To the Board of Directors of
The Ohio Pizza Products, Inc. 401(k) Profit Sharing Plan
Cincinnati, Ohio

We were engaged to audit the accompanying Statement of Net Assets Available for Benefits of The Ohio Pizza Products, Inc. 401(k) Profit Sharing Plan as of December 31, 2009, the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009, and the Schedule H, Line 4(i) Schedule of Assets (Held at End of Year) at December 31, 2009. The financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, except for comparing the information with the related information included in the financial statements and supplemental schedules. The information was certified by State Street Bank and Trust, trustee of the Plan. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying Statement of Net Assets Available for Benefits of the Ohio Pizza Products, Inc. 401(k) Profit Sharing Plan as of December 31, 2008 in accordance with Statements on Accounting Standards for Accounting and Review issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of the financial statements that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of Ohio Pizza Products Inc. 401(k) Profit Sharing Plan ("Plan") have been prepared on the accrual basis.

Fully benefit-responsive investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value and are valued daily. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Investments in common/collective trusts are stated at estimated fair value based upon quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements.

Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

In preparing its financial statements, the Company has evaluated events subsequent to the Statements of Net Assets date through October 13, 2010, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, established on December 31, 1982, is a defined contribution plan covering substantially all employees of Ohio Pizza Products, Inc., (the Company), who have six months of service and have reached the age of twenty. Employees may enter the Plan on the first day of the month after having met the eligibility requirements. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may make before and after tax contributions to the Plan up to 86% of their eligible annual compensation, as defined. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended (\$16,500 and \$15,500 at December 31, 2009 and 2008, respectively). Participants may also contribute amounts representing distributions from other qualified plans.

Participants designate the percentage of their total contribution to be invested in any of the Plan's investment funds. A participant may change the amount of his elective deferred contributions at any time during the Plan year by issuing a change request form to the Plan administrator. Participants may change the percentage of contributions invested in each account and may make transfers between accounts anytime during the year.

Ohio Pizza Products, Inc. may provide a matching contribution to each participant based on their elective deferral. The percentage is to be determined by the Company prior to the end of each Plan year. The Company elected to make a matching contribution of \$40,203 to the Plan in 2009. Additional profit sharing amounts may be contributed at the option of the Company and are invested in a portfolio of investments as directed by the Company. The Company elected not to make a profit sharing contribution in 2009.

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, actual earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions and Plan earnings thereon is based on years of continuous service. A participant is 100% vested after 6 years of credited service.

Hardship Withdrawals

Participants qualify to take a hardship withdrawal if a participant has an immediate financial hardship resulting from certain events as identified in the Plan document. Once a hardship withdrawal is taken, the participant agrees not to make elective salary deferrals for a twenty-four month period after receipt of the hardship withdrawal.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 8.25 percent, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service due to retirement, death, disability, other termination of employment with the Company, or termination of the Plan, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a series of payments in substantially equal installments.

Forfeitures

The non-vested portion of terminated participant account balances can be used by the Plan sponsor to reduce future employer contributions. For the years ended December 31, 2009 and 2008, the balance of unallocated forfeitures was \$21,715 and \$15,240, respectively.

NOTE 3 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2008, which states that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

OHIO PIZZA PRODUCTS, INC. 401(K) PROFIT SHARING PLAN

Notes to Financial Statements (Continued)

NOTE 4 RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds and a common collective trust managed by ADP Retirement Services. ADP Retirement Services is the asset custodian, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Certain employees of the Plan sponsor provide administrative and executive oversight services to the Plan. The Plan is not charged by the Plan sponsor for these services.

NOTE 5 PLAN TERMINATION

Although it has not expressed any intent to do so, Ohio Pizza Products has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, participants will become fully vested in their account balances.

NOTE 6 ADMINISTRATIVE EXPENSES

Administrative expenses represent the cost of accounting and administrative services provided to the Plan by ADP Retirement Services. Certain other administrative expenses of the Plan are paid by the Plan sponsor.

