We were engaged to audit the accompanying statements of net assets for benefits of the Midtronics, Inc. 401(k) Profit Sharing Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by Charles Schwab Trust Company and Metropolitan Life Insurance Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodians hold the Plan's investment assets and execute investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodians as of and for the year ended December 31, 2009, and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule, taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodians have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Midtronics, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service and are age 21 or older. Employees who meet the eligibility requirements become participants in the Plan as of January 1, April 1, July 1, or October 1 coinciding with or following the next date on which the eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute the maximum amount allowed by law of annual compensation to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company will make a matching contribution equal to 50 percent of the first 6 percent of an employee's base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with participant contributions, the Company's matching contribution, and an allocation of the Company's discretionary contribution, if any, investment earnings, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all participant and rollover accounts plus actual earnings thereon. Participants vest in their shares of the Company's contributions based on years of continuous service. A participant is 100 percent vested after six years of credited service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Participant notes receivable: Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from 1 - 5 years or up to 15 years if used to purchase a principal residence and each participant may not have more than one loan outstanding at any time. The loans are collateralized by 50 percent of the participant's account balance and bear interest at a rate negotiated by the Advisory Committee and the participant. Interest rates range from 4.25 percent to 9.25 percent at December 31, 2009. Principal and interest payments are paid not less frequently than quarterly over the term of the loan.

Forfeited accounts: At December 31, 2009 and 2008, forfeited non vested accounts totaled $50,808 and $87,889, respectively. These accounts will be used to reduce future Company contributions. Company contributions were reduced by $54,692 for the Plan year ended December 31, 2009.

Payment of benefits: On termination of service for any reason, a participant will receive a lump-sum amount equal to the value of his or her account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions among a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment election daily.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the fully benefit responsive adjustment of the investment in the contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued.

New accounting pronouncements: In September 2009, the Financial Accounting Standards Board (FASB) issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. See Note 4 for the impact of adoption.

The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2006.

Note 2. Significant Accounting Policies (Continued)

Pending accounting pronouncement: In January 2010, FASB issued an amendment, *Fair Value Measurements and Disclosures– Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment was effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. We are currently evaluating the impact of the guidance on our disclosures.

In September 2010, FASB issued an amendment, Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010, with early adoption permitted. This amendment will require retrospective application to all periods presented. This amendment has not yet been adopted. Plan management is currently evaluating the impact of this amendment

Note 3. Information Certified and Provided by Charles Schwab Trust Company and Metropolitan Life Insurance Company

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

The following information was certified by Charles Schwab Trust Company:

	2009	2008
Shares of registered investment companies	$ 9,279,766	$ 6,329,676
Unit investment trusts	398,065	368,937
Government obligations	213,238	-
Corporate obligations	205,447	-
Participant notes receivable	306,705	240,084
Net appreciation in fair value of investments	2,629,759	
Interest on participant notes receivable	16,577	

Note 3. Information Certified by Charles Schwab Trust Company and Metropolitan Life Insurance Company (Continued)

The following information was certified by Metropolitan Life Insurance Company:

	2009	2008
Guaranteed investment contract, at fair value	$ 1,053,985	$ 590,326
Guaranteed investment contract, at contract value	1,085,917	679,581

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 6.

Unit investment trusts: Valued at the closing price reported on the active market on which the individual securities are traded which is reported to the custodian by the third-party valuation firm.

Government obligations: Valued at the closing price reported on the active market on which the individual securities are traded which is reported to the custodian by the third-party valuation firm.

Corporate obligations: Valued at the closing price reported on the active market on which the individual securities are traded which is reported to the custodian by the third-party valuation firm.

Participant notes receivable: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009

Balance, end of year	$ 1,053,985	$ 306,705	$ 1,360,690

Note 5. Investments

The following table presents the fair value of investments as of December 31, 2009 and 2008, representing five percent or more of the Plan's net assets available for benefits.

	2009	2008
Shares of registered investment companies:		
Charles Schwab S&P 500 Index Fund	$ 1,342,250	$ 934,241
Janus Overseas Fund	2,221,113	1,102,920
Sound Shore Fund	1,066,295	742,482

JP Morgan Small Cap Equity	1,511,632	769,686
Guaranteed investment contract:		
MetLife Stable Value Contract	1,053,985	590,326

The contract value of the MetLife Stable Value Contract is $1,085,917 at December 31, 2009, and $679,581 at December 31, 2008.

During 2009, the Plan's investments including investments bought, sold and held during each year, appreciated in value by $2,629,759 as follows:

	2009
Shares of registered investment company	$ 2,478,555
Unit investment trusts	35,863
Government obligations	38,748
Corporate obligations	76,593
Net appreciation in fair value of investments	$ 2,629,759

Note 6. Investment Contract with Insurance Company

The Plan entered into a benefit-responsive investment contract with Metropolitan Life Insurance Company (MetLife). MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MetLife, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed and adjusted quarterly by MetLife.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) transfers to other Plan investment options, (2) payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan, (3) amendments to the Plan documents, including complete or partial plan termination or merger with another plan, (4) bankruptcy of the Plan sponsor or the other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (5) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield based on actual earnings was 15.01% and (10.29)% and the average yield credited to participants was 3.80% and 5.11% for the years ended December 31, 2009 and 2008, respectively.

Note 7. Related Party Transactions

The Plan's investments are managed by Charles Schwab Trust Company and MetLife, custodians of the Plan. Therefore, these transactions qualify as party-in-interest.

Certain other administrative expenses are paid by the Company. Certain employees of the Company provide administrative and trustee services to the Plan. These employees are not compensated by the Plan for their services.

Note 8. Plan Termination

Although it has not expressed any intent to do, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon Plan termination, participants become 100 percent vested in the employer matching portion of their accounts.

Note 9. Tax Status

Effective January 1, 2009, the Company adopted a nonstandardized form of a prototype plan sponsored by Alliance Benefit Group of Illinois. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since its adoption. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2009 and 2008:

	2009	2008
Net assets available for benefits per the financial statements	$ 12,379,546	$ 8,324,088
Guaranteed investment contract	-	276
Refunds payable	16,935	9,600
Benefits claim payable	-	(4,900)
Adjustment from contract value to fair value for interest in guaranteed investment contract relating to fully benefit-responsive investment contracts	(31,932)	(89,255)
Net assets available for benefits per Form 5500	$ 12,364,549	$ 8,239,809

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2009, per the financial statements to Form 5500:

	2009
Change in net assets available for benefits per the financial statements	$ 4,055,458
Net appreciation in fair value of investments	58,275
Participant contributions	15,707
Benefits paid	(4,700)
Change in net assets available for benefits per Form 5500	$ 4,124,740

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
