NOTE 1- DESCRIPTION OF THE PLAN

The following description of the AmeriCash Loans Retirement Plan ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of AmeriCash Loans, LLC ("the Company") who have completed one year of service and attained the age of 18. Employees become active participants in the Plan immediately after they have met the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Participants may contribute up to 15% of their compensation, subject to Internal Revenue Code ("IRC") limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes an amount equal to 50% of employee deferrals up to 10% of eligible compensation each pay period. Additionally, the Company may decide to make a discretionary, nonelective, profit sharing contribution to the Plan for each employee employed at the end of the year based on eligible wages.

Participant Accounts: Each participant's account is credited with the participant contributions, an allocation of the Company's contribution and an allocation of the investment earnings and losses and changed distributions and an allocation of Plan losses and administrative expenses. Allocations are based on the participant's eligibility, contributions or account balances and compensation, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefits and Vesting: Participants are immediately vested in their contributions plus earnings thereon.

Effective January 1, 2007, the vesting schedule used for vesting in participant accounts is as follows:

Years of Service	Percent Vested
1	25%
2	50%
3	75%
4 or more	100%

(Continued)

NOTE 1- DESCRIPTION OF THE PLAN (Continued)

Investment Options: Upon enrolling in the Plan, a participant may direct the investment of his or her account into any of several investment options.

Participant Loans: Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The period for repayment of any loan may in no event exceed 5 years, unless the loan is for the purchase of a primary residence, in which case the repayment of the loan shall not exceed 30 years. Participants are allowed only one active loan outstanding at a time. Interest rates on participant loans are set at the time of loan issuance and are equal to the prime rate plus two percentage points. Principal and interest are paid regularly through payroll deductions.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Payment of Benefits: In the case of financial hardship as described in the plan document, a participant may withdraw in a single sum any part of their vested account resulting from voluntary contributions. No amounts may be withdrawn from pre-tax savings accounts by a participant before termination of employment with the Company unless the participant has either attained age 59-1/2 or is able to demonstrate financial hardship.

Forfeitures: Forfeitures shall be applied to reduce future employer contributions. During 2008, forfeitures in the amount of $997 were used to reduce employer contributions. At December 31, 2008 and 2007, there were no amounts available to offset future employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan's policy is to prepare its financial statements on the accrual basis of accounting principles.

Adoption of New Accounting Standards: In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements* (FAS 157). This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. This Standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. The impact of adoption of this standard as of January 1, 2008 was not material to the Plan's net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continue)

FAS 157 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FAS 157 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts, other than stable value funds, are based on their net asset values, as reported by the managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The fair values of interests in stable value funds are based upon the net asset values of such funds reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund managers (Level 2 inputs).

Money Market Funds: Fair values are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continue)

Participant Loans: Participant loans are reported at amortized cost, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2008 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments (other than interest in participant loans)	$318,832	$137,447	$ -

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in fully benefit-responsive contracts through its investment in a stable value fund. Management has determined that the estimated fair value of the Plan's indirect investments in fully benefit-responsive contracts as of December 31, 2008 and 2007 approximates contract value. Accordingly, the statements of net assets available for benefits reflect no adjustment for the difference between net assets with all investments at fair value and net assets available for benefits.

Administrative Expenses: All expenses incurred in the administration of the Plan are paid by the Plan, unless paid directly by the Company.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of the financial statements in conformity with the accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for certain investment options in mutual funds and common collective trust funds. The underlying investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

NOTE 3 - INVESTMENTS (UNAUDITED INFORMATION)

State Street Bank and Trust Company (State Street), the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by State Street. This information has not been audited by independent accountants.

The following presents the fair value of investments that represent 5% or more of the Plan's net assets as of December 31, 2008 and 2007:

NOTE 3 - INVESTMENTS (UNAUDITED INFORMATION) (Continued)

During the year ended December 31, 2008, the Plan's investment in mutual funds and common collective trust funds (including investments bought and sold, as well as held, during the year) depreciated in fair value as follows:

Mutual funds	$ 117,162
Common collective trust funds	54,915
	$ 172,077

During the year ended December 31, 2008, the Plan's investments earned interest and dividend income of $13,241.

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain plan investments are shares of common collective funds and interest bearing cash managed by State Street Global Advisors, an affiliate of the Trustee of the Plan. These investments qualify as party-in-interest transactions. The Plan also held loans to plan participants which qualify as party-in-interest transactions.

NOTE 5 - PLAN TERMINATION

The Company anticipates and believes that the Plan will continue without interruption but reserves the right to amend or discontinue the Plan at any time. In the event the Plan is discontinued, the Plan's assets will be distributed to participants in accordance with the Plan's provisions and subject to the provisions of ERISA. In the event of the Plan's termination, participants would remain 100% vested in their accounts.

NOTE 6 - TAX STATUS

The Plan is stated on a prototype document sponsored by Automatic Data Processing; therefore, the Plan is not required to file for an individual determination letter from the Internal Revenue Service ("IRS"). The prototype document has received a favorable opinion letter from the IRS dated March 31, 2008. The plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.
