INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Koos Manufacturing, Inc.401(k) Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Koos Manufacturing, Inc. 401(k) Plan (the "Plan") as of December 31, 2009, and the related statement of changes in net assets available for benefits for the period from March 27, 2009 (Date of Inception) to December 31, 2009, and the supplemental schedule, Schedule H, line 4i—Schedule of Assets (Held at End of Year), as of December 31, 2009. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Nationwide Trust Company, FSB, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that Nationwide Trust Company, FSB held the Plan's investment assets and executed investment transactions as of December 31, 2009 and the year then ended. The plan administrator has obtained certifications from the trustee as of December 31, 2009 and the period from March 27, 2009 (Date of Inception) to December 31, 2009, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and schedule taken as a whole. The form and content of the information included in the 2009 financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Koos Manufacturing, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who are age twenty one or older and has completed twelve months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to the maximum amount allowed by law, code sections 402(g) and 415. Participants may make a separate election to defer up to 100% of any bonus and contribute amounts representing distributions from other qualified plans. However, the total contributions in any taxable year may not exceed the dollar limit of $16,500 for 2009, which is set by law. The Company also may make matching contributions equal to 50% of participants' elective deferrals. However, the Company will not match elective deferrals that exceed 2% of participants' eligible earnings.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Any employer contributions are subject to following graded vesting schedule:

Years of service	% Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Loans - Participants may borrow from their accounts a minimum of $1,000 and may only have one loan outstanding at any time. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributable event.

Subsequent Events - In accordance with FASB ASC Topic No. 855, Subsequent Events, the Company evaluated subsequent events for recognition or disclosure through October 13, 2010, the date the accompanying financial statements were available to be issued.

Note 1 - Description of Plan (Continued)

Top-Heavy Plan - When more than 60% of the plan assets are in the accounts of key employees, in any plan year, the plan is considered to be a top-heavy plan. In such case, non-key employees will be entitled to certain "top-heavy minimum benefits" and other special rules will apply. Among these top-heavy rules, the Company may be required to make contribution on behalf of the non-key employees in order to provide with at least "top-heavy minimum benefits."

Distribution of Benefits - On termination of service due to death or disability, all amounts credited to participant's account become fully vested and distribution will be made pursuant to the election of the participant or beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum payment in cash. If the plan is terminated for any reason including retirement and the value of participant's vested benefit (minus any rollover contribution account but including any outstanding loan balance) is $5,000 or less, the Company can cash the entire vested account balance out of the Plan. If a participant is determined to be cashout-eligible, the account balance is greater than $1,000, and the participant has not elected to (a) receive the vested benefit in the form of a single lump-sum payment, or (b) have the payment paid as a "direct rollover" to his or her individual retirement account (IRA) or to another employer's tax qualified plan, it will automatically be rolled over to an IRA established by an IRA provider selected by the Company. However, a distribution will be made within reasonable time after the participant's termination of employment if a vested benefit in the Plan does not exceed $1,000, regardless of participant's election. If the account balance is greater than $5,000, a participant is not required to take a payout from the Plan until the age 70 1/2.

Participants may withdraw all or part of their vested account balance once they reach age 59 ½. They may also withdraw any or part of their rollover contributions account in the Plan as well as any after-tax contributions held in their account in the Plan at any time and at any age.

In the event of financial hardship, participants can withdraw their own elective deferrals (excluding earnings on the elective deferrals) as well as any vested matching contributions if they satisfy certain conditions under the Plan. The minimum permitted hardship withdrawal is $1,000.

Forfeited Accounts - Forfeitures will be used first to restore previously forfeited account balances of returning participants who are so entitled. Remaining forfeitures will be used to reduce any Employer contributions and may also be used to pay plan expenses. For the period from ___ (Date of Inception) to December 31, 2009, forfeited non-vested matching contributions used was $847. There was $847 in forfeited account as of December 31, 2009.

Note 2 - Summary of Significant Accounting Policies

The accounting and reporting policies of the Plan conform to accounting principles generally accepted in the United States of America, (US GAAP).

Note 2 - Summary of Significant Accounting Policies (Continued)

Basis of Accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Accounting Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation - All investments are carried at fair value or an approximation of fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Non-Distributed Benefits - The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Plan Administrative Expenses - Cost of administration of the plan is absorbed by the employer.

Termination of the Plan - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Recent Pronouncement - In April 2009, the FASB issued ASC 820-10-65-4 (formerly FSP SFAS No.157-4), Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly, to provide additional guidance for estimating fair value in accordance with ASC 820, Fair Value Measurements, when the volume and level of activity for the asset or liability have significantly decreased. Adoption of ASC 820-10-65-4 did not have a material impact on the financial statements.

In August 2009, the FASB issued Accounting Standards Update ("ASU") 2009-05 Fair Value Measurements and Disclosures (Topic 820): Measuring Liabilities at Fair Value ("ASU 2009-05") which provides guidance on measuring the fair value of liabilities under FASB ASC 820, Fair Value Measurements and Disclosures ("ASC 820"). ASU 2009-05 clarifies that the unadjusted quoted price for an identical liability, when traded as an asset in an active market is a Level 1 measurement for the liability and provides guidance on the valuation techniques to estimate fair value of a liability in the absence of a Level 1 measurement. ASU 2009-05 is effective for the first interim or annual reporting period beginning after its issuance. The adoption of ASU 2009-05 did not have a material effect on the financial statements.

Note 3 - Information Certified by the Custodians

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by State Street Company and Trust Company regarding the current value of assets held at December 31, 2009, and transactions entered into during the respective year, was used in the preparation of the accompanying financial statements and supplemental schedule. The following table includes the fair values of investment funds that represent the Plan's net assets at December 31, 2009:

Note 4 - Fair Value Measurements

The Plan adopted ASC 820-10 (formally, FASB Statement No. 157, Fair Value Measurements). ASC 820-10 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Under SFAS No. 157, fair value measurements are not adjusted for transaction costs. ASC 820-10 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets.

Level 2 - Significant other observable inputs other than Level 1 prices such as quoted prices in markets that are not active, quoted prices for similar assets, or other inputs that are observable, either directly or indirectly, for substantially the full term of the asset.

Level 3 - Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Plan investment assets, measured at fair value on a recurring basis as of December 31, 2009 are as follows:

	Balance as of December 31, 2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments:				
Registered investment companies	$ 254,853	$ -	$ 254,853	$ -

The Plan used the following methods and assumptions in estimating its fair value disclosure for financial instruments:

Level 2 Fair Value Measurements - The investments choices from registered investment companies are offered through the various investment products and the values are received from investment providers.

Note 5 - Tax Status

The Plan document is a prototype document that the Company adopted with specific provisions customized to meet the needs of the sponsor and the participants. The prototype document has received a favorable determination letter dated March 31, 2008 from the Internal Revenue Service that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7 - Related Party Transactions

Certain Plan investments in registered investment companies are managed by State Street Company and Trust Company, the trustee of the Plan. Purchases and sales of theses funds are performed in the open market at fair value and qualify as party-in-interest. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 7 - Reconciliation of Form 5500 to Financial Statements

Summarized below is a reconciliation of contribution receivable and Investments as of December 31, 2009. There were no change in net assets available for benefits and changes in net assets during 2009.
