To the Qualified Retirement Plans Committee of
First Niagara Financial Group, Inc.:

We were engaged to audit the accompanying statements of net assets available for benefits of the First Niagara Financial Group Employee Stock Ownership Plan (the Plan) as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Charles Schwab Trust Company and Principal Trust Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that Charles Schwab Trust Company held the Plan's investment assets and executed investment transactions from August 17, 2009 to December 31, 2009, and that Principal Trust Company held the Plan's investment assets and executed investment transactions as of December 31, 2008 and for the period January 1, 2008 to August 16, 2009. The plan administrator has obtained certifications from the custodians as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FIRST NIAGARA FINANCIAL GROUP EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2009 AND 2008

1. DESCRIPTION OF PLAN

The following description of the First Niagara Financial Group Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory, defined contribution plan sponsored by First Niagara Financial Group, Inc. (First Niagara) (the Company). The Plan was established as of January 1, 1998 in connection with the Company's initial public offering of its common stock. The Plan is designed to comply with regulations of the Internal Revenue Code (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan operates as a leveraged employee stock ownership plan. The Plan was initially funded with the proceeds from a \$14,298,299 note payable to the Company in consideration for 2,794,076 shares of First Niagara common stock. In 2003, a \$20,500,000 second note payable to the Company funded the purchase of an additional 2,050,000 shares of First Niagara common stock.

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- (i) The accounts of employees with vested rights in allocated stock (allocated), and
- (ii) Stock not yet allocated to employees (unallocated).

The Plan held 2,861,580 and 3,094,370 shares of unallocated First Niagara common stock at December 31, 2009 and 2008, respectively. The notes payable are collateralized by the unallocated shares of First Niagara common stock.

Eligibility

Each employee of First Niagara is eligible for participation in the Plan as of the later of January 1, 1998 or completion of one year of service, defined as completion of at least 1,000 hours of service and the attainment of age 21.

Employer Contributions

For each plan year that there is a borrowing outstanding from the purchase of common stock of First Niagara, the Company contributes at least the amount necessary to amortize the notes payable to the Company in accordance with their payment terms. Dividend income in 2009 and 2008 was used to make payments on the note payable to the Company. Additional discretionary contributions are allowed under the provisions of the Plan, although no additional contributions were made in 2009 and 2008.

Participant Accounts

The value of each participant's account is determined as of the last day of the plan year based on the fair value of the Plan's assets. The participants' accounts reflect the effect of employer contributions, realized and unrealized appreciation or depreciation on investments, dividends and interest, distributions, withdrawals, expenses, and all other transactions affecting the Plan assets during the plan year.

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts (Continued)

Shares of First Niagara common stock are allocated to participants' accounts based on each participant's compensation for the Plan year using year end stock values. Forfeitures of nonvested shares occurring in any participant's account are credited to the other participants' accounts as of the last day of the plan year based on each participant's compensation. Total forfeitures as of December 31, 2009 and 2008 were 23,950 and 9,047 shares, respectively, which were valued at approximately \$333,145 and \$146,290, respectively. Plan income is allocated to participants' accounts as of the last day of the plan year based on the income attributable to the assets held in each participant's account.

Each participant entitled to exercise voting rights attributable to the shares allocated to his or her account is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote any unallocated shares and any allocated shares for which instructions have not been given by a participant in the same proportion as to those votes received.

Vesting

Employees vest in the employer contributions at a rate of 20% per year, beginning in the second year of service. Participants become fully vested in their account upon completion of six years of service, or becoming permanently disabled, death, early retirement, attaining age 65, termination of the Plan or a change in control of First Niagara.

Payment of Benefits

The normal retirement age is 65. Early retirement at age 60 with six years of service or at age 55 with 20 years of service may be elected. The value of the vested interest in a participant's account is paid in a lump sum payment in cash or shares of First Niagara common stock upon death, early or normal retirement, termination of employment or permanent disability if the value of the participant's account is less than \$5,000. If the value of the account is greater than \$5,000, the participant also has the option of electing installment payments over five years.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Compensation Committee of the Company will direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Administration of Plan Assets

The Plan's assets, which consist principally of First Niagara common shares, are held by the Trustee of the Plan. Effective August 17, 2009, the assets of the Plan were transferred to, and are maintained by, Charles Schwab Trust Company, (Schwab) as Custodian, Reliance Trust Company (Reliance) as Trustee of the Plan and Milliman, Inc. as recordkeeper for the Plan. Prior to August 17, 2009, the Plan's Trustee was Delaware Charter Guarantee and Trust Company dba Principal Trust Company, and the Plan's custodian was Principal Trust Company (both members of Principal Financial Group).

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

1. DESCRIPTION OF PLAN (Continued)

Administration of Plan Assets (Continued)

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50 percent. Participants who elect to diversify receive a cash distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's assets include investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to the value of such investments, changes in the values of investments will occur and such changes could materially affect the amounts reported in the accompanying financial statements.

Investment Valuation and Income Recognition

First Niagara common stock is carried at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date. Purchases and sales of stock are recorded on a trade-date basis.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

The Internal Revenue Service has determined and informed the Company by a letter dated April 4, 2002, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. Accordingly, there is no provision for income taxes in these financial statements. The Plan has been amended since the receipt of the determination letter. However, the plan administrator and legal counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the Code.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

In June 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109, Accounting for Income Taxes (FIN 48 now known as Accounting Standards Codification (ASC) Section 740). This interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. For employee benefit plans, their tax-qualified status itself is deemed to be an uncertainty, since events could potentially occur to jeopardize their tax-qualified status. ASC Section 740 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures and transition. The Plan adopted the provisions of ASC Section 740 on January 1, 2009 and there was no impact on the Plan's financial statements. At the date of adoption and as of December 31, 2009 the Plan does not have a liability for unrecognized tax benefits. The Plan files the Annual Return/Report of Employee Benefit Plan (Form 5500) in the U.S. federal jurisdiction. The Plan is no longer subject to U.S. federal tax examinations for years before 2006.

Reclassification

In order to facilitate comparison of financial information, certain amounts reported in the prior year have been reclassified to conform with the current year presentation.

3. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Current accounting guidance establishes a fair value hierarchy based on the transparency of inputs participants use to price an asset or liability. The fair value hierarchy prioritizes these inputs into the following three levels:

Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities that are available at the measurement date.

Level 2 Inputs - Inputs, other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.), or inputs that are derived principally from or corroborated by market data by correlation or other means.

Level 3 Inputs - Unobservable inputs for determining the fair value of the asset or liability and are based on the entity's own assumptions about the assumptions that market participants would use to price the asset or liability.

A financial instrument's categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Our valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While we believe our valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at each measurement date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following table summarizes the assets measured at fair value on a recurring basis at December 31, 2009:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