NOTE 7 INVESTMENTS

The Plan's investments that represent five percent or more of the Plan's net assets available for benefits as of December 31, 2009 and 2008 are as follows:

NOTE 10 BENEFIT RESPONSIVE CONTRACT

The Plan has a benefit-responsive investment contract with State Street Bank. Contract value is the relevant measurement attribute for that portion of the net assets of an investment company attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined contribution plans. Investments in bank, insurance company and other financial institution investment contracts ("GICs") are stated at contract value which is equal to principal balance plus accrued interest. An investment contract is generally permitted to be valued at contract value rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined-contribution plans. An investment contract is considered fully benefit-responsive if: 1) it is effected directly between the Fund and the issuer and may not be transferred without the consent of the issuer, 2) either the repayment of principal and interest is a financial obligation of the issuer (i.e., for traditional investment contracts) or the issuer of a wrap contract provides assurance that the contract crediting rate will not be adjusted to less than zero (i.e., for synthetic investment contracts), 3) the contract requires all permitted participant-initiated transaction with the trust to occur at contract value without limitation, 4) it is improbable that an event will occur that would limit the ability of the Fund to transact at contract value with both the issuer and Fund unitholders, and 5) the Fund allows unitholders reasonable access to their funds. Investment contracts that do not meet the criteria for valuation at contract value will be valued at fair value as determined by the Trustee, and such value may be more or less than contract value.

A synthetic GIC attempts to protect principal and accumulated interest and credits a stated interest rate for a specified period of timer (e.g., monthly or quarterly). Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Fund on a prospective basis (the "Crediting Rate"). The Crediting Rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The Crediting Rate is most impacted by the change in annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. Depending on the change in duration from each reset period, the magnitude of the impact to the Crediting Rate of the contract to market difference is heightened or lessened. The Crediting Rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no vent is the Crediting Rate less than zero. The Crediting Rate may be impacted amongst other things, by volatility and illiquidity in the fixed-income securities market. If the market value of the underlying investments is lower than their contract value, the Crediting Rate may be lower than the return on the underlying investments.

If the market-to-book-value ratio is less than par, contributions from participants may increase market value attributed to the underlying investments and increase the Crediting Rate of the Fund's return. Should the market-to-book-value ratio be greater than par, contributions from participants may decrease the Crediting Rate and the Fund's return. Redemptions may have an opposite effect from contributions, where if the Fund experiences significant redemptions when the market value is below the contract value, the Fund's return may be reduced to zero.

Investment contracts are valued at contract value principally because participants are able to transact at contract value when initiating benefit-responsive withdrawals, taking loans or making investment option transfers permitted by the participating plan. A benefit-responsive withdrawal includes a payment to a participant arising from retirement, termination of employment, disability or death. In the normal course, participant events are predictable (for participants as a group) such that the economic integrity of investment contracts is largely unaffected by participant withdrawals.

OHIO PIZZA PRODUCTS, INC. 401(K) PROFIT SHARING PLAN

Notes to Financial Statements (Continued)

NOTE 10 BENEFIT RESPONSIVE CONTRACT (CONTINUED)

Employer initiated events, if material, may affect the underlying economics of investment contracts. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or other events. The occurrence of one or more employer initiated events could limit the Fund's ability to transact at contract value with plan participants.

For example, retirement benefit payments which occur because an employer has offered a subsidized early retirement program will not transact at contract value unless the scope of the program is not material or the investment contract includes a "contract value corridor". Whether an employer initiated event is probable is foremost within the knowledge of the employer, but in the normal course may be communicated to the investment manager of the Fund. While the investment manager may take action to minimize or eliminate the impact of the employer initiated event, there is no assurance that the issuer will continue to transact at contract value once the corridor is used. In that case, the Fund would be unable to maintain the ability transact at contract value. As of December 31, 2009, the Trustee believes the occurrence of an event that would limit the ability of the Fund to transact at contract value with the participants in the Fund is not probable. The crediting interest rate was 3.39% at December 31, 2009. The average yield for the year ended December 31, 2009 was 3.04%, which is computed by dividing the annualized one-day actual earning of the Fund on December 31, 2009 by the fair value of the investment on December 31, 2009.

NOTE 11 FAIR VALUE MEASUREMENTS

Applicable GAAP accounting for Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that priorities the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the applicable GAAP accounting for Fair Value Measurements and Disclosures are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. (Mutual funds, common stocks, corporate bonds, US government securities, etc.)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

OHIO PIZZA PRODUCTS, INC. 401(K) PROFIT SHARING PLAN

Notes to Financial Statements (Continued)

NOTE 11 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. (Guaranteed investment contract, participant loans, etc.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Value at the net asset value ("NAV") of shares held by the plan at year end.

Common collective trust (Guaranteed investment contract): Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. (See Note 10)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:
