INDEPENDENT AUDITORS' REPORT

Plan Administrator, Committee, and Participants
CES 401(k) Plan
Stafford, Texas

We were engaged to audit the financial statements of CES 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and for the year ended December 31, 2009 and the supplemental schedule as of December 31, 2009 as listed in the accompanying table of contents. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of CES 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 1, 2006 and most recently amended December 31, 2009. The Plan is available to employees who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Customer Engineering Services (the "Company") administers the Plan. Standard Insurance Company ("Standard") serves as trustee, custodian, manages Plan investments, and maintains the Plan's records. Standard offers Plan participants a variety of investment options through various pooled separate accounts and an insurance company general account. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions from 1% to 100% of their annual compensation, not to exceed annual limitations established by the Internal Revenue Service, which is adjusted annually by the Secretary of Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company may contribute matching contributions as determined each Plan year by the Company. Additionally, the Company may, at its discretion, make a profit sharing contribution to the Plan. The Company made no matching or profit sharing contributions for the year ended December 31, 2009.

Participants' Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, if any, Plan earnings or losses, forfeitures, and charges of administrative expenses. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, rollover contributions, and allocated earnings or losses thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65), retirement due to disability, or if the Plan is terminated.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may not initiate more than two loans in one calendar year and may have only one loan outstanding at any time. The loans are secured by the balances in the participants' accounts. The loans shall be repaid over a period not to exceed five years, unless the purpose of the loan is for purchase of a principal residence of the participant, in which the loan repayment period may not exceed ten years. Loans bear interest at rates that range from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator and mature at various dates through January 2019. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a fixed period of time. Terminated participants with account balances of $1,000 or less will automatically receive a distribution in one lump sum. If a participant's vested account balance is greater than $1,000 but not more than $5,000 and an election to distribute benefits is not made within a stated time, the vested balance will be automatically rolled into an individual retirement account. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If, at the time of termination of employment, the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and, after incurring five one-year breaks in service, will be used to offset administrative expenses and employer contributions. The balance of this account at December 31, 2009 and 2008 was $0, and no amounts were used during the year ended December 31, 2009.

Valuation of Investments and Income Recognition

The assets of the Plan are primarily comprised of pooled separate accounts and an insurance company general account which are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for a discussion of fair value measurements.

The net realized and unrealized investments gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits, and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

According to generally accepted accounting principals in the United States ("GAAP"), guaranteed income funds (insurance company general account), held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive guaranteed income funds because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2009 and 2008, the contract value approximates fair value, accordingly, the financial statements present these funds at fair value.

Use of Estimates

The preparation of financial statements in conformity with GAAP, requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risk and Uncertainties

The Plan provides for various investments, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Standard are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Note 2 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 2 - Fair Value Accounting (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value, on a recurring basis, as of December 31, 2009:

Description	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,534,244	$ -	$ 1,534,244
Insurance company general account	-	-	624,235	624,235
Participant loans	-	-	125,068	125,068
Total	$ -	$ 1,534,244	$ 749,303	$ 2,283,547

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value, on a recurring basis, as of December 31, 2008:

Description	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 678,349	$ -	$ 678,349
Insurance company general account	-	-	543,524	543,524
Participant loans	-	-	84,069	84,069
Total	$ -	$ 678,349	$ 627,593	$ 1,305,942

The valuation technique used to measure fair value of the pooled separate accounts is based upon the quoted market prices of the underlying investments comprising the pooled separate accounts.

The valuation technique used to measure fair value of the insurance company general account is based on the fair value of the fund's underlying investments.

The valuation technique used to measure fair value of the participant loans is based upon historical cost and interest rates underlying the participant loans, which approximates fair value.

There were no changes to the valuation techniques used during the year ended December 31, 2009.

Note 2 - Fair Value Accounting (continued)

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2009:

	Participant Loans	Insurance Company General Account	Total
Beginning balance	$ 84,069	$ 543,524	$ 627,593
Interest income	5,897	13,396	19,293
Purchases, issuances and settlements, net	35,102	77,150	112,252
Transfers in and/or out of Level 3	-	(9,835)	(9,835)
Ending balance	$ 125,068	$ 624,235	$ 749,303

Note 3 - Investments

Standard has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2009 and 2008 and the income earned on the investments for the year ended December 31, 2009, as reflected in the accompanying financial statements and the supplemental schedule, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the custodian except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

Note 4 - Income Taxes

The Plan did not obtain a Plan specific determination letter as it operates under the custodian's advisory letter dated July 5, 2005, which was issued on the volume submitter specimen plan document. The Plan has been amended since the date of the advisory letter; however, the Plan administrator believes that the Plan continues to be designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or beneficiary.

Note 7 - Related Party Transactions

Plan investments include pooled separate accounts and an insurance company general account managed by Standard. Standard is the custodian, as defined by the Plan document, and therefore, these transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules.

Note 8 - Subsequent Events

In May 2010, the Plan contracted with J.P. Morgan Chase to serve as trustee and with ADP to serve as custodian, manage Plan assets, and maintain Plan records. At the transfer date, the Plan transferred investment assets of approximately $2,500,000 from Standard to J.P. Morgan Chase in May 2010.

In February 2010, the Plan increased the fidelity bond to $250,000 to regain compliance with bonding requirements.

The Company has evaluated subsequent events through the report date October 12, 2010, the date the financial statements were available to be issued.
