amendment.

Note 3. Investment Information Certified by JPMorgan Chase Bank

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the JPMorgan Chase Bank, trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2009 or 2008 are as follows:

	December 31, 2009	December 31, 2008
Mutual Funds:		
BlackRock S&P 500 Fund	\$ 232,997	\$ 112,910
Goldman Sachs Mid Cap Value fund	159,983	204,000
BlackRock Large Cap Value Fund	160,620	112,049
Merrill Lynch Ready Assets Trust	135,304	132,921
BlackRock Global Allocation Fund	275,087	161,397

Victory Special Value Fund	139,919	80,804
AIM Real Estate Fund	140,199	100,387
Davis New York Venture Fund	142,109	*
Oppenheimer Strategic Income Fund	233,299	113,996

*This investment did not exceed 5% of the Plan's net assets available for benefits as of this date.

JPMorgan Chase Bank also certified to the completeness and accuracy of \$444,132 of net appreciation in the fair value of investments relating to mutual funds and \$40,960 of dividends and interest related to the aforementioned investments for the year ended December 31, 2009.

Note 4. Fair Value Measurements

Accounting standards establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Financial instruments not actively traded on a market exchange. This category includes situations where there is little, if any, market activity for the financial instrument. The prices are determined using significant unobservable inputs or valuation techniques. The Plan's Level 3 assets consist of participant loans.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year end.

Participant loans: Valued at amortized cost plus accrued interest, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 5. Risks and Uncertainties

The Plan's participants invest in various investment securities offered by the Plan. These investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 6. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Automatic Data Processing Federal Credit Union. The prototype plan has received an opinion letter dated November 6, 2001 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Note 7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to the Form 5500:

	December 31, 2009	December 31, 2008
Net assets available for benefits as presented in these financial statements	\$ 2,599,810	\$ 1,579,207

Net increase in net assets available for benefits as presented on Form 5500	<u>\$ 1,018,035</u>

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 9. Plan Failure

The Plan has identified an operational failure of the Plan related to not performing various discrimination testing at the control group level. The Plan is planning to resolve this issue under the Internal Revenue Service Voluntary Correction Program ("VCP") and to request a waiver for the years 2007 to 2009. The Plan is unable to predict the ultimate outcome of this issue under the VCP, and any resolution may have a significant effect to the financial statements of the Plan. If the result of filing through the VCP is unsuccessful, the Plan Sponsor will be responsible for contributing an employee and employer matching contribution. Any obligations to the Plan would be paid out of the Plan Sponsor assets.
